NEW INVESTMENTS IN PRODUCTIVE UNDERTAKINGS, STUDIES, ASSISTANCE, PUBLIC RELATIONS (Chapter 32)

Feasibility studies, market and financial analysis (including planning of Industrial Development Enterprises) (Art.321)

These studies cover new or existing enterprises and will be undertaken to support ACP requests for project evaluations. Joint ventures with partners committed to sharing study costs will be promoted to ensure project implementation after positive results of studies. As the concept of Engineering and Development Enterprises becomes better known, more requests will be expected. This is the development of specific engineering/rural/island enterprises where a central manufacturing facility supplies tools, parts, repair/maintenance and engineering and other essential services to smaller 'satellite' facilities. A total of 30 interventions is planned.

Assistance with actual implementation of Industrial Enterprises (Art. 323)

This covers start-up assistance for new or diversification of existing enterprises. Project visits and discussions are used to generate requests and will be stepped up in 1984, e.g. for management/technical assistance, study evaluations, negotiations for joint venture agreement, short-term expertise, market development assistance, negotiation of equipment supply contracts, equipment evaluation (new or used).

Chapter 32 - NEW INVESTMENTS IN PRODUCTIVE UNDERTAKINGS, STUDIES, ASSISTANCE, PUBLIC RELATIONS

Art.321 - Feasibility studies, market and financial analysis (including planning of Industrial Development Enterprises)

- A total of 30 studies varying as to CIO contribution (30-80 % of total study costs) from some 6,000 to 40,000 ECU, with heavier contributions for Least Developed States.

TECHNICAL OPERATIONS & SERVICES (Chapter 33)

Assistance with expansion or rehabilitation of ACP industries (Art.331)

Increasing emphasis is being placed by ACP states on the need for rehabilitation of industries. As well as providing expert consultancies to assess companies' needs (30 interventions), it is intended, wherever possible, to provide follow-up assistance with technical management advice, and other essential inputs towards implementation (6 interventions in projects not involving new financial EEC partner).

Development of industrial profiles based on proven adapted technologies (Art.332)

Further profiles will be added to the CID's inventory in those areas of adapted technology which have high priority in ACP States, such as agro and wood industries. In addition, 3 adapted technology development projects (pilot projects) are expected to be implemented under this Article.

Implementation of selected enterprises based on adapted technologies (Art.333)

The demand for projects to be implemented along the lines of the CID's published adapted technologies continues to grow, and suitable profiles will be implemented under this Article. 5 projects with substantial CID input are expected to be implemented.

of the Centre for Industrial Development

THE ACP-EEC COMMITTEE ON INDUSTRIAL CO-OPERATION,

Having regard to the second ACP-EEC Convention signed at Lomé
on 31 October 1979, and in particular Article 81(2) thereof,
