pursuant to Rule 25 of the Rules of Procedure

on the Multifibre Arrangement

The European Parliament,

- having regard to the seriousness of the problems currently facing Community industry and the textiles sector in particular;
- whereas the bilateral voluntary restraint agreements between the EEC and non-member exporting countries need to be redefined,
- whereas the possibility of a subsequent liberalization of the rules governing the access of textile products to the Community market should not be considered separately from the problems of reviewing existing Community policies and of defining a common industrial policy,
- bearing in mind also the clear connection between these problems and the overall negotiations for a redefinition of international economic relations which will begin in the UN in January,

Requests the Commission to report to Parliament as soon as possible on progress made in the initial stage of the negotiations for the renewal of the Multifibre Arrangement and to agree on the terms of reference to be assigned to the delegation participating in them.
