Brussels, 06.09.1995 SEC(95) 1285 final

# REPORT FROM THE COMMISSION

#### ON THE LOCATION OF COMMUNITY DEPARTMENTS

Situation at the end of September 1993 and at the end of September 1994

### **EXPLANATORY MEMORANDUM**

\_\_\_\_\_

This report, submitted under Article 10 of the Decision of the Representatives of the Governments of the Member States on the provisional location of certain institutions and departments of the Communities and under the Decision of the Representatives of the Governments of the Member States on the location of the seats of the institutions of 12 December 1992, describes the situation obtaining at the end of September 1993 and the end of September 1994.

Article 10 of the Decision of 8 April 1965 of the Representatives of the Governments of the Member States on the provisional location of certain institutions and departments of the Communities reads as follows:

"The Governments of the Member States are willing to locate in Luxembourg, or to transfer thereto, other Community bodies and departments, particularly those concerned with finance, provided that their proper functioning can be ensured."

To this end, they request the Commission to present to them annually a report on the current situation concerning the location of Community bodies and departments and on the possibility of taking new steps to give effect to this provision, account being taken of the need to ensure the proper functioning of the Communities."

Each year since 1968 the Commission has presented a report in compliance with these provisions, traditionally covering the period from September to September and concerned with permanent posts under the operating budget.

The present report, the twenty-fifth, is a double issue, describing the situation at the end of September 1993 and at the end of September 1994.

It therefore takes account of events since October 1992, notably the Decision taken by common agreement between the Representatives of the Governments of the Member States on the location of the seats of the institutions and of certain bodies and departments of the European Communities, which entered into force on 12 December 1992.

As part of its programme to modernize and adapt its structures to meet the challenges of implementing the Single Act and the entry into force of the Maastricht Treaty, the Commission has continued its radical restructuring of its departments.

In the case of Directorate-General 1A (External Political Relations), set up at the beginning of 1993, Directorate-General III (Industry), Directorate-General XV (Internal Market and Financial Services) and the Coordination of Fraud Prevention Directorate the aim was to create a more efficient structure to provide a service better adapted to the reality of the European Union.

A number of operational Directorates—General were reformed, some more radically than others, as a follow-up to the screening exercise conducted in March 1991. This process has continued.

The problem of housing a growing number of staff in Brussels and Luxembourg alike in the event of further enlargement of the Community has led the Commission to give some thought to accommodation policy in the longer term.

#### COMMISSION PREMISES IN BRUSSELS

In 1993 three small buildings which no longer met current standards were relinquished and two medium-sized modern buildings rented in their place. This operation, which followed on the budgetary decisions adopted by the Edinburgh Council, enabled the Community's building stock to be rationalized without increasing capacity.

Centralized facilities for the preparation of meals for all Commission staff in Brussels were built on land provided by the Belgian authorities.

2. In 1994 two more old small buildings were relinquished. Two medium-sized modern buildings were rented to accommodate additional staff and prepare for the new, larger Commission including the new Member States.

Talks have begun with the owners of two large buildings with a view to major renovation work.

3. During these two years, work on construction of the crèche and day-care centre has progressed normally. Discussions have continued with the Belgian authorities on the possible return of the Commission to the Berlaymont building following its renovation

#### COMMISSION PREMISES IN LUXEMBOURG - SITUATION AND PROSPECTS

The Commission's departments in Luxembourg are now quartered in five buildings:

- The Jean Monnet building, which houses the largest number of departments.
- The Cube building, which is fully occupied by the Euratom Safeguards Directorate. This department has moved a small section of its staff into the extension to the BAK II building, the fourth occupied by the Commission.
- The Wagner Centre, now housing Directorate-General XVIII (Credit and Investments), the Radiation Protection Unit of DG XI, the Luxembourg sickness insurance claims office, the training department of DG IX's Personnel (Luxembourg) Unit and the Computer Forum.
- The BAK II building (170 offices are sublet to the European Parliament), which is home to a number of sections of the Euratom Safeguards Directorate and one SOEC Directorate which was forced out of the Jean Monnet building by lack of space.
- The Airport Center at Senningenberg, near Luxembourg airport. In September 1993 the Commission took a lease on part of this new bulding from early 1994, to meet its most urgent requirements. Directorate B of the Statistical Office is now temporarily housed there (approximately 4 200 m<sup>2</sup>).

To meet the increase in staffing levels it was decided to rent a new building, for the Statistical Office in particular, for occupation by the end of 1996, a temporary solution accommodating 400-500 people being planned for 1995.

The study on the state of the Jean Monnet building suggests no major reason why it should not be renovated, this work could be completed around the year 2000.
