Proposal for a

COUNCIL REGULATION (EC)

**amending Regulation (EEC) No 2658/87 on the tariff and statistical nomenclature
and on the Common Customs Tariff**

(presented by the Commission)

EXPLANATORY MEMORANDUM

On the occasion of the adoption by the Council in December 1994 of Regulation (EC) No 3290/94 on the adjustments and transitional arrangements required in the agricultural sector in order to implement the agreements concluded during the Uruguay Round of multilateral trade negotiations (OJ No L 349, 31.12.1994, p. 105), the Commission made the following statement in respect of the fruit and vegetables sector:

"Should the entry price be adjusted, the Commission will see to it that the import prices, within the meaning of Article 23(2) and (3) (Annex XIII), are set separately for sour cherries and cucumbers for processing, including in situations where they are shown together with the products for eating under the tariff heading."

This proposal is the follow-up to that statement and replaces the transitional measures adopted by the Commission relating to the entry price arrangements applicable to cucumbers for processing. Its purpose is to reduce the entry prices of cucumbers for processing set out in Annex 2 in the combined nomenclature, which have been set at a level designed to protect cucumbers for eating. The proposed entry prices take account of the import prices recorded in recent years and are intended to maintain the conditions of supply of the Community industries processing cucumbers.

With regard to sour cherries, the need to establish a separate entry price and the level of that price are still being examined.

**Proposal for a
COUNCIL REGULATION (EC) No**

of

**amending Regulation (EEC) No 2658/87 on the tariff and statistical nomenclature
and on the Common Customs Tariff**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Articles 28 and 113 thereof,

Having regard to the proposal from the Commission,

Whereas Annex I to Council Regulation (EEC) No 2658/87 of 23 July 1987¹, as last amended by Commission Regulation (EC) No 3115/94², contains in Part 3, Section I, Annex 2 in the combined nomenclature the list of products to which an entry price applies and also, in respect of those products, the scale of entry prices used for the tariff classification of imported products and for determining the import duties applicable; whereas application of the said entry prices in the case of cucumbers for processing can represent an excessive burden for the industry; whereas lower entry prices should be set therefore for those products; whereas the entry prices to be fixed must take into account the average unit values recorded in trade over a representative period; whereas the *ad valorem* autonomous rates of duties for those products should be reduced also to the same level as the *ad valorem* conventional rates of duties;

Whereas the period of importation for cucumbers for processing commences on 1 May; whereas, in order to allow the industry to be supplied under normal conditions from the beginning of the processing period, the transitional measures necessary have been adopted by Commission Regulation (EC) No adopting certain transitional measures relating to the entry price arrangements applicable to cucumbers for processing,

HAS ADOPTED THIS REGULATION:

¹ OJ No L 256, 7.9.1987, p. 1.

² OJ No L 345, 31.12.1994, p. 5.

Abis

Article 1

1. Annex I, Part 3, Section I, Annex 2 in the combined nomenclature annexed to Regulation (EEC) No 2658/87 is hereby amended as set out in the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the seventh day following its publication in the Official Journal of the European Communities.
