HINWEIS ADVICE AVIS

Methodologischer Hinweis

Die Anwendung neuer Erhebungsgrundsätze ab 1. Januar 1992 in der EGKS-Stahlstatistik hat zur Folge, daß ab diesem Zeitpunkt die Angaben bestimmter Tabellen nicht mehr mit den vorhergehenden Zeiträumen vergleichbar sind. Die Tabellen müssen demzufolge neu konzipiert werden. Im einzelnen handelt es sich um folgende Änderungen:

1. Die Umstellung der Erfassung der Walzstahlerzeugung von der Netto - auf die Bruttoproduktion bedingt Änderungen in den Tabellen 3.6 bis 3.10.
2. Die Anwendung der europäischen Norm EN 10020 "Begriffsbestimmungen für die Einteilung der Stähle" bewirkt Änderungen bei den Stahlqualitäten; wie in der kombinierten Nomenklatur werden die Begriffe "Grund- und Qualitätsstahl" sowie "Edelstahl" durch "Unlegierten Stahl" bzw. "Legierten Stahl" ersetzt. Da diese Positionen auch inhaltlich neu definiert sind, ist eine Vergleichbarkeit mit den früheren Qualitäten nicht mehr gegeben (Tab. 3.5, 4.2 und 4.3).

Die Neufassungen werden wirksam, sobald die alten Reihen mit den Angaben für Dezember 1991 und das Jahr 1991 abgeschlossen sind.

Methodological advice

The application of new survey principles from 1st January last has rendered the data for certain tables no longer comparable with those for previous periods. These tables must therefore be reformulated. Specifically the following modifications are concerned:

1. The shift in returns for rolled products from net production to gross production necessitates changes to tables 3.6 to 3.10.
2. The application of the European norm EN 10020 "Definition and classification of steels" involves revision of steel qualities. As in the Combined Nomenclature the terms "basic and quality steels" and "special steels" will be replaced by "non-alloy steels" and "alloy steels". Given that these positions have likewise been modified in their content, comparability with the former qualities is no longer possible (tables 3.5, 4.2 and 4.3).

The new versions of the tables will take effect when the old series have been completed with data for December 1991 and the year 1991.

Avis méthodologique

L'application de nouveaux principes de recensement, à partir du 1er janvier dernier, a pour conséquence que les données pour certains tableaux ne sont plus comparables avec les périodes précédentes. Ces tableaux doivent donc être remaniés. Spécifiquement, il s'agit des modifications suivantes:

1. Le regroupement du recensement des produits laminés de la production nette vers la production brute exige des changements des tableaux 3.6 à 3.10.
2. L'application de la norme européenne EN 10020 "Définition et classification des nuances d'acier" implique la révision des qualités d'acier. Comme dans la nomenclature combinée les notions "Aciers de base et de qualité" et "Aciers spéciaux" seront remplacées par "Aciers non-alliés" ainsi que "Aciers alliés". Etant donné que ces positions ont été modifiées également dans leur contenu, une comparabilité avec les qualités antérieures n'est plus possible (tableaux 3.5., 4.2 et 4.3).

Les nouvelles versions des tableaux prendront effet dès que les anciennes séries seront closes avec les données pour le mois de décembre 1991 et l'année 1991.

(1) Einschliesslich Erzeugung von Flüssigstahl für Strangguss der unabhängigen Stahlgießereien.

(2) Auf den Kalendermonat bzw. das Kalenderjahr umgerechnet.

(3) Einschliesslich Erzeugung der unabhängigen Stahlgießereien, die nicht vom American Iron and Steel Institute erfasst werden.

(1) Including production of liquid steel for casting in independent steel foundries.

(2) Adjusted to calendar months and years.

(3) Including production of independent steel foundries not surveyed by the American Iron and Steel Institute

(1) Y compris la production d'acier liquide pour moulage des fondries d'acier indépendantes.

(2) Ajusté au mois et à l'année calendaires.

(3) Y compris la production des fondries d'acier indépendantes non recensées par l'American Iron and Steel Institute
