FORORD

Nærværende publikation indeholder oplysninger vedrørende udenrigshandelen inden for Fællesskabet opdelt i henhold til den harmoniserede nomenklatur for statistik over Fællesskabets udenrigshandel og over samhandel mellem dets medlemsstater (NIMEXE).

NIMEXE er en statistisk underopdeling af EF's fælles toldtarif, som bygger på en opdeling af vareklassifikationerne i toldtifferne, den såkaldte Bruxelles-nomenklatur 1955 (BN). Siden 1966 har medlemsstaterne tilpasset deres nationale nomenklaturer, og man har hermed opnået, at alle NIMEXE-positioner let kan rekonstrueres, selv om landene har bibeholdt deres særlige fordeling samt yderligere underafdelinger, der er nødvendige for nationale formål. Således giver en enkel omgruppering af NIMEXE-positionerne de oplysninger, der er nødvendige for forhandlinger inden for Fællesskaberne. I mellemtiden er antallet af NIMEXE-varepositioner steget til ca. 6 500.

De tre nye medlemsstater har ved deres indtrædelse gjort alle anstrengelser for at tilpasse deres nomenklatur til NIMEXE. Hvad angår Det forenede Kongerige forbliver der dog en række positioner, som ikke entydigt kan tilordnes en NIMEXE-position. De positioner, for hvilket dette gælder, er opført i tillægget.

Ved nogle positioner var vægtangivelserne ikke disponible i de tre nye medlemsstater. Under disse positioner forekommer ingen vægtangivelse i det pågældende lands kolonne. Da det imidlertid drejer sig om et begrænset antal positioner, blev der givet afkald på et særligt kendetegn. Brugeren kan let fastslå disse tilfælde ved sammenligning mellem mængdekolonnen og værdikolonnen.

De analytiske tabeller for EF's udenrigshandel (NIMEXE) foreligger i 12 enkeltbind »Varer efter lande«, der er opdelt i varegrupper i henhold til Bruxelles-nomenklaturen (BN). Hvert bind giver im-og eksport udtrykt i kvantitet, værdi og særlige enheder samt et 13. bind »Lande efter varer«, idet Fællesskabernes handel bliver opdelt efter partnerlande og NIMEXE-kapitler (2 cifre).

Oprindelses- henholdsvis bestemmelseslande, med hvem EF's handel ikke beløber sig til 100 000 EUR, anføres ikke separat; disse værdier vil dog være inkluderet i landegruppernes totaler samt i de samlede summer.

Siden januar 1971 er oplysningerne vedrørende Nederlandenes import fra BLØU (Den belgisk-luxembourgske økonomiske Union) blevet opstillet på basis af tilsvarende oplysninger for eksporten fra BLØU til Nederlandene og vice versa. Vekselkursen for 1974 beløber sig til 1 000 bfr. = 68,95 fl.

VORWORT

Die vorliegende Veröffentlichung enthält die Außenhandelsergebnisse der Gemeinschaft, aufgegliedert nach dem Warenverzeichnis für die Statistik des Außenhandels der Gemeinschaft und des Handels zwischen den Mitgliedstaaten (NIMEXE).

Die NIMEXE stellt eine statistische Untergliederung der Nomenklatur des Gemeinsamen Zolltarifs der EG (GZT) dar, die ihrerseits aus einer Untergliederung der Nomenklatur für das Brüsseler Zolltarifschemas 1955 (BZT) hervorgegangen ist. Die Mitgliedstaaten der EG haben ab 1. Januar 1966 ihre nationalen Außenhandelsnomenklaturen so angeglichen, daß trotz eigener Verschlüsselung und für nationale Zwecke erforderlicher zusätzlicher Unterteilungen jede Warenposition der NIMEXE erstellt werden kann. Durch einfaches Zusammenlegen von NIMEXE-Positionen ergeben sich daher die für die Verhandlung auf EG-Ebene nötigen Auskünfte über den Außenhandel. Die Zahl der NIMEXE-Warenpositionen ist inzwischen auf rund 6 500 angewachsen.

Die drei neuen Mitgliedstaaten haben bei ihrem Beitritt alle Anstrengungen unternommen, um ihre Nomenklatur der NIMEXE anzupassen. Für das Vereinigte Königreich verbleiben jedoch eine Reihe von Positionen, die nicht eindeutig einer NIMEXE-Position zugeordnet werden konnten. Die entsprechenden Mengen und Werte wurden jeweils in einer NIMEXE-Position zusammengefaßt. Die Positionen, für die das zutrifft, sind im Anhang aufgelistet.

Bei einigen Positionen der drei neuen Mitgliedstaaten waren die Angaben für das Gewicht nicht verfügbar. Unter diesen Positionen erscheinen keine Gewichtsangaben in der Kolonne des entsprechenden Landes. Da es sich jedoch um eine beschränkte Anzahl von Positionen handelt, wurde auf eine besondere Kennzeichnung verzichtet. Der Benutzer kann diese Fälle durch Vergleich der Mengenkolonne mit der Wertkolonne leicht feststellen.

Die Analytischen Übersichten des Außenhandels der EG (NIMEXE) erscheinen in 12 Einzelbänden „Waren nach Ländern“, die nach Warenkategorien des Brüsseler Zolltarifschemas (BZT) geordnet sind und jeweils Einfuhr und Ausfuhr in Mengen, Werten und besonderen Maßeinheiten nachweisen, und einem 13. Band „Länder nach Waren“, in dem der Handel der Gemeinschaft nach Partnerländern und NIMEXE-Kapiteln (2 Ziffern) aufgegliedert wird.

Ursprungs- bzw. Bestimmungsländer, mit denen der Handel der EG 100 000 Eur nicht erreicht, werden nicht gesondert aufgeführt; ihre Werte sind jedoch in den Summen der Ländergruppen und in den Gesamtsummen enthalten.

Seit dem 1. Januar 1971 werden die Angaben über die Einfuhr der Niederlande aus der BLWU aufgrund der entsprechenden Angaben über die Ausfuhr der BLWU nach den Niederlanden und umgekehrt aufbereitet. Der Wechselkurs für 1974 beträgt 1 000 Fb = 68,95 Fl.

PREFACE

This publication contains the results of the Community's external trade broken down in accordance with the Nomenclature of Goods for the External Trade Statistics of the Community and Statistics of Trade between Member States (NIMEXE).

NIMEXE represents a statistical break-down of the EC's Common Customs Tariff (CCT) which was produced from a break-down of the 1955 Brussels Tariff Nomenclature (BTN). From 1 January 1966, the Member States of the EC aligned their national foreign trade nomenclature so that a correlation with each NIMEXE item could be achieved, although each country has kept its own break-downs and subdivisions to meet its particular needs. All necessary data on foreign trade for negotiations at EC level may thus be obtained by the simple addition of NIMEXE items. The number of NIMEXE headings which are at present correlated has grown to about 6 500.

The three new Member States have made every effort, since their entry, to fit their nomenclatures to NIMEXE. The UK still has a large number of headings which cannot exactly be slotted into NIMEXE. The quantities and values of these have each been collated under one NIMEXE heading. The headings involved are listed in the appendix.

In some of the headings of the three new Member States there was no provision for weight. No weight data therefore appears in the column for the appropriate country. Since only a limited number of headings is involved, it was not considered necessary specially to distinguish them. The user can easily identify them by comparing the quantity column with the value column.

The Analytical Tables of EC Foreign Trade (NIMEXE) appear in 12 individual volumes entitled 'Products by Country'; they are classified by product codes according to the Brussels Nomenclature and quantities, values and supplementary units are shown both for imports and exports. There is a thirteenth volume 'Country by Product' which gives a break-down of Community trade with its trading partners by NIMEXE chapters (2 digit).

The countries of origin or destination with which Community trade does not amount to 100 000 EUR will not appear separately. These values will, however, be included in the total of the country groups and in the overall amounts.

Since 1 January 1971, details of imports by the Netherlands from the BLEU are based on the corresponding details of exports by the BLEU to the Netherlands and the reverse. The exchange rate for 1974 is BF 1 000 = FI 68.95.

PRÉFACE

La présente publication contient les résultats du commerce extérieur de la Communauté, ces résultats étant ventilés suivant la Nomenclature des marchandises par les statistiques du commerce extérieur de la Communauté et du commerce entre ses États membres (NIMEXE).

La NIMEXE constitue la ventilation statistique de la nomenclature du Tarif Douanier Commun de la CE (TDC), issue à son tour de la ventilation de la Nomenclature pour la classification des marchandises dans les Tarifs douaniers, dite Nomenclature de Bruxelles de 1955 (NDB). Depuis le 1^{er} janvier 1966, les États membres de la CE ont aligné sur elle leurs nomenclatures nationales du commerce extérieur de façon que l'on peut aisément reconstituer chaque rubrique de la NIMEXE, bien que les ventilations particulières et des subdivisions complémentaires pour des besoins nationaux aient été maintenues. Ainsi, le simple regroupement de rubriques NIMEXE fournit les renseignements nécessaires pour les négociations menées au niveau de la CE. Le nombre des rubriques de la NIMEXE s'est accru entre temps jusqu'à atteindre actuellement environ 6 500.

Dès leur adhésion les trois nouveaux États membres ont entrepris d'adapter leurs nomenclatures à la NIMEXE. Au Royaume-Uni il subsiste cependant une série de positions qui n'ont pu être classées avec rigueur, chacune pour soi, sous une rubrique de la NIMEXE. Les quantités et valeurs correspondantes ont été à chaque fois regroupées sous une même rubrique de la NIMEXE. Les rubriques dont il s'agit sont énumérées en annexe.

Pour quelques rubriques, les données n'étaient pas disponibles en poids dans les trois nouveaux États membres. On ne trouvera donc pas de résultats en poids pour ces rubriques dans la colonne du pays en cause. Toutefois, comme il ne s'agit que d'un nombre restreint de rubriques, il a semblé superflu de les affecter d'une caractéristique propre. Pour n'avoir aucune peine à localiser ces divers cas, il suffira à l'utilisateur de comparer la colonne des quantités à celle des valeurs.

Les Tableaux analytiques du Commerce extérieur de la CE (NIMEXE) se composent de 12 volumes « Produits par pays », qui reprennent les catégories de produits dans l'ordre de la Nomenclature Douanière de Bruxelles (NDB) et qui détaillent tant les importations que les exportations en quantités, en valeurs et en unités supplémentaires, et d'un treizième volume « Pays par produits » dans lequel les échanges de la Commission sont ventilés par pays partenaires et par chapitres de la NIMEXE (2 chiffres).

Les pays d'origine ou de destination avec lesquels le commerce de la CE est inférieur à 100 000 EUR n'apparaissent pas isolément; ces valeurs sont néanmoins incluses dans les totaux par groupes de pays, ainsi que dans le total « monde ».

Depuis le 1^{er} janvier 1971, les données relatives aux importations des Pays-Bas en provenance de l'UEBL sont établies à partir des données relatives aux exportations correspondantes de l'UEBL à destination des Pays-Bas et vice versa. Pour 1974, le cours du change a été fixé à FB 1 000 = FI 68,95.

PREFAZIONE

La presente pubblicazione contiene i dati degli scambi commerciali con l'estero della Comunità secondo le singole voci della Nomenclatura delle merci per le statistiche del commercio con l'estero della Comunità e del commercio fra gli Stati membri della CE (NIMEXE).

La NIMEXE si presenta come una suddivisione, a fini statistici, della Nomenclatura della Tariffa Doganale Comune della CE (TDC), che era già stata ottenuta a sua volta suddividendo la nomenclatura per la classificazione delle merci nelle Tariffe doganali, detta Nomenclatura di Bruxelles 1955 (NDB). Dal 1º gennaio 1966, gli Stati membri hanno adattato le loro nomenclature nazionali in modo da poter rilevare tutte le voci della NIMEXE nonostante le loro codificazioni specifiche che prevedono suddivisioni supplementari necessarie a scopi nazionali. Con un semplice raggruppamento delle posizioni NIMEXE si possono dunque ottenere tutte le informazioni necessarie per negoziare al livello CE. Nel frattempo il numero delle posizioni della NIMEXE è aumentato fino a raggiungere le ca. 6.500 di oggi.

I tre nuovi Stati membri al momento del loro ingresso nella Comunità si sono sforzati di adattare la loro nomenclatura alla NIMEXE. Nel caso del Regno Unito rimangono tuttavia alcune posizioni che non corrispondono in modo univoco a una posizione NIMEXE. Si è proceduto di volta in volta a raggruppare quantità e valori corrispondenti in una posizione NIMEXE. Le posizioni, per cui è valido quanto sopra, sono elencate in appendice.

Per alcune posizioni dei tre nuovi Stati membri i dati relativi al peso non sono disponibili. Sotto queste posizioni non figurano i dati relativi al peso nella colonna del paese corrispondente. Trattandosi tuttavia di un numero limitato di posizioni, si è rinunciato a contraddistinguere. Il lettore può con tutta facilità stabilire questi casi attraverso un confronto tra la colonna delle quantità e la colonna dei valori.

Le Tavole Analitiche del Commercio con l'Estero della CE (NIMEXE) sono edite in 12 volumi, ripartiti in categorie di prodotti che sono determinati secondo la Nomenclatura Doganale di Bruxelles (NDB). Ogni volume comprende le importazioni e le esportazioni, espresse, per voce, in quantità, in valori e in unità supplementari. C'è un tredicesimo volume « Paesi per prodotti » che fornisce una disaggregazione del commercio della Comunità secondo i paesi partner e i capitoli della NIMEXE (2 cifre).

I paesi d'origine o di destinazione con i quali il commercio della CE è inferiore a 100 000 EUR non appaiono isolatamente; tuttavia questi valori sono inclusi nei totali per gruppi di paesi come pure nel totale « mondo ».

Dal 1º gennaio 1971, i dati relativi alle importazioni dei Paesi Bassi provenienti dall'UEBL sono stati stabiliti partendo dai dati relativi alle esportazioni corrispondenti dell'UEBL a destinazione dei Paesi Bassi e viceversa. Il corso del cambio per il 1974 ammonta a 1 000 Fb = 68,95 Fl.

VOORBERICHT

Deze publikatie bevat de gegevens voor de buitenlandse handel van de Gemeenschappen verdeeld naar de Nomenclatuur voor de statistieken van de buitenlandse handel van de Gemeenschappen en van de handel tussen de Lid-Staten (NIMEXE).

De NIMEXE is opgesteld als een onderverdeling voor Statistische doeleinden van de nomenclatuur van het Gemeenschappelijk Douanetarief van de EG (GDT) welke zelf weer is verkregen door een onderverdeling van de „Nomenclature pour la classification des marchandises dans le Tarif douanier“ de zg. Naamlijst van Brussel 1955 (NVB). Met ingang van 1 januari 1966 hebben de Lid-Staten van de EG hun nationale naamlijsten voor de buitenlandse handel zo aangepast dat, niettegenstaande het gebruik van eigen statistieknummers en het opnemen van de verdere onderverdelingen voor nationale doeleinden, elke post van de NIMEXE kan worden samengesteld. Zo hoeven de NIMEXE-posten alleen maar samengevoegd te worden om over de inlichtingen te beschikken die, wat betreft de buitenlandse handel, nodig zijn voor onderhandelingen op het niveau van de EG. Het aantal NIMEXE-posten is intussen gegroeid tot ongeveer 6 500.

De drie nieuwe Lid-Staten hebben zich bij hun toetreding ingespannen om hun nomenclatuur aan die van de NIMEXE aan te passen. Voor het Verenigd Koninkrijk blijven echter meerdere posten over, die duidelijk niet in een NIMEXE-post ondergebracht kunnen worden. De overeenkomstige hoeveelheden en waarden werden telkens in één NIMEXE-post samengevat. De posten, voor welke dit geldt, zijn in de bijlage vermeld.

Bij enkele posten van de drie nieuwe Lid-staten waren de gegevens over het gewicht niet beschikbaar. Onder deze posten verschijnen geen gewichtsgegevens in de kolom van het desbetreffende land. Omdat het echter om een klein aantal posten gaat, heeft men van een bijzondere kentekening afgezien. De gebruiker kan deze gevallen gemakkelijk vaststellen door vergelijking van de hoeveelhedenkolom met de waardekolom.

De Analytische Overzichten van de buitenlandse handel van de EG verschijnen in 12 delen „Produkten per land“ verdeeld in goederengroepen volgens de Douanenaamlijst van Brussel (NVB). Elk deel bevat de import- en exportgegevens verstrekt in gewicht, waarde en aanvullende eenheden.

Verder verschijnt een 13e deel „Landen per produkt“, waarin de handel van de Gemeenschappen naar partnerlanden en NIMEXE-hoofdgroepen (2 cijfers) onderverdeeld wordt.

De landen van herkomst resp. bestemming voor welke de handel met de EG minder dan 100 000 EUR omvat, worden niet afzonderlijk vermeld; de waarden hiervan zijn evenwel meegeteld in de totalen van de landengroepen en in de algemene totalen.

Vanaf 1 januari 1971 worden de gegevens met betrekking tot de invoer van Nederland uit de BLEU opgesteld uitgaande van de overeenkomstige gegevens aangaande de uitvoer van BLEU naar Nederland en omgekeerd. De wisselkoers voor 1974 bedroeg 1 000 Bfr = 68,95 FL.

PREFACIO

Esta publicación contiene los datos del comercio exterior de la Comunidad, datos que se hallan agrupados según la Nomenclatura de mercancías para las estadísticas del comercio exterior de la Comunidad y del comercio entre sus Estados miembros (NIMEXE).

La Nimexe es la ventilación, para fines estadísticas, de la nomenclatura de la tarifa aduanera común (TAC) de la CE, que a su vez constituye una ventilación de la nomenclatura para la clasificación de mercancías en los aranceles aduaneros, llamada Nomenclatura de Bruselas (NDB) de 1955. A partir del 1º de enero de 1966, los Estados miembros de la CEE han adaptado sus nomenclaturas nacionales del comercio exterior a la NIMEXE. De esta forma, es fácil reconstruir cada posición de la NIMEXE, a pesar de haber mantenido las ventilaciones especiales y las subdivisiones complementarias cuyas necesidades de orden nacional habían impuesto. Así, una sencilla reagrupación de posiciones de la NIMEXE basta para suministrar los datos necesarios para las negociaciones que se llevan a cabo al nivel de la CE. La cantidad de posiciones contenidas en la NIMEXE ha crecido entretanto hasta alcanzar actualmente unas 6 500.

Desde su adhesión, los tres nuevos Estados miembros han comenzado la adaptación de sus nomenclaturas a la NIMEXE. En cuanto al Reino Unido siguen existiendo, sin embargo, una serie de posiciones que, cada cual tomada por separado, no han podido clasificarse con rigor dentro de una posición de la NIMEXE. Las cantidades y valores correspondientes han debido ser reagrupados cada vez bajo una misma posición de la NIMEXE. Las posiciones en cuestión se hallan enumeradas en el anexo.

En cuanto a los tres nuevos Estados miembros, no se disponía, en lo que se refiere a algunas posiciones, de los datos sobre los pesos. En consecuencia, para estas posiciones y bajo la columna del país en cuestión, no se hallarán pesos indicados. Cómo, sin embargo, sólo se trata de un número reducido de posiciones, ha parecido superfluo asignarles una característica propia. El lector podrá fácilmente localizar estos casos, comparando la columna de las cantidades con la de los valores.

Las tablas analíticas del comercio exterior de la CE (NIMEXE), comprenden 12 volúmenes «Productos según país», en los que se agrupan las mercancías según categoría de productos, de acuerdo con la Nomenclatura aduanera de Bruselas (NDB) especificando tanto las importaciones como las exportaciones por cantidad, valor, y unidades suplementarias. En un tercero volumen «Países según productos», el intercambio comercial de la Comunidad es ventilado según países miembros y según los capítulos de la NIMEXE (2 cifras).

Los países de origen o de destino con los cuales el comercio de la CE es inferior a 100 000 EUR no aparecen solos; sin embargo, esos valores están incluidos en las sumas por grupos de países así como en la suma «mundo».

A partir del 1º de enero de 1971, los datos relativos a las importaciones de los Países Bajos provenientes de la UEBL (Unión aduanera belgo-luxemburguesa), se han establecido basándose en los datos relativos a las exportaciones de la UEBL hacia los Países Bajos y vice versa. Para el año 1974, el cambio ha sido fijado como sigue: 1 000 FB = 68,95 FI.

ANMERKUNGEN ZU DEN ERZEUGNISSEN

nd = nicht getrennt ausgewiesen

EG = die Anmerkung bezieht sich auf alle Mitgliedsländer

IMP = nur Einfuhr, EXP = nur Ausfuhr; die nicht mit IMP oder EXP versehenen Noten betreffen sowohl Ein- als Ausfuhr

NOTES PAR PRODUITS

nd = non disponible

Par CE, il faut entendre que la note s'applique à tous les pays membres

IMP = importation, EXP = exportation; sans mention: la note se rapporte à l'importation et à l'exportation
