Inquérito de conjuntura
Junto dos empresários da Comunidade

Los "Resultados de la encuesta de coyuntura efectuada entre los empresarios de la Comunidad" presentan los datos de las encuestas armonizadas efectuadas por los Estados miembros de la Comunidad, con la ayuda de la Comisión, en los sectores industrial y de la construcción. Este folleto, que elabora la Dirección General de Asuntos Económicos y Financieros (rue de la Loi 200, B-1049 Bruselas), se publica once veces al año (los meses de agosto y setiembre aparecen en un mismo número).

La reproducción está autorizada, excepto en una red informática comercial, y supeditada a la citación de la fuente. Cualquier solicitud relativa a las condiciones de reproducción en una red informática comercial deberá enviarse a la dirección anteriormente mencionada.

Impreso en Bélgica

„Resultaterne af konjunkturundersøgelsen hos virksomhedsledere i Fællesskabet“ indeholder oplysninger om de harmoniserede undersøgelser inden for industri og byggeog anlægsvirksomhed, som gennemføres i Det europæiske Fællesskabs medlemsstater med støtte fra Kommissionen. Publikationen udarbejdes af generaldirektoratet for økonometriske og finansielle spørgsmål (rue de la Loi, 200, B-1049 Bruxelles) og offentliggøres elleve gange om året (et nummer dækker august og september).

Gengivelse er tilladt med kildeangivelse, dog ikke for kommercielle database-netværker.
Betingelserne vedrørende gengivelse for databaser kan opnås ved henvendelse til ovenstående adresse.

Printed in Belgium

Die Veröffentlichung „Ergebnisse des Konjunkturmumfrage bei den Unternehmern in der Gemeinschaft“ berichtet über die harmonisierten Umfragen, die mit Unterstützung der Kommission im Industrie- und Bausektor in den Mitgliedstaaten der Europäischen Gemeinschaft durchgeführt werden. Sie wird von der Generaldirektion Wirtschaft und Finanzen (Rue de la Loi 200, B-1049 Brüssel) ausgearbeitet und erscheint elfmal pro Jahr (eine Ausgabe für August und September).

Außer im Falle kommerzieller Datennetze ist die Wiedergabe mit Quellennachweis gestattet.
Die Bedingungen für die Einspeisung im kommerzielle Datennetze können bei obiger Adresse erfragt werden.

Gedruckt in Belgien.

Τα «Αποτελέσματα της έρευνας συγκυρίας στους επιχειρηματίες της Κοινότητας» αφορούν εναρμονισμένες έρευνες που διενεργούν στους τομείς της βιομηχανίας και των κατασκευών τα κράτη μέλη της Κοινότητας με την υποστήριξη της Επιτροπής. Το φυλλάδιο αυτό συντάσσεται από τη Γενική Διεύθυνση οικονομικών και χρηματοδοτικών υποθέσεων (rue de la Loi 200, B-1049, Bruxelles) και κυκλοφορεί έντεκα φορές το χρόνο (για τους μήνες Αύγουστο και Σεπτέμβριο εκδίδεται ένα μόνο τεύχος).

Επιτρέπεται η αναπαραγωγή με αναφορά της πηγής, εκτός από την περίπτωση εμπορικού δικτύου πληροφορικής. Οι αιτήσεις για τους όρους αναπαραγωγής σε εμπορικό δίκτυο πληροφορικής πρέπει να υποβάλλονται στην ανωτέρω διεύθυνση.

Printed in Belgium

"Results of the business survey carried out among managements in the Community" reports on the harmonized industrial and construction sector surveys carried out in the Member States of the European Community, with the support of the Commission. It is prepared by the Directorate-General for Economic and Financial Affairs (rue de la Loi, 200, B-1049 Brussels) and is published eleven times a year (one issue covers August and September).

Reproduction is authorized, except for commercial purposes, subject to acknowledgement of the source. For conditions relating to reproduction for commercial purposes, application should be made to the above address.

Printed in Belgium

Les « Résultats de l'enquête de conjoncture auprès des chefs d'entreprise de la Communauté » sont le complément rendu des enquêtes harmonisées menées, dans l'industrie et le secteur de la construction, par les Etats membres de la Communauté européenne avec le soutien de la Commission. Ce fascicule, qui est élaboré par la Direction générale des Affaires économiques et financières, (200, rue de la Loi, B 1049, Bruxelles), paraît onze fois par an (les mois d'août et de septembre faisant l'objet d'un numéro unique).

La reproduction, autorisée sauf sur réseau informatique commercial, est subordonnée à l'indication de la source. Toute demande concernant les conditions de reproduction sur réseau informatique devra être envoyée à l'adresse précitée.

Imprimé en Belgique.

La serie «Risultati dell'inchiesta congiunturale effettuata presso gli imprenditori della Comunità» presenta i dati delle inchieste armonizzate effettuate nei settori dell'industria e dell'edilizia degli Stati membri della Comunità europea con il sostegno della Commissione. La serie è preparata dalla Direzione generale degli Affari economici e finanziari (Rue de la Loi, 200, B-1049 Bruxelles) e comprende 11 numeri all'anno (i mesi di agosto e settembre sono riuniti in un unico numero).

La riproduzione, salvo su reti informatiche commerciali, è autorizzata subordinatamente alla citazione della fonte. Le domande relative alle condizioni di riproduzione su reti informatiche dovranno essere rivolte al predetto indirizzo.

Stampato in Belgio

„Resultaten van de conjunctuurenquête bij het bedrijfsleven in de Gemeenschap“ bevatten de uitkomsten van de in de lid-staten van de Europese Gemeenschap met steun van de Commissie gehouden geharmoniseerde enquêtes bij de industrie en de bouwnijverheid. Deze resultaten worden elf maal per jaar (één nummer voor augustus en september samen) gepubliceerd door het directoraat-generaal voor economische en financiële zaken (Wetstraat 200, B-1049 Brussel).

Behoudens voor commerciële informatiesystemen is overname toegestaan, mits de bron wordt vermeld.
Alle verzoeken betreffende de voorwaarden voor het opnemen van de gegevens in informatiesystemen moeten aan het opgegeven adres worden toegezonden.

ENCUESTAS DE COYUNTURA EFECTUADAS EN LA COMUNIDAD EUROPEA

Encuestas de coyuntura

Las encuestas de coyuntura en la Comunidad Europea se han desarrollado progresivamente desde 1962. Las encuestas de coyuntura son efectuadas por institutos nacionales, utilizando los cuestionarios armonizados de la Comisión, y abarcan cada mes 20.000 empresas.

El envío de los cuestionarios a los participantes lo efectúan los institutos los primeros días del mes al que asignan los resultados de los cuadros (o en los últimos días del mes precedente). La devolución de los cuestionarios cumplimentados a los institutos tiene lugar hasta aproximadamente el día 10 de ese mismo mes. Excepciones: en Italia el envío de los cuestionarios a los participantes se efectúa aproximadamente el 15 y en Alemania el 20. La devolución a los institutos se realiza en los 10 primeros días del mes siguiente al que se asignan los resultados.

Preguntas

Encuesta en la industria

Encuesta mensual

1. Tendencia de la producción durante los últimos meses: ¿aumento, estabilidad, disminución?
2. Carteras de pedidos: ¿superiores a lo normal, normales, inferiores a lo normal?
3. Carteras de pedidos procedentes del extranjero: ¿superiores a lo normal, normales, inferiores a lo normal?
4. Existencias de productos acabados: ¿superiores a lo normal, normales, inferiores a lo normal?
5. Perspectivas de evolución de la producción durante los próximos meses: ¿aumento, estabilidad, disminución?
6. Perspectivas de evolución de los precios de venta durante los próximos meses: ¿aumento, estabilidad, disminución?

Encuesta trimestral (efectuada en enero, abril, julio y octubre):

7. Perspectivas de evolución del empleo durante los próximos meses: ¿aumento, estabilidad, disminución?
8. Factores que limitan la producción: ¿ninguno, demanda insuficiente, falta de mano de obra, equipo insuficiente, otros factores?
9. Capacidad de producción: ¿más que suficiente, suficiente, insuficiente?
10. Duración de producción asegurada: en meses
11. Pedidos registrados durante los últimos meses: ¿aumento, estabilidad, disminución?
12. Perspectivas de evolución de los pedidos procedentes del extranjero durante los próximos meses: ¿aumento, estabilidad, disminución?
13. Utilización de la capacidad: en porcentaje
14. Existencias de materias primas: ¿elevadas, normales, escasas?

Encuestas sobre las inversiones

Encuesta semestral (efectuada en marzo/abril y octubre/noviembre):

- tendencias y perspectivas de evolución de las inversiones: porcentaje de variación anual de las inversiones a precios corrientes.

Encuesta en la construcción

Encuesta mensual (excepto para Grecia, Francia, Irlanda y Reino Unido, donde la encuesta se efectúa cuatro veces al año):

1. Tendencia de la actividad de construcción con respecto a los meses precedentes: ¿aumento, estabilidad, disminución?
2. Factores que limitan la actividad de construcción: ¿ninguno, demanda insuficiente, condiciones climáticas desfavorables, falta de mano de obra, falta de material y/o equipamiento, otros factores?
3. Cartera de pedidos o plan de producción: ¿superior a lo normal, inferior a lo normal?

4. Perspectivas de evolución del empleo durante los próximos meses: ¿aumento, estabilidad, disminución?
5. Perspectivas de evolución de los próximos meses: ¿aumento, estabilidad, disminución?

Encuesta trimestral (efectuada en enero, abril, julio y octubre):

6. Duración de actividad asegurada: en meses

Presentación de los resultados y nomenclatura empleada

En los cuadros de las páginas siguientes se presentan los resultados de las encuestas correspondientes a la industria manufacturera en su totalidad y a los tres grandes grupos que producen bienes de consumo, de equipo e intermedios, así como a los 54 grupos y subgrupos de productos industriales.

Se dan dos resultados por cada pregunta, que se indican respectivamente "—" y "s". El signo "—" designa las respuestas que corresponden a la mención "estabilidad", "normal" o "suficiente". La letra "s" designa el saldo neto positivo o negativo; las respuestas "aumento", "superior al normal" y "más que suficiente" se consideran positivas, y negativas las respuestas contrarias. Las letras situadas encima de las columnas representan, de acuerdo con lo indicado por el Estado miembro de que se trate, el mes al que se refiere el resultado de la encuesta, a saber: E = enero, F = febrero, M = marzo, A = abril, M = mayo, J = junio, J = julio, A = agosto, S = septiembre, O = octubre, N = noviembre, D = diciembre. Cualquier confusión debida al empleo de la misma inicial para meses diferentes (J para junio y julio; A para abril y agosto) se evita porque los resultados se agrupan en períodos de tres meses.

Desde el nº 1/1980 de la presente publicación, los resultados de las encuestas de coyuntura llevan la indicación del mes en que se enviaron las respuestas al cuestionario, en lugar del mes al que se refieren las estimaciones.

En cuadros similares se presentan los resultados de la encuesta en el sector de la construcción. Dos veces al año se publica un cuadro suplementario relativo a la encuesta sobre las inversiones.

La descripción del desglose por sector de las diferentes encuestas figura más abajo.

Institutos

Las encuestas son efectuadas por:

- B — Bélgica: Banque Nationale de Belgique
- DK — Dinamarca: Danmarks Statistik
- D — República Federal de Alemania: IFO (Institut für Wirtschaftsforschung)
- GR — Grecia: IEIR (Institute of Economic and Industrial Research)
- E — España: MIE (Ministerio de Industria y Energía)
- F — Francia: INSEE (Institut National de la Statistique et des Etudes économiques)
- IRL — Irlanda: CII (Confederation of Irish Industry) y CIF (Construction Industry Federation)
- I — Italia: ISCO (Istituto nazionale per lo Studio della Congiuntura)
- L — Luxemburgo: STATEC (Service central de la Statistique et des Etudes économiques)
- NL — Países Bajos: CBS (Centraal Bureau voor de Statistiek)
— Economisch Instituut voor de Bouwnijverheid
- P — Portugal: INE (Instituto Nacional de Estatística)
— AECOPS (Associação de Empresas de Construção e Obras Públicas do Sul)
- UK — Reino Unido: CBI (Confederation of British Industry) en el caso de las industrias manufactureras
— BSO (Business Statistics Office) en el caso de las encuestas sobre las inversiones
— Building Employers Confederation, en el caso de la encuesta sobre la construcción

En el suplemento «B» de «Economía Europea» aparece una selección mensual de los resultados más recientes. En las ediciones principales de «Economía Europea» se publican periódicamente artículos que contienen análisis más pormenorizados y series cronológicas más amplias.

Clasificación de los sectores industriales

Encuesta en la industria¹

- 0 **Industria en su totalidad**
- I **Bienes de consumo**
- II **Bienes de inversión**
- III **Bienes intermedios**
 - 1 **Industria textil** (43)
 - a Industria lanera B (431)
 - b Industria algodonera B (432)
 - c Géneros de punto B (436)
 - 2 **Industria del calzado y del vestido** (45)
 - a Fabricación de calzado C (451/452)
 - b Confección C (453/454)
 - 3 **Industria de la madera y del mueble de madera** (46)
 - a Madera B (461-466)
 - b Mueble de madera C (467)
 - 4 **Industria del papel y fabricación de artículos de papel; artes gráficas y edición** (47)
 - a Producción de papel B (471)
 - b Transformación de papel B (472)
 - c Artes gráficas y edición C (473/474)
 - 5 **Industria del cuero** (44)
 - 6 **Transformación de materias plásticas** B (483)
 - 7 **Refinación del petróleo** B (14)
 - 8 **Producción y primera transformación de metales** B (22: 221-224)
 - 9 **Industria de productos minerales no metálicos** (24)
 - a Materiales de construcción, cerámica para la construcción y la industria, vidrio plano B (241-246; 247 excepto 247.2.4./247.7; 248 excepto 248.6/248.7)
 - b Cerámica fina y vidrio hueco C (247.2-247.7/248.6-7)
 - 10 **Industria química** (25)
 - a Productos químicos básicos B (251)
 - b Productos químicos para la industria y la agricultura B (256)
 - c Productos químicos de consumo C (255/257-259)
 - 11 **Producción de fibras artificiales y sintéticas** B (26)
 - 12 **Fabricación de productos metálicos** (31)
 - I (314/315/316.6)
 - C (316.5)
 - B (311/313/319/resto de 316)
 - 13 **Construcción de máquinas y de material mecánico** I (32)
 - a Máquinas y tractores agrícolas (321)
 - b Máquinas-herramienta (322)
 - c Máquinas textiles y accesorios (323)
 - d Motores, compresores, bombas (328)
 - 14 **Construcción de máquinas de oficina y de máquinas e instalaciones para el tratamiento de la información** I (33)
 - 15 **Construcción eléctrica y electrónica** (34)
 - a Construcción eléctrica de equipamiento I (341-344)
 - b Aparatos electrodomésticos, radios, televisores C (345/346)
 - c Lámparas, material de alumbrado, montaje, obras de instalación técnica I (347/348)
 - 16 **Construcción de automóviles y piezas de repuesto** (35)
 - a Construcción y montaje de vehículos automóviles (incluidos los tractores de carretera) y construcción de motores para los mismos C + I (351)
 - b Construcción de carrocerías, remolques y volquetes I (352)
 - c Fabricación de equipo, accesorios y piezas de repuesto para automóviles B (353)
 - 17 **Construcción de otros materiales de transporte** (36)
 - a Construcción naval, reparación y conservación de barcos I (361)
 - b Construcción de bicicletas, motocicletas y sus piezas de repuesto C (362-365)
 - 18 **Industria del caucho** B (481/482)
 - 19 **Fabricación de instrumentos de precisión, de óptica y similares** (37)
 - 20 **Industria de los productos alimenticios, bebidas y tabaco** (41/42)

Encuesta sobre las inversiones

Industrias de productos básicos

Industria química
Petróleo
Materiales de construcción, cerámica, vidrio
Producción de fibras artificiales y sintéticas
Caucho

Industrias metalúrgicas

Siderurgia
Primera transformación de metales ferreos (sin la fundición)
Industria de metales no ferreos

Industrias mecánicas y eléctricas

Fundición
Artículos metálicos de consumo
Material de equipamiento general
Máquinas no eléctricas de equipamiento
Aparatos electrodomésticos, radios, televisores
Construcción eléctrica de equipamiento
Industria automóvil
Construcción naval y aeronáutica, material ferroviario
Mecánica de precisión, óptica, relojería

Industrias de transformación

Industria textil
Confección y géneros de punto
Cuero y corcho
Muebles
Producción de papel y de cartón
Transformación de papel y de cartón
Imprenta
Transformación de materiales plásticos

Industrias extractivas

Extracción y preparación de combustibles sólidos
Extracción de minerales metálicos, petróleo y gas natural, materiales de construcción y tierras para calcinar

Industrias alimenticias

Industria en su totalidad

Encuesta en la construcción

Construcción en su totalidad

Edificios:
— viviendas
— otros edificios
Obras públicas (ingeniería civil)

¹ La clasificación de las ramas de la industria en los tres grupos principales se indica por C = bienes de consumo, I = bienes de inversión, B = bienes intermedios. La referencia NACE (Nomenclatura de Actividades Económicas en las Comunidades Europeas) se indica entre paréntesis.

DET EUROPÆISKE FÆLLESSKABS KONJUNKTURUNDERSØGELSE

Konjunkturundersøgelerne

Konjunkturundersøgelerne hos virksomhedsledere i De europæiske Fællesskaber er blevet opbygget gradvis siden 1962. De foretages af nationale institutter på grundlag af Kommissionens harmoniserede spørgeskemaer. Undersøgelerne omfatter hver måned omkring 20 000 virksomheder.

Fremsendelse af spørgeskemaerne til deltagerne foretages af institutterne en af de første dage i den måned resultatet i tabellerne kan henføres til (eller en af de sidste dage i den foregående måned). Tilbagesendelsen af de udfyldte spørgeskemaer foretages indtil omkring den 10. i måneden. Undtagelser fra denne regel findes i Italien, hvor fremsendelsen af spørgeskemaerne til deltagerne foretages omkring den 15., og i Tyskland, hvor den foretages fra den 20. i måneden, med tilbagesendelsen til institutterne omkring den 10. i den følgende måned hvor resultatet kan henføres til.

Spørgsmål

Industriundersøgelsen

Månedligt

- 1 produktionsudviklingen i de seneste måneder: forøgelse, uændret, formindskelse?
- 2 ordrebeholdning: større end normalt, normalt, mindre end normalt?
- 3 eksportordrebeholdning: større end normalt, normalt, mindre end normalt?
- 4 færdigvarølager: større end normalt, normalt, mindre end normalt?
- 5 produktionsforventninger for de kommende måneder: forøgelse, uændret, formindskelse?
- 6 salgsprisforventninger for de kommende måneder: forøgelse, uændret, formindskelse?

Kvartalsvis (i januar, april, juli og oktober)

- 7 beskæftigelsesforventninger for de kommende måneder: forøgelse, uændret, formindskelse?
- 8 produktionsbegrænsninger: ingen, utilstrækkelig efterspørgsel, mangel på arbejdskraft, mangel på udstyr, andre?
- 9 produktionskapacitet: mere end tilstrækkelig, tilstrækkelig, utilstrækkelig?
- 10 periode, for hvilken produktionen er sikret (i måneder)?
- 11 ordretilgang i de seneste måneder: forøgelse, uændret, formindskelse?
- 12 eksportordreforventninger for de kommende måneder: forøgelse, uændret, formindskelse?
- 13 kapacitetsudnyttelse (i procent)?
- 14 råvarelagre: store, normale, små?

Investeringsundersøgelsen

Halvårligt (i marts/april og oktober/november)

- investeringsudvikling og -forventninger: årlig procentvis ændring i investeringerne i løbende priser?

Undersøgelsen inden for bygge- og anlægsvirksomhed

Månedligt (undtagen i Grækenland, Frankrig, Irland og Det forenede Kongerige, hvor undersøgelsen foretages kvartalsvis)

- 1 aktivitetstendens sammenlignet med de forudgående måneder: forøgelse, uændret, formindskelse?
- 2 faktorer, der bremser produktionen: ingen, utilstrækkelig efterspørgsel dårligt vejr, mangel på arbejdskraft, materiel (og/eller udrustningsmangel, andre?)
- 3 ordrebeholdning eller produktionsplan: større end normalt, normalt, mindre end normalt?

- 4 beskæftigelsesforventninger for de kommende måneder: forøgelse, uændret, formindskelse?
- 5 prisforventninger for de kommende måneder: forøgelse, uændret, formindskelse?
- kvartalsvis (i januar, april, juli og oktober):
- 6 periode, for hvilken produktionen er sikret: i måneder

Resultaterne og den anvendte nomenklatur

Tabellerne på de følgende sider viser resultaterne af undersøgelerne for fremstillingsvirksomhed under ét, for de tre hovedgrupper forbrugsgoder, investeringsgoder og mellemprodukter samt for 54 grupper og undergrupper af industrivarer.

To resultater, angivet henholdsvis med »=« og »s«, gives for hvert spørgsmål. »=« angives for svar med betydningen »uændret«, »normalt« eller »tilstrækkelig«. »b« angives for positiv eller negativ nettosaldo, hvor svarene »forøgelse«, »større end normalt« og »mere end tilstrækkelig« betragtes som positive, og som negative de modsatte svar.

Bogstaverne over kolonnerne angiver de berørte lande samt den måned undersøgelsesresultaterne vedrører, d.v.s.: J = januar, F = februar, M = marts, A = april, M = maj, J = juni, J = juli, A = august, S = september, O = oktober, N = november, D = december. Forveksling på grund af samme forkortelser for forskellige måneder (J for januar, juni og juli; A for april og august) undgås derved, at resultaterne er samlet i perioder på tre måneder.

Fra og med denne publikations nr. 1, 1980 henføres undersøgelsesresultaterne til den måned, hvori spørgeskemaerne er blevet besvaret. (I det tidligere nummer »Resultaterne af konjunkturundersøgelerne hos virksomhedsledere i Fællesskabet« knyttedes resultaterne til den forudgående måned).

Tilsvarende tabeller er anvendt til at præsentere resultaterne af undersøgelsen inden for bygge- og anlægsvirksomhed. En yderligere tabel, som redegør for resultaterne af investeringsundersøgelsen, offentliggøres to gange om året.

Sektoropdelingen for de forskellige undersøgelser er beskrevet nedenstående.

Institutter

Undersøgelerne foretages af:

- B — Belgien: Banque Nationale de Belgique
- DK — Danmark: Danmarks Statistik
- D — Forbundsrepublikken Tyskland: IFO (Institut für Wirtschaftsforschung)
- GR — Grækenland: IEIR (Institute of Economic and Industrial Research)
- E — Spanien: MIE (Ministerio de Industria y Energía)
- F — Frankrig: INSEE (Institut National de la Statistique et des Études Économiques)
- IRL — Irland: CII (Confederation of Irish Industry) og CIF (Construction Industry Federation)
- I — Italien: ISCO (Istituto nazionale per lo Studio della Congiuntura)
- L — Luxembourg: STATEC (Service central de la Statistique et des Études Économiques)
- NL — Nederlandene: CBS (Centraal Bureau voor de Statistiek)
- Economisch Instituut voor de Bouwnijverheid
- P — Portugal: INE (Instituto Nacional de Estatística)
- AECOPS (Associação de Empresas de Construção e Obras Públicas do Sul)
- UK — Det forenede Kongerige: CBI (Confederation of British Industry), for så vidt angår fremstillingsvirksomhed
- BSO (Business Statistics Office) for så vidt angår investeringsundersøgelsen
- Building Employers Confederation for bygge- og anlægsundersøgelsen.

Et månedligt udvalg af de seneste resultater af undersøgelerne gives i tillæg — række B — til »Europæisk Økonomi«. Artikler med mere detaljerede analyser og længere tidsrækker offentliggøres periodisk i hovednumrene af »Europæisk Økonomi«.

Industriklassifikation

Industriundersøgelsen¹

- 0 Den samlede industri**
- I Forbrugsgoder**
- II Investeringsgoder**
- III Mellemprodukter**
- 1 Tekstilindustri (43)**
 - a Uldindustri B (431)
 - b Bomuldssindustri B (432)
 - c Trikotagefremstilling B (436)
- 2 Fodtøjs- og beklædningsindustri (45)**
 - a Fremstilling af fodtøj C (451/452)
 - b Beklædning C (453/454)
- 3 Træindustri og fremstilling af træmøbler (46)**
 - a Træ B (461-466)
 - b Træmøbler C (467)
- 4 Papir- og papirvareindustri; trykkeri- og forlagsvirksomhed (47)**
 - a Papirfremstilling B (471)
 - b Papirforarbejdning B (472)
 - c Trykkeri- og forlagsvirksomhed C (473/474)
- 5 Læder- og lædervareindustri (44)**
- 6 Forarbejdning af plastmaterialer B (483)**
- 7 Mineralolieraffinering B (14)**
- 8 Fremstilling og primær bearbejdning af metaller B (22 : 221-224)**
- 9 Sten-, ler- og glasindustri (24)**
 - a Byggematerialer, bygge- og industrikeramik, plant glas B (241-246; 247 ekskl. 247.2-4/247.7; 248 ekskl. 248.6/248.7)
 - b Finkeramik og buet glas C (247.2-247.7/248.6-7)
- 10 Kemisk industri (25)**
 - a Kemiske basisprodukter B (251)
 - b Kemikalier til industrien og landbruget B (256)
 - c Kemikalier til forbrug C (255/257-259)
- 11 Fremstilling af kemofibre B (26)**
- 12 Fremstilling af metalvarer (31)**
 - I (314/315/316.6)
 - C (316.5)
 - B (311/313/319/resten af 316)
- 13 Maskinindustri I (32)**
 - a Landbrugsmaskiner og -traktorer (321)
 - b Værktøjsmaskiner (322)
 - c Tekstilmaskiner og tilbehør (323)

- 14 Fremstilling af kontormaskiner samt databehandlingsanlæg og -udstyr I (33)**
- 15 Elektroindustri (34)**
 - a Fremstilling af elektrisk udstyr og apparatur I (341-344)
 - b El-husholdningsapparater, radio, fjernsyn C (345/346)
 - c Lamper og belysningsmateriel, montering og teknisk installationsarbejde I (347/348)
- 16 Fremstilling af automobiler og dele dertil (35)**
 - a Fremstilling og samling af automobiler (inkl. traktorer til vejtransport) og motorer dertil C + I (351)
 - b Fremstilling af karosserier, påhængs- og sættevogne I (352)
 - c Fremstilling af udstyr, tilbehør og dele til automobiler B (353)
- 17 Fremstilling af andre transportmidler (36)**
 - a Skibsbygning, -reparation og -vedligeholdelse I (361)
 - b Fremstilling af cykler og motorcykler samt dele dertil C (362-365)
- 18 Gummifabrikation B (481/482)**
- 19 Finmekanisk og optisk industri (37)**
- 20 Nærings- og nydelsemiddelindustri (41/42)**

Investeringsundersøgelsen

Råvareindustrier

- Kemisk industri
- Mineralolieindustri
- Byggematerialer, keramik, glas
- Fremstilling af kemofibre
- Gummi

Metalindustri

- Jern- og stålindustri
- Primær bearbejdning af jern og stål (eksl. støberier)
- Non-ferro metalindustri

Maskin- og elektroindustri

- Støberier
- Metalvarer til forbrug
- Almindeligt udstyr
- Ikke-elektrisk maskineri
- El-husholdningsapparater, radio, fjernsyn
- Elektrisk maskineri
- Automobilindustri
- Skibsbygning, flyindustri og jernbanemateriel
- Finmekanik, optik, ure

¹ Klassificeringen af industrisektorerne i tre hovedgrupper er anført ved C = forbrugsgoder, I = investeringsgoder, B = mellemprodukter. Referencer til NACE (den almindelige systematiske opstilling af økonomiske aktiviteter inden for De europæiske Fællesskaber) er anført i parentes.

KONJUNKTURUMFRAGEN IN DER EUROPÄISCHEN GEMEINSCHAFT

Die Konjunkturumfragen

Die Konjunkturumfragen in der Europäischen Gemeinschaft sind seit 1962 ständig weiterentwickelt worden. Sie werden von nationalen Instituten auf der Grundlage der harmonisierten Fragebögen der Kommission durchgeführt. Gegenwärtig werden monatlich etwa 20 000 Unternehmen befragt.

Die Fragebögen für die Umfragen werden von den Instituten normalerweise in den ersten Tagen des Monats dem die Ergebnisse in den Tabellen zugeordnet werden (oder den letzten des Vormonats) an die Teilnehmer verschickt. Die Antworten gehen bei den Instituten bis etwa zum 10. des Monats ein. Ausnahmen bilden Italien, wo die Fragebögen schon am 15. des Monats und die Bundesrepublik Deutschland, wo sie ab dem 20. des Monats verschickt werden. Das Rücksenden der Antworten an die Institute erfolgt bis zum 10. des folgenden Monats, dem die Ergebnisse zugeordnet werden.

Fragen

Umfrage in der Industrie

1. Produktionstätigkeit der jüngsten Vergangenheit: Zunahme, keine Veränderung, Abnahme?
2. Auftragsbestand: verhältnismäßig groß, ausreichend, zu klein?
3. Bestand an Auslandsaufträgen: verhältnismäßig groß, ausreichend, zu klein?
4. Fertigwarenlager: verhältnismäßig groß, ausreichend, zu klein?
5. Produktionserwartungen für die kommenden Monate: Zunahme, keine Veränderung, Abnahme?
6. Erwartungen hinsichtlich der Verkaufspreise in den kommenden Monaten: Zunahme, keine Veränderung, Abnahme?

Vierteljährlich (Januar, April, Juli und Oktober):

7. Erwartungen hinsichtlich der Beschäftigtenzahl in den kommenden Monaten: Zunahme, keine Veränderung, Abnahme?
8. Behinderung der Produktionstätigkeit: keine, durch unzureichende Nachfrage, Mangel an Arbeitskräften, unzureichende Ausrüstung, sonstige Ursachen?
9. Produktionskapazität: mehr als ausreichend, ausreichend, unzureichend?
10. Gesicherte Produktionsdauer: in Monaten?
11. Auftragseingänge in der jüngsten Vergangenheit: Zunahme, keine Veränderung, Abnahme?
12. Erwartungen hinsichtlich der Auslandsaufträge in den kommenden Monaten: Zunahme, keine Veränderung, Abnahme?
13. Kapazitätsauslastung: in Prozent?
14. Rohstofflager: verhältnismäßig groß, ausreichend, zu klein?

Umfrage über die Investitionen

Halbjährlich (März/April und Oktober/November):

- Investitionstätigkeit und Aussichten: jährliche prozentuale Veränderung der Investitionsausgaben zu jeweiligen Preisen in nationaler Währung:

Umfrage im Baugewerbe

Monatlich (mit Ausnahme Griechenlands, Frankreichs, Irlands und des Vereinigten Königreichs, wo die Befragung vierteljährlich durchgeführt wird):

- 1 Entwicklung der Bautätigkeit im Vergleich zu den Vormonaten: Zunahme, keine Veränderung, Abnahme?
- 2 Die Bautätigkeit behindernde Faktoren: Keine, Nachfrage, schlechtes Wetter, Mangel an Arbeitskräften, Material- und/oder Ausrüstungsmangel, sonstige?
- 3 Auftragsbestand oder Produktionsprogrammierung: verhältnismäßig, groß, ausreichend, zu klein?

4. Erwartungen hinsichtlich der Beschäftigtenzahl in den nächsten Monaten: Zunahme, keine Veränderung, Abnahme?
 5. Erwartungen hinsichtlich der Preisentwicklung in den nächsten Monaten: Zunahme, keine Veränderung, Abnahme?
- Vierteljährlich (Januar, April, Juli und Oktober):
6. Gesicherte Produktionsdauer: in Monaten?

Darstellung der Ergebnisse und verwendete Nomenklatur

In den Tabellen auf den folgenden Seiten sind die Ergebnisse der Umfragen für die verarbeitende Industrie insgesamt und die drei Hauptgruppen (Verbrauchsgüter, Investitionsgüter und Vorprodukte) sowie für 54 Gruppen und Untergruppen von Industrieprodukten dargestellt.

Für jede Frage werden zwei Ergebnisse mitgeteilt „=“ bzw. „s“. „=“ bezeichnet die Antworten, die entweder „keine Veränderung“ oder „ausreichend“ angeben; „s“ gibt den positiven oder negativen Saldo an; die Antworten „Zunahme“, „mehr als ausreichend“ und „verhältnismäßig gross“ werden als positive Antworten betrachtet und die gegenteiligen Antworten als negative. Die Buchstaben über den Zahlenkolonnen bezeichnen für den jeweiligen Mitgliedstaat den Monat, dem das Ergebnis der Umfrage zugeordnet ist, d.h.: J : Januar, F : Februar, M : März, A : April, M : Mai, J : Juni, J : Juli, A : August, S : September, O : Oktober, N : November, D : Dezember. Die Verwechslung der Monate durch den Gebrauch der Anfangsbuchstaben (J für Januar, J für Juli; A für April und August) wird dadurch vermieden, dass die Ergebnisse in Dreimonatsgruppen zusammengefasst sind.

Mit Beginn der Nr. 1, 1980 dieser Veröffentlichung werden die Ergebnisse der Umfragen unter dem Monat veröffentlicht, in dem die Fragebögen durch die Beantworter ausgefüllt werden. (In den früheren Nummern „Ergebnisse der Konjunkturumfragen bei den Unternehmen in der Gemeinschaft“ geschah die Veröffentlichung unter dem vorangegangenen Monat).

Die Ergebnisse der Umfrage im Baugewerbe werden in ähnlichen Tabellen veröffentlicht. Eine zusätzliche Tabelle gibt zweimal im Jahr die Ergebnisse der Investionsumfragen wider.

Für die Investionsumfrage und die Umfrage in der Bauwirtschaft ist die Aufschlüsselung nach Sektoren weiter unten angegeben.

¹ Die Eingliederung der Industriezweige in die drei Hauptgruppen wird bezeichnet durch C = Verbrauchsgüter, I = Investitionsgüter, B = Grundstoffe und Produktionsgüter. Die Ziffern der NACE (Allgemeine Systematik der Wirtschaftszweige in den Europäischen Gemeinschaften) werden in Klammern angegeben.

ΕΡΕΥΝΕΣ ΣΥΓΚΥΡΙΑΣ ΣΤΗΝ ΕΥΡΩΠΑΪΚΗ ΚΟΙΝΟΤΗΤΑ

Οι έρευνες συγκυρίας

Οι έρευνες συγκυρίας στην Ευρωπαϊκή Κοινότητα αναπτύχθηκαν σταδιακά από το 1962. Πραγματοποιούνται από τα εθνικά Ινστιτούτα βάσει εναρμονισμένων ερωτηματολογίων της Επιτροπής.

Οι έρευνες αφορούν σε μηνιαία βάση 20.000 περίπου επιχειρήσεις.

Η αποστολή των ερωτηματολογίων στους συμμετέχοντες γίνεται μέσω των Ινστιτούτων τις πρώτες μέρες του μήνα κατά τον οποίο κατανέμονται τα αποτελέσματα στους πίνακες (ή τις τελευταίες μέρες του προηγούμενου μήνα). Η επιστροφή των συμπληρωμένων ερωτηματολογίων στα Ινστιτούτα γίνεται μέχρι περίπου τις 10 του μήνα. Εξαιρέσεις απότελουν: η Ιταλία, όπου η αποστολή των ερωτηματολογίων στους συμμετέχοντες γίνεται περίπου στις 15 του μηνός και στη Γερμανία στις 20 του μηνός. Η επιστροφή στα Ινστιτούτα πραγματοποιείται περίπου στις 10 του μήνα ο οποίος ακολουθεί εκείνον κατά τον οποίο καταγράφονται τα αποτελέσματα.

Ερωτήσεις

Έρευνα στη βιομηχανία

Μηνιαία έρευνα

1. τάση της παραγωγής κατά τη διάρκεια των τελευταίων μηνών: αύξηση, σταθερότητα, μείωση;
2. παραγγελίες: υψηλότερες από τις κανονικές, κανονικές, χαμηλότερες από τις κανονικές;
3. παραγγελίες από το εξωτερικό: υψηλότερες από τις κανονικές, κανονικές, χαμηλότερες από τις κανονικές;
4. αποθέματα ετοίμων προϊόντων: υψηλότερα από το κανονικό, κανονικά, χαμηλότερα από το κανονικό;
5. προοπτικές εξέλιξης της παραγωγής κατά τους επόμενους μήνες: θα αυξηθεί, θα παραμείνει σταθερή, θα μειωθεί;
6. προοπτικές εξέλιξης των τιμών πώλησης κατά τους επόμενους μήνες: θα αυξηθούν, θα παραμείνουν σταθερές, θα μειωθούν;

Τριμηνιαία έρευνα (που πραγματοποιείται τον Ιανουάριο, Απρίλιο, Ιούλιο και Οκτώβριο):

7. προοπτικές εξέλιξης της απασχόλησης κατά τους επόμενους μήνες: θα αυξηθεί, θα παραμείνει σταθερή, θα μειωθεί;
8. παράγοντες οι οποίοι περιορίζουν την παραγωγή: κανένας, ανεπαρκής ζήτηση, έλλειψη εργατικού δυναμικού, ανεπαρκής εξοπλισμός, άλλοι παράγοντες;
9. παραγωγική ικανότητα: υπερεπαρκείς, επαρκείς, ανεπαρκείς;
10. διάρκεια παραγωγής που είναι εξασφαλισμένη: σε μήνες;
11. παραγγελίες που έχουν καταγραφεί κατά τη διάρκεια των τελευταίων μηνών: έχουν αυξηθεί, έχουν παραμείνει σταθερές, έχουν μειωθεί;
12. προοπτικές εξέλιξης των παραγγελιών από το εξωτερικό κατά τη διάρκεια των προσεχών μηνών: θα αυξηθούν, θα παραμείνουν σταθερές, θα μειωθούν;
13. χρησιμοποίηση του δυναμικού: επί τοις εκατό;
14. αποθέματα πρώτων υλών: υψηλά, κανονικά, χαμηλά;

Έρευνα επί των επενδύσεων

Εξαμηνιαία έρευνα (που πραγματοποιείται τον Μάρτιο/Απρίλιο και Οκτώβριο/Νοέμβριο):

- τάσεις και προοπτικές εξέλιξης των επενδύσεων: ετήσιο ποσοστό διακύμανσης των επενδύσεων σε τρέχουσες τιμές.

Έρευνα στον τομέα των κατασκευών

Μηνιαία έρευνα (εκτός από την Ελλάδα, τη Γαλλία, την Ιρλανδία και το Ηνωμένο Βασίλειο όπου η έρευνα πραγματοποιείται τέσσερεις φορές το χρόνο):

1. τάση της δραστηριότητας του κλάδου των κατασκευών σε σχέση με τους προηγούμενους μήνες: αυξάνεται, παραμένει σταθερή, μειώνεται;
2. παράγοντες που περιορίζουν την εν λόγω δραστηριότητα: κανένας, ανεπάρκεια ζήτησης, δυσμενείς κλιματολογικές συνθήκες, έλλειψη εργατικού δυναμικού, έλλειψη υλικών και/ή εξοπλισμού, άλλοι παράγοντες;
3. παραγγελίες ή σχέδιο παραγωγής: υψηλότερο από το κανονικό, κανονικό, χαμηλότερο από το κανονικό;

4. προοπτικές εξελίξης της απασχόλησης κατά τη διάρκεια των προσεχών μηνών: θα αυξηθεί, θα παραμείνει σταθερή, θα μειωθεί;
5. προοπτικές εξελίξης των τιμών κατά τη διάρκεια των προσεχών μηνών: θα αυξηθούν, θα παραμείνουν σταθερές, θα μειωθούν;

Τριμηνιαία έρευνα (πραγματοποιείται τον Ιανουάριο, Απρίλιο, Ιούλιο και Οκτώβριο):

6. διάρκεια της δραστηριότητας που είναι εξασφαλισμένη σε μήνες:

Παρουσίαση των αποτελεσμάτων και χρησιμοποιούμενη ονοματολογία

Οι πίνακες των επόμενων σελίδων παρουσιάζουν τα αποτελέσματα των ερευνών για το σύνολο της μεταποιητικής βιομηχανίας, για τις τρεις μεγάλες ομάδες οι οποίες παράγουν, καταναλωτικά αγαθά, αγαθά εξοπλισμού και ενδιάμεσα αγαθά, καθώς και για 54 ομάδες επιμέρους οιμάδες βιομηχανικών προϊόντων.

Για κάθε ερώτηση δίνονται αντίστοιχα δύο αποτελέσματα: «=» και «» «». Το «=» σημαίνει τις απαντήσεις οι οποίες αντιστοιχούν στην ένδειξη «σταθερό», «κανονικό» ή «επαρκές». Το «» σημαίνει το καθαρό θετικό ή αρνητικό υπόλοιπο, οι δε απαντήσεις «αυξημένο», «ψηφλότερο από το κανονικό» και «υπερεπαρκές» θεωρούνται σαν θετικές και σαν αρνητικές οι αντίθετες απαντήσεις. Τα γράμματα πάνω από τις στήλες αντιπροσωπεύουν, κάτω από την ένδειξη του αντίστοιχου κράτους μέλους, τον μήνα στον οποίο αναφέρεται το αποτελέσμα της έρευνας, δηλαδή: I = Ιανουάριος, Φ = Φεβρουάριος, Μ = Μάρτιος, Α = Απρίλιος, Μ = Μάιος, Ι = Ιούνιος, Ι = Ιούλιος, Α = Αύγουστος, Σ = Σεπτέμβριος, Ο = Οκτώβριος, Ν = Νοέμβριος, Δ = Δεκέμβριος. Η σύγχυση που είναι δυνατόν να προκληθεί λόγω της χρησιμοποίησης του ίδιου αρχικού γράμματος για διαφορετικούς μήνες (I για τον Ιανουάριο, Ιούνιο και Ιούλιο. Α για τον Απρίλιο και τον Αύγουστο) αποφεύγεται από το γεγονός ότι τα αποτελέσματα ταξινομούνται κατά περιόδους τριών μηνών.

Από το τεύχος αριθ. 1/1980 της παρούσας έκδοσης, τα αποτελέσματα των ερευνών συγκρίνονται οι απαντήσεις στο ερωτηματολόγιο, και όχι του μήνα στον οποίο αναφέρονται οι εκτιμήσεις.

Παρόμοιοι πίνακες παρουσιάζουν τα αποτελέσματα της έρευνας στον κλάδο των κατασκευών. Συμπληρωματικός πίνακας σχετικά με την έρευνα επί των επενδύσεων δημοσιεύεται δύο φορές κατ' έτος.

Η περιγραφή της κατανομής ανά τομέα των διαφόρων ερευνών παρατίθεται κατωτέρω.

Ινστιτούτα

 Δημόσια έργα (έργα πολιτικού μηχανικού).

¹ Στην ταξινόμηση των κλάδων της βιομηχανίας σε τρεις κύριες ομάδες χρησιμοποιούνται οι εξής συμβολισμοί: C = καταναλωτικά αγαθά, I = επενδυτικά αγαθά, B = ενδιάμεσα αγαθά. Η παραπομπή NACE (γενική ονομασία των οικονομικών δραστηριοτήτων στις Ευρωπαϊκές Κοινότητες) περιλαμβάνεται μέσα σε παρένθεση.

EUROPEAN COMMUNITY BUSINESS SURVEYS

The business surveys

The European Community business surveys have been progressively developed since 1962. They are carried out by national institutions on the basis of the Commission's harmonized questionnaires. The number of enterprises surveyed each month is about 20 000.

The survey questionnaires are sent to participants at the beginning of the month to which the survey results are attributed in the tables, or in the final days of the preceding month. The bulk of replies are received by about the 10th of the month in question. Exceptions are Italy, where the questionnaires are issued on or about the 15th of the month preceding that to which the results are attributed, and the Federal Republic of Germany where the questionnaires are posted on or about the 20th of the preceding month; in both cases, however, most of the questionnaires are received back during the first 10 days of the month to which the results are attributed.

Questions

Industry survey

Monthly:

1. Production trend in recent months: up, unchanged, down?
2. Order-books: above normal, normal, below normal?
3. Export order-books: above normal, normal, below normal?
4. Stocks of finished products: above normal, normal, below normal?
5. Production expectations for the months ahead: up, unchanged, down?
6. Selling price expectations for the months ahead: up, unchanged, down?

Quarterly (January, April, July and October) :

7. Employment expectations for the months ahead: up, unchanged, down?
8. Limits to production: none, insufficient demand, shortage of labour, lack of equipment, others?
9. Production capacity: more than sufficient, sufficient, not sufficient?
10. Duration of assured production (in months)?
11. New orders in recent months: up, unchanged, down?
12. Export expectations for the months ahead: up, unchanged, down?
13. Capacity utilization (in %)?
14. Stocks of raw materials: high, normal, low?

Investment survey

Half-yearly (March/April and October/November):

- Investment trends and prospects: annual percentage change of investment expenditure at current prices.

Building survey

Monthly (except for Greece, France, Ireland and the United Kingdom, where the survey is carried out quarterly):

1. Trend of activity compared with preceding months : up unchanged, down?
2. Limits to production: none, insufficient demand, bad weather, shortage of manpower, lack of materials and/or equipment, others?
3. Order-books or production schedules: above normal, normal, below normal?
4. Employment expectations for the months ahead: up, unchanged, down?

5. Price expectations for the months ahead: up, unchanged, down?

Quarterly (January, April, July and October) :

6. Months of assured production?

Presentation of results and nomenclature employed

The tables on the following pages present the survey results for industry as a whole and for the three major groups producing consumer, investment and intermediate goods, as well as for 54 product groups and sub-groups of industry.

For each question, two sets of results are given, designated "—" and "b", respectively. "—" represents answers under the heading "unchanged", or "normal" or "sufficient". "b" represents the net balance of positive over negative replies, where "up" or "above normal" or "more than sufficient" are counted as positive replies, with the opposites counted as negative replies. The letters heading the columns represent, after the Member State concerned, the month to which the survey result relates, as follows : J : January, F : February, M : March, A : April, M : May, J : June, J : July, A : August, S : September, O : October, N : November, D : December. Since three months' results are presented at a time, ambiguity in the nomenclature of the months January, June, July (all "J") and April and August (both "A" is avoided).

Starting with the No. 1, 1980, number of this publication, the survey results are dated according to the month in which the questionnaires are completed by the respondents. (In earlier numbers of "Results of the business surveys carried out among managements in the Community" the results were associated with the preceding month).

Corresponding tables are used to present the results of the construction survey. An additional table is published twice a year, setting out the results of the investment survey.

The breakdown by sector of the different surveys is described below.

Institutes

The surveys are carried out by:

- B — Belgium: Banque Nationale de Belgique.
- DK — Denmark: Danmarks Statistik.
- D — Federal Republic of Germany: IFO (Institut für Wirtschaftsforschung).
- GR — Greece: IEIR (Institute of Economic and Industrial Research).
- E — Spain: MIE (Ministerio de Industria y Energía).
- F — France: INSEE (Institut National de la Statistique et des Études Économiques).
- IRL — Ireland: CII (Confederation of Irish Industry) and CIF (Construction Industry Federation).
- I — Italy: ISCO (Istituto nazionale per lo Studio della Congiuntura).
- L — Luxembourg: STATEC (Service central de la Statistique et des Études Économiques).
- NL — Netherlands: CBS (Centraal Bureau voor de Statistiek)
- Economisch Instituut voor de Bouwnijverheid.
- P — Portugal: INE (Instituto Nacional de Estatística).
- AECOPS (Associação de Empresas de Construção e Obras Públicas do Sul).
- UK — United Kingdom: CBI (Confederation of British Industry), for the manufacturing industry survey.
- BSO (Business Statistics Office) for the investment survey.
- Building Employers Confederation, for the construction survey.

Supplement B to "European Economy" gives a monthly selection of the most recent survey results. Articles containing more detailed analyses and longer time-series of data appear periodically in the main editions of "European Economy".

Industrial Classification

Industry survey¹

- 0 Industry as a whole**
- I Consumer goods**

 - 11 Man-made fibres industry** B (26)
 - 12 Manufacture of metal articles** (31)
 - I (314/315/316.6)
 - C (316.5)
 - B (311/313/319/remainder of 316)
 - 13 Mechanical engineering** I (32)
 - a Agricultural machinery and tractors (321)
 - b Machine-tools (322)
 - c Textile machinery and accessories (323)
 - d Engines, compressors, pumps (328)
 - 14 Manufacture of office machinery and data-processing machinery** I (33)
 - 15 Electrical engineering** I (34)
 - a Manufacture of electrical machinery I (341-344)
 - b Household electrical appliances, radio and television receivers C (345/346)
 - c Electric lamps and other electric lighting equipment, assembly and installation of electrical equipment and apparatus I (347/348)
 - 16 Manufacture of motor vehicles, motor-vehicle parts and accessories** (35)
 - a Manufacture and assembly of motor vehicles (including road tractors) and manufacture of motor-vehicle engines C + I (351)
 - b Manufacture of bodies for motor vehicles and of motor-drawn trailers and caravans I (352)
 - c Manufacture of parts and accessories for motor vehicles B (353)
 - 17 Manufacture of other means of transport** (36)
 - a Shipbuilding I (361)
 - b Manufacture of cycles, motor-cycles and parts and accessories thereof C (362-365)
 - 18 Manufacture of rubber products** B (481/482)
 - 19 Precision engineering, optics and the like** (37)
 - 20 Food, drink and tobacco industry** (41/42)

Investment survey

Basic materials industries

- Chemical industry
- Petroleum
- Construction materials, ceramics, glass
- Manufacture of man-made fibres
- Rubber

Metal working industries

- Iron and steel industry
- Initial processing of ferrous metals (excluding foundry operations)
- Non-ferrous metals industry

Equipment goods

- Foundry operations
- Manufacture of metal consumer goods
- Plant and heavy machinery
- Manufacturing of machinery other than electrical
- Household electrical appliances, radio and television receivers
- Manufacture of heavy electrical equipment
- Motor vehicle industry
- Shipbuilding, aircraft construction and railway equipment
- Precision engineering, optics, clock and watch manufacture

Processing industries

- Textile industry
- Clothing and hosiery
- Leather and footwear
- Wood and cork
- Furniture
- Paper and board manufacture
- Paper and board processing
- Printing
- Plastics' processing

Extractive industries

- Mining and preparation of solid fuels
- Metal mining
- Crude petroleum and natural gas
- Stone quarrying, clay and sand

Food industries

Industry as a whole²

Building survey

Construction as a whole

- Building:
- housing
- other building

Public works (civil engineering).

¹ The classification of the industrial sectors in terms of the three major groups is indicated by C = consumer goods, I = investment goods, B = intermediate goods. N.A.C.E. (general industrial classification of the European Community) references are given in brackets.

ENQUETES DE CONJONCTURE DANS LA COMMUNAUTE EUROPEENNE

Les enquêtes de conjoncture

Les enquêtes de conjoncture dans la Communauté Européenne ont été développées progressivement depuis 1962. Elles sont effectuées par des instituts nationaux, sur la base des questionnaires harmonisés de la Commission.

Les enquêtes portent chaque mois sur environ 20 000 entreprises.

L'envoi des questionnaires aux participants est effectué par les instituts les premiers jours du mois auquel les résultats sont attribués dans les tableaux (ou derniers jours du mois précédent). Le retour aux instituts des questionnaires remplis est effectué jusqu'aux environs du 10 du mois. Seules exceptions : en Italie, l'envoi des questionnaires aux participants s'effectue aux environs du 15 et en Allemagne dès le 20 du mois. Le retour aux instituts se fait aux environs du 10 du mois suivant, auquel les résultats sont attribués.

Questions

Enquête dans l'industrie

Enquête mensuelle

1. tendance de la production au cours des derniers mois : augmentation, stabilité, diminution ?
2. carnets de commandes : supérieurs à la normale, normaux, inférieurs à la normale ?
3. carnets de commandes en provenance de l'étranger : supérieurs à la normale, normaux, inférieurs à la normale ?
4. stocks de produits finis : supérieurs à la normale, normaux, inférieurs à la normale ?
5. perspectives d'évolution de la production au cours des prochains mois : augmentation, stabilité, diminution ?
6. perspectives d'évolution des prix de vente au cours des prochains mois : augmentation, stabilité, diminution ?

Enquête trimestrielle (effectuée en janvier, avril, juillet et octobre) :

7. perspectives d'évolution de l'emploi au cours des prochains mois : augmentation, stabilité, diminution ?
8. facteurs limitant la production : aucun, insuffisance de la demande, manque de main-d'œuvre, insuffisance de l'équipement, autres ?
9. capacité de production : plus que suffisante, suffisante, pas suffisante ?
10. durée de production assurée : en mois ?
11. commandes enregistrées au cours des derniers mois : augmentation, stabilité, diminution ?
12. perspectives d'évolution des commandes de l'étranger au cours des prochains mois : augmentation, stabilité, diminution ?
13. utilisation de la capacité : en pour-cent ?
14. stocks de matières premières : élevés, normaux, faibles ?

Enquête sur les investissements

Enquête semestrielle (effectuée en mars/avril et octobre/novembre) :

- tendances et perspectives d'évolution des investissements : pourcentage de variation annuelle des investissements aux prix courants.

Enquête dans la construction

Enquête mensuelle (sauf pour la Grèce, la France, l'Irlande et le Royaume-Uni où l'enquête est effectuée quatre fois par an) :

1. tendance de l'activité de construction par rapport aux mois précédents : augmentation, stabilité, diminution ?
2. facteurs limitant l'activité de construction : aucun, demande, conditions climatiques défavorables, manque de main-d'œuvre, manque de matériel et/ou d'équipement, autres ?
3. carnet de commandes ou plan de production : supérieur à la normale, normal, inférieur à la normale ?

4. perspectives d'évolution de l'emploi au cours des prochains mois : augmentation, stabilité, diminution ?
 5. perspectives d'évolution des prix au cours des prochains mois : augmentation, stabilité, diminution ?
- Enquête trimestrielle (effectuée en janvier, avril, juillet et octobre) :
6. durée d'activité assurée en mois ?

Présentation des résultats et nomenclature employée

Les tableaux des pages suivantes présentent les résultats des enquêtes pour l'ensemble de l'industrie manufacturière, pour les trois grands groupes produisant des biens de consommation, biens d'équipement et biens intermédiaires, ainsi que pour 54 groupes et sous-groupes de produits industriels.

Deux résultats, indiqués respectivement par « = » et « s » sont fournis pour chaque question. « = » désigne les réponses correspondant à la mention « stabilité », « normal » ou « suffisant ». « s » désigne le solde net positif ou négatif, les réponses « augmentation », « supérieur à la normale » et « plus que suffisant » étant considérées comme positives, et comme négatives les réponses contraires. Les lettres surmontant les colonnes représentent, sous l'indication de l'État membre concerné, le mois auquel se réfère le résultat de l'enquête, à savoir : J = janvier, F = février, M = mars, A = avril, M = mai, J = juin, J = juillet, A = août, S = septembre, O = octobre, N = novembre, D = décembre. Toute confusion due à l'emploi de la même initiale pour des mois différents (J pour janvier, juin et juillet ; A pour avril et août) est évitée du fait que les résultats sont regroupés par périodes de trois mois.

Depuis le n° 1/1980 de la présente publication, les résultats des enquêtes de conjoncture portent l'indication du mois au cours duquel les réponses au questionnaire ont été fournies, plutôt que du mois auquel les appréciations se rapportent.

Des tableaux similaires présentent les résultats de l'enquête dans le secteur de la construction. Un tableau supplémentaire relatif à l'enquête sur les investissements est publié deux fois par an.

La description de la ventilation par secteur des différentes enquêtes figure ci-dessous.

Instituts

Les enquêtes sont effectuées par :

- B — Belgique : Banque Nationale de Belgique
- DK — Danemark : Danmarks Statistik
- D — République fédérale d'Allemagne: IFO (Institut für Wirtschaftsforschung)
- GR — Grèce : IEIR (Institute of Economic and Industrial Research)
- E — Espagne : MIE (Ministerio de Industria y Energía)
- F — France : INSEE (Institut National de la Statistique et des Études Économiques)
- IRL — Irlande : CII (Confederation of Irish Industry) et CIF (Construction Industry Federation)
- I — Italie : ISCO (Istituto nazionale per lo Studio della Congiuntura)
- L — Luxembourg: STATEC (Service central de la Statistique et des Études Économiques)
- NL — Pays-Bas : CBS (Centraal Bureau voor de Statistiek)
- Economisch Instituut voor de Bouwnijverheid
- P — Portugal: INE (Instituto Nacional de Estatística)
- AECOPS (Associação de Empresas de Construção e Obras Públicas do Sul)
- UK — United Kingdom : CBI (Confederation of British Industry), pour les industries manufacturières
- BSO (Business Statistics Office) pour l'enquête sur les investissements
- Building Employers Confederation, pour l'enquête sur la construction

Le supplément « B » d'*« Economie Européenne »* présente une sélection mensuelle des résultats les plus récents. Des articles contenant des analyses plus détaillées et des séries chronologiques plus longues sont publiés périodiquement dans les éditions principales d'*« Economie européenne »*.

Regroupement des secteurs industriels

Enquête dans l'industrie¹

¹ Le regroupement des branches de l'industrie dans les trois groupes principaux est indiqué par C = biens de consommation, I = biens d'investissement, B = biens intermédiaires. La référence NACE (nomenclature générale des activités économiques dans les Communautés Européennes) est indiquée entre parenthèses.

INCHIESTE CONGIUNTURALI NELLA COMUNITÀ EUROPEA

Le inchieste congiunturali

Le inchieste congiunturali nella Comunità Europea sono state gradualmente messe a punto fin dal 1962. Esse sono effettuate da organismi nazionali sulla base di questionari armonizzati della Commissione. Le inchieste riguardano ogni mese circa 20 000 imprese.

Gli istituti inviano i questionari ai partecipanti all'inizio del mese al quale i risultati sono attribuiti nelle tabelle (o alla fine del mese precedente). Il ritorno agli istituti dei moduli compilati avviene fin verso il 10 del mese. Sole eccezioni: in Italia, i questionari sono inviati verso il 15 e, in Germania, il 20 del mese; i moduli rientrano verso il 10 del mese successivo, al quale i risultati sono attribuiti.

Domande

Inchiesta nell'industria

Mensilmente

1. tendenze della produzione negli ultimi mesi: aumento, invarianza, diminuzione;
2. giudizio sulla consistenza del portafoglio ordini: superiore al normale, normale, inferiore al normale;
3. giudizio sulla consistenza del portafoglio ordini dall'estero: superiore al normale, normale, inferiore al normale;
4. giudizio sulle giacenze di prodotti finiti: superiori al normale, normali, inferiori al normale;
5. previsioni sulla produzione nei prossimi mesi: aumento, invarianza, diminuzione;
6. previsioni sulla tendenza dei prezzi di vendita nei prossimi mesi: aumento, invarianza, diminuzione.

Trimestralmente (in gennaio, aprile, luglio e ottobre):

7. previsioni sulla tendenza della manodopera occupata nei prossimi mesi: aumento, stabilità, diminuzione.
8. l'attività produttiva: non è ostacolata; è ostacolata da insufficienza di domanda, scarsità di manodopera, insufficienza di impianti, altri fattori.
9. capacità produttiva: eccedentaria, sufficiente, insufficiente;
10. durata di produzione assicurata, espressa in mesi;
11. nuovi ordinativi negli ultimi mesi: aumento, invarianza, diminuzione;
12. previsioni sulla tendenza degli ordinativi dall'estero nei prossimi mesi: aumento, invarianza, diminuzione;
13. utilizzazione delle capacità produttive, in %;
14. giudizio sulle scorte di materie prime: alte, normali, basse.

Inchiesta sugli investimenti

Semestralmente (in marzo/aprile e in ottobre/novembre):

- tendenze e prospettive degli investimenti: variazione percentuale annua della spesa per gli investimenti espressa in moneta corrente.

Inchiesta nella costruzione

Mensilmente (salvo per la Grecia, la Francia, l'Irlanda e il Regno Unito, dove l'inchiesta è svolta trimestralmente):

1. produzione attuale rispetto a quella del mese precedente: aumento, invarianza, diminuzione;
2. fattori che limitano la produzione: nessuno, richieste, cattivo tempo, insufficienza di manodopera, mancanza di materiali e/o oppure di apparecchiature, altri fattori;
3. ordinativi o programmi di lavoro: superiori al normale, normali, inferiori al normale;

4. previsioni sulla tendenza della manodopera occupata nei prossimi mesi: aumento, invarianza, diminuzione;
5. previsioni sulla tendenza dei prezzi nei prossimi mesi: aumento, invarianza, diminuzione.

Trimestralmente (in gennaio, aprile, luglio e ottobre):

6. durata di produzione assicurata, espressa in mesi.

Presentazione dei risultati e nomenclatura utilizzata

Le tabelle figuranti nelle pagine seguenti presentano i risultati delle inchieste per l'insieme dell'industria manifatturiera, per i tre grandi gruppi dei beni di consumo, dei beni di investimento e dei beni intermedi, nonché per 54 gruppi e sottogruppi di prodotti industriali.

Per ogni domanda sono presentati due risultati, contrassegnati rispettivamente con «=» e «s». «=» indica le risposte corrispondenti alla menzione «invarianza», «normale» o «sufficiente». «s» indica il saldo netto positivo o negativo, essendo considerate positive le risposte «aumento», «superiore al normale» e «eccedentario», e negative le risposte contrarie. Le lettere in cima alle colonne, sotto la sigla del relativo Stato membro, rappresentano il mese al quale si riferisce il risultato dell'inchiesta e cioè: J = gennaio, F = febbraio, M = marzo, A = aprile, M = maggio, J = giugno, J = luglio, A = agosto, S = settembre, O = ottobre, N = novembre, D = dicembre. Poiché i risultati sono presentati per tre mesi alla volta, l'uso di una medesima iniziale per mesi diversi (J per gennaio, giugno et luglio; A per aprile ed agosto) non nuoce alla chiarezza.

Dal n° 1/1980 della presente pubblicazione, i risultati delle inchieste di congiuntura portano la data del mese in cui sono state fornite le risposte al questionario, invece del mese al quale si riferiscono gli apprezzamenti.

Altre simili tabelle presentano i risultati dell'inchiesta nel settore dell'edilizia. Due volte all'anno viene pubblicata una tabella supplementare relativa all'inchiesta sugli investimenti.

La descrizione della classificazione per settori delle varie inchieste figura più sotto.

Istituti

Le inchieste sono effettuate da:

- B — Belgio: Banque Nationale de Belgique
- DK — Danimarca: Danmarks Statistik
- D — Repubblica federale di Germania: IFO (Institut für Wirtschaftsforschung)
- GR — Grecia: IEIR (Institute of Economic and Industrial Research)
- E — Spagna: MIE (Ministerio de Industria y Energía)
- F — Francia: INSEE (Institut National de la Statistique et des Études Économiques)
- IRL — Irlanda: CII (Confederation of Irish Industry) e CIF (Construction Industry Federation)
- I — Italia: ISCO (Istituto nazionale per lo Studio della Congiuntura)
- L — Lussemburgo: STATEC (Service central de la Statistique et des Études Économiques)
- NL — Paesi Bassi: CBS (Centraal Bureau voor de Statistiek)
— Economisch Instituut voor de Bouwnijverheid
- P — Portogallo: INE (Instituto Nacional de Estatística)
— AECOPS (Associação de Empresas de Construção e Obras Públicas do Sul)
- UK — Regno Unito: CBI (Confederation of British Industry), per l'inchiesta sull'industria manifatturiera
— BSO (Business Statistics Office) per l'inchiesta sugli investimenti
— Building Employers Confederation per l'inchiesta sull'edilizia

Il Supplemento B di «Economia Europea» contiene una selezione mensile dei risultati più recenti. Nelle principali edizioni di «Economia Europea» sono pubblicati articoli contenenti analisi più dettagliate, basate su serie temporali di dati più lunghi.

Lavori pubblici (genio civile).

CONJUNCTUURENQUÊTES IN DE EUROPESE GEMEENSCHAP

De conjunctuurenquêtes

De conjunctuurenquêtes in de Europese Gemeenschap werden sedert 1962 geleidelijk tot ontwikkeling gebracht. Zij worden door de nationale instituten uitgevoerd aan de hand van geharmoniseerde vragenlijsten van de Commissie.

Elke maand zijn bij de enquêtes ongeveer 20 000 ondernemingen betrokken.

De toezending van de vragenlijsten aan de deelnemers door de instituten gebeurt tijdens de eerste dagen van de maand waaronder de resultaten in de tabellen worden ingedeeld (of laatste dagen van de voorafgaande maand). De terugzending van de ingevulde vragenlijsten aan de instituten gebeurt tot omstreeks de 10de van de maand.

Uitzonderingen: in Italië heeft de toezending van de vragenlijsten plaats omstreeks de 15de en in Duitsland vanaf de 20ste van de maand. De terugzending aan de instituten gebeurt omstreeks de 10de van de volgende maand waaronder de resultaten worden ingedeeld.

Vragen

Enquête in de industrie

Maandelijks

1. Ontwikkeling van de produktie in de afgelopen maanden: stijging, geen verandering, daling?
2. orderbestanden: groter dan normaal, normaal, kleiner dan normaal?
3. bestand buitenlandse orders: groter dan normaal, normaal, kleiner dan normaal?
4. voorraden eindprodukten: groter dan normaal, normaal, kleiner dan normaal?
5. vooruitzichten voor de ontwikkeling van de produktie in de komende maanden: stijging, geen verandering, daling?
6. vooruitzichten voor de ontwikkeling van de verkoopprijzen in de komende maanden: stijging, geen verandering, daling?

Driemaandelijks (januari, april, juli en oktober)

7. vooruitzichten voor de ontwikkeling van de personeelsbezetting in de komende maanden: stijging, geen verandering, daling?
8. factoren die de produktie beperken: geen, onvoldoende vraag, tekort aan arbeidskrachten, onvoldoende uitrusting, andere?
9. produktiecapaciteit: meer dan voldoende, voldoende, onvoldoende?
10. verzekerde activiteitsduur in maanden?
11. In de afgelopen maanden ontvangen orders: stijging, geen verandering, daling?
12. vooruitzichten voor de ontwikkeling van de orderontvangsten uit het buitenland in de komende maanden: stijging, geen verandering, daling?
13. bezettingsgraad in %?
14. grondstoffenvoorraden: groot, normaal, klein?

Conjunctuurenquête over de investeringen in de industrie

Halfjaarlijks (maart/april en oktober/november):

- ontwikkelingen en vooruitzichten inzake investeringen: procentuele wijziging per jaar van de nominale investeringsuitgaven.

Enquête in het bouwbedrijf

Maandelijks (behalve voor Griekenland, Frankrijk, Ierland en het Verenigd Koninkrijk, waar de enquête viermaal per jaar wordt gehouden):

1. ontwikkeling van de bedrijvigheid ten opzichte van de voorafgaande maanden: stijging, geen verandering, daling?
2. produktie-belemmeringen: geen, onvoldoende vraag, ongunstige weersgesteldheid, tekort aan arbeidskrachten, onvoldoende materiaal en/of uitrusting, andere?
3. orderbestand of bouwprogramma: groter dan normaal, normaal, kleiner dan normaal?
4. vooruitzichten voor de ontwikkeling van de personeelsbezetting in de komende maanden: stijging, geen verandering, daling?

5. vooruitzichten voor de prijsontwikkeling in de komende maanden: stijging, geen verandering, daling?

Driemaandelijks (januari, april, juli en oktober)

6. verzekerde activiteitsduur in maanden?

Weergave van de resultaten en gebruikte bedrijfsindeling

De tabellen op de volgende bladzijden geven de uitkomsten weer van de enquêtes voor de totale industrie en voor de drie grote categorieën goederen (consumptiegoederen, investeringsgoederen en halffabrikaten), alsmede voor 54 bedrijfstakken (groepen en subgroepen) van de industrie.

Voor elke vraag worden twee series van resultaten gegeven, respectievelijk aangeduid als „=“ en „b“. „=“ stelt antwoorden voor onder de rubriek „geen verandering“ of „normaal“ of „voldoende“. „b“ stelt het netto saldo van de positieve over de negatieve antwoorden voor, waar „stijging“ of „groter dan normaal“ of „meer dan voldoende“ als positieve antwoorden geteld worden; de tegenovergestelde nummers worden als negatieve antwoorden gerekend. De letters bovenaan de kolom onder de naam van de betrokken Lidstaat stellen de maand voor waarin de resultaten van de enquête betrekking hebben: J = januari, F = februari, M = maart, A = april, M = mei, J = juni, J = juli, A = augustus, S = september, O = oktober, N = november, D = december. Aangezien tegelijkertijd de resultaten van drie maanden weergegeven worden, bestaat er geen dubbelzinnigheid in de bedrijfsindeling voor de maanden januari, juni, juli (alle „J“) en april en augustus (beiden „A“).

Vanaf nr. 1/1980 van deze publikatie is bij de resultaten van de conjunctuurenquêtes de maand vermeld waarin de antwoorden op de vragenlijsten werden verstrekt. (In de vroegere publikatie „Resultaten van de conjunctuurenquêtes bij het bedrijfsleven in de Gemeenschap“ hadden de resultaten betrekking op de voorgaande maand).

Gelijkwaardige tabellen geven de resultaten weer van de enquête in de bouwnijverheid. Een extra tabel in verband met de investeringsenquête wordt tweemaal per jaar gepubliceerd.

Voor de verschillende enquêtes wordt de onderverdeling naar tak van bedrijvigheid hieronder aangegeven.

Instituten

De enquêtes worden uitgevoerd door:

- B — België: Nationale Bank van België
- DK — Denemarken: Danmarks Statistik
- D — Bondsrepubliek Duitsland: IFO (Institut für Wirtschaftsforschung)
- GR — Griekenland: IEIR (Institute of Economic and Industrial Research)
- E — Spanje: MIE (Ministerio de Industria y Energía)
- F — Frankrijk: INSEE (Institut National de la Statistique et des Études Économiques)
- IRL — Ierland: CII (Confederation of Irish Industries) en CIF (Construction Industry Federation)
- I — Italië: ISCO (Istituto Nazionale per lo Studio della Congiuntura)
- L — Luxemburg: STATEC (Service central de la Statistique et des Études Économiques)
- NL — Nederland: CBS (Centraal Bureau voor de Statistiek)
- Economisch Instituut voor de Bouwnijverheid
- P — Portugal: INE (Instituto Nacional de Estatística)
- AECOPS (Associação de Empresas de Construção e Obras Públicas do Sul)
- UK — Verenigd Koninkrijk: CBI (Confederation of British Industry), voor de verwerkende industrie
- BSO (Business Statistics Office) voor de investeringsenquête
- Building Employers Confederation, voor de enquête in de bouwnijverheid

In supplement „B“ van „Europese Economie“ wordt maandelijks een selectie gepubliceerd van de meest recente resultaten. Artikelen waarin nader op de ontwikkelingen wordt ingegaan en in langere tijdreeksen worden periodiek gepubliceerd in de hoofduitgave van „Europese Economie“.

Openbare werken (water-, spoor- en wegenbouw; cultuurtechnische werken).

¹ De indeling van de bedrijfstakken in de drie hoofdgroepen is als volgt aangeduid: C = consumptiegoederen, I = investeringsgoederen, B = Halffabrikaten. De NACE (Algemene industriële classificatie van de Europese Gemeenschap)- referentie wordt tussen haakjes aangeduid.

INQUÉRITOS DE CONJUNTURA NA COMUNIDADE EUROPEIA

Os inquéritos de conjuntura

Os inquéritos de conjuntura na Comunidade Europeia desenvolveram-se progressivamente desde 1962 e são efectuados por institutos nacionais, com base em questionários harmonizados da Comissão.

Os inquéritos incidem todos os meses sobre cerca de 20 000 empresas.

O envio dos questionários aos participantes é efectuado pelos institutos nos primeiros dias do mês em que os resultados são inscritos nos quadros (ou nos últimos dias do mês anterior). O conjunto das respostas é recebido por volta do dia 10 do mês em questão, com as excepções da Itália, onde o envio dos questionários aos participantes é feito por volta do dia 15, e da Alemanha, onde é feito a partir do dia 20. Os questionários são enviados para os institutos por volta do dia 10 do mês seguinte ao da inscrição dos resultados.

Perguntas

Inquérito à indústria

Inquérito mensal

1. Tendência da produção durante os últimos meses: aumento, estabilidade, diminuição?
2. Carteiras de encomendas: superiores ao normal, normais, inferiores ao normal?
3. Carteiras de encomendas proveniente do estrangeiro: superiores ao normal, normais, inferiores ao normal?
4. Existências de produtos acabados: superiores ao normal, normais, inferiores ao normal?
5. Perspectivas de evolução da produção durante os próximos meses: aumento, estabilidade, diminuição?
6. Perspectivas de evolução dos preços de venda durante os próximos meses: aumento, estabilidade, diminuição?

Inquérito trimestral (efectuado em Janeiro, Abril, Julho e Outubro):

7. Perspectivas de evolução do emprego durante os próximos meses: aumento, estabilidade, diminuição?
8. Factores que limitam a produção: nenhum, procura insuficiente, falta de mão-de-obra, equipamento insuficiente, outros factores?
9. Capacidade de produção: mais do que suficiente, suficiente, insuficiente?
10. Duração de produção garantida (em meses)?
11. Encomendas registadas durante os últimos meses: aumento, estabilidade, diminuição?
12. Perspectivas de evolução das encomendas provenientes do estrangeiro durante os próximos meses: aumento, estabilidade, diminuição?
13. Utilização da capacidade (em percentagem)?
14. Existências de matérias-primas: elevadas, normais, baixas?

Inquérito aos investimentos

Inquérito semestral (efectuado em Março/Abril e Outubro/Novembro):

- Tendências e perspectivas da evolução dos investimentos: variação anual em percentagem dos investimentos a preços correntes.

Inquérito à construção

Inquérito mensal (excepto para a Grécia, a França, a Irlanda e o Reino Unido, onde o inquérito é efectuado quatro vezes por ano):

1. Tendência da actividade de construção relativamente aos meses anteriores: aumento, estabilidade, diminuição?
2. Factores limitativos da actividade de construção: nenhum, insuficiência da procura, condições climáticas desfavoráveis, falta de mão-de-obra, falta de material ou de equipamento, outros?
3. Carteira de encomendas ou plano de produção: superior ao normal, normal, inferior ao normal?

4. Perspectivas de evolução do emprego durante os próximos meses: aumento, estabilidade, diminuição?
5. Perspectivas de evolução dos preços durante os próximos meses: aumento, estabilidade, diminuição?

Inquérito trimestral (efectuado em Janeiro, Abril, Julho e Outubro):

6. Duração da actividade garantida em meses

Apresentação dos quadros e nomenclatura utilizada

Os quadros das páginas seguintes apresentam os resultados dos inquéritos para a indústria transformadora no seu conjunto, em relação aos três grandes grupos que produzem bens de consumo, bens de equipamento e bens intermédios, bem como para 54 grupos e subgrupos de produtos industriais.

São apresentados dois resultados para cada questão, indicados respectivamente por «=» e «s». «=» designa as respostas que correspondem à menção «estabilidade», «normal» ou «suficiente». «s» designa a saldo líquido positivo ou negativo, sendo as respostas «aumento», «superior ao normal» e «mais que suficiente» consideradas positivas e sendo consideradas negativas as respostas contrárias. As letras no alto das colunas representam, sob a indicação do Estado-membro em questão, o mês que se refere o resultado do inquérito, a saber: J = Janeiro, F = Fevereiro, M = Março, A = Abril, M = Maio, J = Junho, J = Julho, A = Agosto, S = Setembro, O = Outubro, N = Novembro, D = Dezembro. Qualquer confusão devido à utilização da mesma inicial para meses diferentes (J para Janeiro, Junho e Julho, A para Abril e Agosto) é evitada devido ao facto de os resultados serem agrupados por períodos de três meses.

Desde o nº 1/1980 da presente publicação que os resultados dos inquéritos de conjuntura contêm a indicação do mês durante o qual foram fornecidas as respostas ao questionário e não do mês a que se referem.

Os resultados do inquérito ao sector da construção são apresentados em quadros semelhantes. É publicado duas vezes por ano um quadro suplementar relativo ao inquérito aos investimentos.

A descrição da repartição por sector dos diferentes inquéritos é seguidamente apresentado.

Institutos

Os inquéritos são efectuados por:

- B — Bélgica: Banque Nationale de Belgique
- DK — Dinamarca: Danmarks Statistik
- D — República Federal de Alemanha: IFO (Institut für Wirtschaftsforschung)
- GR — Grécia: IEIR (Institute of Economic and Industrial Research)
- E — Espanha: MIE (Ministerio de Industria y Energía)
- F — França: INSEE (Institut National de la Statistique et des Etudes Economiques)
- IRL — Irlanda: CII (Confederation of Irish Industry) e CIF (Construction Industry Federation)
- I — Itália: ISCO (Istituto Nazionale per lo Studio della Congiuntura)
- L — Luxemburgo: STATEC (Service central de la Statistique et des Etudes Economiques)
- NL — Países Baixos: CBS (Centraal Bureau voor de Statistiek)
- Economisch Instituut voor de Bouwnijverheid
- P — Portugal: INE (Instituto Nacional de Estatística)
- AECOPS (Associação de Empresas de Construção e Obras Públicas do Sul)
- UK — Reino Unido: CBI (Confederation of British Industry) para a indústria transformadora
- BSO (Business Statistics Office) para o inquérito aos investimentos
- Building Employers Confederation, para o inquérito à construção

O suplemento «B» da «Economia Europeia» apresenta uma seleção mensal dos resultados mais recentes. São publicados periodicamente artigos que contêm análises mais pormenorizadas e séries cronológicas mais longas nas edições principais da «Economia Europeia».

Classificação dos sectores industriais

Inquérito à indústria

- 0 Conjunto da indústria**
- I Bens de consumo**
- II Bens de investimento**
- III Bens intermédios**
- 1 Indústria têxtil (43)**

 - a) Madeira B (461-466)
 - b) Mobiliário de madeira C (467)
- 4 Indústria do papel e fabrico de artigos de papel; artes gráficas e edição (47)**
 - a) Produção de papel B (471)
 - b) Artigos de papel B (472)
 - c) Artes gráficas e edição C (473/474)
- 5 Indústria do couro (44)**
- 6 Artigos de matérias plásticas B (483)**
- 7 Refinação de petróleo B (14)**
- 8 Produção e primeira transformação dos metais B (22: 221-224)**
- 9 Indústria dos produtos minerais não metálicos (24)**
 - a) Materiais de construção, cerâmica para a construção e a indústria, vidro plano B (241-246; 247 excepto 247.2.4./247.7; 248 excepto 248.6/248.7)
 - b) Cerâmica fina e vidro oco C (247.2-247.7/248.6-7)
- 10 Indústria química (25)**
 - a) Produtos químicos de base B (251)
 - b) Produtos químicos para a indústria e a agricultura B (256)
 - c) Produtos químicos de consumo C (255/257-259)
- 11 Produção de fibras artificiais e sintéticas B (26)**
- 12 Fabrico de obras de metal (31)**
 - I (314/315/316.6)
 - C (316.5)
 - B (311/313/319/resto de 316)
- 13 Construção de máquinas e de material mecânico I (32)**
 - a) Máquinas e tractores agrícolas (321)
 - b) Máquinas-ferramentas (322)
 - c) Máquinas têxteis e acessórios (323)
 - d) Motores, compressores e bombas (328)
- 14 Construção de máquinas de escritório e de máquinas e instalações para o tratamento da informação I (33)**
- 15 Construção eléctrica e electrónica (34)**
 - a) Construção de equipamento eléctrico I (341-344)
 - b) Electrodomésticos, rádios, televisões C (345/346)
 - c) Lâmpadas, material de iluminação, montagem, obras de instalação técnica I (347/348)
- 16 Construção de automóveis e peças sobressalentes (35)**
 - a) Construção e montagem de veículos automóveis (incluindo tractores rodoviários) e construção de motores para veículos automóveis C + I (351)
 - b) Construção de carrocerias, reboques e caravanas I (352)
 - c) Fabrico de equipamento, de acessórios e de peças sobressalentes para automóveis B (353)
- 17 Construção de outro material de transporte (36)**
 - a) Construção naval, reparação e manutenção dos navios I (361)
 - b) Construção de bicicletas, motociclos e suas peças C (362-364) sobressalentes
- 18 Indústria da borracha B (481/482)**
- 19 Fabrico de instrumentos de precisão, de óptica e similares (37)**
- 20 Indústria dos produtos alimentares, das bebidas e do tabaco (41/42)**

¹ A classificação dos ramos da indústria nos três grupos principais é indicado por C = bens de consumo, I = bens de investimento, B = bens intermédios. A referência NACE (Nomenclatura Geral das Actividades Económicas nas Comunidades Europeias) está indicada entre parêntesis.

Nota a los lectores de los Resultados de las encuestas de coyuntura efectuadas entre los empresarios de la Comunidad

Cabe realizar dos observaciones importantes con respecto a la presentación de los datos relativos a las encuestas. En primer lugar, a partir de ahora, los datos se refieren al mes en que los participantes cumplimentaron y enviaron los cuestionarios (antes de 1980, los datos se referían al mes precedente). Por consiguiente, lo que anteriormente se publicaba como resultado de "diciembre de 1979" aparece actualmente como resultado de "enero de 1980", y así sucesivamente. Este nuevo sistema corresponde al que se adopta en las series "Economía Europea" que publica la Comisión. El cambio se justifica por el hecho de que la encuesta se basa más en la opinión de los empresarios que en los datos cuantitativos correspondientes a un período determinado. Aunque se considera que las previsiones de los empresarios están basadas en los datos del mes precedente, no es posible comprobar si ello se cumple y, por consiguiente, es preferible fechar los resultados de las encuestas con arreglo al único punto que sirve de referencia, es decir, el momento en que se envían las respuestas al cuestionario.

El segundo cambio importante en la presentación de los datos es la eliminación de las categorías de respuestas "+" y "-". Esta racionalización permite reducir considerablemente los gastos de impresión y disponer de unos cuadros más simples, sin que afecte a la información. En efecto, a los lectores que utilizan las respuestas "+" y "-" (bancos de datos u otros usos), les resultará sumamente fácil deducirlas a partir de los datos "=" y "s" (saldo neto).

Dado que:

- "+" es el porcentaje de respuestas positivas (por ejemplo: "aumento", "superior al normal"),
- "=" estabilidad,
- "-" respuestas negativas (por ejemplo: "disminución", "inferior al normal") y
- "s" es la diferencia algebraica entre las respuestas positivas y negativas, se cumple:

$$("+) = 50 - \frac{("=") - ("s")}{2}$$

y

$$("-") = 50 - \frac{("=") + ("s")}{2}$$

Meddelelse til læserne af Resultaterne af konjunkturundersøgelsen hos virksomhedsledere i Fællesskabet

Der skal gøres to vigtige bemærkninger til undersøgelsesmaterialets fremtræden. For det første sættes tallene nu i relation til den måned, i hvilken størsteparten af spørgeskemaerne udfyldes og returneres af responderne (i årene før 1980 sattes tallene i relation til den foregående måned). Som følge heraf betegnes de tal, der tidligere fremstod som "december 1979", nu med "januar 1980" osv. Den nuværende praksis svarer til den, der benyttes i Kommissionens serie "Europæisk Økonomi". Begrundelsen for denne metode er, at undersøgelsen behandler virksomhedsledernes meningstilkendegivelser snarere end mængdeopgørelser for en bestemt periode. Det kan antages, at virksomhedsledernes tiltakningstilheder er baseret på den forudgående måneds resultater, men man kan ikke være sikker på, at dette altid er tilfældet, og det må derfor foretrækkes at sætte undersøgelsesresultaterne i relation til det eneste utvetydige tidspunkt, der kan være tale om, nemlig tidspunktet for spørgeskemaets udfyldelse.

Den anden vigtige ændring i materialets fremtræden er sletningen af svarkategorien "+" og "-". Denne rationalisering bevirket, at trykningen bliver meget billigere, og at tabellen bliver mere overskuelig, uden at informationsmængden forringes. Det er helt uproblematisk for de læsere, som benytter svarene "+" og "-" til databaseformål eller andre formål, at aflede dem af de viste svarkategorier "=" og "b" (netttotal).

"+" er procenten af positive svar (f. eks. "højere", "større end normalt"),

"=" er uændret,

"-" er negative svar (f. eks. "lavere", "mindre end normalt"), og

"b" er den algebraiske forskel mellem de positive og de negative svar; følgende ligninger gælder

$$("+) = 50 - \frac{("=") - ("s")}{2}$$

e BIL 8-109/6003/700

Vermerk für die Leser der Ergebnisse der Konjunkturumfrage bei den Unternehmern in der Gemeinschaft

Zwei wichtige Bemerkungen zur Darstellung der Umfragedaten sind hervorzuheben. Die Angaben beziehen sich nunmehr auf den Monat, in dem der Hauptteil der Fragebögen ausgefüllt und von den Befragten zurückgesandt worden ist. (Bis Ende 1979 geschah die Veröffentlichung unter dem vorangegangenen Monat). Infolgedessen erscheinen die vorher unter „Dezember 1979“ ausgewiesenen Daten nunmehr unter „Januar 1980“ u.s.w. Dies entspricht dem in der Kommissionsveröffentlichung „Europäische Wirtschaft“ angewendeten Verfahren. Es lässt sich damit begründen, dass die Umfrage auf der Meinung der Unternehmensleiter abstellt und nicht auf quantitative Daten für einen fest umrissenen Zeitabschnitt. Es lässt sich zwar vorbringen, dass die Meinungen der Unternehmensleiter auf der Rechnungslegung des Vormonats fussen, es ist jedoch nicht mit Sicherheit festzustellen, ob dies immer der Fall ist; es scheint daher zweckmässiger, die Umfrageergebnisse mit dem Zeitpunkt zu datieren, auf den die bezogen werden können, nämlich demjenigen der Ausfüllung der Fragebögen.

Die zweite wichtige Änderung bei der Wiedergabe der Daten ist der Wegfall der Antwortkategorien „+“ und „—“. Diese Rationalisierung führt zu einer erheblichen Einsparung am Druckraum und gestattet eine Vereinfachung des Tabellschemas ohne den Informationsgehalt zu beeinträchtigen. Diejenigen Leser, welche die „+“ und „—“ Antworten als Datenbasis oder für andere Zwecke benutzen, können diese nämlich ohne weiteres aus den unter „=“ und „s“ (Nettosaldo) ausgewiesenen Angaben ableiten.

Ist

- „+“ der Prozentsatz an positiven Antworten (d.h. „höher“, „übernormal“),
- „=“ keine Veränderung,
- „—“ negative Antworten (d.h. „niedriger“, „unternormal“), und
- „s“ die algebraische Differenz zwischen positiven und negativen Antworten,
dann gelten folgende Gleichungen:

$$(.+,) = 50 - \frac{(.=) - (.s)}{2}$$

und

$$(.,-) = 50 - \frac{(.=) + (.s)}{2}$$

Σημείωση για τους αναγνώστες των Αποτελεσμάτων των ερευνών συγκυρίας στους διευθύνοντες κοινοτικές επιχειρήσεις

Δύο σημαντικές παρατηρήσεις πρέπει να γίνουν όσον αφορά την παρουσίαση των δεδομένων που αναφέρονται στις έρευνες. Κατ' αρχήν, τα δεδομένα αφορούν εφεξής το μήνα κατά τη διάρκεια του οποίου τα ερωτηματολόγια συμπληρώθηκαν και επιστράφηκαν από τους συμμετέχοντες (μέχρι τα τέλη του 1979, τα δεδομένα αφορούσαν τον προηγούμενο μήνα). Συνεπώς, αυτό που προηγουμένως εμφανίζόταν ως αποτέλεσμα του «Δεκεμβρίου 1979», τώρα παρουσιάζεται ως αποτέλεσμα του «Ιανουαρίου 80» και ούτω καθεξής. Το νέο αυτό σύστημα είναι ανάλογο εκείνου που εφαρμόζεται στη σειρά εκδόσεων «Ευρωπαϊκή Οικονομία» που δημοσιεύει η Επιτροπή. Αιτιολογείται από το γεγονός ότι η έρευνα στηρίζεται στη γνώμη των διευθυνόντων επιχειρήσεις παρά σε ποσότητα δεδομένα που αφορούν μια ακριβώς συγκεκριμένη περίοδο. Παρότι αναγνωρίζεται το βάσιμο του επιχειρήματος σύμφωνα με το οποίο οι εκτιμήσεις των διευθυνόντων βασίζονται στα στοιχεία του προηγούμενου μηνός, ωστόσο, είναι αδύτατο να επαληθευθεί εάν ο κανόνας αυτός εφαρμόζεται πάντοτε και συνεπώς είναι προτιμότερο να χρονολογηθούν τα αποτελέσματα των ερευνών σύμφωνα με το μόνο σταθερό σημείο αναφοράς, δηλαδή τη στιγμή που δίνονται οι απαντήσεις στο ερωτηματολόγιο.

Η δεύτερη σημαντική αλλαγή που αφορά την παρουσίαση των δεδομένων είναι η κατάργηση των κατηγοριών απαντήσεων «+» και «—». Η μεταβολή αυτή επέτρεψε αφενός τη σημαντική μείωση των εξόδων εκτύπωσης και αφετέρου την απλούστερη παρουσίαση των πινάκων και αυτό χωρίς να περιορισθούν τα πληροφοριακά στοιχεία που παρέχονται. Συνεπώς οι χρήστες των απαντήσεων «+» και «—» (τράπεζες δεδομένων ή άλλες χρήσεις) μπορούν να τις αντλήσουν από τις ενδείξεις «=» και «s» (καθαρό υπόλοιπο).

Έτσι, αφού:

- «+» είναι το ποσοστό των θετικών απαντήσεων («αύξηση», «ανώτερο του κανονικού»),
- «=» αμετάβλητο,
- «—» αρνητικές απαντήσεις («μείωση», «κατώτερο του κανονικού») και
- «s» είναι η αλγεβρική διαφορά μεταξύ θετικών και αρνητικών απαντήσεων, εφαρμόζονται οι ακόλουθες εξισώσεις:

$$(+)=50-\frac{(-)-(+s)}{2}$$

και

$$(-)=50-\frac{(-)+(+s)}{2}$$

Note to readers of Results of the business survey carried out among managements in the Community

Two important remarks on the presentation for the survey data should be noted. Firstly, the data are now presented as relating to the month in which the bulk of the questionnaires are filled in and returned by the respondents. (In years previous to 1980, the data had been associated with the preceding month). As a result, what had previously appeared as the "December 1979" survey data are now entitled "January 1980", and so forth. The present practice corresponds to that adopted in the Commission's "European Economy" series. It can be justified on the grounds that the survey is concerned with the state of opinion of chief executives, rather than with quantitative data relating to a well-defined period. While there is substance in the argument that chief executives' opinions are based on the preceding month's accounts, it is not possible to be sure that this is always the case and so it seems preferable to date the survey results according to the one definite point in time to which they can be related, namely, that in which the questionnaires are completed. The second important change in the presentation of the data is the elimination of the answer categories "+" and "-". This rationalisation permits a considerable economy in printing and a simpler table design without sacrificing information. It is, in effect, a simple matter for those readers who use the "+" and "-" answers for data base or other purposes, to derive them from the "=" and "b" (net balance) data shown.

Thus, where

- "+" is the percentage of positive (e.g., "higher", "above normal") answers,
- "=" no change,
- "-" negative (e.g., "lower", "below normal") answers, and
- "b" is the algebraic difference between positive and negative replies, the following equations hold:

$$("+) = 50 - \frac{("=") - ("b")}{2}$$

and

$$("-") = 50 - \frac{("=") + ("b")}{2}$$

Note aux lecteurs des Résultats des enquêtes de conjoncture auprès des chefs d'entreprise de la Communauté

Deux remarques importantes sont à signaler en ce qui concerne la présentation des données relatives aux enquêtes. Premièrement, les données se réfèrent désormais au mois au cours duquel les questionnaires sont remplis et retournés par les participants (jusqu'à la fin de 1979, les données se référaient au mois précédent). En conséquence, ce qui figurait précédemment comme résultat de "décembre 1979" est maintenant désigné comme résultat de "janvier 80", et ainsi de suite. Ce nouveau système correspond à celui qui a été adopté dans les séries "Économie Européenne" publiées par la Commission. Il se justifie du fait que l'enquête s'appuie sur l'avis des chefs d'entreprise plutôt que sur des données quantitatives concernant une période bien définie. Tout en reconnaissant le bien-fondé de l'argument suivant lequel les estimations des chefs d'entreprise sont basées sur les éléments du mois précédent, rien ne permet de vérifier si cette règle est toujours appliquée et il semble donc préférable de dater les résultats des enquêtes d'après le seul point fixe de référence, c'est-à-dire le moment où sont fournies les réponses au questionnaire.

Le deuxième changement important intervenu dans la présentation des données est l'élimination des catégories de réponses "+" et "-". Cette rationalisation a permis de réduire considérablement les frais d'impression et de disposer plus simplement les tableaux, sans nuire à l'information. Il est en effet fort aisément pour les utilisateurs des réponses "+" et "-" (banques de données ou autres usages), de les déduire des indications "=" et "s" (solde net).

Ainsi, puisque

- "+" est le pourcentage des réponses positives ("augmentation", "supérieur à la normale"),
- "=" stabilité,
- "-" réponses négatives ("diminution", "inférieur à la normale"), et
- "s" est la différence algébrique entre les réponses positives et négatives, les équations suivantes sont d'application:

$$("+) = 50 - \frac{("=") - ("b")}{2}$$

et

Nota ai lettori della serie

Risultati dell'inchiesta congiunturale effettuata presso gli imprenditori della Comunità

Due osservazioni sono da rilevare più particolarmente nella presentazione dei dati delle inchieste. Primo, i dati si riferiscono ora al mese in cui i questionari sono stati completati e rinviati dai partecipanti (fino alla fine del 1979, i dati si riferivano al mese precedente). Di conseguenza, ciò che prima figurava come risultato di "Dicembre 79" è d'ora innanzi indicato come risultato di "Gennaio 80", e così via. Questo sistema corrisponde a quello che è stato adottato per le serie "Economia Europea" edite dalla Commissione, e si giustifica in quanto l'inchiesta si basa sull'opinione degli imprenditori più che su dati quantitativi relativi ad un periodo ben definito. Se è pur valido l'argomento secondo il quale le valutazioni degli imprenditori si fondano su elementi del mese precedente, è anche evidente che nulla permette di controllare se così sempre avviene, per cui sembra più indicato attribuire ai risultati delle inchieste l'unica data certa di riferimento, e cioè il momento in cui sono completati i questionari.

Il secondo cambiamento importante nella presentazione dei dati riguarda l'eliminazione delle categorie di risposte "+" e "-". Tale razionalizzazione ha permesso di ridurre notevolmente i costi e di semplificare la disposizione delle tabelle senza nuocere all'informazione. Infatti, i lettori che devono adoperare le risposte "+" e "-" (per banche di dati o altri scopi) possono dedurle facilmente dalle indicazioni "=" e "s" (saldo netto).

Così, poichè

- "+" è la percentuale di risposte positive ("aumento", "superiore al normale"),
- "=" invarianza,
- "-" risposte negative ("diminuzione", "inferiore al normale"), e
- "s" è la differenza algebrica tra risposte positive e negative, si applicano le seguenti equazioni:

$$("+) = 50 - \frac{("=") - ("s")}{2}$$

e

$$("-") = 50 - \frac{("=") + ("s")}{2}$$

Mededeling aan de lezers van

Resultaten van de conjunctuurenquête bij het bedrijfsleven in de Gemeenschap

De aandacht moge worden gevestigd op twee belangrijke opmerkingen betreffende de opstelling van de enquêteresultaten. In de eerste plaats worden de gegevens nu vermeld voor de maand waarin het grootste deel van de vragenlijsten door de geënquéteerden werden ingevuld en teruggezonden. (Tot eind 1979 werden deze gegevens in verband gebracht met de voorafgaande maand). Als gevolg van deze veranderingen zijn de gegevens die vroeger met „december 1979” zouden zijn gedateerd nu vermeld onder „januari 1980”, enz. De nieuwe handelwijze komt overeen met die welke wordt aangehouden in de series „Europese economie” van de Commissie. Deze methode werd gekozen op grond van de overweging dat de enquête in meerder mate betrekking heeft op de meningen van de ondernemers dan op kwantitatieve gegevens voor een bepaalde periode. Hoewel het argument kan worden aangevoerd dat de opvattingen van de ondernemers gebaseerd zijn op de rekeningen van de voorafgaande maand is het niet zeker dat dit altijd het geval is, zodat het de voorkeur verdient de enquêteresultaten te relateren aan een wel bepaald tijdstip, namelijk dat waarop de vragenlijsten werden ingevuld.

De tweede belangrijke verandering in de opstelling van de cijfers is de afschaffing van de antwoordcategorieën „+" en „-". Door deze rationalisering kan aanzienlijk op het drukwerk worden bezuinigd, daar de tabel eenvoudiger wordt zonder dat informatie verloren gaat. Voor die lezers die „+" en „-" antwoorden gebruiken als basisgegevens of voor andere doeleinden is het immers eenvoudig deze af te leiden uit de „=" en „s" (saldo) gegevens die worden vermeld.

Indien namelijk

- „+" het percentage positieve (d.w.z. „hoger”, „groter dan normaal”) antwoorden,
- „=" geen verandering,
- „-" het percentage negatieve (d.w.z. „lager”, „kleiner dan normaal”) antwoorden en
- „s" het rekenkundige verschil tussen negatieve en positieve antwoorden aangeven, gelden de volgende vergelijkingen:

$$("+) = 50 - \frac{("=") - ("s")}{2}$$

en

$$("-") = 50 - \frac{("=") + ("s")}{2}$$

Nota aos leitores dos Resultados dos inquéritos de conjuntura realizados junto dos empresários da Comunidade

Devem assinalar-se duas observações importantes relativamente à apresentação dos dados respeitantes aos inquéritos. Em primeiro lugar, os dados são referidos ao mês no decurso do qual os questionários são preenchidos e devolvidos pelos participantes (até ao fim de 1979, os dados referiam-se ao mês precedente). Consequentemente, o que anteriormente era apresentado como o resultado de «Dezembro 1979» é actualmente designado como resultado de «Janeiro 1980», e assim por diante. Este novo sistema corresponde ao sistema adoptado nas séries «Economia Europeia» publicadas pela Comissão e justifica-se pelo facto de o inquérito se basear mais nas opiniões dos empresários do que nos dados quantitativos relativos a um período bem definido. Apesar de se reconhecer que as estimativas dos empresários se baseiam nos elementos do mês precedente, não há nada que permita verificar se esta a regra sempre aplicada, parecendo assim preferível datar os resultados dos inquéritos de acordo com o único ponto fixo de referência, isto é, o momento em que são entregues as respostas ao questionário.

A segunda alteração importante verificada na apresentação dos dados consiste na eliminação das categorias de resposta «+» e «-». Esta racionalização permitiu reduzir consideravelmente os encargos com a impressão e uma mais fácil disposição dos quadros, sem sacrificar a informação. Com efeito, é bastante simples para os utilizadores das respostas «+» e «-» para bases de dados ou para outros fins, deduzi-las das indicações «=» e «s» (saldo líquido).

Deste modo, sendo

«+» percentagem de respostas positivas («aumento», «superior ao normal»),
«=» sem alterações,
«-» respostas negativas («diminuição», «inferior ao normal»), e
«s» a diferença algébrica entre as respostas positivas e negativas, são aplicáveis as seguintes equações:

$$("+) = 50 - \frac{("=") - ("s")}{2}$$

e

$$("-") = 50 - \frac{("=") + ("s")}{2}$$
