Proposal for a

**COUNCIL DECISION**

**concluding the Agreement for scientific and technological cooperation between  
the European Community and the Argentine Republic**

(presented by the Commission)

## EXPLANATORY MEMORANDUM

1. On 25 January 1999, the Council authorized the Commission to negotiate an Agreement for scientific and technological cooperation between the European Community and the Argentine Republic. The negotiations resulted in the attached draft Agreement and its annex on intellectual property treatment, initialled on 12 March 1999.
2. The draft Agreement, to be concluded for tacitly renewable five year periods, was negotiated against the background of an upgraded and intensifying cooperation between Argentina and the European Union, considering the importance of science and technology for economic and social development and the mutual wish to extend and strengthen the conduct of cooperative activities in areas of common interest.
3. The draft Agreement is based on the principles of mutual benefit, reciprocal opportunities for access to each other's programmes and activities relevant to the purpose of the draft Agreement, non-discrimination, and the effective protection of intellectual property and equitable sharing of intellectual property rights.

Cooperation shall be conducted subject to applicable laws and regulations in force on each side.

4. The draft Agreement provides for :
  - the participation of persons and legal entities, including the Parties themselves, universities, research institutions, and other bodies or undertakings, in each other's research projects;
  - pooling of RTD projects already implemented according to the procedures applicable in the RTD programmes of each Party;
  - exchange and sharing of equipment and materials;
  - exchange and provision of information and data;
  - visits and exchanges of scientists, engineers or other appropriate personnel for the purposes of participating in meetings, seminars, symposia, workshops and other research activities relevant to cooperation under this Agreement;
  - exchange of information on practices, laws, regulations and programmes relevant to cooperation under the Agreement;
  - such other activities as may be mutually determined by the Steering Committee in accordance with the applicable policies and programmes of the Parties;

- the endorsement by the Parties of Technology Management Plans as a condition for research projects to proceed, as described in the Annex to the draft Agreement;
  - cooperation activities to be subject to the availability of funds and to the applicable laws and regulations, policies and programmes of Argentina and the Community; no transfer of funds will take place.
5. As far as the Annex on the dissemination and utilization of information and management, allocation and exercise of intellectual property rights is concerned, both sides have agreed that the allocation of intellectual property rights shall be in accordance with the applicable laws and regulations on each side.

The principle of non-discrimination agreed under Article 3 should protect Community participants in Argentinean programmes and activities against any discriminatory treatment, also in respect of the dissemination and utilization of results, including intellectual property rights. The Steering Committee shall, *inter alia*, review the efficient and effective functioning of the Agreement, including the non-discriminatory treatment of participants.

6. In the light of the above-mentioned considerations, the Commission proposes that the Council :
- decide that the Agreement be signed on behalf of the Community and authorize the President of the Council to appoint the persons duly empowered to sign on behalf of the Community;
  - approve, after consultation of the European Parliament, the attached Agreement for scientific and technological cooperation between the European Community and the Argentine Republic;
  - give notification to the Argentinean authorities that the procedures necessary for the entry into force of the Agreement have been completed on the part of the European Community.

**AGREEMENT FOR  
SCIENTIFIC AND TECHNOLOGICAL COOPERATION  
BETWEEN THE EUROPEAN COMMUNITY AND  
THE ARGENTINE REPUBLIC**

The European Community, (hereinafter referred to as the "Community") on the one part,

And

The Argentine Republic (hereinafter referred to as "Argentina"), on the other part,

Hereinafter referred to as the "Parties";

Considering the Trade and Economic Cooperation Framework Agreement between the Argentine Republic and the European Economic Community of 2 April 1990;

Considering the importance of science and technology for their economic and social development;

Considering the ongoing scientific and technological cooperation between the Community and Argentina;

Considering that the Community and Argentina are currently pursuing research and technological activities, including demonstration projects as defined in Article 2 d), in a number of areas of common interest and that participation in each other's research and development activities on a basis of reciprocity will provide mutual benefits;

Desiring to establish a formal basis for cooperation in scientific and technological research which will extend and strengthen the implementation of cooperative activities in areas of common interest and encourage the application of the results of such cooperation to their economic and social benefit;

Considering that the present Agreement for scientific and technological cooperation is within the context of the global cooperation between Argentina and the Community;

Have agreed as follows:

#### Article 1

##### Purpose

The Parties shall encourage, develop and facilitate cooperative activities between the Community and Argentina in fields of common interest where they are pursuing research and development activities in science and technology.

## Article 2

### Definitions

For the purpose of this Agreement:

- a) "cooperative activity" means any activity which the Parties undertake or support, pursuant to this Agreement, and includes joint research;
- b) "information" means scientific or technical data, results or methods of research and development stemming from joint research and any other data deemed necessary by the participants to cooperative activities; including, as necessary, by the Parties themselves;
- c) "intellectual property" shall have the meaning defined in Article 2 of the Convention establishing the World Intellectual Property Organisation, done at Stockholm, 14 July 1967;
- d) "joint research" means research, technological development or demonstration that is implemented with or without financial support from one or both Parties and that involves collaboration by participants from both the Community and Argentina and is designated as joint research in writing by the Parties or their institutions and agencies implementing the scientific research programmes. In the case where there is funding by only one Party the designation is made by that Party and the participant in that project. "Demonstration projects" are projects designed to prove the viability of new technologies which offer a potential economic advantage but which cannot be commercialised directly.
- e) "Participant" or research "entities" means any person moral or private, any research institute or any other legal entity or firm established in the Community or in Argentina involved in cooperative activities including the Parties themselves.

## Article 3

### Principles

Cooperative activities shall be conducted on the basis of the following principles:

- a) mutual benefit based on an overall balance of advantages;
- b) reciprocal access to the activities of research and technological development undertaken by each Party;
- c) timely exchange of information which may affect cooperative activities.
- d) appropriate protection of intellectual property rights.

## Article 4

### Areas of cooperative activities

Cooperation under the present Agreement may cover all the activities of research, technological development and demonstration, hereinafter referred to as "RTD", included in the First Activity of the Framework Programme as described in Article 164 of the Treaty establishing the European Community and all similar RTD activities in Argentina in the corresponding scientific and technological fields.

The present Agreement does not affect the participation of Argentina, as a developing country, in Community activities in the field of Research for Development.

## Article 5

### Forms of cooperative activities

- a) The Parties shall foster the participation of research entities in cooperative activities under this Agreement in conformity with their internal policies and regulations, with a view to providing comparable opportunities for participation in their scientific and technological research and development activities.
- b) Cooperative activities may take the following forms:
  - participation of Argentinean research entities in RTD projects under the First Activity of the Framework Programme and reciprocal participation of research entities established in the Community in Argentinean projects in similar sectors of RTD. Such a participation is subject to the rules and procedures applicable in the RTD programmes of each Party;
  - pooling of RTD projects already implemented according to the procedures applicable in the RTD programmes of each Party;
  - visits and exchanges of scientists and technical experts;
  - joint organization of scientific seminars, conferences, symposia and workshops, as well as participation of experts in those activities;
  - concerted actions;
  - exchanges and sharing of equipment and materials;
  - exchanges of information on practices, laws, regulations, and programmes relevant to cooperation under this Agreement;
  - any other modality that would be recommended by the Steering Committee as provided for in Article 6 b) and deemed in conformity with the policies and procedures applicable in both Parties .

The joint RTD projects shall be implemented when the participants have developed a technology management plan, as indicated in the Annex of the present Agreement.

## Article 6

### Coordination and facilitation of cooperative activities

- a) For the purposes of this Agreement, the Parties appoint the following appropriate authorities, acting as Executive Agents, for the coordination and facilitation of cooperative activities: on behalf of Argentina, the Secretariat of Science and Technology of the Minister of Culture and Education, or such other authority as Argentina may at any time notify with prior written notice; and, on behalf of the Community, the representatives of the European Commission.
- b) The Executive Agents shall establish a RTD Cooperation Steering Committee, hereinafter referred to as the "Steering Committee" for the management of the present Agreement; this Committee shall consist of a similar number of official representatives of each Party; it shall establish its own rules of procedure.
- c) The functions of the Steering Committee shall include:
  - 1) promoting and overseeing the different cooperative activities as mentioned in article 4 of the present Agreement as well as those that would be implemented in the framework of RTD cooperation for development;
  - 2) identifying, pursuant to Article 5 paragraph b), first indent, among the potential sectors for RTD cooperation, those priority sectors or subsectors of mutual interest in which a cooperation is sought.
  - 3) proposing, pursuant to Article 5 paragraph b), second indent, to the scientists of both Parties the pooling of their projects which would be of mutual benefit and complementary;
  - 4) making recommendations pursuant to Article 5 paragraph b), seventh indent;
  - 5) advising the Parties on ways to enhance and improve cooperation consistent with the principles set out in this Agreement;
  - 6) reviewing the efficient functioning and implementation of this Agreement;
  - 7) annually providing a report to the Parties on the status, the level reached and the effectiveness of cooperation undertaken under this Agreement. This report will be transmitted to the Joint Committee established under the Trade and Economic Cooperation Framework Agreement between the European Economic Community and the Argentine Republic of 2 April 1990.
- d) The Steering Committee shall, as a general rule, meet annually, preferably before the meeting of the Joint Committee established under the Trade and Economic Cooperation Framework Agreement between the European Economic Community and the Argentine Republic of 2 April 1990, and according to a jointly agreed schedule and shall report to it; the meetings should be held alternatively in the Community and in Argentina. Extraordinary meetings may be organized at the request of either Party.

- e) Each Party shall bear the costs of its participation in the meetings of the Steering Committee. The costs other than those for travel and accommodation which are directly associated with meetings of the Steering Committee shall be borne by the host Party.

#### Article 7

##### Funding

- a) Cooperative activities shall be subject to the availability of appropriated funds and in conformity with the applicable laws and regulations, policies and programmes of the Parties. The costs incurred by the participants in the cooperative activities will not lead to any transfer of funds from one Party to the other.
- b) When specific cooperative schemes of one Party provide for financial support to participants from the other Party, any such grants, financial or other contributions from one Party to the participants of the other Party in support of those activities shall be granted tax and customs exemption in accordance with the laws and regulations applicable in the territories of each Party.

#### Article 8

##### Entry of personnel and equipment

Each Party shall take all reasonable steps and use its best efforts, within laws and regulations applicable in the territories of each Party, to facilitate entry to, sojourn and exit from its territory of persons, material, data and equipment involved in or used in cooperative activities identified by the Parties under the provisions of this Agreement.

#### Article 9

##### Diffusion and utilisation of information

The research entities established in Argentina which are involved in Community RTD projects shall follow, as regards the ownership, the diffusion and the utilisation of information and as regards the intellectual property stemming from this involvement, the rules of diffusion of research results stemming from the Community RTD specific programmes as well as the provisions of the Annex of this Agreement.

The research entities established in the Community which are involved in Argentinean RTD projects have, as regards the ownership, the diffusion, and the utilisation of information and as regards the intellectual property stemming from this involvement, the same rights and the same obligations as the Argentinean research entities and are subject to the provisions of the Annex of this Agreement.

The Annex on Intellectual Property Rights is an integral part of this Agreement.

## Article 10

### Territorial application

This Agreement shall apply, on the one hand to the territories in which the Treaty establishing the European Community is applied and under the conditions laid down in that Treaty, and on the other hand to the territory of the Argentine Republic.

## Article 11

### Entry into Force, Termination and Dispute Settlement

- (a) This Agreement shall enter into force on the date of the last of the written communications through which the Parties have notified each other that their respective internal procedures necessary for its entry into force have been completed.
- (b) This Agreement shall be concluded for an initial period of five years and may be tacitly renewed after evaluation during the penultimate year of each successive five year period.
- (c) This Agreement may be amended by agreement of the Parties. Amendments shall enter into force under the same conditions as those defined in para (a).
- (d) This Agreement may be terminated at any time by either Party upon six months' written notice via the diplomatic channel. The expiration or termination of this Agreement shall not affect the validity or duration of any arrangements made under it, or any specific rights and obligations that have accrued in compliance with the Annex.
- (e) All questions or disputes related to the interpretation or implementation of this Agreement shall be settled by mutual agreement of the Parties.

In witness whereof, the undersigned, being duly authorized thereto, have signed this Agreement.

Done at ..... on ....., in duplicate, in the Danish, Dutch, English, Finnish, French, German, Greek, Italian, Portuguese, Spanish and Swedish languages, with each text being equally authentic.

## **ANNEX: INTELLECTUAL PROPERTY RIGHTS**

The present Annex is an integral part of the "Agreement for scientific and technological cooperation between the European Community and the Argentine Republic", hereinafter referred to as "the Agreement".

Rights to intellectual property created or furnished under the Agreement shall be allocated as provided in this Annex.

### **I. Application**

This Annex is applicable to joint research undertaken pursuant to the Agreement, except as otherwise agreed by the Parties.

### **II. Ownership, Allocation and Exercise of Rights**

1. For purposes of this Annex "intellectual property" is defined in Article 2 c) of the Agreement.
2. This Annex addresses the allocation of rights and interests of the Parties and their participants. Each Party and its participants shall ensure that the other Party and its participants may obtain the rights to intellectual property allocated to it in accordance with this Annex. This Annex does not otherwise alter or prejudice the allocation of rights, interests and royalties between a Party and its nationals or participants, which shall be determined by the laws and practices applicable to each Party.
3. The Parties shall also be guided by and contractual arrangements should provide for the following principles:
  - a) Effective protection of intellectual property. The Parties shall ensure that they and/or their participants notify one another within a reasonable time of the creation of any intellectual property arising under the Agreement of implementation arrangements and to seek protection for such intellectual property in a timely fashion.
  - b) Effective exploitation of results, taking into account the contributions of the Parties and their participants.
  - c) Non-discriminatory treatment of participants from the other Party as compared with the treatment given to its own participants.
  - d) Protection of Business-Confidential information.

4. The participants shall jointly develop a Technology Management Plan (TMP) in respect of the ownership and use, including publication of information and intellectual property to be created in the course of joint research. The TMP shall be approved by the responsible funding agency or department of the Party involved in financing the research, before the conclusion of the specific research and development cooperation contracts to which they are attached. The TMP shall be developed within the rules and regulations in force at each Party taking into account the aims of the joint research, the relative financial or other contributions of the Parties and participants, the advantages and disadvantages of licensing by territory or for fields of use, the transfer of export-controlled data, goods or services, requirements imposed by the applicable laws and other factors deemed appropriate by the participants. The rights and obligations concerning the research generated by visiting researchers (i.e. researchers not coming from a Party or a participant) in respect of IP shall also be addressed in the joint technology management plans.

The TMP is a specific agreement to be concluded between the participants about the implementation of joint research and the respective rights and obligations of the participants.

With respect to IP, the TMP will normally address, among other things, ownership, protection, user rights for research and development purpose, exploitation and dissemination, including arrangements for joint publication, the rights and obligations of visiting researchers and dispute settlement procedures. The TMP may also address foreground and background information, licensing and deliverables.

5. Information or IP created in the course of joint research and not addressed in the technology management plan shall be allocated, with the approval of the Parties, according to the principles set out in the technology management plan. In case of disagreement, such information or IP shall be owned jointly by all the participants involved in the joint research from which the information or IP results. Each participant to whom this provision applies shall have the right to use such information or IP for his own commercial exploitation with no geographical limitation.
6. Each Party shall ensure that the other Party and its participants may have the rights to IP allocated to them in accordance with these principles.
7. While maintaining the condition of competition in areas affected by the Agreement, each Party shall endeavour to ensure that rights acquired pursuant to the Agreement and arrangements made under it are exercised in such a way as to encourage, in particular (i) the dissemination and use of information created, disclosed or otherwise made available, under the Agreement, and (ii) the adoption and implementation of international standards.
8. Termination or expiry of the Agreement shall not affect rights or obligations under this Annex.

### **III. Copyright Works and Scientific Literary Works**

Copyright belonging to the Parties or to their participants shall be accorded treatment consistent with the Berne Convention (Paris Act 1971). Copyright protection shall extend to expressions and not to ideas, procedures, methods of operation or mathematical concepts as such. Limitations or exceptions to exclusive rights will be confined to certain special cases which do not conflict with a normal exploitation of the work and do not reasonably prejudice the legitimate interests of the right holder.

Without prejudice to Section II, and unless otherwise agreed in the TMP, publication of results of research shall be made jointly by the Parties or participants to that joint research. Subject to the foregoing general rule, the following procedures shall apply:

1. In the case of publication by a Party or public bodies of that Party of scientific and technical journals, articles, reports, books, including video and software arising from joint research pursuant to the Agreement, the other Party shall be entitled to a worldwide, non-exclusive, irrevocable, royalty-free licence to translate, reproduce, adapt, transmit and publicly distribute such works.
2. The Parties shall ensure that literary works of a scientific character arising from joint research pursuant to the Agreement and published by independent publishers shall be disseminated as widely as possible.
3. All copies of a copyright work to be publicly distributed and prepared under this provision shall indicate the names of the author(s) of the work unless an author explicitly declines to be named. They shall also bear a clearly visible acknowledgement of the cooperative support of the Parties.

### **IV. Inventions, discoveries and other scientific and technological achievements**

Inventions, discoveries and other scientific and technological achievements created under cooperative activities between the Parties themselves shall be owned by the Parties unless otherwise agreed by the Parties.

### **V. Undisclosed Information**

#### **A. Documentary undisclosed information**

1. Each Party, its agencies or its participants, as appropriate, shall identify at the earliest possible moment and preferably in the technology management plan the information that they wish to remain undisclosed in relation to the Agreement, taking into account inter alia the following criteria:
  - a) secrecy of the information in the sense that it is not, as a body or in the precise configuration or assembly of its components, generally known among or readily accessible by lawful means to experts in the fields;
  - b) the actual or potential commercial value of the information by virtue of its secrecy;

- c) previous protection of the information in the sense that it has been subject to steps that were reasonable under the circumstances by the person lawfully in control, to maintain its secrecy.

The Parties and their participants may in certain cases agree that, unless otherwise indicated, parts or all of the information provided, exchanged or created in the course of joint research pursuant to the Agreement may not be disclosed.

2. Each Party shall ensure that it and its participants clearly identify undisclosed information, for example by means of an appropriate marking or restrictive legend. This also applies to any reproduction of the said information, in whole or in part.

A Party receiving undisclosed information pursuant to the Agreement shall respect the privileged nature thereof. These limitations shall automatically terminate when this information is disclosed by the owner into the public domain.

3. Undisclosed information communicated under the Agreement may be disseminated by the receiving Party to persons within or employed by the receiving Party and other concerned departments or agencies in the receiving Party authorised for the specific purposes of the joint research under way, provided that any undisclosed information so disseminated shall be pursuant to an agreement of confidentiality and shall be readily recognisable as such, as set out above.
4. With the prior written consent of the Party providing undisclosed information, the receiving Party may disseminate such undisclosed information more widely than otherwise permitted in paragraph 3 above. The Parties shall cooperate in developing procedures for requesting and obtaining prior written consent for such wider dissemination, and each Party will grant such approval to the extent permitted by its domestic policies, regulations and laws.

#### B. Non-documentary undisclosed information

Non-documentary undisclosed or other confidential information provided in seminars and other meetings arranged under the Agreement, or information arising from the attachment of staff, use of facilities, or joint projects, shall be treated by the Parties or their participants according to the principles specified for documentary information in the Agreement; provided, however, that the recipient of such undisclosed or other confidential or privileged information has been made aware of the confidential character of the information communicated at the time such communication is made.

### **C. Control**

Each Party shall endeavour to ensure that undisclosed information received by it under the Agreement shall be controlled as provided herein. If one of the Parties becomes aware that it will be, or may be reasonably expected to become, unable to meet the non-dissemination provisions of sections A and B above, it shall immediately inform the other Party. The Parties shall be thereafter consulted to define an appropriate course of action.

## FINANCIAL STATEMENT

### **1. TITLE OF OPERATION**

International scientific cooperation: Agreement for scientific and technological cooperation with the Argentine Republic.

### **2. BUDGET HEADING(S) INVOLVED**

Travel costs for EC officials and EC experts will be charged to the specific budget headings for the programmes within the Community's RTD framework programme (Chapters from B6-61/62).

### **3. LEGAL BASIS**

Articles 130i and 130m (Articles 166 and 170 as from 1.05.1999) in conjunction with Article 228 (Article 300 as from 1.05.1999) of the EC Treaty.

### **4. DESCRIPTION OF OPERATION**

#### **4.1 General objective**

The essential objective is to stimulate RTD cooperation between the European Community and the Argentine Republic in research projects covered by the framework programmes.

#### **4.2 Period covered and arrangements for renewal**

The agreement is concluded for an initial period of five years and may be tacitly renewed after evaluation during the penultimate year of each successive five year period. It may be terminated at any time by either party upon six months' written notice.

### **5. CLASSIFICATION OF EXPENDITURE OR REVENUE**

#### **5.1 Non-compulsory expenditure**

#### **5.2 Differentiated appropriations**

### **6. TYPE OF EXPENDITURE OR REVENUE**

100% financing

(missions to Argentina by Commission officials; organisation of workshops, seminars and meetings in Europe and Argentina)

## 7. FINANCIAL IMPACT

### 7.1 Method of calculating total cost of operation (relation between individual and total costs)

- (a) **Preparatory activities and review of cooperation activities:** meetings of the Steering RTD Cooperation Committee, exchanges of information, visits to Argentina by officials and experts: Euros 50 000
- (b) **Scientific and technical workshops/meeting** Euros 60 000
- Total: Euros 110 000/year

This amount of 110.000 Euros is divided as follows: 30 % for the budget line 62.11 and 70 %, in equal parts, for the budget lines of Chapter B6.61.

### 7.2 Schedule of commitment and payment appropriations

EUR million

	1999	2000+
Commitments	110 000	330 000
Payments	110 000	330 000

## 8. FRAUD PREVENTION MEASURES

There are many administrative and financial controls at each stage of the signature and implementation of research contracts. Among these controls are the following :

### After signature of the contract

- Examination of expenditure at a number of levels (financial officer, scientific officer) before payment.
- Internal audit performed by the Financial Controller.
- On the spot inspections made by the Financial Controller of the Commission and by the Court of Auditors of the European Union.

## 9. ELEMENTS OF COST-EFFECTIVENESS ANALYSIS

### 9.1 Specific and quantified objectives; target population

- the agreement is designed to enable the European Community and Argentina to profit, on the basis of the principle of mutual benefit, from the scientific and technical progress achieved under their research programmes, by means of participation by the Argentinean scientific community and Argentinean industry in Community research projects and independent participation, without funding, by bodies established in the Community in Argentinean projects;

- beneficiaries in the European Community and Argentina will be the scientific communities, industry and the general public, thanks to the direct and indirect effects of cooperation.

## **9.2 Grounds for the operation**

A contribution from the Community budget is indispensable because the planned cooperation comes under implementation of the framework programmes, including the budgetary section: participation by Argentina in certain specific programmes and operating expenditure on the European side (missions by Community officials, organisation of seminars in the Community and Argentina).

## **9.3 Monitoring and evaluation of the operation**

The cooperation agreement will be regularly evaluated by the Commission departments concerned. This evaluation will cover the following points:

### **(a) Compilation of information**

Based on the data emerging from the specific programmes under the framework programmes.

### **(b) General evaluation of the operation**

An evaluation of all the cooperation activities under this agreement will be made by the Commission's departments at the end of each year.

## **10. ADMINISTRATIVE EXPENDITURE (SECTION III, PART A OF THE BUDGET)**

- The Commission is not requesting any additional posts for the management of the Agreement.
- No officials are being specifically assigned to manage the Agreement. Cooperation activities and the implementation of the Agreement will be managed by the staff authorised for the specific programmes under the present Framework Programme and possible subsequent Framework Programmes.
