I N T R O D U C T I O N

These brief notes, put together for the benefit of journalists, are intended as an introductory guide to the newly elected members of the European Parliament. The entries have been compiled on the basis of information available immediately after the elections and the intention is not to provide a comprehensive biography of each member.

Ministerial office is not compatible with membership of the European Parliament and neither is membership of the national Parliaments (the dual mandate) in Belgium, Germany, Greece, the Netherlands, Portugal and Spain. This could affect the final composition of the new Parliament.
