Working Documents

1975-1976

12 May 1975

DOCUMENT 83/75

MOTION FOR A RESOLUTION

tabled by Mr FELLERMAIER
on behalf of the Socialist Group

with request for debate by urgent procedure
pursuant to Rule 14 of the Rules of Procedure

on the ~~future~~ role of Eurocontrol

PE 40.762

The European Parliament,

- recalling its insistence on the development of a common air transport policy through multilateral negotiations on landing rights and air route planning within the Community and the importance it has always attached to the work of such organisations as Eurocontrol;
 - considering that the present effective coordinated air control system operated by Eurocontrol in a substantial part of the Community air space is a necessary constituent element in a future common European air transport policy;
 - noting that the Permanent Commission of Eurocontrol will hold a meeting in Brussels on 14 May 1975 to consider a Report by the Study Group that was commissioned by them in 1974 which could propose a significant cutback in the work of Eurocontrol;
1. Urges the Council of Ministers to consider any specific proposals concerning the future role of Eurocontrol in the context of the Commission's Communication to the Council on the Development of the Common Transport Policy (Doc. 226/73);
 2. Considers that no action should be taken by the member governments of Eurocontrol concerning the future of that organisation until the study proposed in Annex 4 to Annex A of the Communication from the Commission to the Council containing initial proposals for priority projects in data processing (Doc. 21/75) has been completed.
 3. Instructs its President to forward this resolution to the Council and Commission of the European Communities.
