PROPOSAL FOR A

## REGULATION (EEC) OF THE COUNCIL

opening, allocating and providing for the administration of a Community tariff quota for fresh or dried hazelnuts, shelled or otherwise, falling within subheading ex 08.05 G of the Common Customs Tariff, originating in Turkey (1978)

(submitted to the Council by the Commission)

COM(77) 241 final

EXPLANATORY MEMORANDUM

1. Article 5(1) of Council Regulation (EEC) No ..../77 of ..... 1977 concerning the importation into the Community of certain agricultural products originating in Turkey<sup>1</sup> provides for the opening for fresh or dried hazelnuts, shelled or otherwise, falling within subheading ex 08.05 G of the Common Customs Tariff, of an annual Community tariff quota of 25 000 tonnes at a duty rate of 2.5%.
  
2. It should be noted that the economic information on the basis of which the proposed allocation will be drawn up should be based, in particular, on past and estimated future imports into Member States, specifically originating in or coming from Turkey. This information has been obtained by all Member States for the year 1974 to 1976. The percentage allocation contained in this proposal for a regulation is in fact identical to that used for 1977, because it corresponds to the criteria normally applied in this field.
  
3. The Member States' experts who participated in the consultative meeting of the "Economic Tariff Problems" Group (13/14 April 1977) expressed agreement in principle to the scheme for allocation of shares proposed by the Commission.
  
4. As regards administration of this quota, it is proposed that there should be an initial allocation among Member States of a large part of the quota, the balance representing a reserve to which the surplus from shares which exceed Member States' needs will be returned and from which those States still in need may draw additional shares.

5. As in the past, the proposal for a Regulation annexed hereto provides that the uniform method of administration to be applied by all Member States should be the "as and when" method. Similarly, to take account of the seasonal nature of the imports concerned, the proposed threshold for returns to the reserve is 40% of the initial share.
  
6. In order to facilitate the verification for which the Commission is responsible under the Treaties, moreover, it has been stipulated in Article 10 of the proposal that Member States must forward to the Commission within a specific period the provisions they have adopted with a view to the application of the tariff measure.

Proposal for a  
COUNCIL REGULATION (EEC) No .../77

opening, allocating and providing for the administration of a Community tariff quota for fresh or dried hazelnuts, shelled or otherwise, falling within subheading ex 08.05 G of the Common Customs Tariff, originating in Turkey (1978)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Articles 43 and 113 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament (1),

Whereas under Article 5(1) of Council Regulation (EEC) No .../77 of ..... 1977 concerning the importation into the Community of certain agricultural products originating in Turkey (1), fresh or dried hazelnuts, shelled or otherwise, falling within subheading ex 08.05 G of the Common Customs Tariff, originating in Turkey are admitted on importation into the Community at a duty rate of 2.5%, within the limit of a Community tariff quota of 25 000 tonnes; whereas the Community tariff quota concerned should therefore be opened for 1978;

Whereas it is in particular necessary to ensure to all importers of the Member States equal and uninterrupted access to the said quota and uninterrupted application of the rate laid down for that quota to all imports of the products concerned into all Member States until the quota has been used up; whereas having regard to the above principles, the Community nature of the quota can be respected by allocating the Community tariff quota among the Member States; whereas, to reflect most accurately the actual development of the market in the products concerned, such allocation must be in proportion to the needs of the Member States, assessed by reference both to the statistics relating to imports from Turkey over a representative period, and to the economic outlook for the quota period concerned;

Whereas, on the basis of the statistics at present available, imports into the Member States in 1974, 1975 and 1976 of the product concerned originating in Turkey have developed as follows and represent the following percentages of total imports into the Community:

(1) OJ No L 345, 15.12.1973, p. 1.

	1974		1975		1976	
	tonnes	%	tonnes	%	tonnes	%
Germany	34 515	64.29	35 154	65.47	43 936	64.15
Benelux	4 500	8.38	5 284	9.84	5 662	8.27
France	5 680	10.58	6 084	11.33	9 543	13.93
Italy	2 473	4.61	1 653.5	3.08	2 065	3.02
Denmark	875	1.63	899	1.67	1 161	1.70
Ireland	619	1.15	30	0.06	140	0.20
United Kingdom	5 026	9.36	4 590	8.55	5 978	8.73
	53 688		53 694.5		68 485	

Likely Whereas, taking into account these figures and the trend on the market of the product concerned during 1978 and, in particular, the forecasts made by some Member States, the initial shares may be fixed approximately at the following percentages:

Germany	65.93
Benelux	10.14
France	8.20
Italy	0.25
Denmark	2.67
Ireland	1.66
United Kingdom	11.15

in Whereas in order to take into account the import trends for the product concerned in the Member States, the quota volume should be divided into two instalments, the first instalment being allocated to the Member States and the second forming a reserve intended to cover the requirements of the Member States should their initial share be used up; whereas, in order to ensure a certain degree of security to importers, the first instalment of the Community quota should be determined at a relatively high level, which under present circumstances could be approximately 80% of the quota volume;

Whereas the initial shares may be used up sooner or later; whereas, in order to take this fact into account and to avoid any break in continuity, it is important that any Member State which has used up almost all its initial share should draw an additional share from the reserve; whereas this must be done as and when each of its additional shares in the quota is almost entirely used up, and repeated as often as the reserve allows; whereas the initial and additional shares must

be available for use until the end of the quota period; whereas this method of administration calls for close cooperation between the Member States and the Commission, which must in particular be able to observe the extent to which the quota volume is used up and inform the Member States thereof;

Whereas if, at a specified date in the quota period, a considerable balance remains in any Member State, it is essential that the Member State should return a certain proportion thereof to the reserve, in order to avoid part of the Community quota remaining unused in one Member State when it could be used in others; whereas, taking into account the seasonal nature of imports, it seems appropriate to fix the transfer at 40% of the initial share;

#### threshold

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united in and represented by the Benelux Economic Union, any measure concerning the administration of the quota shares allocated to that economic union may be carried out by any of its members.

HAS ADOPTED THIS REGULATION:

The Commission shall ensure that any drawing which uses up the reserve is limited to the balance available and, for this purpose, shall specify the amount thereof to the Member State which makes the final drawing.
