

# COMMISSION OF THE EUROPEAN COMMUNITIES

COM(87) 261 final

Brussels, 12 June 1987

## COMMISSION REPORT

on cooperation with European non-governmental organizations (NGOs)  
active in the development field, with special reference to  
the co-financing of projects (1986 budget)

---

EXPLANATORY MEMORANDUM

1. At a Council meeting on 28 November 1977, development ministers approved a procedure to be followed for the use of appropriations to cofinance projects with non-governmental organizations (NGOs).\*

That procedure includes a stipulation that the Commission will present an annual report to the Council on the use of appropriations allocated during the preceding year.

The Commission accordingly presents this report on the use of the appropriations entered under Article 941 of the 1986 Community budget.

2. Although Article 941 relates solely to project cofinancing in developing countries and the raising of public awareness in the Community, other important areas of cooperation with NGOs are also covered in this report, such as food aid, emergency aid and inter-NGO coordination.

\*See Council Document R/207/78/(GCD) of 26 January 1978.

## 1. INTRODUCTION AND SUMMARY

I. Cooperation between the European Community and the non-governmental organizations (NGOs) began in 1976 with the aim of adding a new dimension to the Community's development policy. The idea was to enable the Community to take an active part in the expression of solidarity shown by Europe at a non-official level towards the poorest sections of the population in the Third World. That objective was reflected initially in the establishment of a Community budget heading (Article 941) to finance projects in the developing countries with European NGOs. The appropriation, fixed on an experimental basis at 2.5 m ECU in 1976, increased progressively in subsequent years to cope with the increase in requests for cofinancing submitted by the NGOs. Accordingly, it reached 14 m ECU in 1981, doubled to 28 m ECU in 1982, and was then further increased to 31.2 m ECU in 1983 and 35.0 m ECU in 1984. In 1986 an initial sum of 40 m ECU was entered in Article 941; this was increased in the course of the year to 45 m ECU.

Article 941 covers the cofinancing with NGOs of development projects in developing countries, and of operations to raise public awareness in Europe.

II. A review of Community cofinancing from the start of operations in developing countries shows that from 1976 to end 1986 the Community contribution totalled 214,4 m ECU, allowing 2.206 projects to be cofinanced in developing countries.

These projects were undertaken with 313 NGOs in 114 developing countries. A list of recipient countries with the respective Community contributions is given in Table I (annex).

The geographical breakdown shows that over the reference period 45,5% of the funds were allocated to African countries south of the Sahara,<sup>1</sup> 28,5% to Latin America,<sup>2</sup> 20 % to Asia,<sup>3</sup> 5,5 % to the Mediterranean area and 0,5 % to the Pacific. ACP countries<sup>3</sup> were allocated 47 % and non-ACP countries 53 % of the total Community contribution.

Finally, 52 % of the total available funds were allocated to developing countries with a per capita GNP of less than US \$ 500.

The total joint investment between NGOs and the Commission from 1976 to 1986 was around 526 m ECU, giving a multiplier effect of 2,5 times the Community contribution; in other words, the Community contribution accounts on average for 41 % of joint NGO/Commission investment.

<sup>1</sup>Of which 1 % went to Indian Ocean countries.

<sup>2</sup>Of which 4 % went to Caribbean countries.

<sup>3</sup>ACP: African, Caribbean and Pacific States signatory to the Lomé Convention.

In addition, between 1978 and 1986 inclusive the Commission cofinanced 358 projects with 169 NGOs at a total cost of 15.5 m ECU to raise European public awareness of development issues.

Between 1976 and 1986, 2 564 projects in all were cofinanced under Budget Article 941. The 2 500 mark was passed in 1986, the eleventh year of activity. It is worth noting that 37% of the projects were cofinanced during the last two years (1985-86), evidence of the increasing interest which the Community is taking in this form of development cooperation.

Table II (annex) gives a breakdown by Member State of the total Community grant from 1976 to 1986 inclusive.

III. The cofinancing of development projects in developing countries and of projects to raise public awareness in Europe are, however, just two aspects of cooperation between NGOs and the Community. Other equally important aspects are cooperation in the distribution of food aid, emergency relief operations, assistance to refugees and the role of catalyst that the Commission continues to play in the context of inter-NGO cooperation at European level through a constant dialogue with NGOs, both individually and collectively.

In 1986, the total Community contribution committed for NGOs was of the order of 136.0 m ECU (45.0 m ECU for cofinancing of development projects and of operations to raise public awareness, 72.0 m ECU for food aid, 15.3 m ECU for emergency aid, 1.7 m ECU for assistance to refugees and 2.0 m ECU for NGOs operating in Chile). This report sets out to give an account of the Commission's activities in 1986, dealing in turn with the various aspects of cooperation with NGOs while not forgetting contacts with other European institutions and the prospects and trends taking shape for the future.

## 2. ALLOCATION OF COMMUNITY AID IN 1986

### 2.1 Cofinancing of NGO projects in developing countries (Budget Article 941)

#### 2.1.1 Commitments and payments

Commitment appropriations available under Article 941 of the 1986 Budget amounted initially to 41.0 m ECU.<sup>1</sup> This sum having been committed in full by autumn 1986, the Commission sought and obtained the transfer of a further 5 m ECU within Chapter 9, to be credited to Article 941.

<sup>1</sup> Including 1,0 m ECU left over from 1985.

Of these additional 5 m ECU, 4 m ECU were committed, bringing total commitments for 1986 to 45.0 m ECU, equal to a 98% utilization rate of the funds available (projects in developing countries, public awareness operations and the subsidy for the Liaison Committee).

Thus the NGOs have again shown that they can easily cope with an annual budget of the order of 50 m ECU.

In 1986 614 applications to cofinance developing-country projects to a value of 83,6 m ECU were submitted to the Commission. It was possible to cofinance 293 of these with a total Community contribution of 40.1 m ECU. Some 73 other projects, amounting to 8.7 m ECU, were not accepted or were withdrawn by the NGOs. The others, i.e. 248 applications totalling 34.8 m ECU, had to be carried over to 1987.

Table III of the annex gives the breakdown by Member State of the 1986 allocation.

The total payments of 34.6 m ECU effected in 1986 (compared with 30 m ECU in 1985), comprise 15.1 m ECU of commitments from 1986 and 19.5 m ECU of commitments from the preceding years.

#### 2.1.2. Type and scale of projects, block grants

Table IV in the annex gives a complete list of the 293 projects cofinanced in 1986 in developing countries.

As in the past, the project content is extremely varied and continues to be broken down into three main traditional sectors, namely rural development, training and health. Most of the projects, however, fall within more than one sector, reflecting the integrated approach which is characteristic of NGO operations.

As regards the size of the projects cofinanced, the Commission's average contribution was 137 000 ECU in 1986, as against 123 000 ECU in 1985. Although the Community contribution can be as much as 360 000 ECU over three years, it was above 250 000 ECU in only 45 cases, whereas in 51 cases it was less than 50 000 ECU (excluding block grants). This confirms once more the NGO's penchant for small-scale operations, which is in fact one of the main reasons for their success.

The 293 development projects cofinanced in 1986 included 50 block grants amounting to 5.7 m ECU. It is worth noting the trend in block grants over the last few years:

Year	Amount of block grants (m ECU)	% of total budget	Number of block grants	Number of mini-operations	Average amount of mini-operations (ECU)
1982	1.2	4	25	161	7 453
1983	2.3	7	34	296	7 770
1984	3.1	9	39	383	8 202
1985	3.7	11	43	450	8 146
1986	5.7	13	50	671	8 507

The figures given above point to the progressive increase in block grants both in absolute terms and as a percentage of the total budget. This is in line with the wishes expressed and repeatedly confirmed by the NGOs in recent years.

The figures also reveal the veritable burgeoning of mini-operations, to which the Commission is increasingly able to contribute, thanks to the "capillary" approach which, as has already been pointed out, is a feature of the non-governmental organizations' activity.

#### 2.1.3. Population concerned and recipient countries

The 293 development projects cofinanced in 1986 were carried out in 89 developing countries. The geographical breakdown shows that of the allocated funds 41.5% went to African countries south of the Sahara<sup>1</sup>, 33.5% to Latin America<sup>2</sup>, 20.0% to Asia, 4.5 % to the Mediterranean area, and 1% to the Pacific area.

Of the total Community grant, 17 m ECU (42%) went to ACP countries and 23 m ECU (58%) to non-ACP developing countries.

In 1986, 47% of the total appropriations available were allocated to countries with a per capita GNP of less than US \$ 500. However, it must be stressed once more that cofinanced projects are aimed by definition at the poorest sections of the population in developing countries, the country's per capita GNP being of only fairly relative significance in practice.

<sup>1</sup>Including 0,7% for Indian Ocean countries.

<sup>2</sup>Including 4,2% for Caribbean countries.

## 2.2 Cofinancing of operations undertaken by NGOs to raise European public awareness of development issues (Budget Article 941)

In 1986, 83 operations of this type were cofinanced with 70 NGOs, 8 of them from the two new Member States, to a total value of 4.5 m ECU (9.8% of the funds available under Article 941). Table V (annex) gives a complete list of the 1986 operations.

Analysis of the projects cofinanced again demonstrates the NGOs' commitment to, and success in, staying in touch with the realities of the developing world and tackling the complex task of presenting current issues effectively to the European public. In 1985, with widespread famine in Africa, numerous projects dealt with topics closely connected to the food crisis. In 1986, by contrast, there were a large number of operations dealing with the relationship between agriculture in the developed world (particularly the common agricultural policy) and the developing countries' food problems (14 projects), and also with southern Africa and apartheid (8 projects).

Among the 83 cofinanced operations (see table in Annex VI for details), the topics most frequently dealt with were: general development issues (37 projects), food and agricultural problems (14), southern Africa and apartheid (8), industrial restructuring and international trade (4) and Latin America (4). They were aimed at a range of target groups, including the general public (39 projects), schools (17), the farming world (10), industry (3) and the young (7).

Overall the nature of operations cofinanced in 1986 confirms the results of the preceding two years, 1984 and 1985, particularly as regards observance of the criteria set out in the general conditions for cofinancing, which came into force in 1984. One criterion worth noting is that operations submitted for cofinancing should have a Community dimension. Further progress needs to be made in this direction, but increasingly, NGOs and the projects they put forward reflect a growing European awareness in terms both of the treatment of issues and of cooperation between NGOs from different Member States.

## 2.3 Community food aid channelled through NGOs (Budget Chapter 92) and contributions to NGOs to help finance food purchases (Budget Article 951)

1986 was a very special year in that many new features were introduced and the food aid allocated to NGOs reached record levels.

The first innovation involved improved management, administration and accounting for food aid. The management involved the active participation of the Commission's delegates and desk officers for the beneficiary countries concerned, and this resulted in a higher standard of project presentation

and ensured that the right type of food product reached the beneficiary target groups. Further, the involvement of the Commission's delegates and the flexibility of Euronaid enabled rapid solutions to be found when difficulties were being encountered in Egypt, the Philippines, Sudan, Togo and Uganda.

A reserve was included in the 1986 NGO Food Aid Programme for the first time and late in the year it had to be replenished. This reserve enabled the Commission to be flexible and to react quickly to applications not included in the official programme, and also reduced the administrative burden.

Euronaid played a vital role in carrying out the decisions taken by the Commission on food aid.

The food allocated for standard food aid operations in 1986 came from two sources:

- the outstanding balance from the 1985 budget

cereals	1 000 tonnes
skimmed milk powder	2 000 tonnes
budgetary value	ECU 2 691 000
10 NGOs were involved in 7 countries	

- 1986 budget

cereals	76 970 tonnes
skimmed milk powder	22 140 "
butteroil	1 350 "
sugar	1 000 "
vegetable oil	485 "
beans	1 700 "
dried fish	425 "
other products	ECU 100 000
budgetary value	ECU 59 429 916

37 NGOs were involved in 62 countries.

Although in 1986 the quantity of food aid allocated for development projects was only about 30%, NGOs are gradually distancing themselves from purely welfare activities. Much of the non-development food aid was provided for relief purposes in Algeria, Angola, Ethiopia, Mozambique and Sudan.

The balance of the 1986 reserve is shown in the annex and is likely to be used in the first quarter of 1987.

Emergency food aid in the form of 32 440 tonnes of cereals and 270 tonnes of skimmed milk powder was provided at a budget cost of ECU 9 884 938. Six NGOs carried out these operations in 3 African and 2 Asian countries.

Food aid expenditure can therefore be summarized as follows:

Ex-1985 Budget	ECU	2 691 000
1986 Budget		59 429 916
Emergency food aid		<u>9 884 938</u>
Total	ECU	72 005 854

As regards Article 951 (contribution to financing the purchase of food products by NGOs), applications were made for 6 beneficiary countries by 6 NGOs. Three million ECU in payment appropriations was made available for the budget year 1986 and the Commission agreed in principle to contribute approximately 2.4 m ECU to the six projects mentioned above.

The tables in Annex VII give a breakdown by NGO and recipient country of Community food aid channelled through NGOs in 1986, and also the six operations cofinanced under Article 951.

2.4 Community emergency aid channelled through NGOs (Budget Article 950, Lomé Convention, Council Decision on association of OCT)

The total value of emergency aid operations implemented through NGOs in 1986 was 15.3 m ECU, representing 39% of the total 39.4 m ECU emergency aid approved by the Commission for disaster relief.

This proportion rises to 64% for countries not belonging to the ACP Group; it confirms the trend in recent years for NGOs to become an important operating channel for the Commission.

Breakdown of 1986 emergency aid by implementing organization ('000 ECU)						
	Govt./ Deleg.	NGO	UNHCR	Other UN agency	Red Cross	Total
EDF Budget	8 071 600	11 354 3 960	5 970 -	3 350 500	4 485 1 100	33 230 6 160
TOTAL	8 671	15 314	5 970	3 850	5 585	39 390
%	22%	39%	15%	10%	14%	100%

The year's activities were once again dominated by the continuing plight of Ethiopia, Sudan and to a lesser extent Somalia and Uganda, which between them accounted for almost 66% of allocations approved (26.1 m ECU). The same four countries absorbed virtually all aid implemented by NGOs (11 m ECU) for operations ranging from a programme of medical care to distribution of food and emergency relief supplies, and organization of transport.

In addition, reinforcing a trend recently encouraged by the Commission (Colombia), a number of NGOs have set up rapid relief mobilization facilities to enable them to take immediate action where required (Yemen, Somalia, Peru, Bolivia), thereby improving the Commission's own capacity for intervention.

#### 2.5 Aid for refugees and displaced persons (Budget Article 936)

Since 1984, on the initiative of the European Parliament, Article 936 of the budget has earmarked appropriations for helping refugees and displaced persons in Asian and Latin American developing countries in the period after the emergency relief stage (covered by Article 950), with the aim in particular of enabling them to become self-sufficient as quickly as possible.

To date a total of 13.5 m ECU has been committed for 18 projects, five of which were financed with the UNHCR, one with one government and 12 with NGOs.

Cooperation under Article 936 is a means of financing medium-term projects covering capital and operating costs in all sectors (agriculture, stock-farming, fisheries, craft industry, hygiene, health care, training and housing), technical assistance necessary for implementation, and the cost of preparing and evaluating projects.

In 1986 5 m ECU was committed for seven projects to help refugees in Thailand, Pakistan, and Latin America; four of these were carried out directly by European NGOs (see list in Annex VIII) at a total cost of 1 745 000 ECU.

#### 2.6 Aid to NGOs for operations in Chile (Budget Article 992)

This article was first entered in the Community budget, on the initiative of the European Parliament, in 1986; 2 m ECU in commitment and payment appropriations were provided. The aim is to provide assistance through NGOs to the people of Chile.

Chilean NGOs submitted about forty dossiers to the Commission for financing from this appropriation, to a total value of 5 m ECU. This necessitated a selection procedure, following which 23 projects were financed with 20 organizations, at a total cost of 1 996 296 ECU (a 99.8% utilization rate).

Only projects designed to provide direct humanitarian, cultural or material assistance, in particular to the poorest sections of Chilean society, were selected. The Commission tried as far as possible to strike a balance between the capital and the provinces, and between the various sectors (farming, craft industry, training, housing etc.).

### 2.7 Support for inter-NGO coordination and miscellaneous activities at European Level (Budget Article 941)

In 1986, 130 NGOs ( 33 of them for the first time) benefited from at least one cofinancing.

The instruments set up in previous years for the democratic representation of European NGOs and dialogue between them (National Assemblies, European General Assembly, Liaison Committee) continued to play their institutional role in the course of 1986.

The Liaison Committee was allocated 415 000 ECU in 1986 to cover both its own activities and the various advisory, organizational and coordination tasks that are carried out throughout the year by its sub-committees (which are responsible respectively for raising public awareness, food aid, emergency operations and volunteers).

1986 saw closer contacts with Spanish and Portuguese NGOs, and a fuller flow of information. Most NGOs in the two new Member States are now aware of Community procedures and the various available forms of cooperation with the Commission. The first cofinancing applications from Spanish and Portuguese NGOs for developing-country projects and European public-awareness operations were successfully processed.

On the institutional front, Portuguese and Spanish NGOs were represented for the first time at the European General Assembly in April 1986. They also elected their representatives on the Liaison Committee.

### 3. INSTITUTIONAL CONTACTS

The European Parliament continued its contacts with the Liaison Committee throughout the year, through its Committee on Development and Cooperation and its Committee on Agriculture, Fisheries and Food. Topics of discussion at these meetings, which were particularly frequent in 1986, included the common agricultural policy, Community food aid, and NGO-EEC cooperation and its prospects.

The draft report by Mr J. Ulburghs MEP on NGO-EEC cooperation was discussed at several meetings of the Committee on Development, attended by the members of the Liaison Committee. Parliament will discuss and vote on the report early in 1987.

The Council Working Party on Development Cooperation took note in September 1986 of the Commission's annual report on the various aspects of cooperation between the Commission and NGOs in 1985.

#### 4. CONCLUSION AND PROSPECTS

With regard to Budget Article 941, 1986 saw the commitment not only of the appropriations initially entered in the budget but also of the additional appropriations subsequently made available. Once again, therefore, the NGOs demonstrated their capacity to absorb without strain around 50 million ECU in the course of a single budget year.

Spanish and Portuguese NGOs became eligible for Community cofinancing in 1986, and were able to cooperate on both an institutional and an operations basis with NGOs from other Member States.

Clearly, as well as consolidating and expanding cofinancing, both the NGOs and the Commission must go on trying to maintain and improve further in 1987 the quality and effectiveness of their joint operations.

Over and above the areas in which the Commission and the NGOs have been cooperating regularly for a number of years, there are new, potentially promising fields of activity. Some of the fields covered by Lomé III are likely candidates for three-way cooperation between the ACP States, the NGOs and the Commission (e.g. microprojects, assisting refugees, etc.), and 1987 should see further sustained discussion of these possibilities involving all the relevant parties.
