The Commission has sent to the Council a draft regulation temporarily suspending the autonomous duties in the Common Customs Tariff on a certain number of industrial products. This regulation provides that, from 1 January to 31 December 1975, the duties in the Common Customs Tariff will be partially suspended on, among others, the following product :

		autonomous (suspended) %	conven- tional %
ex 29.38 B II	D- and DL-Calcium pantothenate	3.5	5.8

For the period mentioned above, the Community as originally constituted by virtue of articles 31 paragraph 1 and 32 paragraph 1 of the act concerning the condition of accession and the adjustments of the Treaties applies to this product imported from the new Member States a duty of 2.3 on D- and DL-Calcium pantothenate.

The United Kingdom Department of Trade has requested the Commission that by virtue of article 33 paragraph 2 of the act concerning the Conditions of Accession and the Adjustments to the Treaties the Community preference for the new Member States should be maintained and that therefore the customs duty applied on the Community as originally constituted should be totally suspended on this product imported from the new Member States.

The Commission considers that it is appropriate to give a favourable response to this request and therefore is proposing to the Council the tariff measure annexed hereto.
