The European Parliament,

- A having regard to the exceptional seriousness of the structural and employment problems of Naples and its surrounding area which was heightened by the earthquake of November 1980 and fully recognized in the resolutions of 7 May 1981 and 19 June 1983, which stressed the Community's obligation to help solve those problems,
- B emphasizing the urgent need for the urban renewal of Naples and the neighbouring areas, which is an essential condition for their economic development, and the need to build new dwellings in due proportion to the housing demands created by the 1980 earthquake
1. Requests the Commission and the Council to implement without delay paragraph 3(b) of the resolution of 19 June 1983 on specific action to help the urban reconstruction and regional planning of the Naples conurbation, which provides expressly for the construction of new dwellings necessary for the families who were victims of the earthquake, in addition to those at present under construction by the Italian State;
 2. Requests the Commission and the Council, if it is not possible to initiate such specific action for budgetary reasons, to set apart a proportion of the ERDF quota allocated to Italy (as already decided by Parliament in the above-mentioned resolution) as interest rebate on the loans to be contracted to finance the above-mentioned measures.
