PRESENTATION OF ACTIVITIES BY POLICY SECTOR

1. Introduction

This working document contains snapshots of the policy sectors and includes the figures for all the committees in a sector. All individual committees under the responsibility of each Commission department (whether active or not) are listed, together with their relevant data. This approach provides for transparency of the policy sector activities. In addition, textual comments highlight important changes in the organisation and situations of disagreement in the work of the committees in the reporting year.¹

The following explanations are intended to make it easier for the reader to understand the statistical data. *Opinions* delivered by the committees may be of various kinds: they may concern draft Commission legislative acts (directives, regulations), decisions designed to regulate a specific legal situation or to approve financial projects in the context of any of the many Community programmes, or just position statements (which explains why the total number of favourable opinions may be greater than the total number of legal acts adopted in a specific sector). Consequently, the *implementing measures* adopted by the Commission reflect these categories.

In the event of a *favourable opinion*, the rule is that the Commission adopts the implementing measure; under the *management procedure* it may also adopt an implementing measure in the *absence* of an opinion (shown in the row ‘no opinion’, although a formal vote has taken place²). Only if there is an *unfavourable opinion* is the decision referred to the Council as the “appeal body”, which then has the power to decide (*referrals* to the Council). Under the *regulatory procedure*, the Council is also consulted if there is ‘no opinion’.

In Table IV (summary) of the Report, only the two categories of favourable opinions and unfavourable opinions appear as a single total figure under “Opinions”. Cases of “no opinions” (or “absence of opinions”), i.e., where a formal vote took place but the necessary (qualified) majority was not reached, are not included in the figures.

A further source of difference between the total number of *favourable opinions* delivered by committees and the number of *implementing measures* adopted by the Commission in a given sector occurs when opinions were delivered in 2004 but the instruments were only adopted the following year (2005), or opinions were adopted at the end of 2005 and instruments adopted only in 2006.

In certain cases committees are required to deliver opinions on dossiers which will not be the subject of a draft implementing measure until some time later. Hence, there may be considerable discrepancies between the total number of *opinions* and the number of *implementing measures* adopted by the Commission.

¹ Comments are made sector by sector, but only if relevant; they concern newly created (or transferred) and abolished committees and procedures (marked in the lists in *italics*), as well as votes which result in disagreement with the Commission’s draft measure, leading to unfavourable or “no opinions”.

² This situation occurs where the necessary quorum is not reached either for a *favourable* or for an *unfavourable opinion*.

A number of committees had no activity at all in the reporting year. This is indicated by the figure “0” in all rows. It is possible, however, that a committee did not meet at all in the reporting year, but delivered formal opinions. These opinions have been voted on by written procedure, in accordance with the Rules of procedure of the committee.

2. Horizontal figures: Number of committees by procedure and number of meetings

The comitology committees can be classified according to the type of procedure under which they operate (advisory procedure, management procedure, regulatory procedure, and safeguard procedure - see Table III). Since certain committees apply multiple procedures (ranging from the advisory procedure to the regulatory procedure, plus the safeguard procedure), they have been singled out from committees operating under a single procedure.

TABLE III – NUMBER OF COMMITTEES BY PROCEDURE (2005)

	Type of procedure				Committees operating under several procedures
	Advisory	Management	Regulatory	Safeguard	
ENTR	6	4	17	-	5
EMPL	1	-	3	-	2
AGRI	-	23	4	-	4
TREN	7	1	22	-	8

ESTAT	-	3	3	-	2
BUDG	1	-	1	-	-
OLAF	-	-	1	-	-
TOTAL	30	61	97	2	60

The figures indicate that about 40% of the committees (97 out of 250) work exclusively under the regulatory procedure, followed by a smaller number of committees working exclusively under the management procedure (61). The breakdown by policy sector shows that use of the three types of procedures varies from policy sector to policy sector. However, in some of the policy sectors, a clear dominance of one of the procedures can be noted: the *Transport/Energy, Environment and Enterprise* sectors, for instance, work with a large number of committees under the regulatory procedure, whereas *Agriculture* works with a large number of committees under the management procedure. In line with the above-mentioned policy of limiting the increase in the overall number of committees as far as possible, the Commission applies the practice of using existing committees for new comitology procedures.

TABLE IV – NUMBER OF MEETINGS

The number of committees is not the only indicator of activity at comitology level. The *number of meetings* held in 2005 reflects the intensity of work in general, at sector level and in individual committees (Table IV).

	2004	2005		2004	2005
ENTR	55	48	EAC	28	12

--------------	-----	----	-------------	---	---

As in 2005, *Agriculture* leads the field (with 308 meetings), since managing the different agricultural markets requires frequent meetings. *Agriculture* is followed by *Health and Consumer Protection* (with 114 meetings) and *Taxation and Customs Union* (with 94 meetings) and a group of other sectors, such as *Transport/Energy, Environment, Enterprise and Research*, where the number of meetings is in the range of 45 to 61.
