Proposal for a
COUNCIL REGULATION (EEC)
amending Council Regulation (EEC) No 4249/88 of 21 December 1988
on export arrangements for certain types of non-ferrous metal
waste and scrap

(presented by the Commission)

EXPLANATORY MEMORANDUM

1. Under Council Regulation (EEC) No 4249/88 of 21 December 1988¹ exports of copper waste and scrap (CN code 7404 00) were covered by a quota for 1989.
2. Unexpected additional requirements arose in a Member State after the quota initially allowed for had been entirely distributed to the Member States under Article 4 of Commission Regulation (EEC) No 2068/89 of 11 July 1989.²
3. It is necessary to take account of this exceptional situation and therefore to increase the Community quota in question by the amount necessary, namely 6 000 tonnes.
4. The consultative committee set up by Regulation 2603/69 has been consulted. All the Member States present gave a favourable opinion concerning this increase, with the exception of one Member State which considered such an increase during the year inappropriate. The Commission for its part considers the increase necessary.

It is therefore proposed that the Council adopt the attached proposal for a Regulation.
