EXPLANATORY MEMORANDUM

1. By a decision dated 11 February 1980 the Council and the Representatives of the Governments of the Member States meeting within the Council authorised the Commission to open negotiations with countries with which preferential agreements had been concluded in order to determine the adaptations and transitional measures needed as a result of Greek accession.

The conclusion of the negotiations with six EFTA countries, Cyprus, Egypt, Jordan, Lebanon, Spain, Israel and Portugal has already been dealt with in various Commission communications ⁽¹⁾. Now the talks with Algeria, Morocco and Syria have been completed as well, and the heads of delegation have initialled the resulting draft protocols to the agreements concluded by the EEC and the ECSC Member States with those countries.

2. In the course of the negotiations with Morocco two specific problems arose :

Fixing of quotas to be opened by Greece for fertilisers (heading
Nos 31.02, 31.03, 31.05)

In Annex II of the draft protocol provision is made for a basic quota of 4,000 t for fertilisers imported from Morocco falling within these three tariff headings. In view of its export prospects for these products, Morocco would have liked this contingent to have been fixed at a higher level. In the end the Moroccan delegation agreed that the quota should be limited to 4,000 t, provided that a declaration was written into the minutes to the effect that as soon as 75 % of the quota was used up consultations would be held at Morocco's request with a view to finding a solution acceptable to the two parties. The text of these minutes is also attached to this communication.

Consequences of the enlargement of the Community for Morocco

In the course of the negotiations the Moroccan delegation referred to its Government's concern regarding the consequences of enlargement for its exports to the Community. For the subsequent stages of this enlargement it stressed the need to adjust both the procedure to be followed and the nature of the adaptations to be made to the problems raised by the accession of the third State concerned. It hoped that a suitable consultation procedure would be found pursuant to Article 50 of the Agreement so that solutions could be sought at the same time as the accession negotiations. The Community delegation noted these observations and said, as it had already done to other partners, that it would make every effort to take the points made by Morocco into consideration when it was examining the consequences of enlargement for third countries.

As agreed after consultations with the representatives of the Member States, the positions put forward by the two delegations will be contained in a declaration to be annexed to the protocol. The Moroccan delegation insisted on setting out its views in detail in an exchange of letters which does not form part of the protocol. Copies of these letters are attached to this communication.

3. Conclusions

The Commission recommends that the Council and the Representatives of the Governments of the Member States, meeting within the Council, approve the results of these negotiations with Morocco and Syria and initiate the conclusion procedures. It accordingly submits herewith :

- proposals for Council regulations concluding protocols to the Co-operation Agreements between the European Economic Community and the two States in question (the draft protocols are annexed to the proposals) ;
- draft protocols to the Agreements between the Member States of the ECSC and the two States in question.

4. Since the procedures for the conclusion of the protocols take a certain time, the Commission is also submitting to the Council and to the Representatives of the Governments of the Member States, meeting within the Council, proposals which will enable the arrangements provided for in the protocols to be applied autonomously pending the entry into force of the protocols.

Brussels, 22 July 1981

Sir,

Article 50 of the Co-operation Agreement linking Morocco to the European Economic Community provides for the setting up - in the event of the accession of a third State to the Community - of a consultation procedure to enable the Community to "take into consideration the interests of the Contracting Parties as defined by this Agreement".

This procedure raises two types of question :

- When exactly should these consultations take place ?
- What is the definition of the negotiating area between the parties concerned ?

In the specific case of Greece, whose economic set-up is similar in some respects to Morocco's and whose exports will consequently be competing to varying degrees with those of Morocco, it would have been logical and in keeping with the spirit of the Co-operation Agreement for these consultations to be held at the same time as the negotiations for accession and in any case before the Accession Treaty was signed.

With regard to the demarcation of the area for discussion and in the light of the similarities referred to above, adaptation is meaningless unless it takes account of the economic dimension of the problem, which is basically the harm which one of the Contracting Parties, Morocco in this case, might suffer as a result of increased competition from exports originating in the new Member State.

Mr. Heinz Andresen

Head of the Delegation of the
European Economic Community

The protocol of adaptation is no more than a technical adjustment aimed at maintaining continuity in trade between Morocco and the Community by setting out the detailed arrangements for access by Moroccan products to the Greek market. It does not include any economic provisions resulting from a fresh appraisal of the circumstances of the enlarged Community market.

It is quite obvious that it would not be acceptable to repeat the approach used for Greece in the subsequent stages of enlargement, short of renouncing the fundamental principles governing relations between Morocco and the European Economic Community. A suitable formula for consultations should therefore be established, and both the procedure and the substance of adaptation should be adjusted to the nature and extent of the problems raised by the accession of new Member States to the Communities. In so doing the two parties will effectively be applying the provisions of the Co-operation Agreement, and in particular Article 50 thereof.

I should be grateful if you would acknowledge receipt of this letter.

Please accept, Sir, the assurance of my highest consideration.

Sir,

In your letter of today's date you informed me as follows :

MINUTES

of the negotiations for a protocol
to the Agreement between the Com-
munity and Morocco to take account
of the accession of Greece

During the negotiations the Moroccan Delegation expressed Morocco's particular interest in exporting fertilisers falling within tariff heading Nos 31.02, 31.03 or 31.05. It was agreed that as soon as 75 % had been used up of the volume of the quota opened by Greece for these products, pursuant to Article 9 of the protocol, consultations would be held at Morocco's request with a view to finding a solution acceptable to the two parties.

Article 3

For the products listed in Annex I, the Hellenic Republic shall progressively abolish customs duties on imports of products originating in Morocco in accordance with the following timetable :

- on the date of this Protocol's entry into force, each duty shall be reduced to 90 % of the basic duty,
- on 1st January 1982 each duty shall be reduced to 80 % of the basic duty,
- the four other reductions of 20 % each shall be made on :
 - 1st January 1983,
 - 1st January 1984,
 - 1st January 1985,
 - 1st January 1986.

Article 4

1. For the products listed in Annex I, the duty to which the successive reductions as provided for in Article 3 are to be applied shall, for each product, be the duty actually applied by the Hellenic Republic in respect of Morocco on 1 July 1980.
2. However, in respect of matches falling within heading No 36.06 of the Common Customs Tariff of the European Communities, the basic duty shall be 17,2 % ad valorem.

Article 5

1. For the products listed in Annex I, the Hellenic Republic shall progressively abolish charges having equivalent effect to customs duties on imports of products originating in Morocco in accordance with the following timetable :
 - on the date of this Protocol's entry into force, each charge shall be reduced to 90 % of the basic rate,
 - on 1st January 1982, each charge shall be reduced to 80 % of the basic rate,
 - the four other reductions of 20 % each shall be made on :
 - 1st January 1983,
 - 1st January 1984,
 - 1st January 1985,
 - 1st January 1986.
2. The basic rate to which the successive reductions as provided for in paragraph 1 are to be applied, shall, for each product, be the rate applied by the Hellenic Republic on 31 December 1980 in respect of the Community of Nine.
3. Any charge having equivalent effect to a customs duty on imports introduced as from 1st January 1979, in trade between the Hellenic Republic and Morocco shall be abolished.

Article 6

If the Hellenic Republic suspends or reduces duties or taxes of equivalent effect on products imported from the Community of Nine, more quickly than foreseen in the established timetable, the Hellenic Republic shall also suspend or reduce, by the same percentage those duties or taxes of equivalent effect on products originating in Morocco.

Article 7

1. The variable component which the Hellenic Republic may apply to products covered by Council Regulation (EEC) No 3033/80 of 11 November 1980 laying down the trade arrangements applicable to certain goods resulting from the processing of agricultural products, originating in Morocco, shall be adjusted by the compensatory amount applied in trade between the Community of Nine and Greece.
2. For the products covered by Regulation (EEC) No 3033/80 and also listed in Annex 1 to this Protocol, the Hellenic Republic shall abolish, in accordance with the timetable laid down in Article 3, the difference between :

In the case of products listed in Annex II to the EEC Treaty, the preferential rates provided for or calculated shall be applied to the duties actually levied by the Hellenic Republic in respect of third countries as laid down in Article 64 of the 1979 Act of Accession.

In no case should Greek imports from Morocco benefit from rates of duty more favourable than those applied to products from the Community of Nine.

Article 9

1. The Hellenic Republic may retain quantitative restrictions until 31 December 1985 on products listed in Annex II to this Protocol originating in Morocco.
2. The restrictions referred to in Paragraph 1 shall take the form of quotas. The quotas for 1981 are listed in Annex II.
3. The minimum rate of progressive increase for such quotas shall be 25 % at the beginning of each year for quotas expressed in units of account, and 20 % at the beginning of each year for quotas expressed in terms of volumes. Such increases shall be added to each quota and the next increase calculated on the basis of the total thus obtained.

However, with regard to motor coaches and buses and other vehicles falling within subheading ex 87.02 A I of the Common Customs Tariff, the quota shall be raised by 20 % a year.

4. Where it is found that imports into Greece of a product listed in Annex II have for two consecutive years been less than 90 % of the quota, the Hellenic Republic shall liberalize imports of that product originating in Morocco if the product in question is at that time liberalized towards the Community of Nine.
5. If the Hellenic Republic liberalizes imports of a product listed in Annex II from the Community of Nine or increases a quota applicable to the Community of Nine, beyond the minimum rate as laid down in Paragraph 3, the Hellenic Republic shall also liberalize imports of that product originating in Morocco or increase the quota proportionally.
6. Regarding licences for imports of products listed in Annex II and originating in Morocco the Hellenic Republic shall apply the same administrative rules and practices as applied to such imports originating in the Community of Nine, with the exception of the quota for fertilisers falling within the heading Nos 31.02, 31.03 and 31.05 A I, II and IV of the Common Customs Tariff of the European Communities, where the Hellenic Republic may apply the rules and practices relevant to the exclusive marketing rights.

Article 10

- on the date of this Protocol's entry into force : 25 %,
- 1st January 1982 : 25 %
- 1st January 1983 : 25 %
- 1st January 1984 : 25 %.

2. As regards products listed in Annex II to the EEC Treaty, charges having an effect equivalent to customs duties and measures having an effect equivalent to quantitative restrictions (import deposits, system of cash payment, validation of invoices, etc...) shall be abolished by Greece on entry into force of this Protocol in respect of products originating in Morocco subject to the provisions of Article 65 of the 1979 Act of Accession.
3. If the Hellenic Republic reduces towards the Community of Nine a rate of import deposits or cash payments quicker than according to the timetables contained in Paragraph 1 the Hellenic Republic shall make the same reduction with regard to imports originating in Morocco.

TITLE III

General and Final Provisions

Article 11

The Co-operation Council shall make any amendments which may be necessary to the origin rules consequent upon the accession of the Hellenic Republic to the European Communities.

TO BE ANNEXED TO THE
PROTOCOL

JOINT DECLARATION BY THE DELEGATION OF THE
EUROPEAN COMMUNITY AND THE MOROCCAN DELEGATION

In the course of the negotiations which were held in connection with the adaptation of the EEC-Morocco Co-operation Agreement consequent on the accession of Greece, the Moroccan Delegation made a number of observations regarding the consultation procedure provided for in Article 50 of the Agreement, which must be put into operation in the event of a third State acceding to the Community.

The Moroccan Delegation underlined the specific nature of the Greek case and stressed that for the subsequent stages of enlargement both the procedure and the substance of adaptation should be adjusted to the nature and extent of the problems raised by accession of the third State concerned. It hoped that a suitable formula for consultations would be worked out for the future so that solutions could be sought at the same time as the negotiations for accession.

The Community Delegation noted these observations.

The Community Delegation pointed out that the Community would make every effort to take into consideration the particular points of concern of its Mediterranean partners and therefore of Morocco when it was examining the consequences of further enlargement on third countries.
