Proposal for a

COUNCIL REGULATION (EC)

on the arrangements applicable to agricultural products and goods resulting from the processing of agricultural products originating in the African Caribbean and Pacific States (ACP States)

(presented by the Commission)

### Explanatory memorandum

1. Article 366(1) of the Fourth ACP-EC Convention, signed in Lomé on 15 December 1989, provides that the Convention is concluded for a period of ten years from 1 March 1990. Under Article 366(2), there is provision for possible amendment of the Convention at the mid-term review.
2. The results of negotiations for the mid-term review of the Fourth Lomé Convention were finalised at the last negotiating session on 30 June 1995. The revised Lomé Convention was signed by the Contracting Parties (70 ACP States, the Community and the 15 Member States) on 4 November 1995 in Mauritius. However, the revised Convention will not come into force until it has been ratified by the Contracting Parties. Consequently, in accordance with the Preamble to Annex XL to the Lomé Convention, this proposal for a Council Regulation relates to the application of arrangements for agricultural products and certain goods resulting from the processing of agricultural products originating in the African Caribbean and Pacific States (ACP States).
3. The new arrangements include commercial provisions covering new concessions; they represent a considerable improvement to the development of trade as part of ACP-EC cooperation. This proposal for a Council Regulation repeals Regulation (EEC) No 715/90<sup>1</sup> applying the earlier arrangements, and lays down new arrangements for agricultural products and certain goods resulting from the processing of agricultural products originating in the African Caribbean and Pacific States (ACP States).
4. In connection with Annex XL of the Lomé Convention, the Community planned to introduce a set of provisions granting the ACP States the preferential arrangements provided for in Article 168(2)(a)(ii) for certain agricultural products and processed products. These provisions incorporate the amendments resulting from the mid-term review of the Fourth Lomé Convention, but also amendments required following the adoption, on 1 July 1995, of the new Combined Nomenclature for agricultural products, so as to take account of the results of multilateral trade negotiations under the GATT.
5. This Regulation repeals Council Regulation (EEC) 715/90, and includes the new concessions applicable to ACP imports of agricultural products. These new concessions take the form either of exemption from customs duties for certain products, or of a reduction in the specific rates of customs duties for other products, and/or of an increase in the quotas previously granted to the ACP States. This Regulation also extends the list of products eligible for a reduction in customs duties.

Finally, in accordance with the outcome of the negotiations for the mid-term review of the Lomé Convention, it has been agreed that the amendments to the arrangements should be applicable from 1 January 1996, and consequently that Regulation (EEC) No 715/90 should be repealed from that date.

## PROPOSAL FOR A COUNCIL REGULATION (EC)

on the arrangements applicable to agricultural products and goods resulting from the processing of agricultural products originating in the African Caribbean and Pacific States (ACP States)

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Economic Community, and in particular Articles 43 and 113 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament,

Whereas the Fourth ACP-EC Convention, hereinafter referred to as the 'Convention' was signed at Lomé on 15 December 1989 for a ten-year period from 1 March 1990; whereas, however, provision was made for the possibility of amending the Convention in mid-term,

Whereas in application of that provision, an agreement amending the said Convention was signed in Mauritius on 4 November 1995,

Whereas transitional measures applicable until entry into force of the said agreement should be adopted in order to give effect in advance to some of these amendments to the Convention,

Whereas Article 168(2)(a) of the Convention lays down that products originating in the ACP States and:

- listed in Annex II to the EEC Treaty, when they come under a common organisation of the market within the meaning of Article 40 of the EEC Treaty, or
- subject, on import into the Community, to specific rules introduced under the common agricultural policy,

shall be imported into the Community, notwithstanding the general arrangements applied in respect of third countries, in accordance with the following provisions:

- (i) those products, for which Community provisions in force at the time of import do not provide, apart from customs duties, for the application of any measure relating to their import, shall be imported free of customs duties;
- (ii) for products other than those referred to under (i), the Community shall take the necessary measures to ensure more favourable treatment than that granted to third countries benefiting from the most-favoured-nation clause for the same products;

Whereas Article 168(2)(d) of the Convention lays down that the arrangements referred to under point (a) of that paragraph shall enter into force at the same time as the Convention and shall remain applicable for its duration;

Whereas it was agreed, following the ACP-EC Council decision of 22 April 1997 approving the agreement in the form of an exchange of letters between the Community and the ACP States on Annex XL of the Fourth ACP-EC Convention concerning the joint declaration on agricultural products referred to in Article 168(2)(a)(ii). and

Article 1(j) of Decision No 6/95 of the ACP-EC Council of Ministers of 20 December 1995 on transitional measures to be applied from 1 January 1996, that the arrangements provided for in Article 168(2)(a) concerning trade in agricultural and food products should apply to the ACP States which signed the agreement on the mid-term review of the Convention, from 1 January 1996, that is to say, before the date of entry into force of the amended Convention;

Whereas the Regulations on the common organisation of the markets in the sectors concerned establish trade arrangements with third countries;

Whereas, on the one hand, these trade arrangements only provide for the application of customs duties on import of a number of products; whereas, on the other hand, they involve the application of customs duties consisting in an *ad valorem* rate and a specific rate on certain kinds of meat and products processed from fruit and vegetables, and other measures in respect of imports of fishery products, certain fruit and vegetables, and oils and fats; whereas the obligations of the Community towards the ACP States under Article 168(2)(a) of the Convention may be fulfilled by granting total or partial exemption from customs duties for the products in question where they originate in the ACP States;

Whereas for the purposes of this Regulation, the term "import duties" is to be defined in accordance with Article 20 of the Customs Code<sup>2</sup>;

Whereas it should be specified that the advantages resulting from Article 168(2)(a) of the Convention are accorded only to originating products within the meaning of Protocol 1 concerning the definition of the concept of "originating products" and methods of administrative cooperation, annexed to the Convention, the early application of which was approved in Regulation (EEC) No 714/90;

Whereas, furthermore, these advantages should be subject to certain conditions and limited to certain annual and multiannual quantities on a case-by-case basis;

Whereas the tariff advantages resulting from Article 168(2)(a) of the Convention are calculated on the basis of rates laid down in the Common Customs Tariff, and in accordance with the rules governing it; whereas they should, however, be calculated on the basis of the autonomous duty where no conventional duty is indicated, or where the autonomous duty is lower than the conventional duty;

Whereas there have traditionally been trade flows from the ACP States to the French overseas departments; whereas measures should therefore be introduced to encourage the import of certain products originating in the ACP States into the French overseas departments to cover local consumption requirements, including consumption following processing; whereas provision should be made for altering the arrangements governing access to the markets in products originating in the ACP States referred to in Article 168(2) of the Convention, particularly in the light of the said departments' economic development requirements;

Whereas it should be stipulated that the safeguard clauses provided for in the Regulations on the common organisation of the agricultural markets and in specific rules introduced under the common agricultural policy are applicable;

---

<sup>2</sup> Council Regulation (EEC) No 2913/92 of 12 October 1992, OJ L 302, 19.10.1992, p. 1.

Whereas it was agreed when negotiating the mid-term review of the Lomé Convention that the amendments to the arrangements should be applicable from 1 January 1996; whereas consequently Regulation (EEC) No 715/90 should be repealed from that date,

HAS ADOPTED THIS REGULATION:

If imports into the French overseas departments of maize originating in the ACP States or in the countries and territories have exceeded 25 000 tonnes in a year and are causing or are likely to cause serious disturbances on those markets, the Commission shall, at the request of a Member State or on its own initiative, take the necessary measures.

Any Member State may, within three working days of notification of the measure taken by the Commission, refer that measure to the Council. The Council, acting by a qualified majority, may take a different decision within one month.

4. This Article shall apply to products which are intended for use in the overseas departments and are released on the market there. If necessary, measures to ensure this may be taken in accordance with the procedure laid down in Article 30.

5. The exemption from customs duty for products falling within CN codes 0714 10 91 and 0714 90 11 shall apply within the limits of an annual quota of 2 000 tonnes.

6. Within the limits of an annual quantity of 8 000 tonnes, the customs duty fixed pursuant to Article 10(1) of Regulation (EEC) No 1766/92 shall not be applied to imports into Réunion of wheat bran falling within CN code 2302 30, originating in the ACP States.

## TITLE XXI

### General and final provisions

#### Article 28

The reductions provided for by this Regulation shall be calculated on the basis of the rates of customs duties in the Common Customs Tariff.

#### Article 29

In so far as the import arrangements set out in this Regulation provide for quantitative limits, imports of the products concerned which originate in the countries and territories will be counted against these quantities. The using-up of these quantities will not however prevent placing in free circulation the products in question originating in the ACP States within the limits of the global quantities set out in this Regulation.

#### Article 30

1. If necessary, detailed rules for the application of this Regulation shall be adopted in accordance with the procedure laid down in Article 23 of Regulation (EEC) No 1766/92 or in the corresponding Articles of the other Regulations on the common organisation of agricultural markets, as the case may be.

2. In the case of meat and rice, these detailed rules shall relate in particular to:

- (a) the basis for calculation and the reference period to be used for fixing the amount by which import duties are to be reduced;
- (b) the arrangements for fixing the corresponding amount to be collected by the exporting country;
- (c) the issue of import licences and/or the introduction of import licence arrangements;
- (d) the forms of proof acceptable and checking procedures.

3. Without prejudice to the first and second paragraphs, provisions for the application of the tariff quotas, tariff ceilings and reference quantities provided for in Article 17, and amendments and technical adaptations made necessary by amendments to the Combined Nomenclature and Taric codes or arising from the conclusion of agreements, protocols or exchanges of letters between the Community and the ACP States, shall be adopted by the Commission, assisted by the Customs Code Committee, in accordance with the procedure set out in paragraph 4 of this Article.

4. The representative of the Commission shall submit to the Committee a draft of the measures to be taken. The Committee shall deliver its opinion on the draft within a time limit which the chairman may lay down according to the urgency of the matter. The opinion shall be delivered by the majority laid down in Article 148(2) of the Treaty in the case of decisions which the Council is required to adopt on a proposal from the Commission. The votes of the

representatives of the Member States within the Committee shall be weighted in the manner set out in that Article. The chairman shall not vote.

The Commission shall adopt measures which shall apply immediately. However, if these measures are not in accordance with the opinion of the Committee, they shall be communicated by the Commission to the Council forthwith. In that event:

- the Commission may defer application of the measures which it has decided for a period of not more than one month from the date of such communication;
- the Council, acting by a qualified majority, may take a different decision within the period referred to in the first indent.

5. The Committee may examine any question concerning the application of tariff quotas, tariff ceilings and reference quantities, which is raised by its chairman either at the latter's initiative or at the request of a Member State.

6. As soon as a tariff ceiling is reached, the Commission may adopt a regulation re-establishing, until the end of the calendar year, the customs duties applicable to third countries in respect of imports of the products concerned.

#### Article 31

In the light of the economic development requirements of the French overseas departments, the Council, acting in accordance with the procedure laid down in Article 43 of the Treaty, may alter the arrangements governing access to those departments' markets for the products covered by this Regulation.

#### Article 32

1. The safeguard clauses provided for in the Regulations on the common organisation of agricultural markets and in the specific rules introduced under the common agricultural policy shall be applicable to the products covered by this Regulation.

2. As regards relations with the ACP States, the provisions of Regulation (EEC) No [3075/90<sup>28</sup>] shall apply as complementary measures to the safeguard clauses pursuant to Chapter I of the third part of the Convention until 29 February 2000.

#### Article 33

Regulation (EEC) No 715/90 is hereby repealed.

#### Article 34

This Regulation shall enter into force on the day following its publication in the *Official Journal of the European Communities*.

It shall apply from 1 January 1996.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
