PE 40.566

The Group of European Progressive Democrats,

considering that:

- (a) beef prices in the Community are still largely inadequate and that this situation is likely to continue during the whole of 1975;
  - (b) existing stocks of intervention beef are considerable (266,480 tonnes on 17 April 1975);
  - (c) trade in calves and young cattle is still very weak due to excessive supplies in certain Member States;
- asks the Commission of the European Communities to justify its decision to partially lift the ban on beef imports from third countries and to allow the importation of a considerable number of young cattle into the Community.
