Indledning

I serien »Månedssstatistik for kød« offentliggør De europæiske Fællesskabers statistiske Kontor medlemsstaterne statistiske oplysninger om kvæg og kød.

EUROSTAT tilgodeser således brugernes ønske om at ajourføre de årlige oplysninger om kvæg- og kødproduktionen og konstatere de sæsonbestemte variationer.

Oplysningerne i dene publikation udarbejdes og er genstand for en løbende ajourføring i samarbejde med de ansvarlige fra de forskellige medlemsstater inden for rammerne af arbejdsgruppen »Statistik over animalske produkter«. De fremsendes af de pågældende nationale statistiske kontorer. De europæiske Fællesskabers statistiske Kontor takker alle dem, som medvirker til udarbejdelsen af denne publikation.

Del I skildrer den månedlige udvikling, udtrykt pr. 1 000 stk. af det samlede antal slagtninger, udenrigshandelen, alle lande, med levende slagtekvæg (okser, kalve, svin, får og geder, heste) og den indenlandske bruttoproduktion.

Del II indeholder samme oplysninger som *del I*, men udtrykt i vægt.

Indholdet af *del III* varierer alt efter, hvad der har øjeblikkelig interesse og efter ønske : resultater af undersøgelser vedrørende kvægbestanden, produktionsudsigter på kort sigt, husdyravlens struktur, gennemsnitsvægt for de slagtede dyr, osv.

Bemærkninger til fremgangsmåden : Basisdefinitioner

Slagtninger i alt : (nettoproduktion, n.p.) : Antallet og mængden af slagtede dyr inden for et land, hvad enten der er tale om dyr af indenlandsk eller udenlandsk oprindelse.

Den slagtede mængde angives i slagtevægt, det vil sige dyrets vægt, når det er slagtet og afhudet, med fradrag af visse dele, f.eks. hovedet (undtagen hoveder af svin), skindet, en del af lemmerne, indvoldene, tarmene, osv.

Man tager altså ikke hensyn til spiseligt slagteaffald, hvorimod fedt, som er medregnet i slagtevægten, er inkluderet.

– *Indførsel og udførsel af levende dyr :*

Handel med enhver slags levende dyr (slagedyr, dyr til opfødning og avlsdyr, herunder racerene dyr).

Ved udregningen af EF's samlede handel med tredjelande trækker man fra landenes samlede udenrigshandel den handel, som foregår mellem EF-landene indbyrdes, for at undgå at tallene opføres to gange. Denne handel er fastsat på grundlag af importtallene.

– *Indenlandsk bruttoproduktion :*

Nettoproduktionen forhøjet med saldoen i udenrigshandelen for alle dyr af den pågældende art.

Bemærk : For yderligere oplysninger se »Statistik over den animalske produktion 1976« udgivet af EUROSTAT.

Anmærkninger

1. I samtlige serier skal slutværdien betragtes som midlertidig.
2. Månedssstatistikkerne over udenrigshandelen omfatter ikke altid handelen med unge dyr (f.eks. pattegrise) og/eller racerene dyr : denne handel er sædvanligvis af ringe omfang i sammenligning med handelen med slagtedyr og dyr til opfødning.
3. I tabellerne og diagrammerne er slutværdien for den indenlandske bruttoproduktion i serierne EUR 9 og EUR 6 beregnet, efter at EUROSTAT har foretaget en skønsmæssig ansættelse af de manglende nationale resultater.

Bemærkninger vedrørende enkelte lande

Forbundsrepublikken Tyskland :

Tallene for Vestberlin er medregnet.
Handelen med DDR er medregnet.

Belgien :

De tre slutværdier er midlertidige (ajourføring hvert kvartal).

Belgien og Luxembourg :

Hele BLØU's udenrigshandel regnes som hørende under Belgien.

Irland :

I månedsstatistikkerne er medregnet »beslaglagt kød« for det løbende år.

Danmark :

I modsætning til, hvad der er tilfældet for de nationale statistikker, er spiseligt slagteaffald ikke medregnet i fællesskabsstatistikken.

Vorwort

Das Statistische Amt der Europäischen Gemeinschaften veröffentlicht in der Reihe „Monatliche Fleischstatistik“ die Statistiken der Mitgliedstaaten über die Vieh- und Fleischerzeugung.

EUROSTAT entspricht damit dem Wunsch der Benutzer, die veröffentlichten jährlichen Angaben über die Vieh- und Fleischerzeugung zu aktualisieren und die jahreszeitlichen Entwicklungen aufzuzeigen.

Die Zusammenstellung und laufende Verbesserung der Statistiken wird in Zusammenarbeit mit den zuständigen Vertretern der Mitgliedstaaten im Rahmen der Arbeitsgruppe „Statistik der tierischen Erzeugnisse“ beraten. Die Angaben werden von den zuständigen nationalen Dienststellen übermittelt. Das SAEG dankt hiermit allen Beteiligten für ihre Mitarbeit an dieser Veröffentlichung.

Teil I zeigt die monatliche Entwicklung – in 1 000 Stück – der Schlachtungen insgesamt, die Entwicklung des Außenhandels aller Länder mit lebenden Tieren (Rinder, Kälber, Schweine, Schafe, Ziegen und Einhufer) sowie die Bruttoeigenerzeugung.

Teil II gibt – in Gewicht – die gleichen monatlichen Informationen wie *Teil I*.

Der Inhalt von *Teil III* kann je nach Aktualität und Nachfrage verschieden sein : Ergebnisse von Viehbestandserhebungen, kurzfristige Produktionsvorausschauen, Struktur der Aufzucht, Durchschnittsgewicht der geschlachteten Tiere usw.

Methodologische Anmerkungen : Definitionen

Schlachtungen insgesamt (Nettoerzeugung, pn) : innerhalb des Landes vorgenommene Schlachtungen von Tieren inländischer und ausländischer Herkunft.

Die Schlachtmengen werden in Schlachtgewicht ausgedrückt, worunter das Gewicht des geschlachteten und ausgeweideten Tieres einschließlich Knochen zu verstehen ist, von dem nur einige Teile wie z.B. Kopf (außer bei Schweinen), Haut, ein Teil der Gliedmaßen, Eingeweide usw. abgezogen sind.

Dieser Definition entsprechend sind die eßbaren Innereien nicht einbegriffen, wohl aber die im Schlachtgewicht enthaltenen Fette.

– Ein- und Ausfuhr lebender Tiere :

Handelsverkehr sämtlicher lebender Tiere (Schlachttiere, Masttiere und Aufzuchttiere einschließlich reinrassiger Tiere).

Bei der Berechnung des EG-Außenhandels insgesamt wird der EG-Binnenaustausch von der Summe des Außenhandels der Länder abgezogen, um Doppelzählungen zu vermeiden. Für die Berechnung des EG-Binnenhandels werden die Einfuhrzahlen zugrunde gelegt.

– Bruttoeigenerzeugung :

Nettoerzeugung plus Saldo des Außenhandels sämtlicher Tiere der jeweiligen Art.

Anmerkung : Weitere Einzelheiten sind der „Statistik der Tiererzeugung 1976“ von EUROSTAT zu entnehmen.

Hinweise

1. Der letzte Wert sämtlicher Reihen ist als vorläufig anzusehen.
2. Die Monatsstatistiken des Außenhandels umfassen nicht immer den Handel mit Jungtieren (beispielsweise Ferkel) und/oder mit reinrassigen Tieren. Dieser Handelsverkehr ist im allgemeinen unerheblich im Vergleich zum Handelsverkehr mit Schlacht- und Masttieren.
3. In den Tabellen und Diagrammen ist der letzte Wert der Reihen EUR 9 und EUR 6 der Bruttoeigenerzeugung von EUROSTAT nach Schätzungen der fehlenden einzelstaatlichen Ergebnisse berechnet.

Anmerkungen zu den Länderangaben

Br Deutschland :

Einschließlich der Angaben für Berlin-West.
Der Warenverkehr mit der DDR ist einbegriffen.

Belgien :

Die drei letzten Werte sind vorläufig (vierteljährliche Berichtigung).

Belgien und Luxemburg :

Der Außenhandel der UEBL wird ausschließlich unter Belgien verbucht.

Irland :

Die Monatsstatistiken enthalten das Freibankfleisch für das laufende Jahr.

Dänemark :

Im Gegensatz zu den nationalen Statistiken sind in der Gemeinschaftsstatistik die eßbaren Innereien nicht enthalten.

Preface

In the series 'Monthly meat statistics', the Statistical Office of the European Communities publishes the statistics on livestock and meat.

In this way EUROSTAT is meeting user's wishes for the updating of the annual data on meat and livestock production and pinpointing seasonal variations.

The data in this publication are compiled and regularly improved in cooperation with the national representatives in the Working Party on Animal Product Statistics. They are submitted by the appropriate national departments. The SOEC thanks all those who help to produce this publication.

Part I shows monthly trends, per thousand head, in total slaughterings, external trade (all countries) live animals (fully-grown bovines, calves, pigs, sheep and goats, horses), and gross indigenous production.

Part II gives the same information as Part I, but in terms of weight.

The contents of *Part III* vary according to the current situation and demand, e.g. results of livestock surveys, short-term production forecasts, structure of stock farming, average weight of slaughtered animals, etc.

Methodological note : Basic definitions

Total slaughterings : (net production = p.n.) : the number of animals slaughtered within a country, whether of domestic or foreign origin.

Quantities slaughtered are estimated in terms of carcass weight, i.e. the weight of the animal slaughtered and skinned, excluding certain parts such as the head (except for pigs' heads), skin, parts of the limbs, viscera, intestines, etc.

Edible offal is therefore not taken into account, whereas fats included in the carcass weight are.

— Imports and exports of live animals :

Trade in all live animals (animals for slaughter, animals for fattening and animals for breeding including pure-bred animals).

In order to calculate total EC external trade, EC internal trade is deducted from the total external trade figures for all the countries, thus avoiding duplication. These figures are calculated on the basis of imports.

— Gross indigenous production :

Net production plus the balance of external trade in all animals of the species.

Note : For further details see EUROSTAT's 'Statistics of animal production 1976'.

Notes

1. The last figure in all series is to be regarded as provisional.
2. The monthly external trade statistics do not always include trade in young animals (e.g. piglets) and/or pure-bred animals : such trade is generally negligible compared to trade in animals for slaughter and animals for fattening.
3. In the tables and graphs, the last figure in the EUR 9 and EUR 6 gross indigenous production series is calculated after EUROSTAT has estimated the missing national results.

Remarks by country

FR of Germany :

The data for West Berlin are included.
The trade with the GDR is included.

Belgium :

The last three figures are provisional (quarterly correction).

Belgium and Luxembourg :

All external trade of the BLEU is attributed to Belgium.

Ireland :

The monthly statistics include 'confiscated' meat for the current year.

Denmark :

In contrast to the national statistics, the Community statistics do not include edible offal.

Avant-propos

L'Office statistique des Communautés européennes publie, dans la série «Statistiques mensuelles de la viande», les statistiques des États membres disponibles concernant le bétail et la viande.

L'EUROSTAT répond ainsi aux voeux exprimés par les utilisateurs d'actualiser les données annuelles sur la production de bétail et de viande et de dégager les variations saisonnières.

Les données de cette publication sont élaborées et constamment améliorées en collaboration avec les responsables des États membres dans le cadre du groupe de travail «Statistique des produits animaux». Elles sont transmises par les services nationaux compétents. L'OSCE remercie tous ceux qui apportent leur concours à l'élaboration de cette publication.

La Partie I retrace l'évolution mensuelle, en milliers de têtes des abattages totaux, du commerce extérieur, tous pays, en animaux vivants (gros bovins-véaux-porcs-moutons et chèvres-chevaux) et de la production indigène brute.

La Partie II donne, en poids, les mêmes informations que la partie I.

Le contenu de la partie III est variable selon l'actualité et la demande : résultats d'enquêtes sur le cheptel, prévisions de production à court terme, structure des élevages, poids moyen des animaux abattus, etc.

Note méthodologique : Définitions de base

Abattages totaux (production netteh, p.n.) : animaux abattus à l'intérieur d'un pays, qu'ils soient d'origine indigène ou étrangère.

Les quantités abattues sont estimées en poids en carcasse. On entend par là le poids de l'animal abattu et dépouillé, déduction faite de certaines parties telles que la tête (à l'exception des têtes de porcs), la peau, une partie des membres, les viscères, les intestins, etc.

Par conséquent, on ne tient pas compte des abats comestibles, tandis que les graisses comprises dans le poids en carcasse sont incluses.

— Importations et exportations d'animaux vivants :

Échanges concernant tous les animaux vivants (animaux de boucherie, les animaux à l'engrais et les animaux d'élevage, y compris les animaux de race pure).

Pour le calcul du commerce extérieur total de la CE, on déduit du total du commerce extérieur des pays les échanges intra-CE afin d'éviter les doubles emplois. Ces échanges sont calculés sur la base des importations.

— Production indigène brute :

Production nette augmentée du solde du commerce extérieur de tous les animaux de l'espèce.

Note : Pour de plus amples détails se reporter à «Statistique de la production animale 1976» de l'EUROSTAT.

Avertissements

1. La dernière valeur de toutes les séries doit être considérée comme provisoire.
2. Les statistiques mensuelles du commerce extérieur ne comprennent pas toujours les échanges de jeunes animaux (par exemple, les porcelets), et/ou des animaux de race pure : ces échanges sont généralement négligeables par rapport aux échanges d'animaux de boucherie et d'animaux d'engrais.
3. Dans les tableaux et les graphiques, la dernière valeur des séries EUR 9 et EUR 6 de la production indigène brute est calculée après estimation par l'EUROSTAT des résultats nationaux manquants.

Remarques par pays

RF d'Allemagne :

Les données de Berlin-Ouest sont comprises.

Les échanges avec la RDA sont compris.

Belgique :

Les trois dernières valeurs sont provisoires (redressement trimestriel).

Belgique et Luxembourg :

Le commerce extérieur de l'UEBL est entièrement imputé à la Belgique.

Irlande :

Les statistiques mensuelles comprennent les viandes «saisies» pour l'année en cours.

Danemark :

Contrairement aux statistiques nationales, les abats comestibles sont exclus de la statistique communautaire.

Prefazione

L'Istituto statistico delle Comunità europee pubblica nella serie «Statistiche mensili della carne» le statistiche degli Stati membri sul bestiame e sulla carne.

L'EUROSTAT viene incontro in tal modo ai desideri, espressi dagli utilizzatori, di informazioni che permettano di attualizzare i dati annui sulla produzione di bestiame e di carne, e di evidenziare le variazioni stagionali.

I dati di questa pubblicazione sono elaborati e costantemente migliorati in collaborazione con i responsabili degli Stati membri nel quadro del gruppo di lavoro «Statistiche dei prodotti animali». Essi vengono trasmessi dai servizi nazionali competenti. L'ISCE ringrazia tutti coloro che collaborano all'elaborazione di questa pubblicazione.

La parte prima descrive l'evoluzione mensile, in migliaia di capi, delle macellazioni totali e degli scambi del commercio estero, per tutti i paesi, di animali vivi da macello (bovini adulti, vitelli, suini, ovini, caprini, equini) e della produzione interna linda.

La parte seconda fornisce le medesime informazioni mensili della prima, ma espresse in peso.

Il contenuto della *parte terza* varia secondo l'attualità e la richiesta: risultati di indagini sul patrimonio zootecnico, prospettive di produzione a breve termine, struttura degli allevamenti, peso medio degli animali macellati, ecc.

Nota metodologica : Definizioni di base

Macellazioni totali (produzione netta, p.n.) : numero e quantità dei capi macellati all'interno di un paese, siano essi di origine interna o estera.

Le quantità macellate sono valutate in peso morto, vale a dire in peso dell'animale macellato e scuoia-to, tolte talune parti come la testa (tranne che per i suini), la pelle, una parte degli arti, le viscere, gli intestini, ecc.

Di conseguenza non si tiene conto delle frattaglie commestibili, mentre è incluso il grasso compreso nel peso morto.

— Importazioni ed esportazioni di animali vivi

Scambi riguardanti tutti gli animali vivi (animali da macello, da ingrasso e da allevamento, compresi gli animali di razza pura).

Per il calcolo del commercio estero totale della CEE, si sottraggono, dal totale del commercio estero dei vari paesi gli scambi intracomunitari, per evitare i doppi computi. Questi scambi sono stati fissati sulla base della cifra delle importazioni.

— Produzione interna linda

Produzione netta aumentata del saldo del commercio estero per tutti gli animali della specie.

Nota : Per maggiori particolari si rimanda al «Statistica della produzione animale 1976» dell'EUROSTAT.

Avvertenze

1. L'ultimo valore di ogni serie dev'essere considerato provvisorio.
2. Le statistiche mensili nel commercio estero non includono sempre gli scambi relativi ad animali giovani (p. es. i suinetti) e/o agli animali di razza pura, dal momento che questi scambi sono in genere trascurabili rispetto a quelli di animali da macello e da ingrasso.
3. Nelle tabelle e nei grafici, l'ultimo valore delle serie EUR 9 e EUR 6 della produzione interna linda viene calcolato previa valutazione da parte dell'EUROSTAT dei risultati nazionali mancanti.

Osservazioni per paese

RF di Germania

I dati relativi a Berlino ovest sono inclusi.

È incluso il commercio con la Repubblica democratica tedesca.

Belgio

Gli ultimi 3 valori sono provvisori (correzione trimestrale).

Belgio e Lussemburgo

Il commercio estero dell'UEBL è attribuito interamente al Belgio.

Irlanda

Le statistiche mensili comprendono le carni «sequestrate» per l'anno in corso.

Danimarca

Contrariamente alle statistiche nazionali, sono state escluse, per la statistica comunitaria, le frattaglie commestibili.

Voorbericht

Het Bureau voor de statistiek der Europese Gemeenschappen publiceert in de reeks „Maandelijkse vleesstatistieken“ de statistieken inzake vee en vlees waarover de Lid-Staten beschikken.

EUROSTAT komt hiermee tegemoet aan de door de gebruikers geuite wens de jaargegevens over de produktie van vee en vlees uit de reeks „Landbouwstatistiek“ bij te werken en de seizoenschommelingen goed te laten uitkomen.

De in de onderhavige publikatie vervatte gegevens worden in samenwerking met de vertegenwoordigers van de Lid-Staten in het kader van de Werkgroep „Statistiek van de dierlijke produkten“ uitgewerkt en voortdurend bijgewerkt. De gegevens worden door de bevoegde nationale diensten doorgegeven. Het BSEG dankt iedereen voor de medewerking aan de totstandkoming van deze publikatie.

Deel I geeft het maandelijkse verloop weer van het totaal slachtingen, uitgedrukt in duizendtallen, in- en uitvoer, voor alle landen, van levend slachtvee (runderen - kalveren - varkens - schapen en geiten - paarden) en de bruto binnenlandse produktie.

In *deel II* wordt dezelfde maandelijkse informatie van *deel I* in gewicht weergegeven.

De inhoud van *deel III* varieert naar gelang van de actualiteit en de behoeften : resultaten van veetellingen, produktieramingen op korte termijn, structuur van de veeteelt, gemiddeld geslacht gewicht, enzovoort.

Methodologische opmerkingen : Voornaamste definities

Totaal slachtingen (nettoproduktie, n.p.) : totaal geslacht gewicht van de in een bepaald land geslachte dieren, van binnenlandse en buitenlandse herkomst.

Het geslacht gewicht komt overeen met het gewicht van de romp, met andere woorden het gewicht van het geslachte en gestroopte dier, ontdaan van bepaalde delen, zoals de kop (met uitzondering van varkenskoppen), de huid, een deel van de ledematen, de ingewanden, de darmen, enzovoort.

Er wordt derhalve geen rekening gehouden met de eetbare afvalen, maar wel met de vetten die bij het gewicht van de romp zijn inbegrepen.

- Invoer en uitvoer van levende slachtdieren :

Invoer en uitvoer die betrekking hebben op levende dieren (slachtdieren, mestdieren en fokdieren met inbegrip van stamboekvee).

Voor de berekening van de totale buitenlandse handel van de EEG wordt het handelsverkeer tussen de Lid-Staten van de EEG afgetrokken van het totaal van de buitenlandse handel van deze landen, om overlapping te voorkomen. Dit handelsverkeer wordt vastgesteld aan de hand van het invoercijfer.

- Bruto binnenlandse produktie :

De nettoproduktie plus het saldo van de buitenlandse handel van alle dieren in kwestie.

NB : Voor nadere informatie wordt verwezen naar „Statistieken van de dierlijke produktie 1976“ van EUROSTAT.

Nota bene

1. Van alle reeksen dient de laatste waarde als voorlopig te worden beschouwd.
2. De maandelijkse statistieken van de buitenlandse handel omvatten niet altijd de in- en uitvoer van jonge dieren (speenvarkens bij voorbeeld) en/of stamboekvee : dit handelsverkeer kan meestal worden verwaarloosd vergeleken met de in- en uitvoer van slacht- en mestdieren.
3. In de tabellen en grafieken is de laatste waarde van de reeksen EUR 9 en EUR 6 van de bruto binnenlandse produktie berekend na raming door het EUROSTAT van de ontbrekende nationale gegevens.

Opmerkingen per land

BR Duitsland :

Met inbegrip van de gegevens van West-Berlijn.

Met inbegrip van het handelsverkeer met de DDR.

België :

De laatste drie waarden zijn voorlopige waarden (driemaandelijkse bijwerking).

België en Luxemburg :

De buitenlandse handel van de BLEU is volledig aan België toegerekend.

Ierland :

De maandstatistieken omvatten het „aangebraden” vlees.

Denemarken :

In tegenstelling tot de nationale statistieken zijn de eetbare afvalen niet in de communautaire statistiek opgenomen.

TEIL II**FLEISCHERZEUGUNG NACH ARTEN — 1 000 Tonnen**

Schlachtungen insgesamt — Einfuhr und Ausfuhr lebender Tiere

Bruttoeigenerzeugung

Rinder ohne Kälber/Kälber/Schweine/Schafe und Ziegen/Einhufer

Schlachtungen insgesamt: Ochsen/Bullen/Kühe/Färsen

PART II**MEAT PRODUCTION BY CATEGORIES — 1 000 tonnes**

All slaughterings — Import and export of live animals

Gross indigenous production

Cattle excluding calves/calves/pigs/sheep and goats/horses

Alle slaughterings: bullocks/bulls/heifers/cows

PARTIE II**PRODUCTION DE VIANDE PAR CATÉGORIES — 1 000 tonnes**

Abattages totaux — Importation et Exportation d'animaux vivants

Production indigène brute

Gros bovins/veaux/porcs/moutons et chèvres/équidés

Abattages totaux: bœufs/taureaux/génisses/vaches

Countries : Data from monthly statistics

TEIL III

- Vierteljährliche Bilanzen und
Aussenhandel mit Fleisch — 1. Halbjahr 1977 und 1978
-

PART III

- Quarterly balance-sheets and
external trade in meat — 1st half year 1977 and 1978
-

PARTIE III

- Bilans trimestriels et
commerce extérieur de viande — 1^{er} semestre 1977 et 1978
-

- VIERTELJÄHRLICHE STATISTIK DER TIERISCHEN ERZEUGNISSE -
 - QUARTERLY STATISTIC FOR ANIMAL PRODUCTS -
 - STATISTIQUE TRIMESTRIELLE DES PRODUITS ANIMAUX -

Um den Dienststellen der Kommission Grundinformationen auf dem Gebiet der tierischen Erzeugnisse anzuzeigen, erstellt EUROSTAT vierteljährliche Statistiken :

a) Die Zahlen der Mitgliedstaaten über den Umfang des Warenaustauschs (Aussenhandel) werden für alle (etwa 30) tierischen Erzeugnisse erstellt, für die eine jährliche Versorgungsbilanz besteht - siehe EUROSTAT: zweijährliche Ausgabe "Versorgungsbilanzen".

b) Einige vereinfachte vierteljährige Bilanzen betreffen Schlüssel-Erzeugnisse, für die bereits monatliche harmonisierte Produktionsdaten aufgrund von gemeinschaftlichen Richtlinien des Rates bestehen, z.B. Rinder- und Schweinefleisch, Butter und Magermilchpulver.

* * *

In order to supply the Commission with basic data on animal products, EUROSTAT produces quarterly data relating to :

a) The external trade of Member States compiled for all the animal products (about 30 products) which appear on an annual supply balance sheet. See EUROSTAT biennial edition: "Supply balance sheets".

b) Certain simplified quarterly balance sheets relating to the key-products for which monthly harmonized production data exist through the application of Council directives and regulations; for example beef and veal, pigmeat, butter and skimmed milk powder.

* * *

Dans le but de fournir aux services de la Commission des informations fondamentales dans le domaine des produits animaux, l'EUROSTAT établit des données trimestrielles concernant:

a) Les échanges des Etats membres au Commerce extérieur agrégés au niveau de tous les produits animaux (environ 30 produits) pour lesquels il existe un bilan d'approvisionnement annuel, cf. EUROSTAT: publication biennale "Bilans d'approvisionnement".

b) Certains bilans trimestriels simplifiés des produits-clés pour lesquels il existe des données mensuelles de production harmonisées dans le cadre des règlements et directives du Conseil; par exemple: viande bovine et porcine, beurre, poudre de lait écrémé.
