

COMMISSION OF THE EUROPEAN COMMUNITIES

COM(91) 42 final

Brussels, 7 March 1991

Proposal for a
COUNCIL DIRECTIVE
amending Annex II to Directive 79/409/EEC
on the conservation of wild birds

(presented by the Commission)

Proposal for a Council Directive (EEC) amending
Council Directive 79/409/EEC on the conservation
of wild birds¹

Explanatory memorandum

1. Article 7 of Council Directive 79/409/EEC of 2 April 1979 on the conservation of wild birds permits the hunting of the species listed in Annex II under national legislation owing to their population level, geographical distribution and reproductive rate throughout the Community. The Member States must ensure that the hunting of these species does not jeopardize conservation efforts in their distribution area.

2. Annex II/1 lists 24 species which may be hunted in the geographical sea and land area in which this Directive applies. Annex II/2 lists 48 species which may be hunted only in the Member States in respect of which they are indicated.

¹ OJ No L 103, 25.4.1979, p. 1.

3. Several Member States have submitted requests to the Commission for Annex II/2 to be amended. These requests have been examined in the light of the most recent data communicated by the Member States. Account was taken in the evaluation of the fact that most of these species have been the subject of numerous derogations pursuant to Article 9 of the Directive on account of the damage caused to crops and/or wild fauna.

It is therefore justified to permit the hunting of these species, which may reduce the need for derogations. In view of the population trends of the species in question, it does not seem likely that hunting will endanger their survival. If normal hunting as defined in Article 7 should prove to be insufficient for control purposes, derogations could be granted for certain periods or hunting methods.

Proposal for a
COUNCIL DIRECTIVE
amending Annex II to Directive 79/409/EEC
on the conservation of wild birds

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,
and in particular Article 130S thereof,

Whereas Annex II to Directive 79/409/EEC of 2 April 1979 on the conservation of wild birds¹, as last amended by the Acts of Accession of the Kingdom of Spain and the Portuguese Republic of the European Communities², should be amended to take account of the latest knowledge on the situation of avifauna;

Whereas several Member States have submitted requests to the Commission to amend Annex II to include certain species which hitherto could not legally be hunted;

Whereas Article 7(4) of the Directive imposes on Member States the obligation to ensure that the practice of hunting complies with the principles of wise use and ecologically balanced control of the species of bird concerned;

Whereas hunting or local control of certain species is permitted owing to their geographical distribution and population level in some countries;

Article 1

Annex II to Directive 79/409/EEC is hereby replaced by the Annex to this Directive.

¹ OJ No L 103, 25.4.1979, p. 1.

² OJ No L 106, 16.4.1986, p. 22.

Article 2

1. Member States shall bring into force the laws, regulations and administrative provisions necessary to comply with this Directive by 16 August 1991 at the latest. They shall immediately inform the Commission thereof.

2. When Member States adopt these provisions, these shall contain a reference to this Directive or shall be accompanied by such reference at the time of their official publication. The procedure for such reference shall be adopted by Member States.

Article 3

This Directive is addressed to the Member States.

Done at Brussels,

For the Council
The President
