

COMMISSION OF THE EUROPEAN COMMUNITIES

COM(94) 461 final
Brussels, 28.10.1994

Proposal for a

COUNCIL REGULATION (EC)

temporarily suspending the autonomous common customs tariff
duties on a number of products intended for the construction,
maintenance and repair of aircraft

(presented by the Commission)

EXPLANATORY MEMORANDUM

1. In the third quarter of this year, the Commission, with the assistance of the Economic Tariff Questions Group, examined all requests, submitted by Member States, for temporary suspension of common customs tariff duties, including the requests for prolongation of the suspensions currently in force.

The attached proposal concerns a number of products for the construction, maintenance and repair of aircraft.

2. The proposals for Regulations temporarily suspending the autonomous common customs tariff duties on fishery products and on other industrial products, are also in preparation.
3. Requests for suspension relating to the above products were examined in the light of the criteria defined in the Commission communication to the Council and the Member States, concerning autonomous tariff suspensions (cf. O.J. no. C 235 of 13.9.89, p. 2).

As a result of this examination, the Commission deems it justifiable to suspend the duty on those products listed in the Annex to the attached draft Regulation.

4. As stated in Article 1 of the aforementioned Regulation, the proposed period of validity is 12 months.

Proposal for a

**COUNCIL REGULATION (EC) No 194
of 1994**

temporarily suspending the autonomous Common Customs Tariff duties on a number of products intended for the construction, maintenance and repair of aircraft

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 28 thereof,

Having regard to the proposal from the Commission,

Whereas production of the products referred to in this Regulation is at present inadequate or non-existent within the Community and producers are thus unable to meet the needs of user industries in the Community;

Whereas it is in the Community's interest to suspend the autonomous Common Customs Tariff duties for these products completely;

Whereas the decision for the suspension of these autonomous duties should be taken by the Community;

Whereas, taking account of the difficulties involved in accurately assessing the

development of the economic situation in the sectors concerned in the near future, these suspension measures should be taken only temporarily, by fixing their period of validity by reference to the interests of Community production,

HAS ADOPTED THIS REGULATION:

Article 1

From 1 January to 31 December 1995, the autonomous Common Customs Tariff duties for the products listed in the Annex shall be totally suspended, provided that the said products are intended, on conditions to be determined by the competent authorities, for the construction, maintenance and repair of aircraft.

Article 2

This Regulation shall enter into force on 1 January 1995.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at , 1994.

For the Council

The President

FINANCIAL RECORD

1. **Budget line concerned** : Chap. 12 Art. 120
2. **Title of the tariff measure concerned** : Proposal for a Council Regulation, temporarily suspending the autonomous common customs tariff duties on a number of products intended for the construction, maintenance and repair of aircraft
3. **Legal basis** : Art. 28 of the EC-Treaty
4. **Objective** : suspension of CCT duties on the abovementioned products
5. **Cost of this tariff-measure** : to be borne by the EC-budget :
 - For the same exercise in 1994, the loss of own resources was expected to be of the order of 55 000 000 ECU.
 - This loss of revenue had been estimated using data provided by certain Member States. However, from the first statistics available (1991 and 1992) it seems that the figure must be revised downwards. From such an estimated for 1995, the loss of own resources for this sector should be of the order of 20 000 000 ECU.
