COM(83) 187 final

Brussels, 28 March 1983

Proposal for a
COUNCIL REGULATION (EEC)
prolonging the provisional anti-dumping duty on imports of
natural magnesite, caustic-burned, originating in the
People's Republic of China

(submitted to the Council by the Commission)

COM(83) 187 final

EXPLANATORY MEMORANDUM

By Regulation (EEC) No 3541/82 of 22 December 1982 the Commission imposed provisional anti-dumping duties on natural magnesite, caustic-burned, originating in China. The maximum period of validity of this measure is four months and the Community's anti-dumping Regulation (EEC) No 3017/79 requires the Commission to submit a proposal, either for definitive measures or for an extension of the duty, to the Council not later than one month before the expiry of the provisional measure.

Since the imposition of the duties the Commission's services have continued their examination of this matter. It has not, however, been possible to submit a proposal for definitive measures based on the full facts of the case due to the fact that the Commission's services are awaiting the results of a study being made by an independent expert.

The Commission has therefore notified the exporters known to be concerned of the intention to extend the provisional duty for a further period of two months and these exporters did not object.

In these circumstances, the Commission submits the attached proposal for a Council Regulation extending the provisional anti-dumping duty on natural magnesite, caustic-burned, originating in China for a further period not exceeding two months.

Proposal for a
COUNCIL REGULATION (EEC)
