Remuneration is payable in Belgian francs in Belgium but there is also provision for all or part of an official's remuneration being paid in the currency of the country of employment.

In that event, the portion of remuneration paid in local currency is subject to a weighting.

Article 13 of Annex X requires the Council of the European Union to determine the weightings for countries outside the European Union every six months. The proposal for a regulation on the weightings applicable from 1 January 1993 has been pending before the Council of the European Union since November 1993.

to the remuneration of officials of the European Union
serving in countries outside the European Union**

1. Council of the European Union Regulation (EC, Euratom, ECSC) No. 2175/88 of 18 July 1988 laid down the initial weightings applicable from 10 October 1987.
2. Since then these weightings have been adjusted by the Council of the European Union every six months. The proposal for a regulation on the weightings applicable from 1 January 1993 has been pending before the Council of the European Union since November 1993.
3. The Statistical Office (SOEC) has prepared a paper on adjustment of the weightings applicable to the remuneration of officials of the European Union serving in countries outside the European Union explaining how the economic parities for the various places of employment are determined and compared with Brussels. The parities used apply from 1 July 1993.
4. The exchange rates selected for accounting purposes are those for June 1993.
5. Table A shows for each place of employment the economic parity calculated by the SOEC for July 1993, the exchange rate selected and the resulting weighting, applicable from 1 July 1993.
6. The budgetary impact of the adjustments to weightings for July 1993 is negligible compared with the total operating costs of the delegations.

STATISTICAL OFFICE note
concerning the adjustment of weightings
applicable from 1 July 1993
to the remuneration of officials of the European Union
servicing in countries outside the European Union

I. PREAMBLE

1. Article 13 of Annex X to the Staff Regulations requires the Council of the European Union to lay down the weightings referred to in Article 12 of that Annex every six months. This note relates to the adjustment of weightings applicable from 1 July 1993 and is to be read in conjunction with the proposal for a Regulation adjusting the weightings for countries outside the European Union.

II. MANAGEMENT OF WEIGHTINGS AND CORRESPONDING EXCHANGE RATES

2. The remuneration system for staff serving in countries outside the European Union is based on equivalent purchasing power for Brussels and the various places of employment. Application of this principle is based on the calculation of purchasing power parities (PPPs) for local currencies in relating to the Belgian franc. The weighting is the factor obtained by dividing the PPP by the exchange rate. This means that implementation of a weightings system primarily involves calculating purchasing power parities for Brussels and the various places of employment.
