Brussels, 24 September 1982

Proposal for a  
COUNCIL REGULATION (EEC)

opening, allocating and providing for the administration of  
a Community tariff quota for certain hand-made products (1983)

-----

(submitted to the Council by the Commission)

COM(82) 594 final

EXPLANATORY MEMORANDUM

1. The Community announced in the course of multilateral negotiations conducted under GATT that it was willing, subject to certain conditions, one of which would be the production of a certificate of manufacture recognized by the competent authorities, to open an annual Community tariff quota for certain articles made by hand (handicrafts), free of customs duty and to a value of 5 000 000 UA, with a limit of 500 000 UA for each of the tariff headings or sub-heading in question.

In pursuance of the Declaration of Intent concerning trade relations with certain Asian countries and to reflect the participation of new Member States in the use of this quota, the value of the quota was raised to 10 000 000 UA (with a limit of 1 000 000 UA for each tariff heading or subheading) from 1 January 1974.

2. In the same context and following a request from the United Kingdom (1), the Commission was called upon to examine the commercial problems arising in trade relations between that Member State and Commonwealth Asian countries from the progressive phasing-out, with effect from 1 January 1974, of the preference these countries enjoyed on the United Kingdom market for a considerable range of products, notably some kinds of clothing and finished articles made from hand-woven fabrics. This question has been discussed several times with government experts and it was decided by common consent to re-examine the problem when the economic situation of the Community had improved.
3. The proposed Regulation annexed hereto thus provides for the opening of the quota on 1 January 1983 for the same products as for 1982 and up to the above-mentioned amount of 10,000,000 ECU, increased by 2 % to take account of the accession of Greece.

-----  
(1) This request was endorsed by the Indian and Pakistan authorities.

4. Due to the lack of detailed statistical data on the articles concerned the allocation, as in preceding years, could only be carried out by dividing the tariff quota volume into nine parts and assigning one such part to each of the eight territories making up the Community, the last part being held in reserve to cover any additional requirements. In fact, the proposed quota-shares and Community reserve are those approved by the Council for 1982, but increased by 2%. In another context, Mexico asked to be allowed to participate in the above-mentioned quota in its note of 25 January 1982. It is proposed to include Mexico in the list of beneficiary countries in Annex II as from 1 January 1983 if, before the adoption of the present regulation, it provides the name of the organisation empowered to deliver the necessary certificates of manufacture.
  
5. Another problem results from the fixing of a Community maximum amount, the value of which for each heading or subheading affected by the quota may not now exceed the level of 1 200 000 ECU. This problem was first referred to at the consultation meetings held on 9 and 15 April 1970 and there was evidence that if the ceiling were exceeded, this could, in certain circumstances cause difficulty in the Member States' own markets.

It was decided, however, that initially :

- (a) there would be no special provisions embodied in the Regulation itself to prevent this ceiling from being exceeded in any way;
  
- (b) the competent authorities of all Member States would cooperate closely with the Commission departments, so that appropriate action could be taken if there were signs of a real risk of the ceiling in question being exceeded.

This is the basis on which unanimous agreement was reached on the provisional application of a monitoring system under which, in general, the national ceiling was fixed theoretically for each tariff heading at a level equivalent to 10% of the initial share of each Member State, and under which the Commission was notified of the state of utilisation of Member States' shares for each of the tariff headings over specified periods. A Community balance

sheet, produced by the Commission Services was to be circulated without to all Member States.

In practice, the scheme works as follows :

whenever the charges in a Member State against a particular tariff heading reach 10% of its initial share, that Member States, without interrupting its charging, notifies the Commission. The Commission passes on this information to the other Member States and they in turn advise the Commission as soon as possible of the state of their charges against the particular tariff heading. If, on the basis of the balance sheet compiled by the Commission for the heading, the ceiling is reached, charges against that particular tariff heading are stopped in all Member States; if its is not yet reached but likely to be so in a short while, Member States notify the Commission by telex, once a week or after each substantial charge, of the total charges made during the past week or since the previous notification.

Proposal for a  
COUNCIL REGULATION (EEC)

opening, allocating and providing for the administration of a Community tariff quota for certain hand-made products (1983)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas, as regards certain hand-made products, the European Economic Community has declared its readiness to open an annual duty-free Community tariff quota of an overall amount of 5 000 000 units of account with a limit of 500 000 units of account for each tariff heading or subheading, in question; whereas, in pursuance of the Declaration of Intent concerning trade relations with certain Asian countries, the total amount of the quota and the maximum for each tariff heading or subheading were raised to 10 000 000 and 1 200 000 units of account respectively; whereas products may, however, be admitted under the Community tariff quota only on the submission to the Community's customs authorities of a document issued by the recognized authorities of the country of manufacture certifying that the goods concerned are hand-made; whereas the specimen certificate of manufacture, has been adapted to make it

in conformity

with the layout key recommended by the Economic Commission for Europe in Geneva for documents used in external trade;

whereas it is accordingly appropriate to open the tariff quota in question with effect from 1 January 1983 up to the above-mentioned amount, increased by 2% to take account of the accession of Greece, and

in accordance with Council Regulation (EEC) No 3308/80 of 16 December 1980 on the replacement of the European unit of account by the ECU in Community legal instruments (1);

Whereas equal and continuous access to the quota should be ensured for all Community importers and the rate laid down for the tariff quota should be applied consistently to all imports until the quota is used up; whereas a system of utilization of the Community tariff quota based on an allocation between the Member States concerned would, in the light of the principles outlined above, appear consistent with the Community nature of the quota; whereas, to represent as closely as possible the actual development of the market in the said goods, the allocation should follow proportionately the requirements of the Member States calculated both from statistics of imports from third countries during a representative reference period and according to the economic outlook for the tariff year in question;

Whereas, however, there is no specific classification of the said goods in the statistical nomenclatures; whereas it has thus been impossible to collect sufficiently precise and representative statistics; whereas the extent to which the current Community tariff quota has been used is not such that the real requirements of each of the Member States can be firmly ascertained; whereas

(1) OJ No L 345, 20. 12. 1980, p. 1.

the only possibility is, therefore, to divide the tariff quota volume into nine parts, of which one each would be allocated to the Benelux countries, Denmark, Germany, Greece, France, Ireland, Italy and the United Kingdom, the last part being held in reserve to cover the later requirements of Member States which use up their initial shares;

Whereas the initial shares may be used up at different rates; whereas, therefore, to avoid disruption of supplies, any Member State which has almost used up its initial share should draw a supplementary share from the Community reserve; whereas this must be done by each Member State as each one of its supplementary shares is almost used up, and as many times as the reserve allows; whereas the initial and supplementary shares must be valid until the end of the quota period; whereas this form of administration requires close collaboration between the Member States and the Commission, and the Commission must be in a position to follow the extent to which the tariff quota has been used up and inform the Member States accordingly; whereas this collaboration must be all the closer since it does not seem necessary, at present, to provide for special measures in this Regulation to avoid exceeding the maximum allocation of 1 200 000 ECU per tariff heading or subheading;

Whereas if, at a given date in the quota period, a Member State has a considerable quantity left over it is essential that it should return a significant percentage thereof to the reserve so as to avoid a part of the Community tariff quota remaining unused in one Member State when it could be used in others;

Whereas, since the Kingdom, of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any operation concerning the administration of the shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION:

*Article 1*

The goods must in addition be accepted as hand-made by the competent authorities of the Community.

3. Within this Community tariff quota the Common Customs Tariff duties shall be totally suspended.

Within the limits of this tariff quota, Greece shall apply duties calculated in accordance with the relevant provisions of the Act of Accession of 1979.

Article 2

1. A first instalment of 6 507 600 ECU shall be allocated among the Member States; the respective shares of the Member States, which, subject to Article 5, shall be valid from 1 January to 31 December 1983 shall correspond to the following values:

	(ECU)
Benelux	1 275 000
Denmark	255 000
Germany	1 413 720
Greece	16 320
France	1 275 000
Ireland	167 080
Italy	772 140
United Kingdom	1 333 340

2. The second instalment of 3 692 400 ECU shall constitute the Community reserve.

3. The provisions of Regulation (EEC) No 3308/80, and in particular Article 2 thereof, shall apply for the purposes of determining the equivalent value in national currencies of amounts expressed in ECU.

Article 3

1. If 90 % or more of a Member State's initial share as specified in Article 2 (1), or of that share minus the

portion returned to the reserve where Article 5 is applied, has been used up, that Member State shall forthwith, by notifying the Commission, draw a second share equal to 15 % of its initial share, rounded up where necessary to the next whole number, to the extent permitted by the amount of the reserve.

2. If, after its initial share has been used up, 90 % or more of the second share drawn by a Member State has been used up, that Member State shall, in accordance with the conditions set out in paragraph 1, draw a third share equal to 7.5 % of its initial share, rounded up where necessary to the next whole number.

3. If, after its second share has been used up, 90 % or more of the third share drawn by a Member State has been used up, that Member State shall, in accordance with the same conditions, draw a fourth share equal to the third.

This process shall continue to apply until the reserve is used up.

4. By way of derogation from paragraphs 1, 2 and 3, a Member State may draw lower shares than those specified therein if there are grounds for believing that those specified may not be used up. It shall inform the Commission of its reasons for applying this paragraph.

Article 4

Supplementary shares drawn pursuant to Article 3 shall be valid until 31 December 1983.

Article 5

Member States shall return to the reserve; not later than 1 October 1983, the unused portion of their initial share which, on 15 September 1983, is in excess of 50 % of the initial amount. They may return a larger quantity if there are grounds for believing that such quantity might not be used.

Member States shall notify the Commission, not later than 1 October 1983, of the total quantities of the said goods imported up to and including 15 September 1983 and charged against the Community tariff quota and of any portion of their initial share returned to the reserve.

*Article 6*

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 2 and 3 and shall, as soon as it has been notified, inform each State of the extent to which the reserve has been used up.

It shall inform the Member States, not later than 5 October 1983 of the amount still in reserve after amounts have been returned thereto pursuant to Article 5.

It shall ensure that the drawing which exhausts the reserve is limited to the balance available and to this end shall specify the amount thereof to the Member State making the last drawing.

*Article 7*

1. Member States shall take all appropriate measures to ensure that supplementary shares drawn pursuant to Article 3 are opened in such a way that imports may be charged without interruption against their accumulated shares in the Community tariff quota.

2. Member States shall ensure that importers of the said goods have free access to the shares allocated to them.

3. Member States shall charge imports of the said goods against their shares as and when such goods are entered with the customs authorities for free circulation.

4. The extent to which a Member State has used up its share shall be determined on the basis of imports charged in accordance with paragraph 3.

*Article 8*

At the Commission's request, Member States shall inform it of imports of the products concerned actually charged against their shares.

*Article 9*

Member States and the Commission shall cooperate closely to ensure that this Regulation is complied with.

*Article 10*

This Regulation shall enter into force on 1 January 1983.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
