COM(89) 375 final

Brussels, 25 July 1989

Proposal for a

## COUNCIL REGULATION (EEC)

establishing ceilings and Community supervision for imports  
of certain products originating in Yugoslavia (1990)

-----

(presented by the Commission)

## EXPLANATORY MEMORANDUM

1. The Cooperation Agreement concluded between the European Economic Community and Yugoslavia provides for exemption from customs duties for imports into the Community of nearly all products falling within Chapters 25 to 97 of the Combined Nomenclature and originating in Yugoslavia. By way of derogation from that provision, Protocol 1 provides that imports of certain products are to be subject to ceilings, above which the customs duties applicable to third countries may be reimposed until the end of the calendar year (1).

Within the limits of these tariff ceilings Spain and Portugal are to apply customs duties calculated in accordance with Council Regulation (EEC) N° 4150/87 establishing the arrangements applicable to trade between Spain and Portugal on the one hand and Yugoslavia on the other.

2. The aim of the attached proposal for a Regulation is to :
  - establish the ceilings applicable in 1990 to imports of certain products originating in Yugoslavia,
  - authorize the Commission to reimpose customs duties under certain conditions,
  - establish a system of surveillance of imports of products subject to ceilings.

Implementation of these two proposed measures, namely :

- (i) annual ceilings and
- (ii) reimposition of customs duties,

requires the adoption of precise common rules to be applied uniformly by all Member States. These requirements may be met by the establishment of a Community surveillance system for goods actually imported from Yugoslavia.

---

(1) The Annexes to that Protocol have been amended by :

- the new Supplementary Protocol to the Cooperation Agreement between the EEC and the Socialist Federal Republic of Yugoslavia concerning trade in textile products, and
- the Additional Protocol to the Cooperation Agreement between the EEC and the Socialist Federal Republic of Yugoslavia establishing new trade arrangements.

To that end the Member States must take appropriate measures to enable statistical returns for the whole Community to be collected rapidly. Imports of the products concerned should be recorded only as and when they are entered with the customs authorities for free circulation accompanied by a movement certificate in accordance with the rules laid down in the Agreement referred to at 1 above.

Each Member State will compile these statistical returns at the end of each month and forward them to the Commission by the fifteenth day of the following month in order to enable it to send all the Member States a comprehensive product-by-product statement of the imports in question during the previous month. This surveillance system will require prompt and close cooperation between the departments concerned in the Member States and the Commission.

3. The following procedure will be used for setting in train the machinery for reimposing duties : if one of the comprehensive monthly statements compiled by the Commission shows that 75 % of the ceiling fixed for a given product has been reached, consultations may take place, in particular within the Economic Tariff Problems Group, either at the request of a Member State or on the Commission's own initiative. The purpose of these consultations will be to examine in each individual case whether the customs duties applicable to third countries should be reimposed when the ceiling is actually reached.

Imports of the product in question will continue to be the subject of monthly returns or, if the Commission so requests, of telex messages covering each period of ten days. Such messages must reach the Commission within five days.

The Commission can thus take, within the shortest possible time, the measures required for the adoption of a regulation reimposing customs duties in respect of Yugoslavia until the end of the calendar year. In such a case, customs duties on the product in question would naturally be reimposed from the date indicated in that regulation.

4. The proposal provides for the Council to delegate to the Commission responsibility for implementing the ceilings and reimposing duties.

The proposal for a Regulation merely outlines how these powers are to be exercised so that the machinery to be used may be adjusted flexibly and rapidly, in consultation with the Member States. Again with a view to maximum efficiency and rapidity, the proposal gives the Commission responsibility for reimposing in respect of Yugoslavia the duties applicable to third countries.

Annex : proposal for a Council Regulation

Proposal for a  
COUNCIL REGULATION (EEC) No /89

of

establishing ceilings and Community surveillance for imports of certain products originating in  
Yugoslavia (1990)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas a Cooperation Agreement between the European Economic Community and the Socialist Federal Republic of Yugoslavia (1) was concluded on 24 January 1983;

Whereas Article 1 of Protocol 1 to that Agreement provides that imports of specified products are to be subject to annual ceilings above which the customs duties actually applied in respect of third countries may be re-established; whereas an Additional Protocol to that Cooperation Agreement (2) establishing new trade arrangements and amending the said Protocol 1 has been concluded and entered into force on 1 January 1988; whereas, moreover, a new Supplementary Protocol to the Cooperation Agreement between the European Economic Community and the Socialist Federal Republic of Yugoslavia concerning trade in textile products, hereinafter referred to as the 'Supplementary Protocol', has been initialled; whereas, pending the entry into force of the Supplementary Protocol, the arrangements laid down by the Council Decision 87/537/EEC of 11 December 1986 on the provisional application of the Agreement between the European Economic Community and the Socialist Federal Republic of Yugoslavia on trade in textile products (3) should be applied from 1 January 1990; whereas, under these circumstances, the Commission must be kept regularly informed of the trend of imports of the said products and it is therefore necessary for imports of those products to be subject to surveillance; whereas the said annual tariff ceilings should therefore be opened at appropriate levels for 1990;

Whereas Council Regulation (EEC) No 4150/87 of 21 December 1987 laying down arrangements for Spain's and Portugal's trade with Yugoslavia and amending Regulations (EEC) No 449/86 and (EEC) No 2573/87 (4) provides that from its entry into force the Kingdom of Spain and the Portuguese Republic are to apply duties progressively reducing the gap between the basic duties and the preferential duties in accordance with a given timetable;

(1) OJ No L 41, 14. 2. 1983, p. 1.

(2) OJ No L 389, 31. 12. 1987, p. 73.

(3) OJ No L 318, 7. 11. 1987, p. 51.

(4) OJ No L 389, 31. 12. 1987, p. 1.

Whereas Community surveillance may be achieved by means of an administrative procedure based on charging imports of the products in question against the ceilings at Community level as and when those products are entered with the customs authorities for free circulation; whereas this administrative procedure must make provision for the possibility of re-establishing customs duties as soon as the ceilings are reached at Community level;

Whereas this administrative procedure requires close and particularly rapid cooperation between the Member States and the Commission and the latter must in particular be able to follow the progress of quantities charged against the ceilings and keep the Member States informed; whereas this cooperation has to be particularly close since the Commission must be able to take appropriate measures to re-establish customs tariffs if one of the ceilings is reached,

HAS ADOPTED THIS REGULATION:

*Article 1*

1. From 1 January to 31 December 1990, imports into the Community of certain products originating in Yugoslavia and listed in Annexes I, II, III and IV shall be subject to ceilings and Community surveillance.

The description of the products referred to in the first subparagraph, their combined nomenclature codes and the corresponding ceilings or sub-ceilings are set out in the said Annexes. In Annex II, the ceilings are indicated in column 4 (b).

*measures*

Within the limits of these tariff [redacted], the Kingdom of Spain and the Portuguese Republic shall apply duties calculated in accordance with Regulation (EEC) No 4150/87.

2. The ceilings laid down for certain products listed in Annex II which have been the subject of an outward processing operation in accordance with the Community rules on economic outward processing are indicated in column 4 (a).

3. Quantities shall be charged against the ceilings or sub-ceilings as and when the products are entered with customs authorities for free circulation accompanied by a movement certificate in accordance with the rules contained in Protocol 3 to the Agreement.

With regard to the ceilings established for categories 5, 6, 7, 8, 15 and 16 of column 4 (a) of Annex II, re-imported goods which have been the subject of an outward processing

operation in accordance with the Community rules on economic outward processing may be charged against the respective ceilings only if the movement certificate issued by the competent Yugoslav authorities contains a reference to the prior authorization provided for by the Community rules on economic outward processing.

Goods may be charged against a ceiling or sub-ceiling only if the movement certificate is presented before the date on which customs duties are re-established.

The extent to which the ceilings and sub-ceilings are used up shall be determined at Community level on the basis of the imports charged against them in the manner defined in the first, second and third sub-paragraphs.

Member States shall periodically inform the Commission of imports charged in accordance with the above procedure; such information shall be supplied under the conditions laid down in paragraph 5.

4. As soon as the ceilings or sub-ceilings have been reached, the Commission may adopt a regulation re-establishing, until the end of the calendar year, the customs duties actually applied in respect of third countries.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

*For the Council  
The President*

However, should customs duties be re-established, imports of the products listed in Annex V which have obtained originating status within the meaning of Protocol 3 to the Agreement in the free zone established by the Agreements signed at Osimo shall continue to benefit from exemption from customs duties provided that originating status is certified on the movement certificate by the competent Yugoslav authorities.

5. Member States shall send the Commission not later than the 15th day of each month statements of the quantities charged during the preceding month. If the Commission so requests, they shall provide such statements for a period of 10 days and forward them within five clear days of the end of each 10-day period.

*Article 2*

The Member States and the Commission shall cooperate closely to ensure that this Regulation is complied with.

*Article 3*

This Regulation shall enter into force on 1 January 1990.

FICHE D'IMPACT SUR LA COMPETITIVITE ET L'EMPLOI

Cette proposition est formulée en conformité avec un engagement contractuel de la Communauté. L'impact découlant de cette concession a été pris en considération lors de la prise de décision d'adoption de ces mesures tarifaires et il n'aura pas un caractère sérieux sur la compétitivité et l'emploi dans la Communauté.

FICHE FINANCIERE

---

1. Ligne budgétaire concernée : Chap. 12 art.120
2. Base juridique : art. 113 au traité
3. Intitulé de la mesure tarifaire : Propositions de règlements du Conseil portant établissement de plafonds et d'une surveillance communautaire à l'égard des importations de certains produits originaires de Yougoslavie (1990)
4. Objectif : Mise en œuvre d'instruments juridiques permettant l'application des mesures de sauvegarde prévues à l'Accord CEE/Yougoslavie
5. Perte de recettes : L'application éventuelle des dispositions du règlement ne conduit pas à des pertes de recettes, mais, au contraire, à des augmentations de celles-ci.
