## REPORT FROM THE COMMISSION TO THE COUNCIL

on the results of invitations to tender

---

COM(77) 179 final.

Report from the Commission to the Council  
on the results of invitations to tender

The Commission is required under the provisions of Article 47, paragraph 4 of the Financial Regulations of the Second European Development Fund dated 1 June 1964, the provisions of Article 49, paragraph 4 of the Financial Regulations of the Third European Development Fund dated 26 January 1971, and the provisions of Article 43, paragraph 1 of the Financial Regulations of the Fourth European Development Fund dated 27 July 1976, to inform the Council on the results of invitations to tender.

In accordance with these provisions the Commission now submits the following report on the results of invitations to tender between 1 January and 31 December 1976, from the resources of the Second, Third and Fourth European Development Funds.

The Commission is also taking advantage of the opportunity provided by the submission of this report to the Council to include the same data relating to the First Fund, which, under Council Regulation No 5 Article 20, must be attached to the annual accounts of this Fund.

The Commission, with the aim of allowing an overall view to be taken, has included also a statistical survey on the breakdown by nationality as at 31 December 1976.

IMPORTANT:

The following tables show the statistical breakdown of works, supply and technical cooperation contracts financed by the first three EDFs up to 31 December 1976.

The figures given cover the following:

- (i) as regards works and supplies, contracts awarded following an international invitation to tender and, in the case of the third EDF, contracts concluded by restricted consultation procedure or by mutual agreement;
- (ii) as regards technical cooperation, contracts concluded by mutual agreement in the fields of studies, works supervision, general and technical supervision and technical assistance.

As far as the fourth EDF is concerned, commitments made since the entry into force of the Lomé Convention and the actual launching of projects had not resulted in any contracts that could be expressed in figures at the time the statistics were drawn up.
