PRESENTATION OF THE EC 2002 ANNUAL REPORT TO CITES

In accordance with Art. 15 (4) of Regulation (EC) 338/97¹ as well as with regard to Art. VIII 7 (a) of the Convention, the European Commission gathered the necessary trade data from all Member States and charged the UNEP World Conservation Monitoring Centre with the production of the annual report. Equivalent information was gathered for non-CITES species, included in Annexes B and D to Regulation (EC) 338/97.

Annexes with information on each Member State's individual trade with third countries have been established as well. These annexes contain to the extent possible for each shipment:

- the States with which such trade occurred,
- the number or quantities and types of specimens,
- the Latin names of the specimens,
- size and sex of the specimens; where applicable,
- purpose of the export; re-export, import or introduction from the sea,
- permit numbers.

Because of the volume of these annexes they will not be published together with the Community report. They were, however, made available to the Convention Secretariat. Requests from Parties for information on individual shipments can be addressed to the European Commission, Environment Directorate General, Unit ENV/E/2, B-1049 Brussels, telefax 32 2 2969558.

¹ OJ L 61 of 3.3.1997, p. 1

INTRODUCTION TO THE EC 2002 ANNUAL REPORT TO CITES

The Community and CITES

1. The Community is not yet a Party to CITES in its own right. In 1983, an amendment to CITES was adopted which would allow Community accession. This “Gaborone” Amendment requires 54 ratifications (two-thirds of the 80 parties that were a Party in 1983). To date, 43 of those Parties have deposited the necessary instruments of ratification. Nevertheless, the Community has been implementing CITES since 1 January 1984 initially through Council Regulation (EEC) No. 3626/82² and Commission Regulation (EEC) No. 3418/83³ and its modifications and updates.
2. *Over the years, wildlife trade regulations have shifted from a national matter to one of Community competence.* External trade rules are an exclusive Community competence and hence require Community involvement. Further, implementation of the CITES Convention by individual Member States was only possible under a derogation from the provision of the Treaty of Rome that Member States cannot adopt quantitative trade restrictions between them. Article 36 of the Rome Treaty conditionally allows such trade restrictions between Member States for the protection of the life and health of animals and plants. Generally, this does not apply to areas covered by Community legislation.

In addition, in 1982, only five of the Community Member States were Party to the Convention. The absence of systematic border controls between Member States, as a result of the customs union, made implementation of the Convention by individual Member States ineffective at best.

Apart from these technical reasons, the adoption of environmental action plans for Community legislation protecting and conserving indigenous species also made wildlife trade regulations a matter of Community competence.

3. In December 1991, the Commission proposed that the Council replace the 1982 Regulation by a more comprehensive regulation as of 1 January 1993, the date of completion of the Single Market. The almost total disappearance of internal trade controls of goods, capital, persons and services on that date made the revision of the 1982 Regulation necessary (particularly in order to increase the effectiveness of external border controls).

² OJ L 384 of 31.12.82, p. 1

³ OJ L 344 of 7.12.83, p.1

There were other reasons for redesigning Community wildlife trade legislation. Disparate implementation by Member States of the Community Regulations and recommendations of the Conference of the Parties had led to confusion and an increasing lack of harmonisation.

Further, the Regulations needed to be adapted to the evolution of wildlife trade control techniques and policies and to modern conservation and management policies.

4. The Council of the European Union adopted **Regulation (EC) 338/97 on the Protection of Species of Wild Fauna and Flora by Regulating Trade Therein**⁴ (Regulation (EC) 338/97). This entered into force on 1 June 1997.

Commission Regulation (EEC) 3418/83⁵ and Commission Regulation (EC) No 939/97⁶, containing detailed implementation provisions, particularly on the use of permits and certificates - have been replaced by **Commission Regulation (EC) No 1808/2001**⁷.

5. These two Regulations fully implement the provisions of CITES and include provisions to implement the bulk of currently applicable recommendations of the Conference of the Parties on their interpretation and implementation.

⁴ OJ L 61 of 3/3/97, p. 1

⁵ OJ L 344 of 7.12.83, p. 1

⁶ OJ L 140 of 30.5.97, p. 9

⁷ OJ L 250 of 30.8.2001, p. 1

More than CITES

The Regulations from the eighties already had a number of measures which were stricter than CITES. These measures are maintained and further extended in the new Regulations.

- **Annexes contain non-CITES listed species**
- **Stricter import conditions apply for species in Annexes A and B**
- **Import permits are also required for Annex B species, import notifications are required for Annex C and D species**
- **Housing conditions are specified for live specimens of species in Annex A and B**
- **Transport conditions apply for all live specimens. More comprehensive restrictions are applicable for internal trade in Annex A species**
- **Annex D contains species for which import levels are monitored**

Species coverage

Annex A

Commercial trade from, to and within the Community is as a general rule prohibited for Annex A species. External trade is governed by provisions comparable to those applicable to Appendix I species under CITES, including:

1. All CITES Appendix I species, except those that are the subject of a reservation by Member States (there are none at present).
2. Any species (CITES II, III, non-CITES) that is or may be in Community or international demand that is threatened with extinction or is so rare that any trade would imperil its survival. Where Appendix III species in Annexes A, B and C are concerned, the **species** are subject to the corresponding provisions of the Regulations and **not** just the populations of the countries that listed them in Appendix III.
3. Look-alike species (CITES II, III, non-CITES).
If most of the species in a genus are listed in Annex A, the remaining species in the genus can be listed if that is essential for the effective protection of the species listed under the criteria in 1 and 2 above.

Although there is a similar provision for Annex B, the difference is significant and results in the following:

- a minority of species in a genus which does not qualify for listing in Annex A can nevertheless be listed in order to exclude commercial trade in the entire genus. This exclusion avoids that specimens of threatened species are in trade as specimens of more common species.
- the inclusion of look-alike species in Annex B is more of a technicality. Species that do not qualify for listing in Annex A or B on conservation grounds can be listed in Annex B in order to facilitate controls.

Although there is no separate provision in Regulation (EC) 338/97, CITES-listed species that are subject to internal trade prohibitions under Community legislation on the protection of indigenous species (Directive on the protection of wild birds⁸ and the so-called Habitats Directive⁹) are automatically listed in Annex A. This is necessary to ensure compatibility between the different legislative instruments and to avoid confusion. The names of these species in Annex A are printed in bold.

⁸ Council Directive (EC) 409/79

⁹ Council Directive (EC) 43/92

Annex B

Annex B contains species, trade from and to the Community which require the issuance of import permits, export permits and re-export certificates along the lines of the provisions applicable to CITES Appendix II species. There are *significant* differences, however: unlike for CITES Appendix II, import permits are required for imports of specimens of Annex B species and imports can be restricted in spite of the fact that the (re-)exporting country has issued a valid CITES permit/certificate.

Annex B contains:

1. Remaining CITES Appendix II species, except those that are the subject of a reservation by Member States (there are none at present).
2. Appendix I species with reservation (of which there are currently none).
3. Any species (CITES III, non-CITES) subject to levels of international trade that might not be compatible with survival of populations in certain countries or with the maintenance of its total population at a level that is consistent with its role in its ecosystem.
4. Look-alike species, to be listed for effective control of trade in species above.
5. Species (CITES III, non-CITES) known to pose an ecological threat to indigenous species.

Annex C

Annex C contains the CITES Appendix III species that are not listed in Annex B and that are not the subject of a reservation by Member States¹⁰.

Species in Annex C are not subject to the stricter Community requirement of an import permit. Imports can take place on the basis of the CITES (re-)export document and an import notification. (The import notification is not a document required under CITES and is therefore a stricter Community measure).

Annex C contains:

1. Remaining Appendix III species.
2. Appendix II species with reservation. (Currently there are no Appendix II species subject to a “Community” reservation.)

¹⁰ For many of these species, there may not be a conservation reason for the inclusion of many of these species in Appendix III. These species could be removed from Appendix III according to the recommendations by the Conference of the Parties. This, however, is an action which can only be carried out by the countries which included them originally.

Annex D

Annex D lists species that do not have a CITES equivalent. Imports of Annex D specimens require an import notification. As the purpose of Annex B is to ensure sustainable trade in species and thus prevent them from becoming Annex A candidates, the Annex D monitoring system is intended to allow an early detection of possible conservation concerns in relation to the species listed. Where necessary, Annex D species will be “up-listed” and brought under the trade provisions related to Annex B.

Annex D contains:

1. Non-CITES species that are not listed in Annexes A to C and that are imported into the Community in such numbers as to warrant monitoring.
2. Appendix III species with reservation.

For more details on these and other provisions of the new regulations please consult http://europa.eu.int/comm/environment/cites/home_en.htm

Import restrictions established under Art. 4(6) of Reg. EC N° 338/97 are published by the Commission in the Official Journal of the EU on a regularly basis.

The situation with regard to import restrictions under Art. 4 (1), (2) and (6) can also be checked on the Internet web site created for that purpose by the UNEP World Conservation Monitoring Centre in Cambridge (<http://www.wcmc.org.uk/species/trade/eu>).

PRESENTATION DU RAPPORT ANNUEL 2002 DE LA CE A LA CITES

Conformément à l'article 15 (4) du Règlement (CE) 338/97¹¹, ainsi que par rapport à l'article VIII 7 (a) de la Convention sur le commerce international des espèces de faune et de flore sauvages menacées d'extinction (CITES), la Commission Européenne a recueilli les données commerciales nécessaires auprès de tous les Etats Membres et a chargé le UNEP World Conservation Monitoring Centre d'établir le rapport annuel. Des informations équivalentes pour les espèces inscrites aux Annexes B et D du Règlement (CE) N° 338/97 étaient rassemblées également.

Des annexes contenant des informations sur le commerce individuel de chaque Etat membre avec les pays tiers ont également été rédigées. Dans la mesure du possible, ces annexes contiennent des informations sur :

- les Etats avec lesquels le commerce a eu lieu,
- le nombre ou les quantités et les types de spécimens,
- le nom latin des spécimens,
- la taille et le sexe des spécimens, le cas échéant,
- le but de l'exportation, de la ré-exportation, de l'importation ou de l'introduction en provenance de la mer,
- les numéros des permis.

Étant donné le volume de ces annexes, il n'a pas été possible de les publier en même temps que le rapport de la Communauté. Elles ont cependant été mises à la disposition du Secrétariat de la Convention. Les Parties peuvent adresser les demandes d'information concernant des envois individuels à la Commission Européenne, Direction Générale de l'Environnement, Unité ENV/E/2, 1049 Bruxelles, téléfax 32 2 2969558.

¹¹ JO L 61 du 3.3.1997, p. 1

INTRODUCTION AU RAPPORT ANNUEL 2002 DE LA CE A LA CITES

La Communauté et la CITES

1. La Communauté n'est pas encore partie à part entière à la CITES. En 1983, un amendement à la CITES a été adopté pour autoriser l'adhésion de la Communauté. Cet amendement "Gabarone" nécessite 54 ratifications (deux tiers des 80 États qui étaient parties à la Convention en 1983). Jusqu'à présent, 43 parties ont déposé les instruments de ratification nécessaires. Néanmoins, la CITES est en application dans la Communauté depuis 1984, en vertu du règlement (CEE) n° 3626/82 du Conseil et du règlement (CEE) n° 3418/83¹³ de la Commission et ses modifications et mises à jour.
2. *Au cours des années, la réglementation du commerce des espèces sauvages qui était du ressort des autorités nationales est entrée dans le domaine des compétences communautaires.* Les règles en matière de commerce extérieur constituent une compétence communautaire exclusive et exigent par conséquent l'intervention de la Communauté. Par ailleurs, l'application de la Convention CITES par les différents États membres n'a été possible qu'en vertu d'une dérogation aux dispositions du traité de Rome interdisant aux États membres d'introduire entre eux des restrictions quantitatives au commerce. L'article 36 du traité de Rome autorise de telles restrictions au commerce entre États membres, lorsqu'elles sont justifiées par des raisons de protection de la santé et de la vie des animaux ou de préservation des végétaux. En règle générale, cela ne s'applique pas aux domaines relevant de la législation communautaire.

De surcroît, en 1982, seulement cinq des États membres de la Communauté étaient parties à la Convention. Du fait de l'absence de contrôles systématiques aux frontières entre les États membres, par suite de l'union douanière, l'application de la Convention par chaque État membre individuellement était dans le meilleur des cas sans effet.

Mis à part ces considérations techniques, l'adoption de plans d'action pour l'environnement dans le cadre de la législation communautaire sur la protection et la conservation des espèces indigènes a également contribué à faire entrer la réglementation du commerce des espèces sauvages dans le domaine des compétences communautaires.

¹² JO L 384 du 31.12.1982, p.1

¹³ JO L 344 du 7.12.1983, p. 1.

3. En décembre 1991, la Commission a proposé que le Conseil remplace le règlement de 1982 par un nouveau règlement plus complet, à partir du 1er janvier 1993, date de réalisation du marché unique. La suppression quasi totale des contrôles sur les mouvements internes de marchandises, de capitaux, de personnes et de services devant intervenir à cette date rendait nécessaire la révision du règlement de 1982 (en particulier pour renforcer l'efficacité des contrôles aux frontières externes de la Communauté).

D'autres raisons justifiaient cette refonte de la législation communautaire relative au commerce des espèces sauvages. Les mesures disparates arrêtées par les États membres pour appliquer les règlements communautaires et mettre en oeuvre les résolutions de la Conférence des Parties ont donné naissance à une situation confuse et de plus en plus hétérogène.

De surcroît, il convenait d'adapter les règlements à l'évolution des techniques et des politiques de contrôle du commerce, ainsi qu'aux politiques modernes de conservation et de gestion.

4. Le 9 décembre 1996 le Conseil de l'Union européenne a adopté le **Règlement (CE) n° 338/97 relatif à la protection des espèces de faune et de flore sauvages par le contrôle de leur commerce**¹⁴ (Règlement (CE) n° 338/97). Il est entré en vigueur le 1er juin 1997.

Règlement (CEE) n° 3418/83¹⁵ et Règlement (CE) 939/97¹⁶ de la Commission, qui contenait les modalités d'application détaillées, ont été remplacés par le **Règlement (CE) n° 1808/2001 de la Commission**¹⁷.

5. Ces deux règlements mettent pleinement en application les dispositions de la CITES et prévoient des dispositions pour mettre en oeuvre la majeure partie des résolutions de la Conférence des Parties qui sont actuellement en vigueur concernant l'interprétation et l'application des dispositions de la Convention.

¹⁴ JO L 61 du 3.3.1997, p.1.

¹⁵ JO L 344 du 7.12.1983, p.1

¹⁶ JO L 140 du 30.5.1997, p.1

¹⁷ JO L 250 du 30.8.2001, p. 1

Au-delà de la CITES

Les règlements des années quatre-vingt comportaient déjà un certain nombre de mesures plus strictes que les dispositions de la CITES. Ces mesures sont maintenues et complétées dans les nouveaux règlements :

- **Les annexes mentionnent des espèces non inscrites aux annexes de la CITES**
- **Des conditions d'importations plus strictes s'appliquent aux espèces inscrites aux annexes A et B.**
- **Des permis d'importation sont aussi requis pour les espèces inscrites à l'annexe B, et des notifications d'importation pour les espèces inscrites aux annexes C et D.**
- **Des conditions d'hébergement sont spécifiées pour les spécimens vivants des espèces inscrites aux annexes A et B.**
- **Des conditions de transport s'appliquent à tous les spécimens vivants. Des restrictions plus complètes s'appliquent au commerce intérieur des espèces inscrites à l'annexe A.**
- **L'annexe D énumère des espèces dont les niveaux d'importation font l'objet d'une surveillance.**

Espèces concernées

Annexe A

L'importation dans la Communauté, l'exportation hors de la Communauté et la circulation dans la Communauté d'espèces inscrites à l'annexe A à des fins commerciales sont en règle générale interdites. Le commerce extérieur est régi par des dispositions comparables à celles qui sont applicables aux espèces inscrites à l'annexe I de la CITES, notamment :

1. Toutes les espèces inscrites à l'annexe I de la CITES, à l'exception des espèces pour lesquelles les Etats membres ont émis de réserve (ce n'est le cas d'aucune espèce actuellement).
2. Toute espèce (inscrite aux annexes II et III de la CITES ou non inscrite) qui fait ou peut faire l'objet d'une demande dans la Communauté ou pour le commerce international et qui est soit menacée d'extinction, soit si rare que tout commerce compromettrait sa survie. En ce qui concerne les espèces inscrites à l'annexe III qui figurent aux annexes A, B et C, ce sont les **espèces** qui sont soumises aux dispositions correspondantes des règlements, et **pas seulement** les populations de ces espèces dans les pays qui les ont inscrites à l'annexe III.
3. Espèces ressemblantes (espèces inscrites aux annexes II et III de la CITES ou non inscrites).
Si la plupart des espèces d'un genre sont inscrites à l'annexe A, les autres espèces de ce genre peuvent être inscrites si cela s'avère essentiel pour assurer une protection efficace des espèces inscrites en vertu des critères 1 et 2 ci-dessus.

Bien qu'il existe une disposition similaire pour les espèces inscrites à l'annexe B, on constate une différence importante qui se traduit comme suit :

- une minorité d'espèces appartenant à un genre qui ne justifie pas l'inscription à l'annexe A peut néanmoins être inscrite afin d'empêcher le commerce pour la totalité du genre. Cette disposition permet d'éviter que des spécimens d'espèces menacées fassent l'objet d'un commerce comme s'il s'agissait d'espèces plus communes.
- l'inscription d'espèces analogues à l'annexe B s'apparente plutôt à une subtilité. Les espèces dont le statut de conservation ne justifie pas une inscription à l'annexe A ou B peuvent être inscrites à l'annexe B pour faciliter les contrôles.

Malgré l'absence de dispositions spécifiques dans le Règlement (CE) n° 338/97, les espèces inscrites à la CITES dont le commerce intérieur est interdit en vertu de la législation communautaire sur la protection des espèces indigènes (directive concernant la conservation des oiseaux sauvages¹⁸ et directive "habitats"¹⁹) sont automatiquement inscrites à l'annexe A, afin de garantir la compatibilité des différents instruments législatifs et d'éviter les confusions. Le nom de ces espèces apparaît en caractères gras dans l'annexe A.

¹⁸ Directive 79/409/CEE du Conseil.

¹⁹ Directive 92/43/CEE du Conseil.

Annexe B

L'annexe B recense les espèces de spécimens dont l'importation dans la Communauté et l'exportation hors de la Communauté nécessitent la délivrance de permis d'importation, de permis d'exportation et de certificats de réexportation, dans l'esprit des dispositions applicables aux espèces inscrites à l'annexe II de la CITES. Il existe cependant des différences *importantes* : contrairement aux dispositions applicables aux espèces inscrites à l'annexe II de la CITES, des permis d'importation sont requis pour les importations de spécimens des espèces inscrites à l'annexe B, et ces importations peuvent faire l'objet de restrictions quand bien même le pays (ré)exportateur a délivré un permis/certificat CITES en bonne et due forme.

Figurent à l'annexe B :

1. Les autres espèces inscrites à l'annexe II de la CITES à l'exception des espèces pour lesquelles les Etats membres ont émis de réserve (ce n'est le cas d'aucune espèce actuellement).
2. Les espèces inscrites à l'annexe I de la CITES, qui ont fait l'objet d'une réserve (ce n'est le cas d'aucune espèce actuellement).
3. Toute espèce (inscrite à l'annexe III de la CITES ou non inscrite à la CITES) qui fait l'objet d'un commerce international dont le volume pourrait compromettre sa survie ou la survie de populations de certains pays, ou la conservation de la population totale à un niveau compatible avec le rôle de cette espèce dans les écosystèmes dans lesquels elle est présente.
4. Les espèces analogues dont l'inscription est essentielle pour assurer un contrôle efficace du commerce des espèces susvisées.
5. Les espèces (inscrites à l'annexe III de la CITES ou non inscrites à la CITES) pour lesquelles il a été établi que l'introduction dans la Communauté constitue une menace écologique pour les espèces indigènes.

Annexe C

L'annexe C recense les espèces inscrites à l'annexe III de la CITES qui ne figurent pas à l'annexe B et pour lesquelles les Etats membres n'ont pas émis de réserve²⁰. Les espèces inscrites à l'annexe C ne sont pas soumises à l'exigence communautaire plus stricte d'un permis d'importation. Les importations sont autorisées moyennant présentation du document d'exportation (ou de réexportation) CITES et d'une notification d'importation (la notification d'importation n'est pas un document requis par la CITES et constitue donc une mesure communautaire plus stricte).

²⁰ Dans de nombreux cas, l'inscription de ces espèces à l'annexe III n'est pas nécessairement justifiée par des raisons de conservation. Ces espèces peuvent être retirées de l'annexe III en fonction des résolutions de la Conférence des Parties. Toutefois, les espèces ne peuvent être supprimées de l'annexe que par les pays qui les y ont initialement inscrites.

Figurent à l'annexe C :

1. Les autres espèces inscrites à l'annexe III de la CITES.
2. Les espèces inscrites à l'annexe II de la CITES, qui ont fait l'objet d'une réserve (actuellement, aucune espèce inscrite à l'annexe II ne fait l'objet d'une réserve "communautaire").

Annexe D

L'annexe D recense des espèces qui n'ont pas d'équivalent CITES. Les importations de spécimens d'espèces inscrites à l'annexe D nécessitent une notification d'importation. Le but de l'annexe B étant d'assurer le commerce durable des espèces et partant, de leur éviter un statut justifiant leur inscription à l'annexe A, le système de surveillance prévu pour l'annexe D vise à permettre une détection rapide des problèmes de conservation concernant les espèces inscrites. Si nécessaire, les espèces inscrites à l'annexe D seront transférées à l'annexe B et leur commerce sera soumis aux dispositions correspondantes.

Figurent à l'annexe D :

1. Les espèces non inscrites à la CITES qui ne figurent pas aux annexes A à C et dont le volume des importations dans la Communauté justifie une surveillance.
2. Les espèces inscrites à l'annexe III de la CITES qui ont fait l'objet d'une réserve (article 3, paragraphe 4, point b), du Règlement (CE) n° 338/97)

Consultez http://www.europa.eu.int/comm/environment/cites/home_en.htm pour plus d'informations.

Des **restrictions à l'importation sous l'article 4(6) du règlement EC n° 338/97** sont publiées régulièrement par la Commission dans le Journal Officiel de l'Union Européenne.

Il est également possible de vérifier la situation en matière de restrictions d'importation imposées en application de l'article 4 (1), (2) et (6) sur le site Internet créé à cet effet par le Centre mondial de surveillance de la conservation (UNEP-WCMC) de Cambridge. (<http://www.wcmc.org.uk/species/trade/eu>).

PRESENTACIÓN DEL INFORME ANNUAL DE 2002 DE LA COMUNIDAD EUROPEA PARA LA CITES

De conformidad con el artículo 15 (4) del Reglamento (CE) 338/97²¹ y en relación con el apartado 7 (a) del artículo VIII de la Convención Internacional sobre Comercio de Especies Amenazadas de Fauna y Flora Silvestres (CITES), la Comisión Europea reunió los datos comerciales de todos los Estados miembros y encargo a la UNEP World Conservation Monitoring Centre la elaboración del informe anual. De la información equivalente ha sido coleccionado para las especies no-CITES que figuran en el Anexo D del Reglamento (CE) 338/97.

Asimismo, se han elaborado Anexos con información sobre el comercio de cada Estado miembro con terceros países. Dichos Anexos contienen; en la medida de lo posible, para cada envío:

- los Estados con los que tiene lugar dicho comercio;
- el número o cantidades y tipos de ejemplares;
- los nombres latinos de los ejemplares;
- tamaño y sexo de los ejemplares, en su caso;
- objetivo de la exportación, reexportación, importación de la introducción procedente del mar;
- números de los permisos.

Debido al volumen de dichos Anexos, no ha sido posible publicarlos junto con el informe de la Comunidad. Sin embargo, se pusieron a disposición de de la Secretaria de la Convención. Las Partes pueden solicitar información sobre envíos particulares a la Comisión Europea, Dirección General de Medio Ambiente, Unidad ENV/E/2, 1049 Bruselas, telefax 32 2 2969558.

²¹ DO L 61 de 3.3.1997, p. 1

INTRODUCCIÓN DEL INFORME ANNUAL DE 2002 DE LA COMUNIDAD EUROPEA PARA LA CITES

La Comunidad Europea y la CITES.

1. La Comunidad todavía no es Parte en la CITES por derecho propio. En 1983 se presentó una enmienda a la CITES para permitir la adhesión de la Comunidad. Esta enmienda, denominada "Gaborone" necesitaba la ratificación de 54 Estados Parte (las dos terceras partes de los 80 países que eran Parte en ese momento). Hasta la fecha, sólo se han presentado 43 instrumentos de ratificación. No obstante, la Comunidad Europea lleva aplicando la CITES desde el 1 de enero de 1984 por medio del Reglamento (CEE) n° 3626/82²² del Consejo y del Reglamento (CEE) n° 3418/83²³, de la Comisión así como de sus modificaciones y actualizaciones.
2. *Durante los años, la normativa sobre comercio de fauna y flora silvestres ha dejado de ser asunto nacional para convertirse en competencia comunitaria.* Las normas sobre comercio exterior son competencia exclusiva de la Comunidad y, por consiguiente, requieren la participación de la Comunidad. Por otra parte, la ejecución de la Convención CITES por cada Estado miembro de forma individual solo sería posible si se derogara lo establecido en el Tratado de Roma sobre la imposibilidad de que los Estados miembros adopten restricciones cuantitativas en el comercio intracomunitario. El Artículo 36 del Tratado únicamente permite estas restricciones entre Estados miembros en algunas condiciones por motivos de protección de la vida y la salud de animales y vegetales. Esto, en general, no es de aplicación a los campos regulados por la legislación comunitaria.

En 1982, por otra parte, sólo cinco Estados miembros eran Parte en la Convención. La ausencia de controles sistemáticos en las fronteras entre Estados miembros, como resultado de la Unión Aduanera hace que la aplicación del Convenio por parte de los Estados miembros de forma aislada sea cuando menos ineficaz.

Aparte de estas razones técnicas, la adopción de planes sobre medio ambiente para la protección y conservación de especies autóctonas por medio de la legislación comunitaria hace que la normativa que regula el comercio de especies silvestres sea un asunto competencia de la Comunidad.

²² DO L 384 de 31.12.1982, p.1

²³ DO L 344 de 7.12.83, p. 1.

3. En diciembre de 1991, la Comisión propuso al Consejo sustituir el Reglamento de 1982 por un nuevo reglamento de mayor alcance a partir del 1 de enero de 1993, fecha de la consecución del Mercado Único. La práctica desaparición de controles en el comercio intracomunitario de bienes, capitales, personas y servicios a partir de esta fecha hacía necesario reformar el Reglamento de 1982, particularmente con objeto de aumentar la eficacia de los controles en las fronteras exteriores.

Había, además, otras razones para modificar la normativa comunitaria de comercio de fauna y flora silvestres. La aplicación absolutamente heterogénea por parte de los Estados miembros de los reglamentos y recomendaciones de la Conferencia de las Partes había provocado confusión y una falta de armonización cada vez mayor.

Por otra parte, la normativa debía adaptarse a la evolución de las técnicas y sistemas de control del comercio de especies silvestres y a las estrategias modernas de conservación y gestión.

4. El 9 de diciembre de 1996, el Consejo de la Unión Europea aprobó el **Reglamento (CE) n° 338/97 del Consejo relativo a la protección de especies de fauna y flora silvestres mediante el control de su comercio**²⁴ (Reglamento (CE) 338/97). Éste entró en vigor el 1 de junio de 1997.

Reglamento (CEE) n° 3418/83²⁵ y Reglamento (CE) n° 939/97²⁶ de la Comisión, que desarrollaba las condiciones de aplicación, en particular en lo que se refiere al uso de permisos y certificados, se sustituyó por el Reglamento (CE) 1808/2001 de la Comisión²⁷.

5. Estos dos Reglamentos no sólo aplican plenamente las disposiciones del CITES sino que, además, incluyen disposiciones que desarrollan la mayor parte de las recomendaciones aplicables de la Conferencia de las Partes en relación con su interpretación y ejecución.

²⁴DO L 61 de 3.3.97, p. 1.

²⁵DO L 344 de 7.12.83, p. 1.

²⁶DO L 140 de 30.5.97, p. 9.

²⁷DO L 250 de 30.8.2001, p. 1

MÁS QUE LA CITES

Los reglamentos de la década de los 80 contenían ya algunas medidas más estrictas que la CITES. En los nuevos reglamentos se mantienen esas medidas y se amplía su alcance.

- ***Los Anexos incluyen especies no reguladas en la CITES***
- ***Se establecen condiciones más estrictas para la importación de especies incluidas en los Anexos A y B***
- ***Se exigen permisos de importación también para las especies del Anexo B, y notificaciones de importación para las especies de los Anexos C y D***
- ***Se especifican las condiciones de alojamiento de especímenes vivos de especies de los Anexos A y B***
- ***Se establecen condiciones de transporte para cualquier espécimen vivo. Se establecen restricciones de mayor alcance en el comercio intracomunitario de especies incluidas en el Anexo A***
- ***El Anexo D incluye las especies cuyo nivel de importación está sometido a seguimiento***

Especies reguladas

Anexo A

El Anexo A incluye especies cuyo comercio desde, hacia o en el interior de la Comunidad está prohibido. El comercio exterior se rige por requisitos comparables a los aplicables a las especies del Apéndice I del CITES, por ejemplo:

1. Todas las especies del Apéndice I del CITES, excepto las especies en relación con las cuales los Estados miembros han presentado una reserva (ninguna especie en la actualidad).
2. Cualquier especie (CITES II, III o no regulada por la CITES) de la que haya o pueda haber demanda internacional o en la Comunidad, y que esté amenazada de extinción o sea tan rara que cualquier comercio puede poner en peligro su supervivencia. Si alguna especie del Apéndice III está incluida en los Anexos A, B o C, la **especie** está sujeta a lo dispuesto por el Reglamento y **no** sólo las poblaciones de los países que la hayan incluido en el Apéndice III.
3. Especies parecidas (CITES II, III o no reguladas por la CITES)
Si la mayor parte de las especies pertenecientes a un género están incluidas en el Anexo A, las restantes especies de ese género pueden incluirse también si se considera esencial para una protección eficaz de dichas especies según los criterios de los puntos 1 y 2.

Aunque en el caso del Anexo B existe una disposición a primera vista similar, la diferencia entre ambas es importante y consiste en lo siguiente:

- cuando una minoría de especies pertenecientes a un género no reúne las condiciones necesarias para ser incluidas en el Anexo A, pueden de todas maneras incluirse de forma que el género en su totalidad quede excluido del tráfico comercial. Esto es para evitar situaciones como, por ejemplo, que especímenes de especies amenazadas entren en el comercio haciéndolas pasar por especímenes de especies más comunes.
- la inclusión de especies en el Anexo B por su similitud con otras incluidas en el mismo Anexo obedece a una razón más técnica. Especies que no cumplen los requisitos necesarios para incluirse en los Anexos A o B por razones de conservación pueden introducirse en el Anexo B con el fin de facilitar los controles.

Si bien no está establecido de forma explícita en el Reglamento (CE) 338/97, todas las especies que, además de figurar en el CITES, están sujetas a prohibiciones en el comercio interior por aplicación de la normativa comunitaria relativa a la protección de especies autóctonas (Directiva de protección de aves²⁸ y Directiva de hábitats²⁹), se incluyen automáticamente en el Anexo A. Esto es necesario en aras de la compatibilidad entre los distintos instrumentos legislativos y para evitar confusiones. El nombre de estas especies aparece en **negrita** en el Anexo A.

²⁸ Directiva (CE) 409/79 del Consejo.

²⁹ Directiva (CE) 43/92 del Consejo.

Anexo B

El comercio de especímenes de especies incluidas en el Anexo B desde o hacia la Comunidad está sometido a la expedición de permisos de importación, permisos de exportación y certificados de reexportación según criterios similares a los aplicables a las especies incluidas en el Apéndice II del CITES. Hay, sin embargo, *grandes* diferencias entre ambos: para introducir en la Comunidad especímenes de especies del Anexo B se requiere un permiso de importación, cosa que no ocurre en el caso del Anexo II del CITES, y las importaciones pueden restringirse aunque el país (re)-exportador haya emitido el permiso o certificado CITES correspondiente.

El Anexo B contiene:

1. Las especies restantes del Apéndice II del CITES, excepto las especies en relación con las cuales los Estados miembros han formulado una reserva (ninguna especie en la actualidad).
2. Las especies del Apéndice I del CITES con respecto a las cuales se ha formulado una reserva (ninguna especie en la actualidad).
3. Cualquier especie (CITES III, no-CITES) sometida a niveles de comercio internacional que pueden no ser compatibles con la supervivencia de las poblaciones de algunos países o con el mantenimiento de la población total en un nivel consecuente con su función dentro de su ecosistema.
4. Especies parecidas a otras enumeradas en ese Anexo, que sea preciso incluir para un control efectivo de su comercio.
5. Especies (CITES III, no-CITES) respecto a las cuales se haya demostrado que constituyen una amenaza ecológica para especies autóctonas.

Anexo C

El Anexo C contiene las especies del Apéndice III del CITES que no están incluidas en el Anexo B³⁰ y para las cuales los Estados miembros no han formulado una reserva.

Las especies incluidas en el Anexo C no están sujetas a la mayor restricción que supone la obtención de un permiso de importación. Las importaciones pueden tener lugar sobre la base del documento CITES de (re)-exportación y una notificación de importación. (La notificación de importación no es un documento exigido por el CITES y constituye, por tanto, una medida comunitaria más estricta.

El Anexo C contiene:

- 1 El resto de las especies del Apéndice III.

³⁰ De hecho, no parece que existan razones de conservación para la inclusión de muchas de esas especies en el Apéndice III. Según las recomendaciones de la Conferencia de las Partes, esas especies podían retirarse del Apéndice III. Tal decisión, sin embargo, corresponde a los países que las han incluido en ese Apéndice

- 2 Las especies del Apéndice II con respecto a las cuales se ha formulado una reserva. (En la actualidad no se ha formulado ninguna reserva "comunitaria" con respecto a especies del Apéndice II.)

Anexo D

El Anexo D está constituido por una lista de especies que no tienen equivalente en el CITES. La importación de especímenes del Anexo D requiere una notificación de importación. Mientras que la finalidad del Anexo B es asegurar un nivel de comercio sostenible de las especies para evitar que se conviertan en especies del Anexo A, el sistema de seguimiento del Anexo D tiene por objeto una detección precoz de los posibles problemas de conservación en relación con las especies incluidas. En caso necesario, las especies del Anexo D pueden ser "ascendidas" y su comercio sometido a los requisitos establecidos para el Anexo B.

El Anexo D contiene:

1. Especies no-CITES que no figuran en los Anexos A a C y que se importan a la Comunidad en un volumen tal que justifica su vigilancia.
2. Especies del Apéndice III con respecto a las cuales se ha formulado una reserva.

Para más detalles sobre estas y otras disposiciones de los nuevos reglamentos se puede consultar http://europa.int/comm/environment/cites/home_en.htm.

La Comisión publica en el Diario Oficial de la Unión Europea **las restricciones establecidas de acuerdo con el apartado 6 del artículo 4** con periodicidad regular.

La situación de las restricciones a la importación impuestas con arreglo a los apartados 1, 2 y 6 del artículo 4 puede consultarse también en un sitio de Internet creado a tal fin por el UNEP-WCMC (Centro de Seguimiento de la Conservación, de la Vida Silvestre) de Cambridge (<http://www.wcmc.org.uk/species/trade/eu>).
