EXPLANATORY MEMORANDUM

When Greece acceded to the Community, Council Regulation (EEC) No 39/81 authorised Greece to apply an import control system as a transitional measure on oilseeds and vegetable oils up to 31 December 1983. This control system covered a quantity of 25 000 tons oil equivalent for 1981.

The quantity limits for 1982 and 1983 are to be fixed by the Council at levels which will make a smooth transition to the system applicable from 1st January 1984 possible.

This Regulation proposes fixing the quantity for 1982 at 35 000 tons.
