BUDGET 40

EXPLANATORY MEMORANDUM

Subject: Financial information on the European Development Funds
- Document annexed to the draft budget for 2010

COMMUNICATION FROM THE COMMISSION TO THE COUNCIL AND THE EUROPEAN PARLIAMENT

Financial information on the European Development Funds

FOREWORD

This document is to be annexed to the draft budget for 2010, in accordance with the 1979 agreements on the budgetary procedure.

In accordance with Article 7 of the Internal Agreement¹ and Article 57(3) and (4) of the Financial Regulation², the Commission presents in this document estimates of commitments, payments and contributions for the period 2009 to 2010, taking into account the forecasts of the European Investment Bank (EIB) concerning the Investment Facility.

As in previous years, this document sets out:

- implementation of the EDFs (8th to 10th) at 31.12.2008;
- financial implementation forecasts for the current year;
- expenditure forecasts for 2010.

The Member States contribute funds directly to the European Investment Bank for the instruments which it manages under the 9th and 10th EDFs (the Investment Facility and interest-rate subsidies). Contributions for other instruments, including contributions for the old instruments managed by the EIB (risk capital and interest-rate subsidies), go to the Commission.

¹ Internal Agreement between the Representatives of the Governments of the Member States, meeting within the Council, on the financing of Community aid under the multiannual financial framework for the period 2008 to 2013 in accordance with the ACP-EC Partnership Agreement and on the allocation of financial assistance for the Overseas Countries and Territories to which Part Four of the EC Treaty applies (OJ L 247, 9.9.2006, p. 32).

² Council Regulation (EC) No. 215/2008 of 18 February 2008 on the Financial Regulation applicable to the 10th European Development Fund.

Unless otherwise indicated, all the commitments and payments listed in this communication are gross amounts, i.e. no decommitments or recoveries have been deducted. This approach is in line with that used for the general budget of the EU.

INTRODUCTION

The Commission and the EIB have updated their commitment and payment forecasts for 2009 and 2010 for each of the ACP countries¹ and the OCTs². The payment forecasts in particular have been compiled with great care with the aim of helping the Member States to assess as accurately as possible the amounts they need to earmark in their national budgets while ensuring that sufficient financial resources are available for the EDF to avoid liquidity problems.

In accordance with Article 7 of the Internal Agreement on the 10th EDF³ and Article 57(5) of the Financial Regulation⁴, estimates will be revised in the October 2009 communication.

The graph below shows the general trend in commitments and payments, including projections for 2009 (Commission and EIB). It clearly shows the structural upward trend in payments since 2000.

⁴ Council Regulation (EC) No. 215/2008 of 18 February 2008 on the Financial Regulation applicable to the 10th European Development Fund

1. IMPLEMENTATION OF THE EUROPEAN DEVELOPMENT FUNDS AT 31 DECEMBER 2008 (COMMITMENTS, PAYMENTS AND FINANCIAL SITUATION)

Annex 1 shows actual commitments made in 2008 compared with the forecasts made in October 2008¹.

Annex 2 shows actual payments made in 2008 compared with the forecasts made in October 2008².

Annex 3 shows the financial situation recorded in 2008 and the projections made for 2009 and 2010.

2. FINANCIAL IMPLEMENTATION FORECASTS FOR 2009 AND 2010

The new forecasts are set out in Annexes 1 to 3.

The new forecasts for the 2009 contributions confirm the Commission's needs at EUR 3 300 million and the EIB's at EUR 165 million. Note that these amounts are the same as those decided by the Council in November 2008³.

Contributions for 2010 are forecast at EUR 3 500 million for the Commission and EUR 240 million for the EIB.

It should be stressed that these figures are just a preliminary forecast and must be treated with caution, notably in the light of COM(2009) 160 of 8 April 2009 on "Supporting developing countries cope with the crisis". The Commission and the EIB will make more reliable forecasts after the summer. They will be presented in the October communication.

** The level of payments forecast for 2009, namely EUR 3 321 million, is justified by the fact that in 2008 we paid out more than forecast because of the migration to a new accounting system.
