

COMMISSION OF THE EUROPEAN COMMUNITIES

COM(77) 216 final

Brussels, 31 May 1977

Draft of a
REGULATION (EEC) OF THE COUNCIL

temporarily suspending the autonomous Common
Customs Tariff duties on certain industrial
products

(submitted to the Council by the Commission)

COM(77) 216 final

EXPLANATORY MEMORANDUM

1. At its meetings 26/27/28 January, 14/15/16 and 24/25 February and 28/29 March 1977, the Joint Group of Government Experts which meets under the aegis of the Commission to study economic problems relating to the Common Customs Tariff, examined :
 - (a) the advisability of extending the suspensions of duties which are due to expire on 30 June 1977, and
 - (b) new applications submitted by certain Member States for the suspension of Common Customs Tariff duties on certain products as from 1 July 1977.

2. The applications submitted relate to products in respect of which the Member States concerned consider that a provisional reduction of autonomous duties in the Common Customs Tariff is justified for economic reasons, owing to the non-existence or inadequacy of production in the Community.

Most of these products are raw materials intended for processing industries or are considered as such. They are in particular basic substances for the chemical industry. Account was taken of the possibility of substituting other products already manufactured in the Community and of the importance to the Community of the proposed measure.

3. The above mentioned Group favoured unanimously the total or partial suspension of duties on the products which are the subject of the draft Regulation annexed hereto.

4. Having regard to the results of this work it appears appropriate to the Commission to propose to the Council the suspension of the Common Customs Tariff duties for the products listed in the annex to the following regulation.

.../...

5. As regards the duration for the proposed suspensions of duties, it will be seen that three month period from 1 July to 30 September 1977, a six month period from 1 July to 31 December 1977 or a twelve month period from 1 July 1977 to 30 June 1978 is proposed for the products concerned.

6. The Group also examined the possibility of suspending the Common Customs Tariff duty on the products listed in the table annexed hereto. It was not possible to reach an unanimous opinion on the subject because of the unfavourable opinions, which were expressed by one or other of the Member States.

.../...

CCT heading No	Description
ex 28.21	Dichromium trioxide for the production of chromium metal or chromium carbide
ex 28.40 B II	Dicalcium pyrophosphate (1) which contains not more than 2 mg of lead per kg (2) of which not more than 0.1% by weight is retained on a sieve having a nominal aperture of 75 micrometres (3) which, when 10 g are shaken for 1 hour with 100 ml of 0.00667M stannous fluoride solution, and centrifuged, yields a supernatant solution containing not less than 0.0237g of stannous ions
ex 29.02 A III	1,2-Dibromoethane
ex 29.02 B	1,2,3,4,5-Pentabromo-6-chlorocyclohexane
ex 29.02 C	Ethylbenzyl chloride, mixed isomers
ex 29.08 A III c)	Bis(pentabromophenyl) ether
ex 29.15 f III	Benzyl octyl phthalate
ex 29.35 a	4-Methylpyridine
ex 29.38 B II	Calcium pantothenate (INN)
ex 29.39 E	Conjugated oestrogens, equine
ex 29.44 C	Salts of cefalotin (INN)
ex 32.08 D	Ground glass fibres with a length varying between 0.1 and 3 mm and a diameter of not less than two and not more than four micrometres
ex 38.19 G	Catalysts consisting of copper chloride supported on aluminium oxide for the preparation of dichloroethane from ethylene, hydrochloric acid and oxygen
ex 39.02 C XIV a)	Propylene-ethylene copolymer with an ethylene content of not less than 3.8 and not more than 4.2 per cent by weight in forms mentioned in Note 3(b) to Chapter 39
ex 39.02 C XIV a)	Chlorinated high-density polyethylene with a total chlorine content of 25-48%, intended for the production of other plastic materials than those on the basis of polyvinylchloride
ex 76.10 A	Collapsible tubular containers, having a shoulder, nozzle and screw-on cap made of artificial plastics, and a body made of aluminium foil which has been laminated on the inner side to successive plies of (1) acrylic acid-ethylene copolymer and (2) polyethylene; and on the outer side to successive plies of (1) acrylic acid-ethylene copolymer, (2) paper and (3) polyethylene

ex 78.01 A II

Lead alloy waste and scrap in ingot form for
smelting

7. Furthermore,
the following information is given on 1,2-Dibromoethane of
subheading ex 29.02 A III. At the meeting of the EEC/Israel Joint
Committee which took place from 3 to 7 June 1976 in Jerusalem (1)
the Israeli Government drew the attention of the Community delegation
to its interest in developing its exports of these goods to the EEC.
It declared that in its view a suspension of the CCT duty for this item
is contrary to the spirit of the agreement of 11 May 1975, as Israel is
an important producer and able to cover totally the Community needs.

(1) This request does however imply no legal commitment of the Community
in regard to the maintenance of the preference.

Draft

COUNCIL REGULATION (EEC)

temporarily suspending the autonomous Common Customs Tariff
duties on certain industrial products

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,
and in particular Article 28 thereof,

Having regard to the draft Regulation submitted by the Commission,

Whereas the present Community production of the products referred to in this
Regulation is insufficient or non-existent and producers thus cannot
meet the needs of the user industries in the Community;

Whereas it is in the Community's interest to suspend the autonomous
Common Customs Tariff duties only partially in certain cases, particularly
where there is Community production, and completely in other cases;

Whereas, for spirits of turpentine falling within subheading 38.07 A, the
Association Council established under the Association between the European
Economic Community and Greece has agreed to a suspension of the Common Customs
Tariff duty applicable thereto for the period proposed;

Whereas, in view of the difficulties involved in accurately assessing
the economic situation in the relevant sectors in the
near future, these suspension measures should be taken only for a temporary
period and their term of validity should be fixed by reference to the interests of
Community production,

HAS ADOPTED THIS REGULATION :

Article 1

The autonomous Common Customs Tariff duties for the products listed in
the tables annexed hereto shall be suspended at the level
indicated in respect of each of them.

These suspensions shall be valid :

- from 1 July to 30 September 1977 for the product listed in Table I;
- from 1 July to 31 December 1977 for the products listed in Table II;
- from 1 July 1977 to 30 June 1978 for the products listed in Table III.

Article 2

This Regulation shall enter into force on 1 July 1977.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

For the Council

The President

45.01	Natural cork, unworked, crushed, granulated or ground; waste work	0%
45.02	Natural cork in blocks, plates, sheets or strips (including cubes or square slabs, cut to size for corks or stoppers)	4%
ex 49.11 B	Microcopies on an opaque base intended for databanks and libraries (a)	0%
ex 49.11 B	Artists' screen prints (commonly described as serigraphs), signed by the artist and numbered from 1 to 200	0%
ex 51.01 A	Yarn wholly of polyglycollic acid	0%
ex 51.01 A	Yarn of polytetrafluoroethylene	0%
ex 51.04 A	Woven fabrics of polyvinyl alcohol fibres for machine embroidery	0%
ex 54.03 B I a)	Unbleached linen yarn (excluding yarn of flax tow), measuring per kg 30,000 m or less, for the manufacture of multiple or cabled yarns for the footwear industry or for whipping cables (a)	0%
ex 56.01 A	Synthetic textile fibres of aromatic polyamides obtained by polycondensation of <u>m</u> -phenylene-diamine and isophthalic acid	0%
ex 56.01 B	Carpets, carpeting and rugs of silk or of waste silk other than noil, of which the pile contains not less than 85% by weight of silk or of waste silk other than noil	20% with a maximum of 4 U% per m ²
ex 58.07 A	Braid wholly of polyglycollic acid yarn	0%

(a) The application of this suspension will be subject to the conditions determined by the competent authorities.

CCT heading No	Description of goods	Rate of autonomous duties
ex 59.03	Bonded fibre fabrics and similar bonded yarn fabrics of aromatic polyamide man-made fibres produced by polycondensation of <u>m</u> -phenylene-diamine and isophthalic acid	0%
ex 59.04	Coir yarn for the manufacture of carpets, carpeting and rugs, mats and the like (a)	0%
ex 59.17 D	Yarn of polytetrafluoroethylene, impregnated, whether or not oiled	0%
62.03 A I	Sacks and bags, of a kind used for the packing of goods, used, of jute or of other textile bast fibres of heading No 57.03	2%
ex 68.02 B	Artificially coloured granules and chippings	0%
ex 69.09 B	Catalysts supports, consisting of porous cordierite ceramic pieces of roughly circular or oval cross-section with parallel sides, having an overall volume of not less than 240 and not more than 11 100 ml, and having a minimum dimension of not less than 70 mm and a maximum dimension of not more than 480 mm, having not less than 28 continuous channels per hundred mm ² running parallel to the main axis of symmetry, the total channel cross-section area being not less than 50% and not more than 80% of the whole cross-section area	0%
ex 70.19 A IV b)	Glass beads of a diameter of less than 0.1 mm and with a refractive index of 2.26	0%
ex 70.20 A	Mats of non-textile glass fibres with a diameter of not less than 3 and not more than 7 micrometers	0%
ex 76.03	Aluminium alloy strip in coils containing not less than 18% by weight and not more than 23% by weight of tin and not less than 0.7% by weight and not more than 1.5% by weight of copper as the major alloying elements and having a width of not less than 75 and not more than 230 mm and a thickness of not less than 3 and not more than 6.5 mm	0%
ex 81.02 B	Molybdenum alloy sheets of less than 0.20 mm thick, containing not less than 98% by weight of molybdenum, not less than 0.40% by weight and not more than 1% by weight of titanium and not less than 0.06% by weight and not more than 0.20% by weight of zirconium, as the major alloying elements	0%

(a) The application of this suspension will be subject to the conditions determined by the competent authorities.

CCT heading No	Description of goods	Rate of autonomous duties
ex 81.04 D I	Chromium, in the form of cathode chips or pellets which contains not more than 0.10% by weight of total oxygen, not more than 0.015% by weight of total aluminium, and not more than 0.001% by weight of aluminium compounds insoluble in boiling 5N hydrochloric acid and in boiling fuming perchloric acid, and evaluated as aluminium, intended for the production of alloy for the manufacture of the following parts of gaz turbines and jet engines (a) : - blades, fixed or movable including their rings, - valves, - nozzles	0%
ex 81.04 K I	Waste and scrap of titanium	0%
ex 81.04 M	Waste and scrap of uranium depleted in U 235	0%
ex 84.17 C	Straight-tube heat exchanger over 400 t in weight and over 20 m long for nuclear reactors	0%
ex 84.51 A	Typewriters with Braille characters	0%
ex 84.59 B	Control-rod drives with spindle roller nut drive mechanism for nuclear reactors including the necessary special tools	0%
ex 84.59 B	Reactor pressure vessel consisting of the vessel shell, penetrated by primary coolant nozzles and core flooding nozzles, and of the vessel head	0%
ex 84.59 B	Integrally forged, rough-turned components with unit weights of more than 150 metric tons or outer diameters of more than 6 000 mm, for reactor pressure vessels	0%
ex 84.63	Forged and roughly shaped generator and turbine shafts of a weight exceeding 150 metric tons	0%

(a) The application of this suspension will be subject to the conditions determined by the competent authorities.

CCT heading No	Description of goods	Rate of autonomous duties
ex 85.13 B	Sonic convertors consisting of a box approximately 28 cm long, approximately 13 cm broad and approximately 10 cm high, the top being shaped in the form of a cradle to receive a telephone handset, incorporating a lamp to indicate the state of call. This modem (MODulator/DEModulator) converts tele-printer keyboard signals for transmission by telephone line or radio for reconversion to keyboard signals on a distant teleprinter	0%
ex 90.01 B	Material consisting of a polarising film, supported on one or both sides by transparent material	0%
ex 90.19 B II	Reading appliances for the blind, in which a miniature camera using photo-transistors transmits letters onto a scanning board with piezo-electric pencils, and its parts and accessories	0%

FINANCIAL SHEET

Annex to doc. GUD/357/77 E

Date 3 May 1977

1. Budget line concerned :

2. Title of activity : Council Regulation temporarily suspending the Common Customs Tariff duties for a certain number of industrial products.

3. Legal basis : Art. 28 Treaty of Rome

4. Objectives of the activity :

Suspension of CCT duties for goods mentioned under 2.

5.0 Costs of the activity
to the account of the EC budget
by non collection of duties

1977 / 1978

Impossible to evaluate seriously because Community statistics do not exist.

The information given by the requesting Member States shows a minimum loss of 64,200,000 UA of which about 34,000,000 UA relate to 1977 and 30,200,000 UA to 1978.
