COUNCIL REGULATION (EEC)

concerning the definition of the concept of "originating products" and methods of administrative cooperation in the trade between the customs territory of the Community, Ceuta and Melilla and the Canary Islands

(submitted to the Council by the Commission)

COM(85) 692 final

EXPLANATORY NOTE

According to Protocol n° 2 of the Act of adhesion, the Spanish territories of the Canary Islands, Ceuta and Melilla are not included in the customs territory of the Community, and their trade with the latter will benefit from a reciprocal preferential system, which will end, with duty free entry, with some exceptions, after the transitional period.

Article 9 of the said Protocol provides for the Council to adopt, voting before the 1st of March 1986, by qualified majority on a Commission proposal, the origin rules to be applied in the trade between these territories and the Community.

At the adhesion negotiations, the inter-ministerial Conference agreed on a draft project of origin rules corresponding to those already adopted in the Community preferential schemes with Third Countries. The main lines of this project are the following :

- The basic rules allow a third country product undergoing working or processing to obtain origin by a change of tariff heading. This basic principle is supplemented by two lists, the first one (List A) includes the products subject to additional conditions in addition to the requirement of the change of tariff heading, the other one (List B) enumerates the products for which a level of manufacture not amounting to a change of tariff heading is accepted.

These basic rules which imply a substantial working or processing of the product are intended to grant the benefit of the EEC-Ceuta-Melilla-Canary Islands preferential regime only to goods which have been sufficiently transformed in one of these territories.

- A total cumulation system is envisaged : this means that, not only the use in a manufacturing process of goods originating in anyone of the territories concerned is always possible, but also that :. all the working and processing carried out in the EEC, Ceuta, Melilla and the Canary Islands may be taken into account when considering if the basic rules mentioned above are satisfied.

It was agreed that cumulation will apply to fish products only in the framework of the tariff quotas foreseen for these goods. As all the fish products of these territories are subject to tariff quotas, and once these are exhausted the rate of duty for Third countries will be levied, it is not necessary to lay down specific rules in this field.

- The Lists A and B are based on the Mediterranean agreements for chapters 1 to 24 (agricultural products) and the EFTA agreements for the remaining chapters.

- In order to limit any possibility of trade deflection, and especially to avoid the exportation from the Community to Ceuta, Melilla and the Canary Islands with the only aim of obtaining a "drawback" and without any manufacturing process in these territories taking place, a rule has been adopted to exclude cumulation if the manufacturing carried out in Ceuta, Melilla or in the Canary Islands is on a list of "minimal" operations set out in the regulation. A similar provision applies also in the other sense. A further rule, based on the same principle of the level of manufacture carried out, is used to determine the final allocation of the country of origin (EEC, Ceuta and Melilla or the Canaries).

It should be noted that Portugal will also apply this regime in trade with the Canary Islands and Ceuta and Melilla, as laid down in Article 10 of Protocol n° 3 of the Act of Adhesion.

The annexed draft regulation reproduces the rules agreed by the Conference with the adaptations required after the subsequent adoption of the Act of adhesion.

The Commission proposes to the Council to adopt those draft in view of its entry into force on the 1st March 1986.

Proposal for a
COUNCIL REGULATION (EEC)

concerning the definition of the concept of "originating products"
and methods of administrative co-operation
in the trade between the customs territory of the Community,
Ceuta and Melilla and the Canary Islands.

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the
European Economic Community,

Having regard to the Act of Accession of Spain
and Portugal, and in particular Protocol
No 2 thereto,

Having regard to the proposal from the Commission,

Whereas Article 9 of Protocol No 2 concerning the
Canary Islands and Ceuta and Melilla provides
that the Council shall adopt, before 1 March 1986,
the rules of origin to be applied to the trade
referred to in Articles 2, 3, 4, 6 and 8 of that
Protocol,

HAS ADOPTED THIS REGULATION :

TITLE I

Definition of the concept
of originating products

Article 1

1) For the purpose of implementing the arrangements
governing trade between the customs territory of
the Community, hereinafter called "the Community",
Ceuta and Melilla and the Canary Islands and
without prejudice to paragraphs 2 and
3, on condition that they were trans-
ported in conformity with Article 5,
the following shall be considered as:

- (a) products originating in Ceuta and
Melilla or in the Canary Islands:
- products wholly obtained in Ceuta
and Melilla or in the Canary
Islands;
 - products obtained in Ceuta and
Melilla or in the Canary Islands
in the manufacture of which
products other than those wholly
obtained in Ceuta and Melilla
or in the Canary Islands are
used, provided that the said
products have undergone suffi-
cient working or processing
within the meaning of Article 3;

(b) products originating in the
Community:

- products wholly obtained in the
Community;
- products obtained in the Community,
in the manufacture of which
products other than those wholly
obtained in the Community are
used, provided that the said
products have undergone sufficient
working or processing within the
meaning of Article 3;

(c) for the purpose of implementing
subparagraph (a), Ceuta and Melilla
and the Canary Islands are
considered as being one territory.

2) For the purpose of implementing the
first indent or paragraph 1(a), when
products wholly obtained in the
Community undergo working or processing
in Ceuta and Melilla or in the Canary
Islands, they shall be considered as
having been wholly obtained in Ceuta
and Melilla or in the Canary Islands.

For the purpose of implementing the
second indent of paragraph 1(a),
working or processing carried out in
the Community shall be considered as
having been carried out in Ceuta and
Melilla or in the Canary Islands when
the products obtained undergo subse-
quent working or processing in Ceuta
and Melilla or in the Canary Islands.

This paragraph shall apply subject to
the condition that working or proces-
sing carried out in Ceuta and Melilla
or in the Canary Islands exceeds the
working or processing listed in
Article 3(3) and that the products
concerned are transported in
conformity with Article 5;

3) For the purpose of implementing the
first indent of paragraph 1(b), when
products wholly obtained in Ceuta and
Melilla or in the Canary Islands
undergo working or processing in the
Community, they shall be considered as
having been wholly obtained in the
Community.

For the purposes of implementing the
second indent of paragraph 1(b), wor-
king or processing carried out in
Ceuta and Melilla or in the Canary
Islands shall be considered as having
been carried out in the Community,
when the products obtained undergo
subsequent working or processing in
the Community.

This paragraph shall apply subject to the condition that the working or processing carried out in the Community exceeds the working or processing referred to in Article 3(3) and that the products concerned are transported in conformity with Article 5.

- 4) For the purpose of implementing the above paragraphs and provided that all the conditions laid down in those paragraphs are fulfilled, products obtained in the Canary Islands and in Ceuta and Melilla shall be considered as originating in the territory where the last working or processing took place, provided that they were transported in accordance with Article 5. For this purpose the working or processing referred to in Article 3(3) shall not be considered as working or processing.
- 5) The products set out in List C in Annex IV shall be temporarily excluded from the scope of this Regulation. Nevertheless, the arrangements regarding administrative co-operation shall apply mutatis mutandis to these products.

Article 2

The following shall be considered as "wholly obtained" in Ceuta and Melilla, in the Canary Islands or in the Community within the meaning of Article 1(1), (2) and (3):

- (a) mineral products extracted from their soil or from their seabed;
- (b) vegetable products harvested there;
- (c) live animals born and raised there;
- (d) products from live animals raised there;
- (e) products obtained by hunting or fishing conducted there;
- (f) products of sea fishing and other products taken from the sea by their vessels;
- (g) products made aboard their factory ships exclusively from products referred to in subparagraph (f);
- (h) used articles collected there fit only for the recovery of raw materials;
- (i) waste and scrap resulting from manufacturing operations conducted there;
- (j) goods produced there exclusively from products specified in subparagraphs (a) to (i).

Article 3

1. For the purpose of implementing the provisions of Article 1 the following shall be considered as sufficient working or processing:

(a) working or processing as a result of which the goods obtained receive a classification under a heading other than that covering each of the products worked or processed, except, however, working or processing specified in List A in Annex II, where the special provisions of that list apply;

(b) working or processing specified in List B in Annex III.

'Sections', 'Chapters' and 'headings' shall mean the Sections, Chapters and headings in the Customs Co-operation Council Nomenclature.

2. When, for a given product obtained, a percentage rule limits in Lists A and B the value of the materials and parts which can be used, the total value of these materials and parts, whether or not they have changed heading in the course of the working, processing or assembly within the limits and under the conditions laid down in each of those two lists, may not exceed, in relation to the value of the product obtained, the value corresponding either to the common rate, if the rates are identical in both lists, or to the higher of the two if they are different.

3. For the purpose of implementing Article 1, the following shall always be considered as insufficient working or processing to confer the status of originating product, whether or not there is a change of heading:

(a) operations to ensure the preservation of merchandise in good condition during transport and storage (ventilation, spreading out, drying, chilling, placing in salt, sulphur dioxide or other aqueous solutions, removal of damaged parts, and like operations);

(b) simple operations consisting of removal of dust, sifting or screening, sorting, classifying, matching (including the making up of sets of articles), washing, painting, cutting up;

- (h) slaughter of animals.

Article 4

Where the Lists A and B referred to in Article 3 provide that goods obtained in Ceuta and Melilla in the Canary Islands or in the Community shall be considered as originating therein only if the value of the products worked or processed does not exceed a given percentage of the value of the goods obtained, the values to be taken into consideration for such a percentage shall be:

— on the one hand,

as regards products whose importation can be proved: their customs value at the time of importation,

as regards products of undetermined origin: the earliest ascertainable price paid for such products in the territory where manufacture takes place;

— on the other hand,

the ex-works price of the goods obtained, less internal taxes refunded or refundable on exportation.

Article 5

1. For the purpose of implementing Article 1, originating products whose transport is effected without entering territory other than that of the Community, Ceuta and Melilla and the Canary Islands are considered as transported directly from Ceuta and Melilla or from the Canary Islands to the Community or from the Community to Ceuta and Melilla or to the Canary Islands. However, goods originating in Ceuta and Melilla, in the Canary Islands or in the Community and constituting one single consignment which is not split up may be transported through territory other than that of the Parties with, should the occasion arise, transshipment or temporary warehousing in such territory, provided that the crossing of the latter territory is justified for geographical reasons and that the goods have remained under the surveillance of the customs authorities in the country of transit or warehousing, that they have not entered into commerce of such countries nor been delivered for home use there and have not undergone operations other than unloading, reloading or any operation designed to maintain them in good condition.

2. Evidence that the conditions referred to in paragraph 1 have been fulfilled shall be supplied to the responsible customs authorities in the Community, in Ceuta and Melilla or in the Canary Islands by the production of:

(b) a certificate issued by the customs authorities of the country of transit:

— giving an exact description of the goods,

— stating the dates of unloading and reloading of the goods or of their embarkation, or disembarkation where appropriate, identifying the ships used,

— certifying the conditions under which the goods remained in the transit country;

(c) or failing these, any substantiating documents.

TITLE II

Arrangements for administrative cooperation

Article 6

1. Evidence of originating status of products within the meaning of this Regulation is given by a movement certificate EUR 1 of which a specimen is given in Annex V.

However, the evidence of originating status, within the meaning of this Regulation, of products which form the subject of postal consignments (including parcels), provided that they consist only of originating products and that the value does not exceed 3 400 ECU per consignment, may be given by a form EUR 2, of which a specimen is given in Annex VI.

Up to and including 30 April 1987, the ECU to be used in any given national currency shall be the equivalent in that national currency of the ECU as at 1 October 1984. For each successive period of two years thereafter it shall be the equivalent in that national currency of the ECU as at the first working day in October in the year immediately preceding that two-year period.

Amounts in the national currency of the exporting State equivalent to the amounts expressed in this Article and in Article 17 in ECU shall be fixed by the exporting State and communicated to the other parties.

When these amounts are more than the corresponding amounts fixed by the importing State, the importing State shall accept them if the goods are invoiced in the currency of the exporting State.

If the goods are invoiced in the currency of another Member State of the Community, the importing State shall recognize the amount notified by the State concerned.

2. Without prejudice to Article 3 (3), where, at the request of the person declaring the goods at the customs, a dismantled or non-assembled article falling within Chapters 84 or 85 of the Customs Cooperation Council Nomenclature is imported by instalment conditions laid down by the competent authorities, it shall be considered to be a single article and a movement certificate may be submitted for the whole article upon importation of the first instalment.

3. Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle which are part of the normal equipment and included in the price thereof or are not separately invoiced are regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

4. Sets in the sense of the General Rule 3 of the Customs Cooperation Council Nomenclature shall be regarded as originating when all component articles are originating products. Nevertheless, when a set is composed of originating and non-originating articles, the set as a whole shall be regarded as originating provided that the value of the non-originating articles does not exceed 15 % of the total value of the set.

Article 7

1. A movement certificate EUR. 1 shall be issued by the customs authorities of the exporting State when the goods to which it relates are exported. It shall be made available to the exporter as soon as actual exportation has been effected or ensured.

2. In exceptional circumstances a movement certificate EUR. 1 may also be issued after exportation of the goods to which it relates if it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances. In this case, the certificate shall bear a special reference to the conditions under which it was issued.

3. A movement certificate EUR. 1 shall be issued only upon a written request by the exporter. Such application shall be made on a form, of which a specimen is given in Annex V which shall be completed in accordance with this Regulation.

4. A movement certificate EUR. 1 may be issued only where it can serve as the documentary evidence required for the purpose of implementing the provisions governing trade between the Community, Ceuta and Melilla and the Canary Islands.

5. Applications for movement certificates must be kept for at least two years by the customs authorities of the exporting country.

Article 8

1. The movement certificate EUR. 1 shall be issued by the customs authorities of the exporting State, if the goods can be considered originating products within the meaning of this Regulation.
2. For the purpose of verifying whether the conditions stated in paragraph 1 have been met, the customs authorities shall have the right to call for any documentary evidence or to carry out any check which they consider appropriate.
3. It shall be the responsibility of the customs authorities of the exporting State to ensure that the forms referred to in Article 9 are duly completed. In particular, they shall check whether the space reserved for the description of the goods has been completed in such a manner as to exclude all possibility of fraudulent additions. To this end, the description of the goods must be indicated without leaving any blank lines. Where the space is not completely filled a horizontal line must be drawn below the last line of the description, the empty space being crossed through.
4. The date of issue of the movement certificate must be indicated in the part of the certificate reserved for the customs authorities.

Article 9

Movement certificates EUR. 1 shall be made out on the form of which a specimen is given in Annex V.

This form shall be printed in one or more of the official languages of the Community. Certificates shall be made out in one of these languages and in accordance with the provisions of the domestic law of the exporting State, if they are handwritten they shall be completed in ink and in capital letters.

Each certificate shall measure 210 × 297 mm. A tolerance of up to plus 8 or minus 5 mm in the length may be allowed. The paper used must be white writing paper, sized, not containing mechanical pulp and weighing not less than 25 g/m². It shall have a printed green guilloche pattern background making any falsification by mechanical or chemical means apparent to the eye.

The exporting States may reserve the right to print the certificates themselves or may have them printed by approved printers. In the latter case, each certificate must include a reference to such approval. Each certificate must bear the name and address of the printer or a mark by which the printer can be identified. It shall also bear a serial number, either printed or not, by which it can be identified.

Article 10

1. Under the responsibility of the exporter, he or his authorized representative shall request the issue of a movement certificate EUR. 1.
2. The exporter or his representative shall submit with his request any appropriate supporting document proving that the goods to be exported are such as to qualify for the issue of a movement certificate EUR. 1.

Article 11

A movement certificate EUR. 1 must be submitted, within five months of the date of issue by the customs authorities of the exporting State, to the customs authorities of the importing State where the goods are entered.

Article 12

Movement certificates EUR. 1 shall be submitted to customs authorities in the importing State, in accordance with the procedures laid down by that State. The said authorities may require a translation of a certificate. They may also require the import declaration to be accompanied by a statement from the importer to the effect that the goods meet the conditions required for the implementation of the provisions governing trade between the Community, Ceuta and Melilla and the Canary Islands.

Article 13

1. A movement certificate EUR. 1 which is submitted to the customs authorities of the importing State after the final date for presentation specified in Article 11 may be accepted for the purpose of applying preferential treatment, where the failure to submit the certificate by the final date set is due to reasons of *force majeure* or exceptional circumstances.
2. In other cases of belated presentation, the customs authorities of the importing State may accept the certificates where the goods have been submitted to them before the said final date.

Article 14

The discovery of slight discrepancies between the statements made in the movement certificate EUR. 1 and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the goods shall not ipso facto render the certificate null and void if it is duly established that the certificate does correspond to the goods submitted.

Article 15

It shall always be possible to replace one or more movement certificates EUR. 1 by one or more other movement certificates EUR. 1 provided that this is done at the customs office where the goods are located.

Article 16

Form EUR. 2, a specimen of which is given in Annex VI to this Regulation shall be completed by the exporter or, under his responsibility, by his authorized representative. It shall be made out in one of the official languages of the Community and in accordance with the provisions of the domestic law of the exporting State. If it is handwritten it must be completed in ink and in capital letters. If the goods contained in the consignment have already been subject to verification in the exporting country by reference to the definition of the concept of originating products the exporter may refer to this check in the "Remarks" box of form EUR. 2.

Form EUR.2 shall measure 210 x 148 mm. A tolerance of up to plus 8 or minus 5 mm in the length may be allowed. The paper used must be white writing paper, sized, not containing mechanical pulp and weighing not less than 64 g/m².

The exporting States may reserve the right to print the forms themselves or may have them printed by printers they have approved. In the latter case each form must include a reference to such approval. In addition, the form must bear the distinctive sign attributed to the approved printer and a serial number, either printed or not, by which it can be identified.

A form EUR. 2 shall be completed for each postal consignment.

These provisions do not exempt exporters from complying with any other formalities required by customs or postal regulations.

Article 17

1. Goods sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the production of a movement certificate EUR. 1 or the completion of a form EUR. 2, provided that such goods are not imported by way of trade and have been declared as meeting the conditions required for the application of these provisions, and where there is no doubt as to the veracity of such declaration.

2. Importations which are occasional and consist solely of goods for the personal use of the recipients or travellers or their families shall not be considered as importations by way of trade if it is evident from the nature and quantity of the goods that no commercial purpose is in view. Furthermore, the total value of these goods must not exceed 240 ECU in the case of small packages or 620 ECU in the case of the contents of travellers' personal luggage.

Article 18

1. Goods sent from the Community, from Ceuta and Melilla or from the Canary Islands for exhibition in another country and sold after the exhibition for importation into Ceuta and Melilla into the Canary Islands or into the Community shall benefit on importation from the provisions governing trade between them on condition that the goods meet the requirements of this Regulation entitling them to be recognized as originating and provided that it is shown to the satisfaction of the customs authorities that:

- (a) an exporter has consigned these goods from the territory of the Community, from Ceuta and Melilla or from the Canary Islands to the country in which the exhibition is held and has exhibited them there;
- (b) the goods have been sold or otherwise disposed of by that exporter to a consigner in Ceuta and Melilla, in the Canary Islands or in the Community;

(c) the goods have been consigned during the exhibition or immediately thereafter to Ceuta and Melilla, to the Canary Islands or to the Community in the state in which they were sent for exhibition;

(d) the goods have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. A movement certificate-EUR.1 must be submitted to the customs authorities in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the nature of the goods and the conditions under which they have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organized for private purposes in shops or business premises with a view to the sale of foreign goods, and during which the goods remain under customs control.

Article 19

1. When a certificate is issued within the meaning of Article 7(2), of this Regulation after the goods to which it relates have actually been exported, the exporter must in the application referred to in Article 7(3) of this Regulation:

- indicate the place and date of consignment of the goods to which the certificate relates;
- certify that no movement certificate EUR. 1 was issued at the time of exportation of the goods in question, and state the reasons.

2. The customs authorities may issue a movement certificate EUR. 1 retrospectively only after verifying that the information supplied in the exporter's application agrees with that in the corresponding file.

Certificates issued retrospectively must be endorsed with one of the following phrases: 'NACHTRÄGLICH AUSGESTELLT', 'DELIVRE A POSTERIORI', 'RILASCIATO A POSTERIORI', 'AFGEGEVEN A POSTERIORI', 'ISSUED RETROSPECTIVELY', 'UDSTEDT EFTERFØLGENDE', 'ΕΚΔΟΘΕΝ ΕΚ ΤΩΝ ΥΣΤΕΡΩΝ',
"EXPEDIDÒ A POSTERIORI"
"EMITIDO A POSTERIORI".

Article 20

In the event of the theft, loss or destruction of a movement certificate EUR. 1, the exporter may apply to the customs authorities which issued it for a duplicate made out on the basis of the export documents in their possession. The duplicate issued in this way must be endorsed with one of the following words: 'DUPLIKAT', 'DUPLICATA', 'DUPLICATO', 'DUPLICAAT', 'DUPLICATE', 'ΑΝΤΙΓΡΑΦΟ', 'DUPLICADO', 'SEGUNDA VIA'.

Article 21

1. When paragraphs 2 and 3 of Article 1 are applied for the issue of a movement certificate EUR. 1, the competent customs office of the State requested to issue the certificate for products in the manufacture of which products coming from Ceuta and Melilla, the Canary Islands or the Community are used shall take into consideration the declaration of which specimens are given in Annex VII (A, B, C and D) given by the exporter in the State of provenance, either on the commercial invoice applicable to these goods, or on a supporting document further to that invoice or other commercial document relating to that shipment which describes the goods concerned in sufficient detail to enable them to be identified.

2. The submission of the information certificate INF 4, issued under the conditions set out in Article 22 and of which a specimen is given in Annex VIII, may however be requested of the exporter by the customs office concerned for checking the authenticity and accuracy of information given on the declaration provided for in paragraph 1.

Article 22

1. The information certificate INF 4 concerning the goods taken into use shall be issued upon a written request from the exporter of these goods made out on the form of which a model is given in Annex IX, in the case foreseen in Article 21(2), by the competent customs office of the country of provenance.
2. The certificate shall be given or sent to the exporter who shall forward it to the buyer or to the customs office which has requested its submission.
3. The application form shall be kept by the issuing office for at least two years.

Article 23

All necessary steps shall be taken to ensure that goods traded under cover of a movement certificate EUR. 1, and which in the course of transport use a free zone situated in their territory, are not replaced by other goods and that they do not undergo handling other than normal operations designed to prevent their deterioration.

Article 24

In order to ensure the proper application of this Title, Spain and the other Member States shall assist each other, through their respective customs administrations, in checking the authenticity of movement certificates EUR. 1 and the accuracy of the information concerning the actual origin of the products concerned and the declarations by exporters on forms EUR. 2 and the authenticity and accuracy of the information certificates INF 4 referred to in Article 21.

Article 25

Penalties shall be imposed on any person who, in order to enable goods to be accepted as eligible for preferential treatment, draws up or causes to be drawn up, either a document which contains incorrect particulars for the purpose of obtaining a movement certificate EUR. 1 or a form EUR. 2 containing incorrect particulars.

Article 26

1. Subsequent verification of movement certificates EUR. 1 and of forms EUR. 2 shall be carried out at random or whenever the customs authorities of the importing State have reasonable doubt as to the authenticity of the document or the accuracy of the information regarding the true origin of the goods in question.

2. For the purpose of implementing paragraph 1, the customs authorities of the importing State shall return the movement certificate EUR. 1 or the form EUR. 2, or a photocopy thereof, to the customs authorities of the exporting State, giving, where appropriate, the reasons of form or substance for an inquiry. The invoice, if it has been submitted, or a copy thereof shall be attached to the form EUR. 2 and the customs authorities shall forward any information that has been obtained suggesting that the particulars given on the said certificate or the said form are inaccurate.

If the customs authorities of the importing State decide to suspend execution of Title I of the Regulation while awaiting the results of the verification, they shall offer to release the goods to the importer subject to any precautionary measures judged necessary.

3. The customs authorities of the importing State shall be informed of the results of the verification as soon as possible. These results must be such as to make it possible to determine whether the disputed movement certificate EUR. 1 or form EUR. 2 applies to the goods actually exported, and whether these goods can, in fact, qualify for the application of the preferential arrangements.

Article 27

The subsequent verification of the information certificate INF 4 referred to in Article 21 shall be carried out in the circumstances envisaged in Article 26 following a similar procedure to that envisaged in that Article.

Article 28

The Annexes to this Regulation shall form an integral part thereof.

Article 29

The endorsements referred to in Articles 19 and 20 shall be inserted in the "Remarks" box of the certificate.

Article 30

1. Spain and the other Member States shall take any measures necessary to enable movement certificates EUR. 1 and forms EUR. 2 to be submitted, in accordance with Articles 11 and 12 of this Regulation from the day of its entry into force.
2. The certificates of type AE 1 and forms AE 2 may be used for a period of three months from the entry into force of this Regulation.

Article 31

This Regulation shall enter into force on 1 March 1986, subject to the entry into force of the Treaty of Accession of Spain and Portugal.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

ANNEX 1
EXPLANATORY NOTES

Note 1 - Articles 1 and 2

The term "the Community" shall also cover the territorial waters of the Member States of the Community.

Vessels operating on the high seas, including factory ships, on which fish caught is worked or processed, shall be considered as part of the territory of the State to which they belong provided that they satisfy the conditions set out in Explanatory Note 6.

Note 2 - Article 1

In order to determine whether goods originate in the Community, in Ceuta and Melilla or in the Canary Islands, it shall not be necessary to establish whether the electrical power, fuel, plant and equipment and machines and tools used to obtain finished goods or whether any products used in the course of production which do not enter and which were not intended to enter into the final composition of the goods originate in third countries or not.

Note 3 - Article 1

Where a percentage rule is applied in determining originating status of a product obtained in a Member State, in Ceuta and Melilla or in the Canary Islands, the value added by the working or processing referred to in Article 1 shall correspond to the ex-works price of the product obtained less the customs value of third products imported into the Community, into Ceuta and Melilla or into the Canary Islands.

Note 4 - Article 3(1) and (2) and Article 4

The percentage rule constitutes, where the product obtained appears in List A, a criterion additional to that of change of heading for any non-originating product used.

Note 5 - Article 1

Packaging shall be considered as forming a whole with the goods contained therein. This provision, however, shall not apply to packaging which is not of the normal type for the article packed and which has intrinsic utilization value and is of a durable nature, apart from its function as packaging.

Note 6 - Article 2(f)

The terms "their vessels" shall apply only to vessels:

- which sail under the flag of a Member State,
- which are registered or recorded in a Member State, or on a permanent basis in Ceuta and Melilla or in the Canary Islands,

Permanent registry means : the entry in the registers of the local competent authorities after :

- the date of first putting into service for new vessels ;
- the first registry under the Spanish flag for used vessels purchased abroad.
