

INDUSTRIAL SHORT-TERM TRENDS

Monthly

INDEX OF INDUSTRIAL PRODUCTION

Clear downward trend since June 1982

The provisional index of industrial production in the Community stood at 101.6 in July and 84.5 in August 1982 (1975=100), corresponding to falls of 2.4 and 3.6% respectively compared with the same months of the previous year, thereby confirming the deterioration which had started in June with a clear decline in the index of almost 2%. The average fall in the index for the three months June to August 1982 (these months are difficult to assess individually because of the variable impact of annual works holidays on production) as compared with the same period in 1981 is 2.5%, which shows quite clearly that the hopes of an economic upturn, to which the firm production trends during the months of April and May 1982 had given rise, have not been borne out in reality.

After seasonal adjustment, the index of production was 113.0 in July and 111.3 in August 1982 (1975=100), compared with an average of 114.8 for the first five months of the year. The downturn observed during the last three months was inevitably reflected in the short-term growth indicator (see adjusted indices, %A:comparison of the last three months with the previous three months), which gradually deteriorated and reached -2.0% in August, whereas it had been marginally positive in May (+0.3%).

As for trends in the largest countries, industrial production slowed down during the last three months - both in comparison with the previous three months (seasonally adjusted, %A) and in comparison with the same period in 1981 (%B) - in the Federal Republic of Germany (%A:-3.3%;%B:-3.6%), in France (%A:-1.0%;%B:-2.6%) and in Italy (%A:-2.8%;%B:-3.4%), whereas in the United Kingdom production levels remained stationary (%A:+0.2%;%B:+0.5%).

As regards the three main groups of industrial products, a generalized decline in the short-term growth indicators was observed (see adjusted indices, %A): the latter stood in August 1982 at -2.1% for intermediate products, -2.3% for capital goods and -1.7% for consumer goods.

N.B. : The appendix (pp. 53 et seq) gives retrospective series for the production index of the following branches :

- mineral oil refining (NACE 14)
- man-made fibres industry (NACE 26)
- rubber manufacture (NACE 481/2)
- processing of plastics (NACE 483).

1. NOMENCLATURE OF INDUSTRIAL ACTIVITIES

The indices included in this bulletin cover industry as it is defined in divisions 1 to 4 of the General Industrial Classification of Economic Activities within the European Communities (NACE). In part III of the bulletin there are also some indicators relating to NACE division 5 (building and civil engineering). An extract of divisions 1 to 4 of NACE can be found in appendix I to issue n° 5-1982.

2. INDICES OF PRODUCTION

2.a The index of production reflects changes in the volume of production. For industry as a whole, it also indicates changes in volume (at constant prices) in the gross added value created by industry, the branch indices being aggregated (like the aggregation at Community level for a given industrial branch) by means of a system of weighting according to gross added value (in principle, at factor costs). The indices are adjusted in two stages: first they are adjusted to take account of the varying number of working days in the month and this is followed by seasonal adjustment according to EUROSTAT's own particular method.

Further information on the index of production may be obtained from supplement 01.1978 of this bulletin.

2.b Meaning of %A and %B:**2.b.1 indices of production per working day:**

- %A: the last twelve months as compared with the previous twelve months;
- %B: the last month as compared with the corresponding month of the previous year.

2.b.2 seasonally adjusted indices of production:

- %A (short-term growth): the last three months as compared with the previous three months;
- %B: the last month as compared with the previous month.

2.c The descriptions and definitions in 2.a and 2.b above are also applicable to the indices of production for building and civil engineering.

2.d The indices of production for non-Member States (Spain, Portugal, the United States and Japan) are taken from OECD sources. The indices for Spain and Japan are not adjusted for differences in the number of working days.

3. Unlike the index of production (see 2.a above), the other indices (turnover, orders, exports, imports, number of employees, gross wages and salaries) are not adjusted to allow for differences in the number of working days in each period before they are seasonally adjusted.

4. INDICES OF TURNOVER AND ORDERS RECEIVED

These reflect changes in turnover (overall sales, including sales for export) and orders received at current prices. For detailed definitions, see also supplement N° 12-1980 to this bulletin.

5. INDICES OF IMPORTS AND EXPORTS BY INDUSTRIAL BRANCHES

These are indices of imports or exports (special trade), at current prices (respectively c.i.f. or f.o.b.), of industrial products classified according to the industrial branches to which they belong. It should be emphasized that this classification implies the need to make certain choices in allocating external trade products to overall groups of products according to a nomenclature of industrial activities, and that even comparability between the indices for imports and those for exports is limited.

The indices for the EEC as a whole refer only to trade with non-Member States.

NOTE

For the time being the indices are based on the external trade of the Community of Nine, excluding Greece, which became a full member of the Community with effect from 01.01.1981.

6. INDICES OF THE NUMBER OF EMPLOYEES AND OF GROSS WAGES AND SALARIES

6.1 The number of employees includes all persons employed by the firm (manual workers and salaried employees on the company's payroll).

6.2 Gross wages and salaries cover all sums paid out to persons employed by the company in remuneration for the work they do, including taxes and social security contributions payable by the employee and deducted by the employer, but excluding social security and other contributions payable by the employer. A methodological note on these two indices is being prepared and will be published as a supplement to a future issue of this bulletin.

7. BUILDING AND CIVIL ENGINEERING (PART III)

For information on the index of production and its layout, and on the index of the number of employees, see sections 2 and 6.1 above.

The indices for authorised dwellings and dwelling starts and completions only give a picture of activity in the residential building sector, whereas the other two types of indices also cover non-residential building and civil engineering.

8. GRAPHS

The graphs cover the trend in production and/or employment, whereby the trend is defined as the moving average over three months (after seasonal adjustment) in the case of the index of production; in the case of employment, for which the indices are quarterly, a monthly series is obtained by linear interpolation (without seasonal adjustment).

9. ADDITIONAL INFORMATION

The information included in this bulletin has been taken from the CRONOS data bank, which may be accessed via the EURONET network. Information on CRONOS-EURONET or on the information given in this bulletin may be obtained from EUROSTAT in Luxembourg (tel. 4301-3521 or 4301-3208).

Classification of Eurostat publications

| Themes | Sub-themes |
|--|--|
| 1. General statistics (grey covers) | 1. General statistics 2. Regional general statistics 3. Third-country statistics |
| 2. National accounts, finance and balance of payments (violet covers) | 1. National accounts 2. Accounts of sectors 3. Accounts of branches 4. Money and finance 5. Regional accounts and finance 6. Balance of payments 7. Prices |
| 3. Population and social conditions (yellow covers) | 1. Population 2. Social conditions 3. Education and training 4. Employment 5. Social protection 6. Wages and salaries |
| 4. Industry and services (blue covers) | 1. Industry, general 2. Energy 3. Iron and steel 4. Transport and services |
| 5. Agriculture, forestry and fisheries (green covers) | 1. Agriculture, general 2. Agriculture, production and balances 3. Agriculture, prices 4. Agriculture, accounts 5. Agriculture, structure 6. Forestry 7. Fisheries |
| 6. Foreign trade (red covers) | 1. Nomenclature 2. Community trade, general 3. Trade with developing countries |
| 9. Miscellaneous (brown covers) | 1. Miscellaneous statistics 2. Miscellaneous information |

Theme 4 — Industry and services

| Sub-themes | Titles | Frequency |
|---------------------------|--|-----------|
| 1. Industry, general | <i>Structure and activity of industry</i> — Data by size of enterprise 1976 | A |
| | <i>Structure and activity of industry</i> — 1978 | A |
| | <i>Industrial production</i> | Q |
| | <i>EC Raw materials balance sheets</i> | A |
| | <i>Industrial short-term trends</i> | M |
| | <i>Annual investments in fixed assets</i> — 1975-1979 | A |
| 2. Energy | <i>Energy statistics yearbook</i> | A |
| | <i>Useful energy balance sheets</i> | s.i. |
| | <i>Operation of nuclear power stations</i> | A |
| | <i>Analysis of energy input-output tables</i> | s.i. |
| | <i>Coal</i> — <i>Monthly bulletin</i> | M |
| | <i>Electrical energy</i> — <i>Monthly bulletin</i> | M |
| | <i>Hydrocarbons</i> — <i>Monthly bulletin</i> | M |
| 3. Iron and steel | <i>Iron and steel yearbook 1982</i> | A |
| | <i>Iron and steel</i> — <i>Quarterly bulletin</i> | Q |
| | <i>Iron and steel</i> — <i>Monthly bulletin</i> | M |
| 4. Transport and services | <i>Statistical yearbook transport, communications, tourism</i> | A |

Abbreviations :

A = Annual
 M = Monthly
 Q = Quarterly
 s.i. = Special issue
