Proposal for a

COUNCIL REGULATION (EC)

**amending, for the third time, Regulation (EC) No. 390/97
fixing, for certain fish stocks and groups of fish stocks, the total allowable catches for
1997 and certain conditions under which they may be fished**

(presented by the Commission)

EXPLANATORY MEMORANDUM

The objective of the present proposal is to fix fishing possibilities for certain stocks of fish and to allocate these equitably to Member States. The fixing and the sharing of possibilities for fishing falls exclusively within the competence of the Community and arises from obligations set out in Article 8(4) of Regulation (EEC) n° 3760/92 of the Council of 20 December 1992¹, establishing a Community regime for fishing and aquaculture.

Within the framework of the bilateral consultations on the reciprocal fishing rights between the Community and Norway, the TAC and the Community share for North Sea plaice have been increased.

This proposal intends to address these matters by modifying Council Regulation (EC) N° 390/97².
