

COMMISSION OF THE EUROPEAN COMMUNITIES

COM(76) 509 final

Brussels, 3 October 1976

Proposal for a
COUNCIL REGULATION (EEC)

amending Regulation (EEC) No 2682/72 as regards the
quantity of eggs to be taken into consideration in
calculating the export refund on certain goods
not covered by Annex II to the Treaty

(submitted to the Council by the Commission)

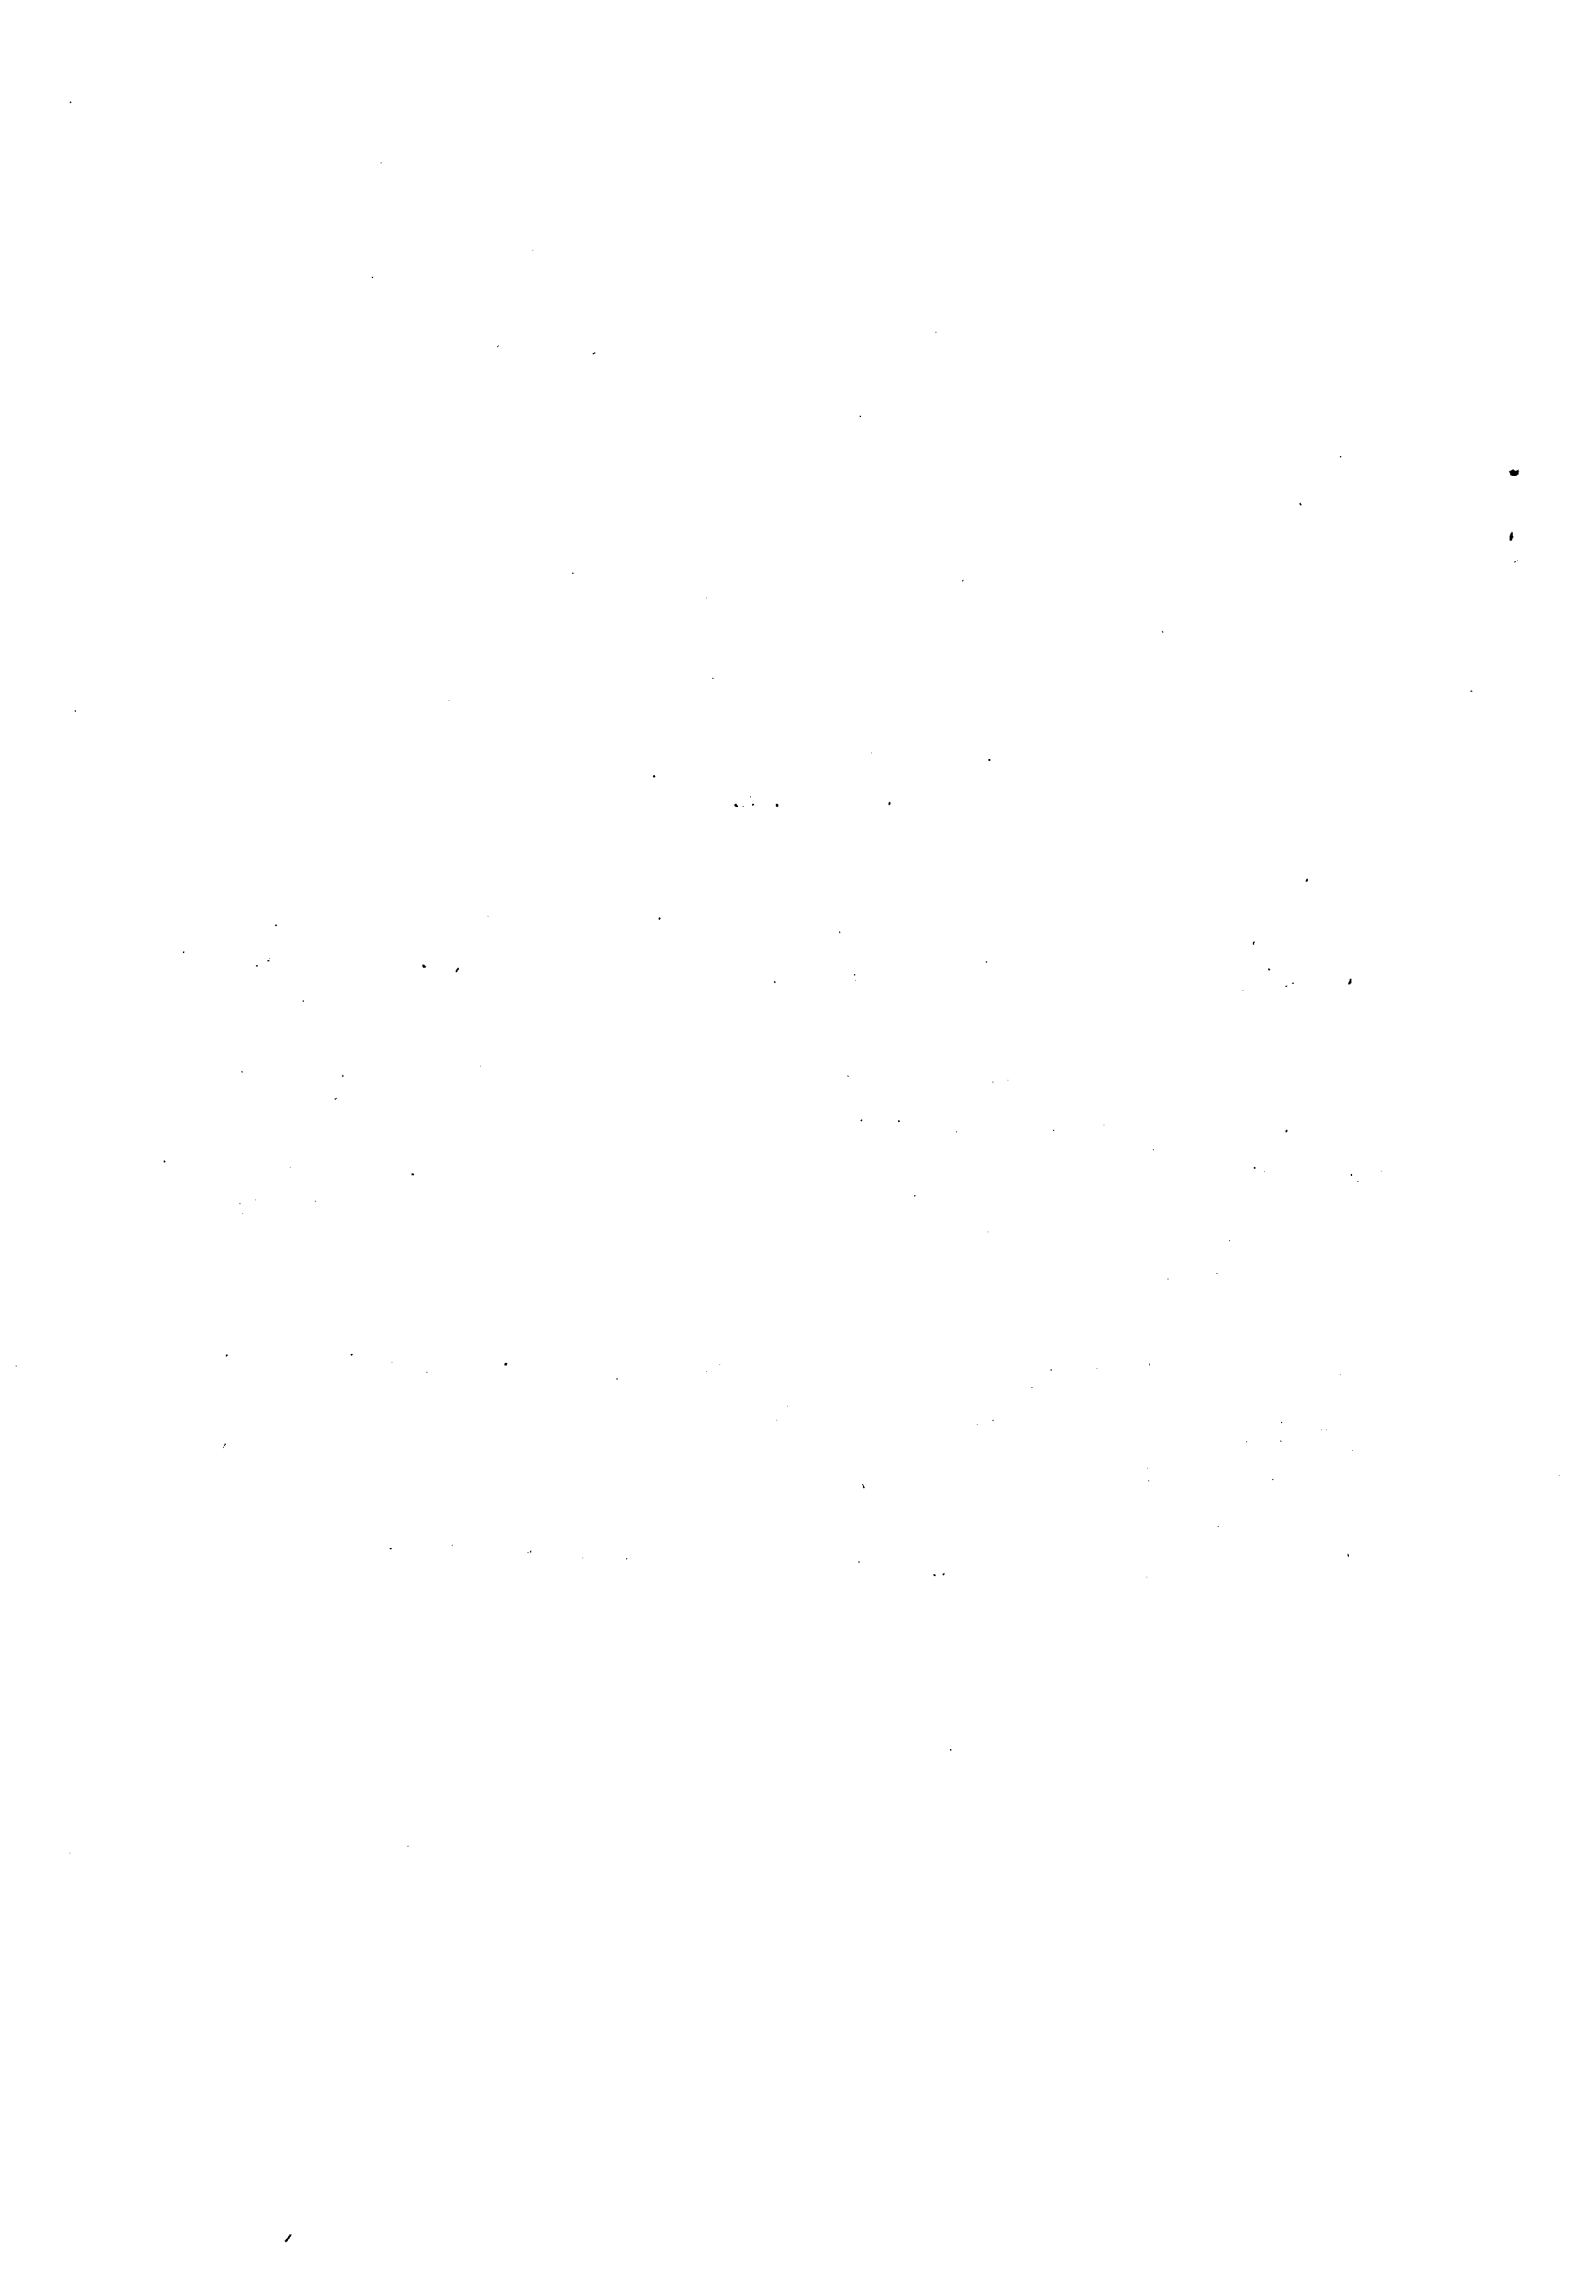

EXPLANATORY NOTE

Detailed rules for the calculation of export refunds for processed agricultural products outside Annex II are contained in Regulation (EEC) No 2682/72.

A coefficient is used giving the quantity of eggs in shell equivalent to 100 kg of dried ovalbumin for the purpose of calculating the refunds under the above Regulation and also for the import duties and sluice-gate prices under Regulation (EEC) No 2783/75 (Common system of trade for ovalbumin and lactalbumin).

Both coefficients were 3.94 but the figure for calculating the import duties and sluice-gate prices has been raised to 4.06 to take account of changed circumstances.

The purpose of this Regulation is to bring the export coefficient into line.
