DOCUMENT 1-285/79

ORAL QUESTION (O-16/79)

without debate pursuant to Rule 46 of the Rules  
of Procedure

by Mr RADOUX

to the Commission of the European Communities

Subject: Synthetic fuel

In the search for additional sources of energy and  
substitute products, it will be recalled that  
during the last world war recourse was had to  
new resources such as synthetic fuel.

Can the Commission state:

1. Whether this method of producing energy is still  
viable?
  - (a) if so, is it used and in what circumstances?
  - (b) if it is not used, why not?
2. If not, why not?
