DECISION No. 1 /71

of the Association Council
on the definition of the concept of
"originating" products
for the purpose of implementing Title I
of the Agreement and on
the methods of administrative co-operation

THE ASSOCIATION COUNCIL,

HAVING REGARD to the Agreement establishing an Association
between the European Economic Community and the United Republic
of Tanzania, the Republic of Uganda and the Republic of Kenya,
signed on 24 September 1969, and in particular Title I of
Protocol No. 4 annexed to the said Agreement,

HAVING REGARD to the draft prepared by the Commission of the
European Communities,

WHEREAS the definition of the concept of "originating" products is intended to make it possible to distinguish those products which are entitled, on importation into Member States or into Partner States of the East African Community, to the preferential treatment provided for in Title I of the Agreement, from products which are not so entitled,

WHEREAS products wholly obtained in a Member State or in a Partner State of the East African Community must, in any event, enjoy preferential treatment,

WHEREAS the same must apply to goods obtained in a Partner State of the East African Community or in a Member State and intended for exportation to a Member State or to a Partner State of the East African Community, where the products which entered into their manufacture have been wholly obtained in the other Partner States of the East African Community or in the Member States, each of the importing Member States granting preferential treatment in respect of the latter products,

WHEREAS it is desirable, furthermore, to extend the preferential treatment to goods obtained in one of the Contracting Parties and in the manufacture of which products other than those mentioned in the preceding paragraph are used, provided that the latter products have undergone processing or working

sufficient to alter their essential nature and to increase their value substantially; and whereas such conditions are the only conditions justifying the granting of preferential treatment to the whole of the goods so obtained, since the effect of the definition of the concept of "originating" products should not be to deprive customs tariffs and other measures of economic protection of their incidence in relation to countries not party to the Agreement,

WHEREAS it is necessary to express this principle in simple rules while ensuring uniform application throughout the Association and whereas this can be achieved by using a criterion based on change of tariff heading, but modified as appropriate,

WHEREAS the Customs authorities of the importing Member State or Partner State of the East African Community must be satisfied that products presented for importation fulfil the conditions laid down in this Decision; whereas such satisfaction presupposes knowledge of the circumstances by reason of which the goods have acquired the status of "originating" products, which circumstances the Customs authorities of the exporting Partner State of the East African Community or Member State are best qualified to ascertain,

WHEREAS it is necessary to set up a committee on administrative co-operation to ensure that the provisions of this Decision are implemented correctly and uniformly,

HAS DECIDED:

TITLE I

Definition of the concept of "originating" products

Article 1

For the purpose of implementing the provisions of Title I of the Agreement establishing an Association between the European Economic Community and the United Republic of Tanzania, the Republic of Uganda and the Republic of Kenya, signed on 24 September 1969, the following products shall be considered as:

1. products originating in the European Economic Community, provided that they have been transported direct, within the meaning of Article 5, to the importing Partner State of the East African Community:
 - (a) products wholly obtained in the Member States;
 - (b) products obtained in Member States, in the manufacture of which products other than those referred to in subparagraph (a) are used, provided that the said products have undergone sufficient working or processing within the meaning of Article 3. This condition shall not, however, apply to products which, within the meaning of this Decision, originate in the Partner States of the East African Community.

2. products originating in the Partner States of the East African Community, provided that they have been transported direct, within the meaning of Article 5, to the importing Member State:

(a) products wholly obtained in a Partner State of the East African Community;

(b) products obtained in a Partner State of the East African Community, in the manufacture of which products other than those referred to in sub-paragraph (a) are used, provided that the said products have undergone sufficient working or processing within the meaning of Article 3. This condition shall not, however, apply to products which, within the meaning of this Decision, originate in the Community or in other Partner States of the East African Community.

The products listed in List C shall be temporarily excluded from the scope of this Decision.

Article 2

Within the meaning of sub-paragraphs 1 (a) and 2 (a) of Article 1, the following shall be considered as wholly obtained either in the Member States or in the Partner States of the East African Community:

- (a) mineral products extracted from the ground thereof;
- (b) vegetable products harvested therein;
- (c) live animals born and raised therein;
- (d) products from live animals raised therein;
- (e) products from hunting or fishing conducted therein;
- (f) marine products taken from the sea by their vessels;
- (g) scrap and waste resulting from manufacturing operations and used articles, which can no longer be used provided that they have been collected therein and are fit only for the recovery of raw materials;
- (h) goods obtained therein exclusively from animals or products referred to in sub-paragraphs (a) to (g) or derivatives thereof.

Article 3

For the purpose of implementing the provisions of sub-paragraphs 1 (b) and 2 (b) of Article 1 the following shall be considered as sufficient:

- (a) working or processing as a result of which the goods obtained receive a classification under a tariff heading other than that covering each one of the products worked or processed, except, however, working or processing listed in List A to which the special provisions of that list apply;
- (b) working or processing listed in List B.

"Tariff headings" shall mean the headings in the Brussels Nomenclature for the Classification of Goods in Customs Tariffs.

Article 4

Where the Lists A and B referred to in Article 3 provide that goods obtained in a Member State or a Partner State of the East African Community shall only be considered as originating therein if the value of the products worked or processed does not exceed a given percentage of the value of the goods obtained, the values to be taken into consideration in determining such percentage shall be:

one the one hand:

as regards products whose importation can be proved: their customs value at the time of importation;

as regards products of undetermined origin: the earliest ascertainable price paid for such products in the territory of the State where manufacture takes place;

on the other hand:

the ex-factory price of the goods obtained, less internal taxes refunded or refundable on exportation.

Article 5

The following shall be considered as transported direct from the exporting Member State or Partner State of the East African Community to the importing Member State or Partner State of the East African Community:

- (a) goods transported without passing through the territory of a country not party to the Agreement or without being transhipped in such country;
- (b) goods transported through the territory of one or more countries not party to the Agreement, or transhipped in such countries, if the passage through such countries is covered by a single transport document drawn up in a Member State or a Partner State of the East African Community.

TITLE II

Organisation of methods of administrative co-operation

Article 6

"Originating" products within the meaning of this Decision shall, in the importing Member State or Partner State of the East African Community, benefit from the provisions of Title I of the Agreement upon submission of a movement certificate A.A.1, endorsed by the Customs authorities of the exporting Member State or Partner State of the East African Community.

Any such products, however, which form part of postal consignments (including parcels) shall, provided that the consignments contain only "originating" products and the value does not exceed one thousand units of account (1) per consignment, benefit from the provisions of Title I of the Agreement in the importing Member State or Partner State of the East African Community on the presentation of form A.A.2.

Article 7

The movement certificate A.A.1 shall be endorsed only on application being made in writing by the exporter, on the form prescribed for this purpose.

(1) A unit of account (UA) is worth 0.88867088 g of fine gold.

Article 8

The movement certificate A.A.1 shall be endorsed at the time of exportation of the goods to which it relates by the Customs authorities of the exporting Member State or Partner State of the East African Community. It shall be made available to the exporter as soon as actual exportation has been effected or ensured.

In exceptional circumstances, the movement certificate A.A.1 may also be endorsed after exportation of the goods to which it refers, if it was not submitted at the time of such exportation because of errors or involuntary omissions or any other special circumstances. In this case, it shall bear a special reference to the conditions in which it was endorsed.

The movement certificate A.A.1 may be endorsed only where it can serve as documentary evidence for the purpose of implementing the preferential treatment laid down in Title I of the Agreement.

Article 9

The movement certificate A.A.1 must be submitted to the Customs' office of the importing Member State or Partner State of the East African Community at which the goods are presented, within five months from the date of endorsement by the Customs authorities of the exporting Member State or Partner State of the East African Community.

Article 10

The movement certificate A.A.1 shall be made out on a form a specimen of which is given in Annex V. It shall be drawn up in one of the official languages in which the Agreement is made, and in accordance with the provisions of the domestic law of the exporting Member State or Partner State of the East African Community. It shall be typewritten or handwritten ; in the latter case it shall be completed in ink and in block letters.

The dimensions of the certificate shall be 210 x 297 mm. The paper used shall be sized writing-paper not containing mechanical pulp and weighing not less than 64 grams per square metre or between 25 and 30 grams per square metre if air-mail paper is used. It shall have a green machine-turned background pattern making any falsification by mechanical or chemical means apparent to the eye.

On the front of each certificate, a diagonal pattern of three blue stripes, each 3 mm wide, shall run from the bottom left-hand corner to the top right-hand corner.

The Member States and the Partner States of the East African Community may reserve the right to print the certificates themselves or may have them printed by approved printers. In the latter case, each certificate shall carry a reference to such approval. Each certificate shall bear the name and address of the approved printer, or a sign by which the latter can be identified. In addition it shall bear a serial number by which it can be identified.

Article 11

In the importing Member State or Partner State of the East African Community, the movement certificate A.A.1 shall be submitted to the Customs authorities in accordance with the provisions made in the laws and regulations of that State. The said authorities may require a translation of the certificate. They may also require the import declaration to be accompanied by a statement from the importer to the effect that the goods meet the conditions required for the implementation of the provisions of Title I of the Agreement.

Article 12

Form A.A.2, a specimen of which is given in Annex VI, shall be completed by the exporter. It shall be drawn up in one of the official languages in which the Agreement is made; and in accordance with the provisions of the domestic law of the exporting Member State or Partner State of the East African Community. It shall be typewritten or handwritten; in the latter case it shall be completed in ink and in block letters.

Form A.A.2 is composed of two parts, each part being 210 x 148 mm. The paper used shall be white sized writing paper not containing mechanical pulp and weighing not less than 64 grams per square metre. On the front of Part 1 and the label of Part 2 a diagonal pattern of three blue stripes, each 3 mm wide, shall run from the bottom left-hand corner to the top right-hand corner.

Form A.A.2 may be perforated mechanically so that the two parts and the label on Part 2 can be detached. The label may be adhesive.

The Member States and the Partner States of the East African Community may reserve the right to print the forms themselves or may have them printed by printers whom they have approved. In the latter case, each form shall carry a reference to such approval. In addition, each form shall bear the name and address of the approved printer, or a sign by which the latter can be identified. In addition, it shall bear a special number by which it can be identified.

Article 13

A form A.A.2 shall be completed for each postal consignment. After completing and signing the two parts of the form, the exporter shall insert his declaration (Part 1) in the consignment and stick the label from Part 2 on the outer packing of the consignment.

These provisions do not exempt exporters from complying with any other formalities required by customs or postal regulations.

Article 14

Unless they suspect some irregularity, the Customs authorities of the importing Member State or Partner State of the East African Community shall admit as benefiting from the provisions of the Agreement any goods contained in a consignment bearing an A.A.2 label.

Article 15

1. Member States and Partner States of the East African Community shall admit as "originating" products benefiting from the provisions of Title I of the Agreement, without requiring the production of a movement certificate A.A.1 or completion of a form A.A.2, goods sent as small packages to private persons or forming part of passengers' personal luggage, in so far as such goods are not imported by way of trade and have been declared as meeting the conditions required for the application of these provisions, and where there is no doubt as to the veracity of such declaration.

2. Importations not by way of trade shall be importations which are occasional and consist solely of goods for the personal use of the addressee or passenger or his family, it being evident from the nature and quantity of the goods that no commercial purpose is in view. Furthermore, the total value of these goods must not exceed 60 units of account in the case of small packages or 200 units of account in the case of the contents of passengers' personal luggage.

Article 16

In order to ensure proper application of the provisions of this Title, the Member States and the Partner States of the East African Community shall assist each other, through their respective Customs administrations, for the purpose of checking the authenticity and correctness of the movement certificates A.A.1 and exporters' declarations made on forms A.A.2.

TITLE 111

Issue of movement certificates A.A.1 and conditions governing the use of movement certificates A.A.1 and forms A.A.2

A. Issue of movement certificates A.A.1

Article 17

1. It shall be for the exporter or his representative authorised to sign the export declaration, under the former's responsibility, to request the endorsement of a movement certificate A.A.1. This request shall be made out on a form A.A.1. which must be completed in accordance with the provisions of Title 11 of this Decision, and with the rules set out on the back of the first sheet of the form.
2. The exporter or his representative shall attach to his request any document proving that the goods to be exported are such as to qualify them for the endorsement of a movement certificate A.A.1.

Article 18

1. It shall be the responsibility of the Customs authorities of the exporting Member State or Partner State of the East African Community to ensure that the form A.A.1 is duly completed. In particular, they shall

check whether the space reserved for the description of the goods has been completed in such manner as to exclude all possibility of fraudulent additions. To this end the description of the goods must be indicated without leaving any blank lines. Where the space is not completely filled, a horizontal line must be drawn below the last line of the description, the empty space being crossed through.

2. Since the movement certificate A.A.1 constitutes the documentary evidence for the application of the preferential tariff and quota system laid down in the Agreement, it shall be the responsibility of the Customs office of the exporting country carefully to verify the origin of the goods and to check the other statements on the certificate.

Article 19

1. The movement certificate A.A.1 shall be endorsed by the Customs authorities of a Member State of the Community if the goods being exported can be considered products originating in the Community within the meaning of this Decision.
2. For the purpose of verifying whether the condition stated in paragraph 1 has been met, the Customs authorities shall have the right to call for any documentary evidence or to carry out any check which they consider appropriate.

3. The Customs authorities of the Member State shall refuse to endorse a movement certificate A.A.1 if it appears from the export documents submitted that the goods to which the certificate relates are not consigned to a country which is party to the Agreement.

Article 20

1. The movement certificate A.A.1 shall be endorsed by the Customs authorities of a Partner State of the East African Community if the goods being exported can be considered products originating in the Partner States of the East African Community within the meaning of this Decision.
2. For the purpose of verifying whether the condition stated in paragraph 1 has been met, the Customs authorities shall have the right to call for any documentary evidence or to carry out any check which they consider appropriate.

3. The Customs authorities of the Partner State of the East African Community shall refuse to endorse a movement certificate A.A.1 if it appears from the export documents submitted that the goods to which the certificate relates are not consigned to a country which is party to the Agreement.

Article 21

In that part of the movement certificate A.A.1 reserved for the Customs authorities, a reference must be made to the date and type or to the serial number of the export document of which the exporter's declaration is a certified true copy.

Article 22

Where a movement certificate A.A.1 relates to products which were originally imported from a Member State or from a Partner State of the East African Community, and which are being re-exported in the same state, the new certificates issued in the re-exporting Member State or Partner State of the East African Community must indicate the Member State or Partner State of the East African Community in which the original certificate was issued.

Article 23

The Customs office stamp used to stamp the certificates shall be of metal, preferably steel. The countries party to the Agreement shall provide each other, through the Association Council, with specimen impressions of the types of stamp used in the Customs offices.

Article 24

It shall always be possible to replace one or more movement certificates A.A.1 by one or more other movement certificates A.A.1, provided that this is done at the Customs office where the goods are held.

Article 25

1. Where, as a result of errors, involuntary omissions or any other special circumstances, no request for a movement certificate A.A.1 was made at the time the goods were exported, such a certificate may be issued after the actual exportation of the goods to which it relates.

In this case, the exporter must :

- (a) make a request in writing, giving details of the type, quantity, method of packing and markings of the goods, and also the place and date of despatch;

(b) certify that no certificate A.A.1 was issued at the time of exportation of the goods in question, and state the reasons therefor;

(c) enclose a form A.A.1 duly completed and signed.

2. The Customs authorities may issue a movement certificate A.A.1 retroactively only after verifying that the information supplied in the exporter's request agrees with that in the corresponding file.

Certificates issued retroactively must be endorsed in red ink with one of the following phrases : "NACHTRÄGLICH AUSGESTELLT" "DELIVRE A POSTERIORI", "RILASCIATO A POSTERIORI", "AFGEGEVEN A POSTERIORI", "ISSUED RETROACTIVELY".

Article 26

In the event of the theft, loss or destruction of a movement certificate A.A.1, the exporter may apply to the Customs authorities which issued it for a duplicate made out on the basis of the export documents in their possession. The duplicate issued in this way must be endorsed in red ink with one of the following words : "DUPLICATE", "DUPLICATO", "DUPLICAT", "DUPLICATE".

The duplicate shall take effect as from the date on which the original certificate A.A.1 was endorsed.

B. Conditions governing the use of the movement certificate A.A.1

Article 27

1. Goods transported without passing through the territory of a country not party to the Agreement, or without transshipment in such country, shall be considered as goods transported direct.

- (a) calls at ports situated in the territory of countries not party to the Agreement;
 - (b) transshipments in such ports, where these result from force majeure or where they are consequent upon conditions at sea;

When crossing the territory of countries referred to in paragraph 1, the goods must remain under the supervision of the Customs authorities of the transit country and must not be put into free circulation. While in the transit country, they must not undergo any handling other than normal operations designed to keep them in good condition.

3. Proof that the conditions set out in paragraph 2 have been complied with shall be furnished by the submission of a certificate issued by the Customs authorities of the transit country, containing:

- (a) an accurate description of the goods;
- (b) the date of loading or unloading of the goods, naming the vessels concerned;
- (c) certified proof of the conditions in which the goods have been held.

Where this certificate cannot be produced, the Customs authorities shall take into account any documentary evidence submitted to them.

Article 28

Movement certificates A.A.1 ~~submitted to the Customs~~ authorities of the importing Member State or Partner State of the East African Community after expiry of the time limit for their submission stipulated in Article 9, may be accepted for the purpose of applying the preferential system provided the failure to observe this time limit results from force majeure or exceptional circumstances.

In addition to such cases, the Customs authorities of of the importing Member State or Partner State of the East African Community may accept such certificates provided the goods have been submitted to them before the expiry of the said time limit.

Article 29

Article 33

1. Retroactive checks on movement certificates A.A.1 and on forms A.A.2 shall be carried out at random, and also whenever the Customs authorities of the importing Member State or Partner State of the East African Community have reasonable doubt as to the authenticity of the document or the accuracy of the information regarding the true origin of the goods in question or of certain parts thereof.

2. For the purpose of implementing the provisions of paragraph 1 above, the Customs authorities of the importing country shall return the movement certificate A.A.1 or part 1 of form A.A.2 to the Customs authorities of the exporting country, giving the formal or substantive reasons for an inquiry. To part 1 of form A.A.2 they shall attach the invoice, if it has been submitted, or a copy thereof, and they shall forward any information that has been obtained suggesting that the particulars given on the said certificate or the said form are inaccurate.

If the Customs authorities of the importing country decide to suspend execution of the provisions of the Agreement while awaiting the results of the check, they shall offer to release the goods to the importer subject to any conservatory measures laid down by the national legislation of that country.

3. The Customs authorities of the importing country shall be informed of the results of the check within a period not exceeding three months. These results must be such as to make it possible to determine whether the disputed movement certificate A.A.1 or form A.A.2 applies to the goods actually exported, and whether these goods can, in fact, qualify for the application of the preferential system.

Where such disputes cannot be settled between the Customs authorities of the importing country and those of the exporting country or where they raise a question as to the interpretation of this Decision, they shall be submitted to the Customs Co-operation Committee referred to in Article 34.

In any case, the settlement of disputes arising between the importer and the Customs authorities of the country of importation shall remain within the competence of the legislation of that country.

For the purpose of the retroactive check on certificates, the Customs authorities of the exporting country must keep all export documents, or copies of movement certificates used in place thereof, for not less than two years.
