

COMMISSION OF THE EUROPEAN COMMUNITIES

COM (76) 686 Final

Brussels, 22nd December 1976

Amendments

to the

Proposal for a decision adopting a multi-
annual programme for the period 1977-1980
in the field of Scientific and Technical
Research

(submitted by the Commission to the Council
in accordance with the second paragraph of
article 149 of the EEC Treaty and the second
paragraph of article 119 of the EAEC Treaty)

COMMUNICATION FROM THE COMMISSION TO THE COUNCIL

Subject: The Commission's proposal to the Council concerning the Scientific and Technical Education Programme.

On 21 July 1976, the Commission placed before the Council a draft decision adopting a multi-annual programme for the period 1977-1980 in the field of Scientific and Technical Education.

Acting on the opinion of the European Parliament, the Commission is amending its initial proposal in accordance, respectively, with the second paragraph of Article 149 of the Treaty establishing the European Economic Community and with the second paragraph of Article 119 of the Treaty establishing the European Atomic Energy Community, as follows:

Original Version

Art. 2

The upper limit for expenditure commitments and for staff necessary for the implementation of this programme shall be 5 million units of account and 7 Community Officials; the unit of account being defined in Article 10 of the Financial Regulation of 25 April 1973 applicable to the General Budget of the European Communities.

New proposed Version

Art. 2

The expenditure commitments and the staff necessary for the implementation of this programme are estimated at 5.4 million units of account and at 7 Community Officials; the unit of account being defined in Article 10 of the Financial Regulation of 25 April 1973 applicable to the General Budget of the European Communities.

Annex

Paragraph 1

Award of grants for scientific research work at various levels of training (diploma, dissertations, PhD theses, post-doctorate research). Eligible for these grants are students of science or scientists and engineers from the Member States of the Community holding a diploma or doctorate. The research work must be carried out in a Community country other than the applicant's native country or his country of permanent residence.

Paragraph 1

Award of grants for scientific research work at various levels of training (diploma, dissertations, PhD theses, post-doctorate research). Eligible for these grants are well qualified students of science or scientists and engineers from the Member States of the Community, including scientists and engineers working in industry. The research work must be carried out in a Community country other than the applicant's native country or his country of permanent residence.
