<b>CHAPTER</b>	<b>Veterinary controls</b>	<b>Number 42</b>	<b>External Impl:</b>
<b>TITLE</b>	Council Directive of 28 January 1991 on animal health conditions governing intra-community trade in ovine and caprine animals (91/68/EEC).		All of the Directive. Animals of the ovine and caprine species belong like the animals of the bovine species and are sensitive to the same diseases. The livestock of the Community is therefore exposed to a similar danger at the importation from a third country. Consequently it is necessary to refer in general to the rules laid down by Directive 72/462/EEC, which bears the necessary modifications to keep account of the specificity of animals belonging to the bovine species.
