15 December 1986

EMBARGO: Not for publication or broadcast  
before 15.00 HOURS, TUESDAY, 16 DECEMBER 1986.

£74.8 MILLION REGIONAL FUND GRANTS TO THE UNITED KINGDOM

Ninth Allocation in 1986

The European Commission has approved grants from the Regional Development Fund amounting to £74,821,169 in respect of 311 investments in the United Kingdom.

Northern Ireland has received total aid of £11.16m for 58 investments in industry and infrastructure. Grants of £0.5m towards system software services expansion by British Telecom will help create 55 new jobs in the Belfast area. A grant of £1m is made to improve and extend Belfast Harbour Airport for increased passenger throughput. Also aided is the Craft Village project in Londonderry with £0.8m to encourage the growth of tourism in this area.

Scotland grants totalling £11.6m in respect of 45 investments in infrastructure have been made. The Coatbridge Project which aims to upgrade the infrastructure in order to increase job opportunities in the area receives a grant of £1.5m.

West Midlands and the North-West regions received more than £11m in each region. Many workshops such as a technical college in Coventry £0.78m and the Business Training Centre at Denton in Tameside £0.8m have been grant aided.

The Northern region of England has benefitted from grants totalling more than £5m allocated to principally industrial investments, ports infrastructure and workshops and industrial estates.

Wales has received grant commitments totalling £7.9m for 24 infrastructure investments. Included amongst these £0.9m for the construction of a refuse pulveriser plant at Ynys Mon to prevent the disposal of waste on the island having an adverse effect on the tourism industry; £1.1m to Clwyd County Council towards constructing costs of the A550 Penyffordd By-Pass and a series of grants to the South Wales Electricity Board to help improve distribution in Gwent and Mid-Glamorgan.
