

COMMISSION OF THE EUROPEAN COMMUNITIES

COM(82) 245 final.

Brussels, 29 April 1982

Proposal for a
COUNCIL REGULATION (EEC)

concerning the definitive collection of the provisional anti-dumping
duty on certain welded steel tubes originating in Romania

(submitted to the Council by the Commission)

COM(82) 245 final.

EXPLANATORY MEMORANDUM

In February 1982 the Commission imposed a provisional anti-dumping duty of 25% on imports of certain welded steel tubes originating in Romania(1).

The definitive examination of the matter shows that in the first half of 1981 there was a weighted average dumping margin of 30%.

The injury to the Community industry in question caused by these imports consists essentially of an increase in the Romanian share of the German market, to which these imports are almost exclusively destined and undercutting of the German producers' prices by up to 20%. On the German market, on which the other Community producers also sell a considerable part of their production, it has therefore been impossible to obtain prices that would cover costs and the Community producers have had to suffer large losses.

The Romanian exporter offered to give a price undertaking. The Commission, after consulting the Member States, has considered this to be acceptable and now intends to terminate the anti-dumping procedure.

As far as dumping by the Romanian exporter and the material injury to the branch of the Community industry in question are concerned, then the interests of the Community call for the definitive collection of the provisional duty.

It is therefore proposed that the amounts secured by way of provisional duty should be definitively collected, insofar as the customs value of the imported goods was less than 820 DM per tonne.

(1) Regulation (EEC) No 250/82, OJ No L 26, 3.2.1982, p. 5

concerning the definitive collection of the provisional anti-dumping duty on certain welded steel tubes originating in Romania

THE COUNCIL OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the European
Economic Community,

Having regard to Council Regulation (EEC) No
3017/79 of 20 December 1979 on protection against
dumped or subsidized imports from countries not
members of the European Economic Community⁽¹⁾,
and in particular Article 11 and 12 thereof;

Having regard to the proposal submitted by the
Commission after consultation within the Advisory
Committee set up under Article 6 of Regulation (EEC)
No 3017/79,

Whereas in August 1981 the Commission received a
request for the initiation of an anti-dumping procedure
lodged by the Liaison Committee of the European
Community steel tube industry on behalf of
manufacturers accounting for the major part of the
Community's production of certain welded steel tubes
(gas pipe);

Whereas, since the complaint provided sufficient
evidence of dumping in respect of the like product
originating in Romania and of material injury resulting
therefrom, the Commission accordingly
announced, by a notice published in the *Official
Journal of the European Communities*⁽²⁾, the initiation
of a procedure concerning imports of certain
welded steel tubes (gas pipe) originating in Romania
and commenced an investigation of the matter at
Community level;

Whereas, since the provisional examination of the matter showed
that dumping was taking place and that there was adequate proof of
material injury resulting therefrom to the Community industry in question,
the Commission, by means of Regulation (EEC) No 250/82⁽³⁾, imposed a
provisional anti-dumping duty of 25% on imports of certain welded steel
tubes originating in Romania;

(1) OJ No L 339, 31.12.1979, p. 1

(2) OJ No C 299, 18.11.1981, p. 2

(3) OJ No L 26, 3.2.1982, p. 5

Whereas in Article 2 of that Regulation the Commission gave the parties in question the opportunity to make known their views and apply to be heard orally by the Commission within a month of the entry into force of the provisional duty, without prejudice to Article 7(4)(b) and (c) of Regulation No 3017/79; whereas the exporter and some of the importers in question have availed themselves of this opportunity and made their views known orally and in writing; whereas the Commission has carefully examined the arguments put forward and found no reason to amend the provisionally established weighted average dumping margin;

Whereas with regard to the injury, the Commission has received no information since the adoption of Regulation (EEC) No 250/82 which would make it necessary to revise its conclusions formulated in that Regulation;

Whereas some importers have, however, stated that the Romanian tubes were partly accepted in return for exports to Romania and that the latter are being hampered by the Commission intervention; whereas this does not, however, detract from the fact that the imports in question were made at dumping prices; whereas the Commission found that the dumped tubes were in some cases even sold at a loss; whereas the prices of the Romanian tubes were, in any case, up to 20% lower than the German producers' market price; whereas in view of the extent of the injury resulting therefrom and the difficult situation facing European tube producers, the Commission has therefore become convinced that the interests of the Community make protective measures necessary;

Whereas on being presented with these findings the Romanian exporter, Metalimportexport, Bucharest, offered a price undertaking which appears to be sufficient to eliminate the injurious effects of the imports in question in the future.

Whereas the procedure may therefore be terminated without the imposition of a definitive anti-dumping duty;

Whereas, as far as dumping by the Romanian exporter and the material injury to the branch of the Community industry in question are concerned, the interests of the Community nevertheless call for the definitive collection of the provisional duty,

HAS ADOPTED THIS REGULATION:

Article 1

The amounts secured by way of provisional anti-dumping duty pursuant to Regulation (EEC) No 250/82 shall be definitively collected insofar as the customs value of the imported goods was less than 820 DM per tonne.

Article 2

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

For the Council
