ANNEXES

I. SUMMARY TABLES

a) Direct measures

1. Aid granted from 1 January to 31 December 1979
2. Payments from 1 January to 31 December 1979
3. Payments up to 31 December 1979

b) Indirect measures

4. Payments in 1979

II. DIRECT MEASURES

a) Regulation (EEC) No. 355/77

5. Regional breakdown of aid granted in 1979
6. Regional breakdown of aid granted in 1978 and 1979
7. Breakdown by sector of aid granted in 1979
8. Breakdown by sector of aid granted in 1978 and 1979
9. Applications for aid in respect of 1979
10. Payments in 1979
11. Rate of payment of aid granted and implementation of projects
12. Programmes introduced
13. Programmes approved

b) Regulation No. 17/64/EEC

14. Regional breakdown of aid granted from 1964 to 1979
15. Breakdown by year and Member State of aid granted from 1964 to 1979
16. Breakdown by sector of aid granted from 1964 to 1979
17. Breakdown by project category of aid granted from 1964 to 1979
18. Applications for aid by year from 1964 to 1979
19. Payments in 1979
20. Payments up to 31 December 1979
21. Projects financed for more than five years
22. Utilization of amounts outstanding from before 1977
23. Rate of payment of aid granted and implementation of projects.
24. Reuse of released credits.

c) Regulation (EEC) No. 1852/78.

25. Aid granted in 1979.

III. INDIRECT MEASURES

26. Measures in progress - Amounts committed and payments made up to 31.12.1979, by measure and Member State
27. Measures completed - amounts committed and payments made up to 31.12.1979, by measure and Member State
28. Total amounts of reimbursements in 1979.

III. INDIRECT MEASURES (Contd.)

29. Reimbursements under the socio-structural Directives
30. Directives No. 72/159/EEC and No. 72/160/EEC
31. Directives No. 72/161/EEC and No. 75/268/EEC.
32. Structural measures connected with the common market organizations
33. Aid to hop and fruit and vegetable producers' organizations
34. Measure to encourage beef production and premiums for the non-marketing of milk
35. Eradication of brucellosis, tuberculosis and leucosis in cattle.
36. Measure of conversion in wine-growing and measure in aid of Community citrus fruit.
37. Measures for reorganizing Community fruit production
38. Producers' organizations in the fisheries sector.

IV. ADMINISTRATION OF THE BUDGET

39. Utilization of appropriation for commitment
40. Utilization of appropriations for payments
41. Trend of commitments

V. IRREGULARITIES

42. Irregularities in 1979
43. Communications in accordance with Articles 3 and 5 of Regulation (EEC) No. 283/72 up to 31.12.1979
44. Breakdown of cases of irregularity by measure and Member State up to 31.12.1979

1. GENERAL SITUATION

1.1. Introduction

The Guidance Section of the EAGGF, with less than 10% of the financial resources available to the Guarantee Section, is much less well endowed.

However, the Guidance Section is responsible for helping to finance the Community agricultural structures policy, an activity which is not only manifold but which also has a direct effect on the situation of agriculture, for the Section contributes towards:

- financing common measures decided upon by the Council for achieving the objectives set out in Article 39 (1)(a) of the Treaty;
- financing individual measures adopted by the Council before the adoption of Regulation (EEC) No. 729/70 (1);
- granting capital subsidies to projects for improving agricultural structures under Regulation No. 17/64/EEC (2), as extended by Regulation (EEC) No. 2992/78 (3).

The Guidance Section has two different manners of financing such measures. In most cases, financing is carried out by reimbursing part of the eligible expenditure by Member States (indirect measures). For other measures, direct subsidies are granted for projects which are in line with the objectives of the common measures in question (direct measures). Although the financial requirement differs sharply according to the structural or social shortcoming concerned, the breakdown of the financing of these measures into its three main fields in the following table shows that the appropriations committed are of roughly the same scale for each category.

(1) O.J. no. L 94, 28.4.1970, p. 13

(2) O.J. no. L 34, 27.2.1964, p. 586

(3) O.J. no. L 357, 21.12.1978, p. 3

Breakdown of EAGGF Guidance Section appropriations for 1979 according
to field concerned

Commitment appropriations

	1979 Budget from 15.12.78 + appropriations carried over from 1978 (million EUA)	Appropriations actually committed (million EUA)	
1. Socio-structural measures	208.2	141.1	68%
2. Production structures	301.3	171.5	57%
3. Marketing and processing	145.5	136.7	94%
4. Disasters (1)	-	12.1	-
<u>Totals</u>	655.0	461.4	70%

(1) The arrangement for incorporation in the Budget and the necessary appropriations were contained in Supplementary and Amending Budget No. 3 of 13 December 1979.

One of the persistent problems of the Guidance Section is that sometimes only a small proportion of the appropriations made available for the various measures are actually used. Although the rate of use of appropriations for processing and marketing measures was almost 100%, it was much lower for structural and social measures to assist agriculture proper where, for the last group (production structures) the rate hardly exceeded 50%.

This is an improvement over previous years but it is still necessary to make an effort to increase this percentage. The Commission has, indeed, made efforts in this direction for 1980 within its own areas of competence. Obviously, however, satisfactory results in this respect depend very largely on measures to be taken by the Member States, particularly as regards more rapid implementation of Community measures and speeding up some administrative procedures.

The detailed situation with regard to the various measures undertaken is set out below. The measure to improve the conditions under which agricultural products are processed and marketed (1) was in 1979, the second year in which it was applied, as in 1978, the common measure which absorbed the greatest quantity of appropriations committed. All the appropriations allocated for this horizontal measure (80 million EUA) were committed within the expected time. Lack of eligible projects meant that 19 million EUA of the appropriations for some southern regions of the Community (2) had to be carried over to 1979.

These 19 million EUA, together with 34.6 million of the 42 million EUA newly entered against 1979 were committed for projects to be carried out in the regions concerned, so that it has now been possible to reduce the amount carried forward to 7.4 million. A total of 133.6 million EUA has been committed for the measure during 1979 (compared with 103 million in 1978).

(1) O.J. no. L 51, 23.2.1977, p. 1

(2) O.J. no. L 166, 19.6.1978, p. 9

The second largest measure, from the financial point of view, was that provided for in Directive 75/268/EEC (1) on mountain and hill farming and farming in certain less-favoured areas.

Payments under this Directive amounted to 82.5 million EUA in 1979, compared with 34.6 million in 1978 and 60 million in 1977. Expenditure on this measure is fairly steady, the reduction in 1978 and the increase in 1979 resulting from some reimbursements not being able, for technical reasons, to be paid until 1979.

Expenditure under Regulation (EEC) No. 1078/77 (2) introducing a system of premiums for the non-marketing of milk and milk products and for the conversion of dairy herds, which had taken second place in 1978 with 66 million EUA, was third most important in 1979. The community contribution of the Guidance Section to this measure is 40 %, and 59.5 million EUA were paid out during the year.

Directive 72/159/EEC (3) on the modernization of farms continued to follow the very satisfactory 1978 pattern throughout 1979. Expenditure once again practically doubled over the previous year and reached 54.3 million EUA. The two Directives 72/159 and 75/268 together account for a level of expenditure comparable to that under Regulation (EEC) No. 355/77.

Among the common measures one can also point to the first expenditure in respect of the interim common measure for restructuring the inshore fishing industry and aquaculture (Regulation (EEC) No. 1852/78 (4)), amounting to 5 million EUA; the measure for the eradication of brucellosis, tuberculosis and leucosis in cattle (Directive No. 77/391/EEC (5)), amounting to 7.1 million EUA; and the programme to accelerate drainage operations in the less-favoured areas of the West of Ireland (Directive No. 78/628/EEC (6)), amounting to 3.8 million EUA.

 - (5) O.J. no. L 145, 13.6.1977, p. 44
 - (6) O.J. no. L 206, 29.2.1978, p. 5

Finally, during 1979, the last decisions to grant aid under Regulation No. 17/64/EEC took place. Sums totalling 115.4 million EUA were granted to 371 individual projects and 45.4 million of these were accounted for by reallocated appropriations.

With regard to legislation during 1979, apart from the measures already mentioned in the preceding report, an emergency measure was adopted to reconstitute the agricultural areas of the French Overseas Departments damaged by hurricanes David and Frederic (1). The Commission took a decision that same year, on 19 December 1979, to grant aid of 12.4 million EUA under this measure.

On 18 February 1980, the Council approved three common measures in respect of wine growing, concerning the granting of temporary and permanent abandonment premiums in respect of certain areas under vines and of premiums for the renunciation of replanting (2), establishing a system of premiums for the cessation of vine growing in France and Italy (3) and, finally, on collective projects for the restructuring of vineyards (4).

1.2. Policy and procedures

1.2.1. Coordination

The Task Force on the coordination of financial instruments having structural purposes, in addition to maintaining contact between the departments concerned, has continued its work of coordinating Guidance Section action financed by other Community instruments.

1.2.2. Publicity

As in the past, Commission publicity has been mainly concerned with highlighting the direct aid given to investment projects, as this is the type of aid most likely to be of general interest: the Community's participation is direct and the projects are usually of great local and regional importance.

1.2.3. Procedures

a) Where direct measures are concerned, Regulations (EEC) No. 219/78 (1) and No. 2572/78 (2) on the content and submission of applications for aid under Regulations (EEC) No. 355/77 and No. 1852/78 respectively enabled clear progress to be achieved in the rationalization and harmonization of aid applications. This made it possible to start processing some data by computer and led to a reduction in the number of requests for additional information. As a result, the time limits for decisions could be observed.

Because these implementing rules had given satisfactory results in practice, the Commission adopted similar provisions for the three measures to assist Mediterranean regions: on the improvement of public facilities (Regulation (EEC) No. 1760/78 (3)), reforestation (Regulation (EEC) No. 269/79 (4) and irrigation (Regulation (EEC) No. 1362/78 (5)).

(1) O.J. no. L 35, 4.2.1978, p. 10
(2) O.J. no. L 308, 1.11.1978, p. 19
(3) O.J. no. L 204, 28.7.1978, p. 1

(4) O.J. no. L 38, 14.2.1979, p. 1
(5) O.J. no. L166, 19.6.1978, p. 11

Regulations (EEC) No. 2467/79 (1) and No. 2468/79 (2) on public facilities and reforestation were adopted on 29 October 1979 and Regulation (EEC) No. 692/80 (3) on irrigation was adopted on 18 March 1980.

As regards the rules laid down in Regulation (EEC) No. 1685/78 (4) for submitting applications for the payment of aid, since relatively few applications have yet been submitted in accordance with these provisions it is too soon to draw definite conclusions.

- b) As regards measures with reimbursement, the Commission on 28 March 1980 adopted a Decision (5) amending Decisions 74/581/EEC (6) and 76/627/EEC (7) on reimbursements under socio-structural Directives 72/159 (8), 72/160 (9), 72/16 (10) and 75/268 (11). These Decisions provided that the Commission was to make a payment on account of 75% after a brief initial scrutiny of the applications for reimbursement sent in by Member States and was to pay the remaining 25% the following year after a thorough scrutiny.

As experience had shown that the difference between the reimbursements requested by Member States and the amount actually payable to them was very small the Commission decided, in view of the cumbersome nature of the system and to accelerate the payment of aid, that payment in the same year in which the application for reimbursement was submitted could be up to 100% of the amount due.

The Commission then adopted a number of decisions laying down the rules for the payment of advances and reimbursement in respect of certain measures for which national programmes had been approved. Thus, it adopted the implementing provisions in respect of advances and reimbursement under Directive 78/627/EEC (12) of 19 June 1978 on the

programme to accelerate the restructuring and conversion of vineyards in certain Mediterranean regions of France and Directive 79/359/EEC (1) of 26 March 1979 on the programme to speed up the conversion of certain areas under vines in the Charente departments.

The Commission also adopted the implementing provisions in respect of reimbursement under Directive 78/628/EEC (2) of 19 June 1978 on a programme to accelerate drainage operations in the less-favoured areas of the West of Ireland.

(1) O.J. no. L 85, 5.4.1979, p. 34

(2) O.J. no. L 206, 29.2.1978, p. 5

1.2.4. Budgetary arrangements

Article 6 of Regulation (EEC) No. 729/70 allocated 285 million u.a. per year to the Guidance Section. Regulation (EEC) No. 2788/72 increased this to 325 million when Denmark, Ireland and the United Kingdom joined the Community.

Regulation (EEC) No. 929/79 altered the method of allocating funds to the Guidance Section. Since 1 January 1980 there has not been a fixed annual allocation for the Section; instead, the appropriations in each year's budget are determined in accordance with normal budgetary procedure, in relation to the expected needs for that year.

However, the total amount for the five years 1980 to 1984 has been set at 3,600 million EUA. The amount decided upon by the Council for a five-year period will also apply for the following such period unless the Council decides otherwise.

Each five-year period stands on its own. As a result, the appropriations remaining from the financial year 1979 to 1980 (182m EUA) are to be deducted from the five-year ceiling of 3,600 m EUA, leaving an amount of 3,418 m EUA to be entered as appropriations for commitment in the budgets for 1980 to 1984. However, it should be noted that the Treaty concerning the accession of Greece refers to the need for this amount to be increased to take account of the additional expenditure incurred by the accession of Greece in 1981.

The appropriations not used at the end of a five-year period will be deducted from the amount for the following five years.

2. DIRECT MEASURES

2.1 Common measure concerning the processing and marketing of agricultural products (Regulation (EEC) No. 355/77)

2.1.1. Financing of 1979 projects

The Commission granted a total of 133,586,709 EUA of aid to 370 projects under Decisions dated 28 June and 20 December 1979 (1). In 1978 the aid was 102,926,529 EUA for 377 projects. The 370 projects subsidized by the Guidance Section represent a total investment of 550,309,545 EUA, or an average investment of 1,487,323 EUA per project: the average aid per project is 361,045 EUA.

Annexes 5 to 11 give details about the award of aid and payments realized in the framework of this action.

2.1.2. Programmes

Regulation (EEC) No. 355/77 provides that projects have to be incorporated, after a transitional period, in sectoral programmes approved by the Commission.

Since 1 January 1979, projects incorporated in programmes have priority and, from 1980 onwards, aid for other projects may not exceed 15% of the investments in the case of horizontal measures and 25% in the case of the regions and categories of project covered by Regulation (EEC) No. 1361/78.

Up to the beginning of March 1980, the Member States had introduced 66 programmes, of which 35 have been approved until the end of April 1980.

More details about the programmes are given in Annexes 12 and 13.

Investment under these programmes totalled about 5,000 M EUA, broken down as follows: 1,060 M EUA for France, 1,045 M EUA for Italy, 730 M EUA for the United Kingdom, 630 M EUA for the Federal Republic of Germany, 560 M EUA for Denmark, 430 M EUA for Ireland, 400 M EUA for the Netherlands and 115 M EUA for Belgium. Annexes 12 to 13 give more details about these programmes.

(1) O.J. no. C 217, 29.8.1979, p. 11 and
O.J. no. C 38, 15.2.1980, p. 6

2.2. Individual projects under Regulation No. 17/64/EEC

2.2.1. Financing of 1979 projects

The application of Regulation No. 17/64/EEC, which should have ceased in 1978, was extended for 1978 and 1979 by Regulation (EEC) No. 2992/78. Under that Regulation, projects could be submitted up to 31 December 1978. For this reason, the Commission was unable to decide in 1978 on the granting of the 70 M EUA of appropriations made available for this measure. It therefore confined itself in 1978 to reallocating the aid recovered under Regulation (EEC) No. 3171/75. These appropriations, which amounted to 12,010,933 EUA, were granted to 19 projects.

By decisions of 28 June and 20 December 1979 (1) the Commission granted a total of 115,388,684 EUA to 371 projects. In June the Commission granted the whole of the 70 m EUA newly entered for the extended measure and the December decision merely reallocated more appropriations recovered under Regulation (EEC) No. 3171/75.

The 371 projects subsidized by the Guidance Section represent a total investment of 436,416,416 EUA, or an average investment of 1,176,325 EUA per project; the average aid per project is 311,021 EUA.

Annexes 14 to 23 give details about the award of aid under this regulation.

2.2.2. Procedure problems

a) Projects not carried out

In 1979, 66 beneficiaries decided to forego the aid granted. As a result, 24,196,836.12 EUA were not used, namely 5,451,489.40 EUA for Italy, 13,185,065.84 EUA for Germany, 213,295.96 EUA for Belgium, 286,977.40 EUA for the Netherlands, 4,716,063.52 EUA for France and 343,944.09 EUA for the United Kingdom.

(1) O.J. No. C 217 of 29.8.1979, p. 1 and
O.J. No. C 38 of 15.2.1980, p. 2

Further, pursuant to Regulation (EEC) No. 3171/75, the Commission cancelled the aid granted for 23 Italian projects, a total of 3,343,918.31 EUA.

Projects carried out in disregard of the conditions laid down

In 1979 the Commission cancelled all or some of the aid granted for certain projects representing a total of 1,547,704 EUA because the work had been carried out entirely or partly in disregard of the conditions laid down.

Projects carried out at lower cost than estimated

In 1979 a sum of 7,986,840 EUA was not used since the actual eligible expenditure proved to be less than the estimates on which the aid decision had been based.

Details about the reuse of appropriations are given in Annex 24.

b) Delay in requests for payments

As in previous years, payment of aid proceeded most slowly in Italy and in Ireland. The reasons for these delays are mainly the long time taken to start work, the long time taken to carry it out and the time taken by the administrative processes of preparing and forwarding applications for payment.

It is to be expected that the measures taken to accelerate these procedures will lead to more satisfactory results in years to come.

2.3. Measures in aid of Mediterranean zones

In the framework of Regulations (EEC) No. 1362/78 (1) (Irrigation programme for the Mezzogiorno), No. 1760/78 (2) (public amenities in certain rural areas) and No. 269/79 (3) (Common measure for forestry in certain Mediterranean zones), the Commission has adopted the Regulations (EEC) No. 692/80 (4), No. 2467/79 (5) and No. 2468/79 (6) which lay down rules concerning the content and submission of applications for aid in connection with the above measures, for which the outline programmes presented by the Italian and French Member States have already been approved by the Commission.

2.4. Conversion projects in the salt cod fishing industry (Regulation (EEC) No. 2722/72 (7))

The situation at 31 December 1979 was as follows:

The Commission had financed 12 projects (3 German and 9 French) for a total of 9,582,917.92 EUA and payments since the start of the measure totalled 9,044,604.42 EUA.

In 1979, 1,131,982.65 EUA were paid out for French projects. The balance outstanding relates to two French projects.

2.5. Interim common measure for restructuring the inshore fishing industry (Regulation (EEC) No. 1852/78 (8))

On 29 March 1979, the Commission decided on the grant of aid in respect of this measure for 43 projects representing a total investment of 16,401,146 EUA, or an average investment of 381,422 EUA per project; the average aid per project is 116,084 EUA.

Of the 43 projects financed, 37 involve the building of fishing boats with aid totalling 2,918,177 EUA and 6 the construction or modernization of aquaculture installations with aid totalling 2,073,429 EUA.

Further indications concerning aid granted are given in Annex 25.

2.6. Earthquake in Friuli/Venezia Giulia (Regulation (EEC) No. 1505/76 (1)
(Implementation of the First Supplementary Budget for 1977 (Title V -
Social and Regional Fund) - Aid for Friuli

Under Council Regulation (EEC) No. 1505/76 of 21 June 1976 on the Community contribution towards repairing the damage caused to agriculture by the earthquake in May 1976, in the Friuli/Venezia Giulia region, 45 million u.a. have been granted to individual projects.

In 1979 payments totalled 3,242,507.82 EUA; the balance of 20,522,110.62 EUA will be carried over to 1980.

Information received by the Italian authorities and result of visits indicates that the work is progressing and that applications for more substantial payments can be expected in 1980.

2.7. Hurricanes "David" and "Frederick" (Regulation (EEC) No. 2395/79 (2)

As a gesture of Community solidarity with the populations victims in the French overseas departments of the damage caused by hurricanes "David" and "Frederick" in August and September 1979, Council Regulation (EEC) No. 2395/79 provided for a Community contribution which has been entered in Article 819 of the Supplementary Budget for 1979.

In November 1979, the French authorities submitted an application to the Guidance Section giving information on the situation in the two departments and an assessment of the damage, describing the work to be carried out and stating the amount of national aid granted. The Community aid requested was 70,400,000 FF. On 19 December 1979, the Commission decided to grant France the aid in question, divided into two categories:

- reconstitution of banana plantations and fruit orchards, and repair of areas used for flower cultivation: 67,000,000 FF;
- repair of rural infrastructure: 3,400,000 FF.

(1) O.J. no. L 168 of 28. 6.1976, p. 9

(2) O.J. no. L 275 of 1.11.1979, p. 1

3. INDIRECT MEASURES

3.1. The information to finance indirect measures is given in the following tables:

- a) Socio-structural Directives: Annex 29 to 31.
- b) Measures to assist less-favoured regions.
 - Directive No. 75/268/EEC on mountain and hill farming and farming in certain less-favoured areas: Annex 31.
- c) Structural measures connected with the Common Market organizations.
 - Hop and fruit and vegetable producers' organizations. Annex 33 (Regulations (EEC) No. 1696/71 and 1035/72)
 - Measure to encourage beef production and premiums for the non-marketing of milk: Annex 34. (Regulations (EEC) No. 1353/73 and 1078/77).
 - Eradication of brucellosis, tuberculosis and leucosis in cattle. (Directive No. 77/391/EEC): Annex 35.
 - Measure of conversion in wine-growing and measure in aid of Community citrus fruit. (Regulations (EEC) No. 1163/76 and 2511/69): Annex 36.
 - Measures for reorganizing Community fruit production. (Regulation (EEC) No. 2517/69 and 794/76): Annex 37.
 - Producers' organizations in the fisheries sector (Regulation (EEC) No. 100/76): Annex 38.

3.2. For certain new indirect measures the Commission has adopted the implementing provisions in respect of requests for reimbursement and payment of advances.

The following measures are concerned:

- Restructuring and conversion of vineyards in certain Mediterranean regions of France (Directive 78/627/EEC).
- Conversion of certain areas under vines in the Charente departments (Directive 79/359/EEC).
- Programme to accelerate drainage operations in the less-favoured areas of the west of Ireland. (Directive 78/628/EEC).

For the measure in Ireland, the Commission has paid a first advance payment of IR£ 2.56 million (3.8 M EUA) in 1979.

3.3. Justification of fixed aid to Italy

At 31 December 1978, the payments situation, based on records supplied by Italy, was as follows:

	Aid granted under		
	R. 130/66 Article 4	R. 130/66 Article 12	R. 159/66
(a) Aid paid to Italy by EAGGF Guidance Section	45.0 MUA	15.0 MUA	87.30 MUA
(b) Amount of aid paid to beneficiaries by Italian Government	55.1 MUA	16.4 MUA	54.63 MUA
(c) Amount outstanding	-	-	32.67 MUA

The situation at 31 December 1979 was not yet known but, on the basis of a partial set of figures dated 7 September 1979, it would seem that expenditure has progressed. However, Italy has still not fulfilled its obligations, nor kept to the deadlines for the use of Community funds. On 8 June 1978, the Commission brought an action before the Court of Justice. Proceedings are in progress.

4. GUIDANCE SECTION APPROPRIATIONS

4.1. 1979

The indications about the execution of the budget are given in Annexes 39 to 41.

4.2. Contributions

Appropriations committed between 1964 and 1971 are covered by Member States' contributions calculated on the basis of specific cost-sharing formulae. By previous agreement these contributions are only called for as and when required.

In 1979, the Commission noted that the net commitment to be covered by the contributions amounted to 888,311,421.81 EUA, of which the Member States had already paid 825,241,694.62 EUA. Consequently, a further amount of 63,069,727.19 EUA was called for.

The breakdown of contributions by Member States is as follows:

BELGIUM	72,036,087.23
GERMANY	276,417,694.93
FRANCE	270,707,309.57
ITALY	187,372,078.04
LUXEMBOURG	1,826,853.42
NETHERLANDS	79,951,398.62

5. VERIFICATION AND IRREGULARITIES

5.1. Verification of direct measures

a) Checking of applications for payment

Checking of the documents sent in by the Member States to the Commission in 1979 showed that in 186 cases, payment would have to be refused because of insufficient data, especially on the following aspects:-

- technical description of work completed and compliance with estimates;
- financing of actual expenditure;
- date of commencement of work;
- conditions laid down by the decision.

These refusals, followed by requests for additional information, concerned 14% of the applications for payment, i.e. 46% for France, 43% for Denmark, 34% for the United Kingdom, 29% for Italy, 18% for the Netherlands, 16% for Ireland, 7% for Germany and 5% for Belgium.

In the majority of cases, the additional information removed the doubts surrounding the applications and payment was made. However, in 11 cases, the aid had to be discontinued or reduced because all or part of the project had been started before the application for aid had been sent to the Commission. Of these 11 cases, 6 were French, 2 Belgian, 2 Irish and one Dutch.

b) Inspection on the spot

In 1979, inspection visits were made to 7 projects, one in Germany, two in France, two in Ireland and two in Belgium. The visits showed that payment of the aid was justified in all cases.

The constant work entailed in examining applications for payment has made it impossible to increase the number of inspection visits. Briefing sessions were held between Commission officials and their national counterparts in Brussels, London, Rome, Paris and Dublin. These seminars, mainly concerning Regulation (EEC) No. 355/77, gave Commission officials a clearer insight into national verification procedures, enabling them to point out possible loopholes and to suggest improvements to obviate the need for so many requests for additional information. Similarly, national officials had the opportunity to find out more exactly what a properly-compiled application for payment should consist of.

5.2. Verification of indirect measures

a) General socio-structural measures

Directive No. 72/159/EEC on the modernization of farms

Two inspection visits were carried out in this connection in 1979, one in Belgium and one in the Netherlands. In Belgium, data relating to payments in 1976 and 1977 was spot-checked on the premises of the competent authorities, together with development plans. Two farms were also visited in the province of Brabant.

The visits showed the conditions were being fulfilled; however, in some instances a difference of approach was noted in the interpretation of certain conditions. Consequently, payment of the remaining sum for these years was held over and the Member State was asked to supply further explanations.

In the Netherlands the data concerning payments in 1973-77 were spot-checked, together with all the supporting documents, on the premises of the relevant department. In addition, two holdings in the "Zonzeel" reparacling scheme were visited.

The inspections showed that the calculation of premiums had been correct but, with regard to Article 13, it was found that more up-to-date figures should be used and the presentation of reparacling cases should be improved.

The Netherlands authorities were asked to provide additional information and supporting documents.

b) Directive 72/160/EEC concerning measures to encourage the cessation of farming and the reallocation of utilized agricultural area for the purposes of structural improvement

Inspection visits were carried out in Germany where the number of beneficiaries of this measure is the highest in the Community. A visit was paid to the "Gesamtverband der Landwirtschaftlichen Altekassen Deutschlands", Kassel, which is the central administration responsible for coordination and information on the granting of annuities by the 19 "Landwirtschaftliche Altekassen" (agricultural pension funds) of the various Länder.

Data concerning expenditure in 1974-77 were checked at the "Landwirtschaftliche Altekasse Hessen-Nassau" and the use of released land was checked with the "Landwirtschaftsamt Kassel".

The inspection revealed nothing worthy of note.

c) Measures to assist less-favoured areas

Directive 75/268/EEC on mountain and hill farming and farming in certain less-favoured areas

Two inspection visits were carried out in 1979, one in Ireland and one in the United Kingdom.

The visits were mainly concerned with expenditure on compensatory allowances pursuant to Title II and aid to joint investment schemes for fodder production and to improvement and equipment schemes for pasture and hill grazing land which is farmed jointly, pursuant to Title IV of the Directive.

In Ireland the inspection concerned expenditure in respect of 1977. The inspection took place at the Department of Agriculture, Dublin, and at the offices of the regional administration for County Kerry where payments in 1977 under Title II and Title IV represented 9% and 14% respectively of the total amount paid by Ireland in 1977. It was checked that the Community conditions were fulfilled and that the calculation of the aid had been carried out correctly. However, in some cases a problem of interpretation was noted in connection with the definition of a farmer in receipt of a retirement pension, which could have an effect on the eligibility of the allowance granted. There was no cause for stopping the payment of the balance but a more thorough study of the matter was required.

In the United Kingdom, expenditure in 1977 was checked at Edinburgh and Aberdeen for three Scottish counties in which expenditure represents 10% of the total amount for Scotland (Scotland receives 43% of total U.K. expenditure on this measure). Inspection of the supporting documents showed that the aid had been granted in accordance with the requirements of the Directive and that the calculations of the Community contribution had been carried out correctly; consequently, payment of the balance was authorized.

- d) Structural measures connected with the Common Market organizations Regulation (EEC) No. 1353/73 introducing a premium system for the conversion of dairy herds to meat production and a development premium for the specialized raising of cattle for meat production

Two inspection visits were carried out in 1979, one in Belgium and one in the Netherlands.

In Belgium, inspections carried out at the central administration in Brussels concerned national implementing provisions, the consistency between the various instalments of payment, and cases of irregularity declared under Regulation (EEC) No. 283/72. Inspections gave rise to no special comment. Data concerning four farms in Hainault, selected at random and representing about 8% of the premiums paid by Belgium in 1978, were given a thorough inspection and the farms were visited to check that dairy production had ceased.

In the Netherlands spot-checks were made of the data relating to eight provinces for 1974-78, representing about 11% of the total payments made by the Netherlands for those years. Examination of the data and supporting documents of the national implementing provisions for their compliance with Community rules gave rise to no special comments. One dairy was visited to check that milk deliveries had ceased.

- e) Regulation (EEC) No. 1035/72 on the common organization of the market in fruit and vegetables

Two inspection visits were carried out in Italy. The inspecting officials took part in checks organized by the Ministry of Agriculture in connection with the operation of all organizations of fruit and vegetable producers.

The structure and operating methods of four producers' organizations in the regions of Catania, Messina, Matera and Venezia were studied.

(f) Regulation (EEC) No. 1163/76 on the granting of a conversion premium in the wine sector

An inspection visit was carried out in France; it concerned national implementing provisions and expenditure in 1977 and 1978. Examination of the data and supporting documents relating to 59 cases, selected at random and representing 1% of national expenditure for the two years in question, gave rise to no special comments. Two holdings which had received the premium in the departments of Indre-et-Loire and Loir-et-Cher were visited and grubblings and replantings were checked.

(g) Regulation (EEC) No. 794/76 on the reorganization of fruit production

An inspection visit was carried out in France. Data relating to payments in 1976 and 1977 were spot-checked in 26 individual files representing about 4% of national expenditure in those two years. Examination of the data and supporting documents of the national implementing provisions for their compliance with Community rules gave rise to no special comments.

Two holdings which had received the premium in the departments of Indre-et-Loire and Loir-et-Cher were visited to check that fruit trees had been grubbed.

5.3. Irregularities relating to the guidance of section

Details of the irregularities are given in Annexes 42 to 44.
