AVANT-PROPOS

Le présent « Annuaire du Commerce extérieur » ajoute à la série en 12 volumes des « Tableaux analytiques — NIMEXE » une ventilation par pays des résultats annuels, arrêtés au niveau des chapitres et des sections de la Nomenclature des marchandises pour les statistiques du commerce extérieur de la Communauté et du commerce entre ses Etats membres (NIMEXE). Cette répartition par groupes de marchandises des importations et des exportations que réalisent la Communauté dans son ensemble et les Etats membres séparément avec certaines zones économiques et avec chacun des pays et territoires mentionnés dans la Nomenclature des pays est parallèle à la présentation qu'en donnent, dans une publication distincte, les « Tableaux Analytiques CST » sous l'intitulé: « Importations par origines, ventilées par produits — Exportations par destinations, ventilées par produits ». Ainsi, après le classement selon les groupes et les divisions de la Classification statistique et tarifaire, l'analyse des échanges commerciaux du point de vue de la NIMEXE est-elle destinée à compléter la connaissance globale des flux internationaux par la spécification des produits qui les composent.

FOREWORD

This "Foreign Trade Directory" complements the 12-volume series of "NIMEXE Analytical Tables" by providing a country-by-country breakdown of the annual results listed in the chapters and sections of the Nomenclature of Goods for the External Trade Statistics of the Community and Statistics of Trade between Member States (NIMEXE). Division by group of goods imported and exported by the Community as a whole and by its individual Member States in trade with certain economic areas and each of the countries and territories listed in the Nomenclature of Countries parallels the way these are presented in the "CST Analytical Tables" published separately under the title "Imports by origin, broken down by commodities — Exports by origin, broken down by commodities". Based on the groups and divisions employed in the Classification for Statistics and Tariffs, the NIMEXE analysis of foreign trade is therefore intended to add improve overall knowledge of international fluctuations by specifying the commodities handled.

VORWORT

Mit dem vorliegenden „Jahrbuch des Außenhandels" wird die zwölfbändige Reihe „Analytische Übersichten — NIMEXE" durch eine Aufgliederung der Jahresergebnisse nach Ländern ergänzt, der die Kapitel und Abschnitte der Harmonisierten Nomenklatur für die Außenhandelsstatistiken der Länder der EG (NIMEXE) zugrunde gelegt worden sind. Diese Aufteilung nach Warengruppen der von der Gemeinschaft insgesamt und von den Mitgliedstaaten getrennt mit bestimmten Wirtschaftsräumen und den in der Nomenklatur aufgeführten Ländern und Gebieten getätigten Ein- und Ausfuhren entspricht der Gliederung in einer anderen Veröffentlichung, nämlich den „Analytischen Übersichten CST". Dort ist diese Aufteilung unter dem Titel „Einfuhr nach Ursprung, gegliedert nach Waren — Ausfuhr nach Bestimmung, gegliedert nach Waren" zu finden. Nach der Aufschlüsselung anhand der Gruppen und Untergruppen der statistischen und tariflichen Klassifizierung wird die Analyse des Handelsverkehrs unter dem Gesichtspunkt der NIMEXE somit dazu beitragen, die Kenntnis der grenzüberschreitenden Warenströme durch die Spezifizierung der einzelnen Produkte zu vervollständigen.

PREMESSA

Il presente « Annuario del Commercio estero » aggiunge ai 12 volumi della serie « Tavole analitiche — NIMEXE » una ripartizione per paesi dei risultati annuali secondo i capitoli e le sezioni della Nomenclatura delle merci per le statistiche del commercio estero della Comunità e del commercio tra gli Stati membri della stessa (NIMEXE). Questa ripartizione per gruppi di merci delle importazioni ed esportazioni, effettuate dalla Comunità nel suo insieme e dai singoli Stati membri con talune zone economiche e con i singoli paesi e territori elencati nella nomenclatura dei paesi, è parallela alla presentazione contenuta in un'altra pubblicazione, e precisamente nelle « Tavole Analitiche CST » sotto il titolo : « Importazioni per origini, ripartite per prodotti — Esportazioni per destinazioni, ripartite per prodotti ». L'analisi degli scambi commerciali, considerati secondo la NIMEXE, si affianca cosí alla classificazione secondo i gruppi e le divisioni della CST, allo scopo di completare la conoscenza globale dei flussi internazionali, specificando i prodotti che li compongono.

ABBREVIAZIONI

CE	Comunità europea

VOORWOORD

Met de onderhavige „Gids van de Buitenlandse Handel" wordt aan de twaalfdelige reeks „Analytische tabellen — NIMEXE" een onderverdeling van de jaarlijkse resultaten per land toegevoegd die vastgesteld is aan de hand van de afdelingen en hoofdstukken van de „Goederennomenclatuur voor de statistieken van de buitenlandse handel van de Gemeenschap en van de handel tussen de Lid-Staten (NIMEXE)". Deze indeling per goederengroep van de in- en uitvoer van de gehele Gemeenschap en van de Lid-Staten afzonderlijk met bepaalde economische blokken en met de afzonderlijke landen en gebieden die in de Nomenclatuur der landen zijn opgenomen, is dezelfde als die welke in een afzonderlijke publikatie gegeven wordt in de „Analytische tabellen CST" onder het hoofd : „Invoer naar land van oorsprong, onderverdeeld naar produkten — Uitvoer naar land van bestemming, onderverdeeld naar produkten". Na de indeling volgens groepen en afdelingen van de statistische en tarifaire classificatie, is de analyse van de goederenhandel vanuit het oogpunt van de NIMEXE door specificatie van de betrokken produkten bestemd ter completering van de globale kennis van de internationale goederenstromen.

FORORD

Nærværende » Årbog for Udenrigshandel « udvider 12-binds serien af de » Analytiske tabeller — NIMEXE « med en fordeling efter land af de årlige resultater, i overensstemmelse med kapitlerne og afsnittene i varenomenklaturet til brug for Fællesskabets statistikker over udenrigshandel og over handelen mellem dets medlemsstater (NIMEXE). Fællesskabet i sin helhed samt hver enkelt medlemsstat foretager denne opdeling i grupper af import- og eksportartikler både for visse økonomiske zoner og for hvert af de lande og territorier, som er omtalt i Nomenklature over lande. Denne fordeling svarer til den fremstilling, som » Analytiske tabeller CST « giver i en særskilt publikation med titlen : » Importvarer efter produktionssted, fordelt efter produkter — Eksportvarer efter bestemmelsessted, fordelt efter produkter «. Efter Den statistiske og toldmæssige Klassifikationsinddeling i grupper og undergrupper er analysen af handelsforbindelser, set fra NIMEXE's synspunkt, bestemt til at fuldstændiggøre det samlede kendskab til den internationale varestrøm ved hjælp af specifikation af de produkter, som denne består af.

PROLOGO

Con este « Anuario de Comercio Exterior », se incorpora a la serie en 12 volúmenes de los « Cuadros Analíticos — NIMEXE » una clasificación por países de los resultados anuales, fijados al nivel de capítulos y secciones, de la Nomenclatura de merancías para las estadísticas de comercio exterior de la Comunidad y del intercambio comercial entre sus Estados Miembros (NIMEXE). Este reparto por grupos de mercancías, de las importaciones y las exportaciones que realiza la Comunidad, en su conjunto, y los Estados Miembros separadamente, con ciertas zonas económicas y con cada país y territorio mencionados en la Nomenclatura de los países es paralelo a la presentación que de ello dan, en una publicación diferente, los « Cuadros Analíticos CST » bajo el epígrafe de : « Importaciones por orígenes, desglosadas por productos — Exportaciones por destinos, desglosadas por productos ». Así pues, después de la clasificación según los grupos y las divisiones de la Clasificación estadística y arancelaria, el análisis de los intercambios comerciales desde el punto de vista de la NIMEXE está destinado a completar el conocimiento global de las corrientes comerciales internacionales a través de la especificación de los productos que las componen.
