TWENTY-FIFTH FINANCIAL REPORT

concerning

THE EUROPEAN AGRICULTURAL GUIDANCE
AND GUARANTEE FUND
E.A.G.G.F.

GUARANTEE SECTION

- 1995 FINANCIAL YEAR -

(presented by the Commission)

INTRODUCTORY NOTE

- a) Article 10 of Council Regulation (EEC) No 729/70 on the financing of the common agricultural policy required the Commission each year to submit to the Council and Parliament "a financial report on the administration of the Fund during the preceding financial year and, in particular, on the state of its resources and the nature of its expenditure and the conditions for achieving Community financing".

This Report covers the operations of the EAGGF Guarantee Section during the 1995 financial year.

The main task of the Guarantee Section is to finance expenditure arising under the common policy on agricultural markets and prices. Under Articles 2 and 3 of Regulation (EEC) No 729/70, expenditure consists of refunds on exports to non-member countries, granted under the common organization of the agricultural markets, and intervention intended to stabilize the agricultural markets.

- b) Up to and including 1986, the financial year was always the same as the calendar year. The 1987 amendments to the Community regulations resulted in certain adjustments to the dates of closure of the accounts for financial years, with the result that the period covered by EAGGF Guarantee Section expenditure no longer coincided with the calendar year. Nowadays the EAGGF financial year covers expenditure from 16 October to 15 October of the following year.
- c) Pages XVI and 65 of this Report are blank and have been inserted for the convenience of the reader so tables face text, graphs or other tables for easier consultation where they form two parts of a whole.

⁽¹⁾ The ecu is the unit of account used for the Communities' budget; all receipts and expenditure, agricultural and non-agricultural, are expressed in ecus.

Amounts in ecus are generally converted into national currencies at market rates or "budgetary rates".

To operate smoothly, the common agricultural policy requires some stability in exchange rates between national currencies. In order, therefore, to lessen the effect on agricultural prices of any adjustments to the exchange rates, agricultural prices expressed in ecus are not converted into national currencies at the real exchange rates for the ecu but at special rates called "green rates". Hence amounts calculated in ecus under the agricultural regulations are expressed in "ECU(A)". However, for the purpose of charging the financial consequences of agricultural regulations to the budget, ecus are not converted into national currencies at the green rates but at the market or budgetary rates; hence amounts in ecus to be entered in the accounts are expressed in "ECU(B)".

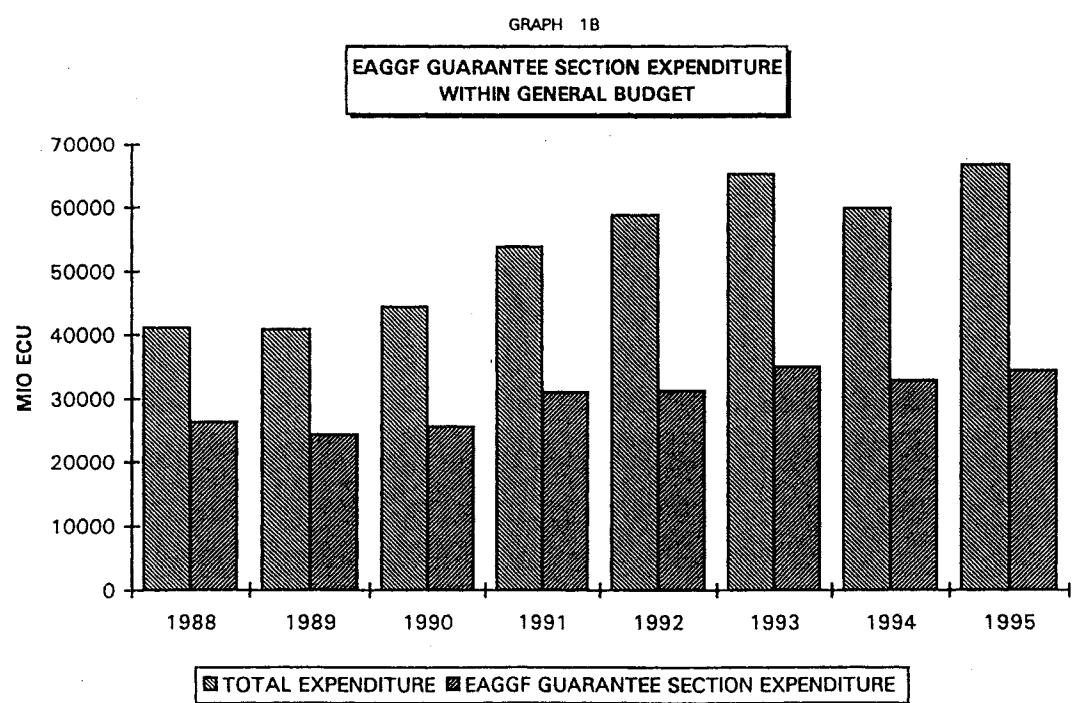

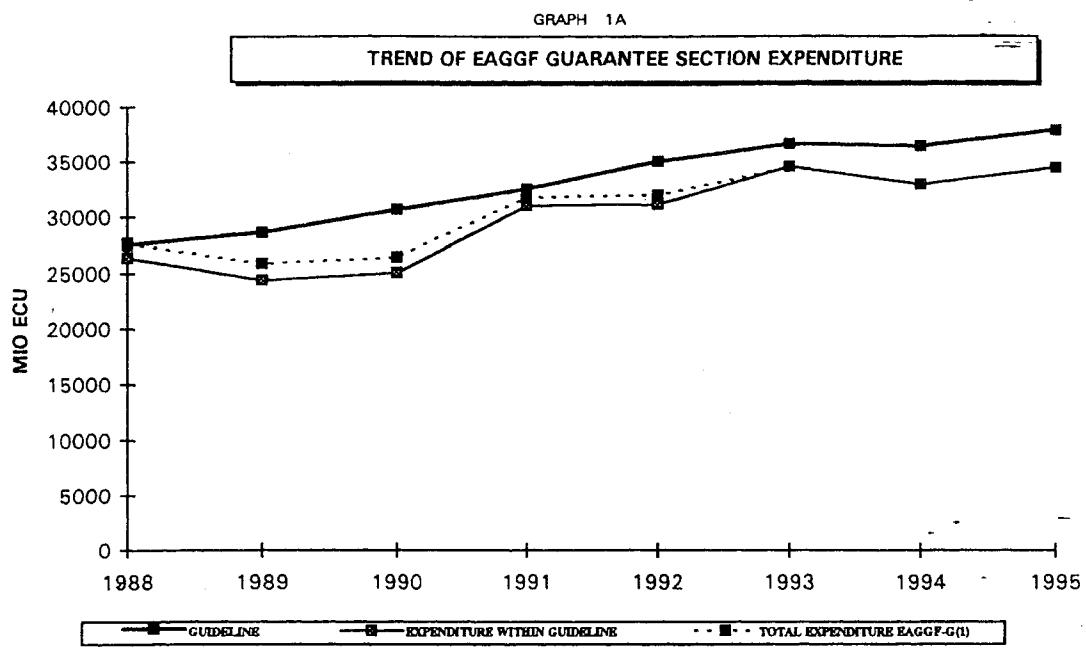

⁽²⁾ Although the monthly budgetary rates for the Belgian franc and the Luxembourg franc are identical, the average is different because it represents an average weighted according to monthly expenditure in national currency.

SUMMARY

TWENTY-FIFTH FINANCIAL REPORT

EAGGF GUARANTEE SECTION

A. TREND IN COMMUNITY FINANCING OF PRODUCT MARKETS

1. The final total of appropriations allocated to the EAGGF Guarantee Section in 1995, i.e. the original 1995 budget, the supplementary and amending budget (SAB), letter of amendment, transfers and provisional appropriations, came to **ECU 36 849.6 million** (not including the monetary reserve of ECU 500 million) plus automatic carryovers amounting to ECU 64.3 million.

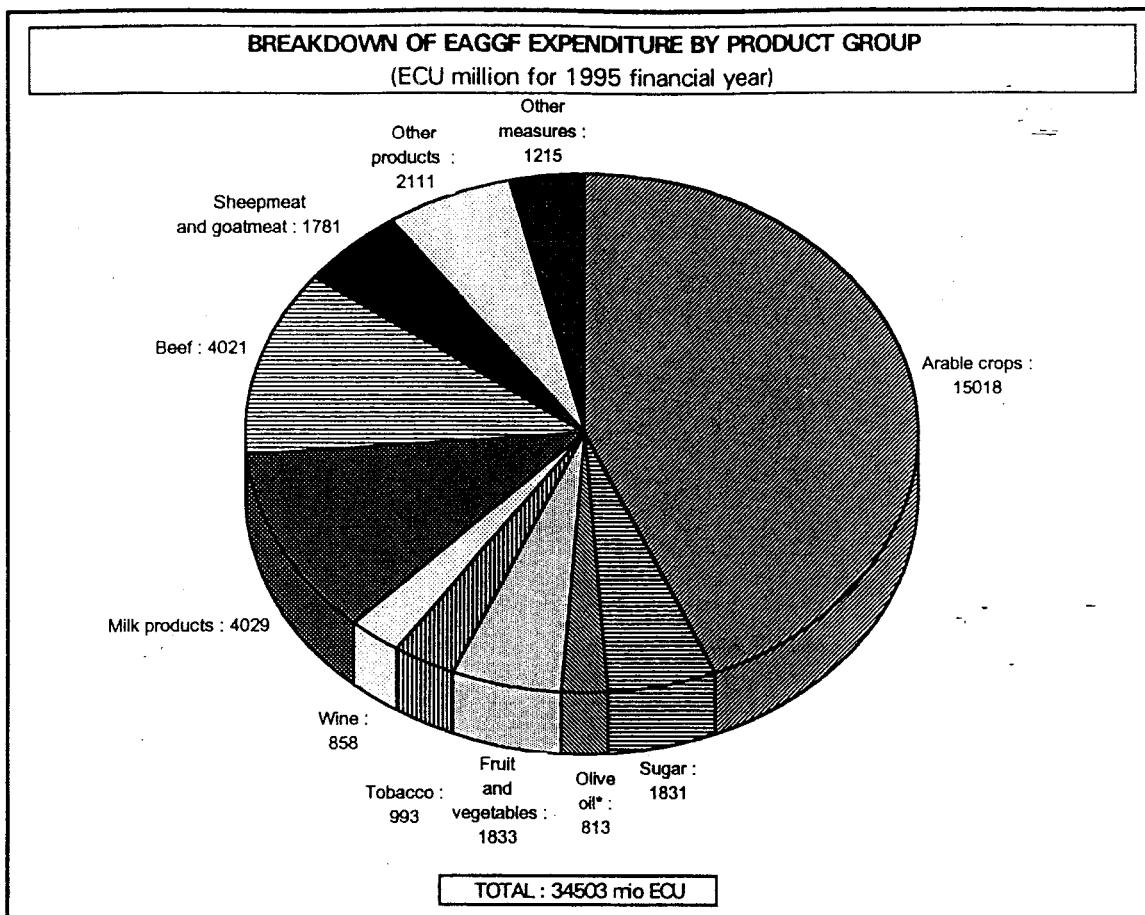

In the 1995 financial year the **agricultural guideline**, which sets a ceiling on Guarantee Section spending, was fixed at **ECU 37 944 million**, a figure up on the 1994 financial year (ECU 36 465).

Total expenditure came to **ECU 34 503 million**. No non-automatic carryovers were made from the 1994 budget to that of 1995 and there was therefore no expenditure under that heading.

Expenditure overall was up from the figure of ECU 32 970 million in 1994. Among the reasons for this rise, which will be explained in this Report, is the fact that the European Union's Member States went from 12 to 15 from 1 January 1995, but more significantly 1995 saw the second phase of implementation of the reform and expenditure rose on the aid introduced or stepped up by that reform. The trend in expenditure since 1988 is shown in Graph 1a.

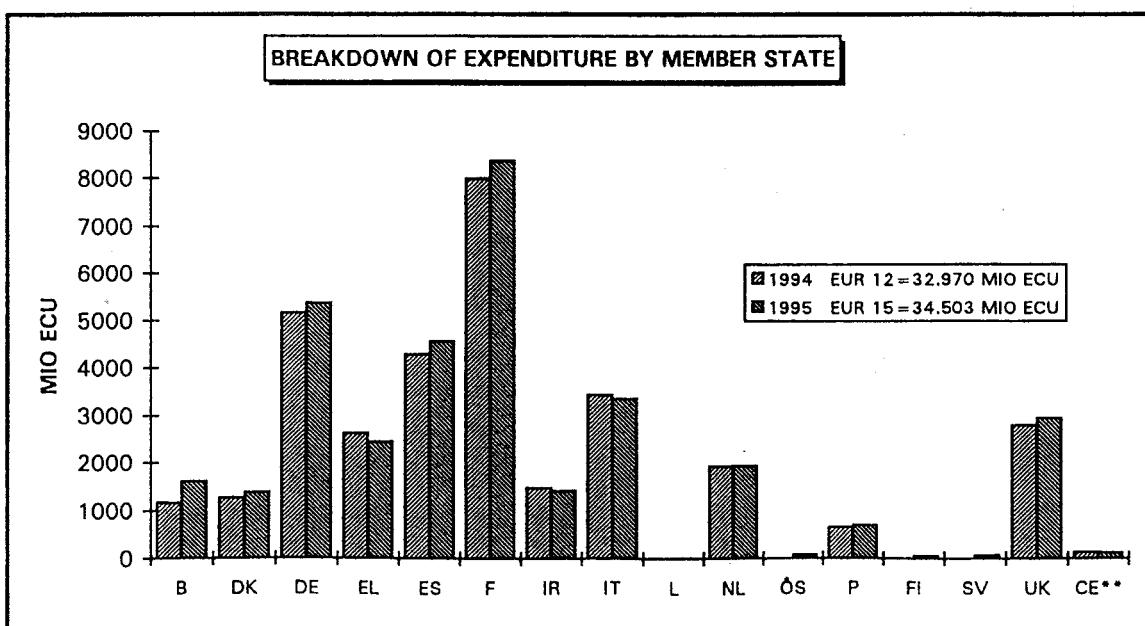

2. Despite this raise in spending from 1994 to 1995, the share of EAGGF Guarantee Section expenditure in the general budget of the Union fell from 55% to 51,7%, as a result of a relatively greater increase in spending under the general budget (measured in payment appropriations) (Graph 1b).

GRAPH 2A

GRAPH 2B

3. When the **breakdown of expenditure by economic type** of scheme is considered, the following trends are apparent:

- spending on export refunds continued to decline, falling from ECU 8 161 million in 1994 to ECU 7 802 million in 1995; it thus now accounts for only 22.6% of total EAGGF Guarantee Section expenditure;
- intervention spending in 1995 came to ECU 26 206 million, mainly consisting of storage aid and price compensatory aid (production, processing and marketing aid). As a result of a return to more balanced markets, expenditure on storage fell very steeply from ECU 5 386 million in 1993 to ECU 1 070 million in 1994, and then to ECU 339 million in 1995. On the other hand, price compensatory aid was up (from ECU 24 490 million in 1995 as compared with ECU 21 339 million in 1994). This was due to the major expansion of production aid schemes (acreage payments, setaside, suckler-cow premiums and premiums for male bovine animals) introduced as part of the reform of the CAP.

4. These trends are reflected in the **sector-by-sector breakdown**.

Arable crops, which now groups four former expenditure headings (cereals, oilseeds, protein plants and set-aside), accounted for 43.5% of overall spending. It is followed by milk products (11.7% down on 1994) and beef and veal (11.7%). See Graph 2a for the shares of the other product groups.

5. **Breakdown by Member State (Graph 2b)**

France is still the main recipient of Guarantee Section expenditure at ECU 8 377 million or 24% of overall spending. It is trailed by Germany (ECU 5 380 million), Spain (ECU 4 562 million) and Italy (ECU 3 364 million).

In the first year following accession, Austria received ECU 86 million, Finland ECU 62 million and Sweden ECU 75 million.

B.

CASHFLOW AND MANAGEMENT OF APPROPRIATIONS

1. The 1995 budget was adopted in December 1994 and provided for appropriations amounting to ECU 37 925.5 million for EAGGF Guarantee Section. A supplementary and amending budget (SAB) reducing those appropriations by ECU 1 028.5 million was adopted in April 1995.

Following the application lodged by the Council in respect of the declaration of the President of the European Parliament on the final adoption of the budget in December 1994, the Court of Justice annulled the President's act in December 1995, thereby rendering the budget invalid. A new budget was drawn up and adopted on 31 January 1996. Total appropriations were ECU 3 million down compared with the SAB.

2. The management of these appropriations is summarized in the following table:

| | 1995 approp-riations | Non-automatic carryovers | Automatic carry-overs | Total appropri-ations |
|-------------------------------------|----------------------|--------------------------|-----------------------|-----------------------|
| A.Original budget/carryovers | (*) 37.925,5 | 0,0 | 64,3 | 37.989,8 |

(*) Including ECU 998 million entered in Chapter B0-40 but excluding the monetary reserve of ECU 500 million

3. The Commission adopted 14 decisions granting advances in 1995, 12 of these being of the regular kind, one extraordinary to adjust advances granted to match total spending and one supplementary decision adopted in the last few days of December 1995 to recover part of the amounts already paid out following the reduction in the interest rate for the advance financing of expenditure by Greece, Spain, Ireland and Portugal.
4. Pursuant to Article 13 of Council Decision 94/729/EC on budgetary discipline, which allows the Commission to reduce the provisionally suspend monthly advances to the Member States where declarations of expenditure or information submitted by the latter do not enable the Commission to establish whether funds can be committed in conformity with Community rules, the Commission decided to:
 - reduce advances in 1995 by ECU 53 million in respect of expenditure incurred after the regulatory cut-off dates;
 - reduce advances as a result of the failure to collect the additional levy on milk to an amount of ECU 9.8 million;
 - suspend advances amounting to ECU 14.8 million.

Despite the explanations provided by the national authorities, the Commission staff had doubts about the justifications for some of the expenditure claimed by the Member States. The Commission decided to undertake a thorough investigation to determine whether the expenditure was eligible and to suspend payment of advances until the matter was cleared up.

C. STEPPING UP CONTROLS

In 1995 it was decided to assign responsibility for practical tasks relating to fraud-prevention investigations to the unit for the Coordination of Fraud Prevention (UCLAF). Since then, the EAGGF's work has concentrated on stepping up controls in the areas outlined below.

Under the Integrated Administration and Control System (IACS), inspection visits were conducted in all Member States in 1995 to check the setting-up of the system and administrative and on-the-spot inspections. In particular, special attention was paid to the establishment of systems for identifying parcels of agricultural land and for identifying and registering livestock. Within the EAGGF Committed, expert groups met to discuss the introduction of the IACS. As observed at those meetings and during on-the-spot inspections in the Member States, the IACS is an effective tool for management and controls. Since its introduction, the IACS' scope has widened, in particular through the inclusion on seed flax and rice under the arrangements for arable crops. In 1995, provisions on controls covering dried fodder were adopted in order to utilize certain components of the IACS. This tendency to extend the scope of the IACS to cover other product groups has been accentuated in 1996.

Work undertaken in 1995 to identify agricultural parcels as required under the IACS means that most Member States have made preprinted forms available to farmers and computerized crosschecks have been introduced.

Olive-oil inspection agencies continued their work in accordance with their schedules of activities, stepping up checks of production aid and forwarding particulars of the proposed penalties to the relevant Member States, which have not, however, adequately applied the latter.

Utilization of appropriations by the Member States in 1994 in connection with Community part-financing to step up controls on exports and on certain intervention measures (Regulation (EEC) No 307/91) was down on 1993 and forecast expenditure for 1995 seems to confirm that trend. A proposal for a Regulation to replace Regulation (EEC) No 307/91 has been forwarded to the Council by the Commission.

Lastly, the arrangements for remote sensing common to all Member States taking part in the IACS allow a large proportion of checks to be carried out on declarations of area. The unit cost of remote sensing, which is shared equally by the Commission and the Member States, has fallen and is currently comparable with that of "conventional" checks.

D. CLEARANCE OF ACCOUNTS

One of the main features of the clearance of accounts is the possibility it provides of allowing the Commission to recover from the Member States sums unduly paid in the application of the regulations on the common agricultural policy. naturally such recovery is preceded by a large number of checks conducted on the spot in the Member States and giving rise to observations. The latter are forwarded to the Member States and after the dialogue and conciliation stages, decisions leading to recovery are taken by the Commission. The whole procedure is very long and drawn out, which is why the decision on the clearance of the accounts for 1991 was adopted by the Commission on 21 December 1994, so its consequences apply in the 1995 financial year. The sum recovered amounted to ECU 1 518.3 million out of expenditure totalling ECU 30 332 million.

During 1995, under the accounts clearance procedure for 1992, a proposal was put to the Commission for the recovery of ECU 1 026.5 million out of a total of ECU 32 083 million. The Commission's definitive decision on the subject reducing the amount to be recovered to ECU 997.5 million was adopted in early 1996, with the financial controller refusing to affix his control stamp.

In addition 1995 saw the definitive adoption of Council Regulation (EEC) No 1287/95 and Commission Regulation (EEC) No 1663/95 on the reform of the clearance of accounts procedure. The accounts clearance departments had lengthy discussions on the subject with the European Parliament, which intends keeping a very close eye on clearance decisions.

This also applied to the Court of Auditors, which looked into expenditure in the agricultural sector during the 1994 financial year, in particular at DG VI's clearance departments, in connection with the insurance declaration (DAS) to be presented to the European Parliament. Previously, and also at the request of the Parliament, similar work has been undertaken by the Court of Auditors on the clearance of accounts decision for the 1991 financial year adopted by the Commission.

In 1995 too the conciliation body began its work, which involved observations on the clearance of the 1992 accounts and led to a series of new, lengthy preventive measures on the part of the Commission clearance departments following on the conciliation procedure.

At the same time, preparation of the accounts clearance procedure relating to the 1993 financial year continued to the stage of dialogue with the Member States.

Checks were also conducted intensively in the Member States on expenditure under the 1994 and 1995 financial year.

A working document outlining the work of the EAGGF Guarantee Section during the 1995 financial year is available in German, English and French.

REMARKS

1. The budget nomenclature is changed each year to take account of developments in the common agricultural policy and its financing. Thus, in 1994, certain expenditure was not booked in the same chapter as it had been in 1993:

| | 1993 | 1994 |
|---------------|------------------------------|---|
| Cereals | Chap. 10 Cereals and rice | Chap. 10 Arable crops |
| Rice | Chap. 10 Cereals and rice | Chap. 18 Other crop products |
| Olive oil | Chap. 12 Oils and fats | Chap. 12 Olive oil |
| Oilseeds | Chap. 12 Oils and fats | Chap. 10 Arable crops |
| Protein crops | Chap. 13 Protein crops | Chap. 10 Arable crops |
| Dried fodder | Chap. 13 Protein crops | Chap. 13 Dried fodder and dried vegetables |
| Set-aside | Chap. 40 Set-aside | Chap. 10 Arable crops |

As a result, there has been a change in the way expenditure is grouped in the following summary tables (Annexes 3, 4, 8 and 25b).

In order to ensure that comparisons with past data are not distorted, i.e. to avoid cases where there seems to be a large difference in the amount of expenditure from one year to the next in a given sector, simply as a result of a change of grouping, the following principle is followed:

- the most recent nomenclature is used (1995) in this report,
- the aggregates for previous years are recalculated for this nomenclature.

However, this means that certain sub-totals published in this report are different to those published in the reports of previous years. For example:

1990 expenditure of Chapter 10, Cereals and Rice, amounted to ECU 3.261,5 million (Annex 3 to the Twenty-Third Financial Report, page 145). This is the "real" expenditure in the accounting meaning of the term.

To make comparisons possible, 1990 expenditure under Chapter 10, Arable Crops, as recalculated is given as ECU 7.834,5 million in this Report (Annex 3).

This figure was obtained as follows:

| | |
|---|-----------|
| 1990 expenditure under old Chapter 10, Cereals and Rice | 3884,6 |
| - 1990 expenditure on rice | - 85,1 |
| + 1990 expenditure on oilseeds | + 3.477,0 |
| + 1990 expenditure on protein crops | + 834,8 |
| - 1990 expenditure on dried fodder | - 298,0 |
| + 1990 expenditure on set-aside | + 21,2 |
| <hr/> | |
| New total 1990 expenditure under Chap. 10, Arable Crops | 7.834,5 |

No important changes have been made to the budget nomenclature for 1995.

2. Certain totals or sub-totals of expenditure in the following tables sometimes differ by ECU 0,1 million from the amount obtained arithmetically by adding the lines or columns. This difference is due to rounding up and down. The totals are generally expressed in ECU million while the calculations are carried out using amounts in ecus.

COMMENTS :

The breakdown of expenditure by Member State is made purely for accounting purposes and must be treated with the utmost caution if analytical conclusions are to be drawn from it, given that, firstly, the deadlines for payments may differ very considerably depending on the Member State and, secondly, that the expenditure incurred by the latter on account of the fact that the Community constitutes for agricultural products a unified economic area. As an example of this, some export refunds for a product coming from one Member State are paid by another Member State or buying-in may take place in a neighbouring country.

| | Food aid (³) (⁴) | 347,3 |
| | Others (⁵) | 328,6 |
| TOTAL | | 34.502,7 |

(¹) Expenditure charged against the 1995 budget.

(²) This total corresponds to the sum of refunds and interventions and not to the total of each Chapter because some expenditure is broken down under "food aid" and "others", below.

(³) The breakdown of intervention by economic category is shown in annex 6.

(⁴) - ECU 0,8 million were booked to Chapter 37 -"Clearance of accounts" for recovery following fraud. The totals of these two Chapters are - ECU 0,8 million short of the totals given in Annexes 2, 3 and 4.

(⁵) "FOOD AID" regroups Chapter 35 "distribution to deprived persons" (ECU 170,6 million) and free distribution of fruit and vegetables to the Caucasus and Central Asia (ECU 40 million) and of agricultural products (ECU 136,7 million) concerning Chapters 15 and 18 respectively with (⁶).

(⁶) In "OTHERS" are included expenditure on: programme to the remote and insular regions (ECU 245,6 million), register of olive cultivation (ECU 6,5 million), measures to control epizootic diseases (ECU 7,7 million) and ECU 68,8 million concerning several Chapters with (⁷) and also Chapter 39.

Exchange differences are due to the fact that advances paid for a given month do not tally perfectly with expenditure committed during that month (advances are rounded off and retro-active corrections are made). The differences between the two amounts are therefore converted into ECUS at the rate of the following month, hence the gaps in ECUS booked as exchange differences.

FREE SUPPLY OF AGRICULTURAL PRODUCTS TO THE COUNTRIES OF CENTRAL
AND EASTERN EUROPE AND THE FORMER USSR

Since 1989 the Community, acting under various regulations, has provided free supplies of agricultural products for the populations of a number of central and eastern European countries and the former USSR.

A report on the measures taken between 1989 to 1994 can be found in Annex 25 to the 27th Financial Report (pages 201 to 213).

The following tables show the measures carried out in 1995 for Georgia, Armenia, Azerbaijan, Kyrgyzstan, Tajikistan and Moldova.

On 27 July 1994 the Council adopted Regulation (EC) No 1999/94, which provides for the free supply of agricultural products to the above countries with a view to improving the food situation and taking account of the wide variety of local situations without compromising development towards supply in accordance with market rules.

Of the total budget for the operation (ECU 204 million), ECU 165 million were taken from EAGGF appropriations.

⁽¹⁾ This heading includes "classical" expenditure on storage, withdrawals, incentives and production, processing and marketing aid.

⁽²⁾ This heading includes expenditure on "compensatory" production aid introduced by the CAP reform adopted in 1992.

For 1993, this concerns ECU 2.866,2 million in aid to oilseed producers.

For 1994 it concerns ECU 8.830,8 million for aid per hectare for arable crops (cereals, oilseeds and protein crops), ECU 1.290,2 million for set-aside and ECU 1.803,2 million for premiums for male bovine animals and suckler cows.

For 1995 it concerns ECU 11.089,3 million for aid per hectare for arable crops (cereals, oilseeds and protein crops), ECU 2.162 million for set-aside and ECU 2.438,6 million for premiums for male bovine animals and suckler cows.

⁽³⁾ This heading covers various Chapters such as anti-fraud measures, clearance of accounts (which concerns recovery and is booked as negative expenditure).

⁽⁴⁾ Not including expenditure from non-automatic carryovers of appropriations from previous years carried out between 1990 and 1994.

ANNEX 27

AMENDMENTS TO THE RULES GOVERNING THE EAGGF GUARANTEE SECTION

During 1995 the rules governing the EAGGF Guarantee Section, or relating to the common agricultural policy and having substantial implications for the EAGGF Guidance Section, have been the subject of a certain number of amendments. Some important measures have also been taken in the context of day-to-day management. The regulations in question are listed below.

A Regulations specifically concerning the EAGGF Guidance Section

- a) Council Regulation (EC) No 1287/95 of 22 May 1995 amending Regulation (EEC) No 729/70 on the financing of the common agricultural policy (OJ No L 125, 8.6.1995)**

The purpose of this Regulation is to rationalize the clearance of accounts of the EAGGF Guarantee Section by setting up two distinct procedures, one for closing accounts and the other for checking conformity.

- b) Council Regulation (EC) No 1469/95 of 22 June 1995 on measures to be taken with regard to certain beneficiaries of operations financed by the Guarantee Section of the EAGGF (OJ No L 145, 29.6.1995).**

This Regulation introduces a Community scheme enabling the competent national authorities to identify operators who have committed irregularities with Community funds or who are suspected of having done so and to bring such individuals to the attention of the competent authorities of the Member States and the Commission as soon as possible.

- c) Council Regulation (EC) No 1527/95 of 29 June 1995 regulating compensation for reductions in the agricultural conversion rates of certain national currencies (OJ No L 148, 30.6.1995)**

This Regulation lays down the measures to be taken in the event of a substantial reevaluation of the agricultural conversion rates (ACRs) before the end of 1995 as a result of monetary fluctuations. It authorizes the grant, subject to the Commission's approval, of digressive national aid to offset any loss of income resulting from monetary fluctuations.

- d) **Commission Regulation (EC) No 1663/95 of 7 July 1995 laying down detailed rules for the application of Council Regulation (EEC) No 729/70 regarding the procedure for the clearance of the accounts of the EAGGF Guarantee Section (OJ No L 158, 8.7.1995)**

This Regulation concerns the implementation of the reform of the clearance procedure.

- e) **Council Regulation (EC) No 1975/95 of 4 August 1995 on actions for the free supply of agricultural products to the peoples of Georgia, Armenia, Azerbaijan, Kyrgyzstan and Tajikistan (OJ No L 191, 12.8.1995)**

This Regulation fixes the contribution from EAGGF Guidance Section under the 1995 budget for the free supply of agricultural products to the countries concerned for the winter of 1995/96 at ECU 80 million.

- f) **Council Regulation (EC) No 2535/95 of 24 October 1995 amending Regulation (EEC) No 3730/87 laying down the general rules for the supply of food from intervention stocks to designated organizations for distribution to the most deprived persons in the Community (OJ No L 260, 31.10.95)**

The purpose of this Regulation is to enable the programme of aid to the most deprived to continue in the event of a shortage of products in public intervention stocks by authorizing purchase of these products on the Community market.

- g) **Commission Regulation (EC) No 2785/95 of 1 December 1995 fixing depreciation percentages to be applied when agricultural products are bought in for the 1996 financial year (OJ No L 289, 2.12.95)**

This Regulation fixes the depreciation percentages for the 1996 financial year so that depreciation can be entered in the books when products are bought in covering most of the difference between the buying-in price and the foreseeable disposal price.

B. Rules relating to the agricultural policy which have a substantial impact of the EAGGF Guidance Section

- a) **Council Regulation (EC) No 150/95 of 23 January 1995 amending Regulation (EEC) No 3813/92 on the unit of account and the conversion rates to be applied for the purposes of the common agricultural policy (OJ No L 22, 31.1.1995)**

This Regulation confirms the abandonment of the switchover mechanism and introduces a new mechanism for determining agricultural conversion rates (ACRs).

b) Council Regulation (EC) No 603/95 of 21 February 1995 on the common organization of the market in dried fodder (OJ No L 63, 21.3.1995)

In accordance with the 1994/95 price package agreement, this Regulation introduces a new aid scheme for dried fodder.

c) Council Regulation (EC) No 711/95 of 27 March 1995 amending Regulation (EEC) No 2075/92 on the common organization of the market in raw tobacco (OJ No L 73, 1.4.1995)

The purpose of this Regulation is better to guide production and to enable Member States to pay premiums directly to producers.

d) Council Regulations (EC) No 1553/95 and No 1554/95 of 29 June 1995 laying down the general rules for the system of aid for cotton and repealing Regulation (EEC) No 2169/81 (OJ No L 148, 30.6.1995)

These Regulations make major amendments to the existing scheme and recast Regulation (EEC) No 2169/81 to take include the many amendments which have been made to it.

e) Council Regulation (EC) No 3072/95 of 22 December 1995 on the common organization of the market in rice (OJ No L 329, 30.12.1995)

This Regulation sets up a common organization of the market in rice comprising common price arrangements with the fixing of an intervention price for paddy rice, taking account of the conclusions of the multilateral trade negotiations of the Uruguay Round and introduces a per-hectare compensatory payment scheme.
