

WEEKLY

Industry Research and Technology

REPRODUCTION AUTHORIZED

Brussels, 18 December 1973

No 215

Owing to the Christmas and New Year holiday period the next issue, No 74/1, of this news letter will be dated 8 January 1974 and will be issued under the title "Industry and Society"

INDEX 1972-73
(IRT No 125-215)

Each issue of "Industry, Research and Technology" normally contains short items of Community news, together with "Annexes" consisting of somewhat longer pieces which either report the current position on a particular topic or provide a summary of a document published by the Community.

An index of the "Annexes" for the last two years (i.e. IRT No 126 of 4 January 1972 to IRT No 215 of 18 December 1973) is published in this issue; keywords identifying the subject(s) covered by the annexes are followed by figures which refer the reader to the IRT issues in which they were published.

Unfortunately, however, most back numbers of IRT are out of print, though they can be consulted in various libraries, in particular that of the Commission of the European Communities.

This bulletin is published by the Directorate General Press and Information of the Commission of the European Communities

For further information please apply to the

Commission of the European Communities
Directorate-General for Press and Information
Division for industrial and scientific information
200, avenue de la Loi
1040 Brussels - Tel. 3500 40

or any of the Information Offices of the European Communities (list inside cover)

The information and articles published in this Bulletin concern European scientific cooperation and industrial development in Europe. Hence they are not simply confined to reports on the decisions or views of the Commission of the European Communities, but cover the whole field of questions discussed in the different circles concerned.
