- with request that it be dealt with by urgent
procedure pursuant to Rule 14 of the Rules of
Procedure -

on the ~~/~~ animal production situation

The European Parliament,

- of the opinion that the animal production situation shows alarming signs of imbalance in the various countries of the Community;
 - considering that such a development of the situation particularly as regards products in short supply such as bovine meat is damaging and demoralizing for Community producers who are entitled to expect from the Community a policy of support and encouragement;
 - drawing attention in particular to the fact that in certain countries such as Italy imports of milk and of bovine meat carried out under present conditions have not only not improved the market situation as far as the consumer is concerned, but have also brought about a deterioration in prices at the production stage, engendering among producers a permanent state of unrest which has resulted in uncontrolled reactions;
1. Therefore requests the Commission of the European Communities to investigate without delay possible means of remedying the situation and to take immediately all the necessary decisions to cope with the most urgent cases.
 2. Instructs its President to forward this resolution to the Council and Commission of the European Communities.
