COUNCIL REGULATION (EEC)

opening, allocating and providing for the administration of a Community tariff quota for VERDE wines, falling within heading No ex 22.05 of the Common Customs Tariff, and originating in Portugal (1981/82)

Proposal for a

COUNCIL REGULATION (EEC)

opening, allocating and providing for the administration of a Community tariff quota for DAO wines, falling within heading No ex 22.05 of the Common Customs Tariff, and originating in Portugal (1981/82)

(submitted to the Council by the Commission)

COM(81) 242 final

EXPLANATORY MEMORANDUM

1. The Supplementary Protocol annexed to the Agreement of 1972 between the European Economic Community and the Portuguese Republic, completed by the Protocol consequent on the accession of Greece

provides in article 9 for the opening of Community tariff quotas for the wines listed below :

No. of Customs Tariff heading	Description of goods	Annual volume	Rate of reduction
ex 22.05 C I a)	(Verde wines ((- in containers hol- (ding two litres or (less	5.025 hl	30 %
ex 22.05 C I a) ex 22.05 C I E a)	(Dão wines ((- in containers hol- (ding two litres or (less	2.010 hl	30 %

These wines will remain subject to provision relating to the common organization of the market in wine.

2. The Regulations provide, in the normal way, that each of the volumes shall be divided into two instalments, the first of which is to be allocated among the Member States and the second held as a reserve

The allocation of the first instalment is usually based on statistics for the three preceding years and on forecasts for the period in question. In the absence of specific Community statistics for these wines the initial quotas have been calculated on the basis of the most recent statistics for Portuguese exports from 1979 to 1980. The Portuguese statistics can in fact be considered to give a rough picture of Community imports of the wines in question.

3. Owing to the special characteristics of the trade in these wines, which also differ between Member States, the regulation, exceptionally, does not establish a uniform method of administration.

ANNEXES : 2 proposals for Regulations of the Council.

Proposal for a
COUNCIL REGULATION (EEC)

opening, allocating and providing for the administration of a Community tariff quota for Verde wines, falling within heading No ex 22.05 of the Common Customs Tariff and originating in Portugal (1981/82)

THE COUNCIL OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 , thereof,

Having regard to the proposal from the Commission,

Whereas Article 9 of the Supplementary Protocol (1) to the Agreement between the European Economic Community and the Portuguese Republic (2) as supplemented by

the Protocol annexed to the Agreement between the European Economic Community and the Republic of Portugal consequent to the accession of Greece to the Community (3), hereinafter referred to as the Protocol, provides

that, within the limits of an annual Community tariff quota of 5 025 hectolitres, customs duties on imports into the Community of Verde wines, falling within subheading ex 22.05 C I a) of the Common Customs Tariff and originating in Portugal, shall be reduced by 30 % ; whereas these wines must be accompanied by a certificate of designation of origin ;

Whereas the wines in question are subject to compliance with the free-at-frontier reference price ; whereas the wines in question shall benefit from these tariff quotas on condition that Article 18 of Council Regulation (EEC) No 337/79 (4), as last amended by Regulation (EEC) No 3456/80 (5), be complied with ;

(1) OJ No L 348, 31. 12. 1979, p. 44.

(2) OJ No L 301, 31. 12. 1972, p. 165.

(3) OJ No L

(4) OJ No L 54, 5.3. 1979, p. 1

(5) OJ No L 360, 22.12.1980, p. 18.

Whereas it is in particular necessary to ensure for all Community importers equal and uninterrupted access to the abovementioned quota and uninterrupted application of the rates laid down for that quota to all imports of the products concerned into all Member States until the quota has been used up; whereas, having regard to the above principles, the Community nature of the quota can be respected by allocating the Community tariff quota among the Member States; whereas, in order to reflect as accurately as possible the actual trend of the market in the products concerned, such allocation should be in proportion to the requirements of the Member States, calculated by reference to the statistics of each State's imports of the said products from Portugal over a representative reference period and also to the economic outlook for the quota period in question;

Whereas available Community statistics give no information on the situation of Verde wines on the markets; whereas, however, Portuguese statistics for exports of these products to the Community during the past few years can be considered to reflect approximately the situation of Community imports; whereas on this basis the corresponding imports by each of the Member States during the past three years represent the following percentages of the imports into the Community from Portugal of the products concerned:

Member States	1978	1979	1980
Benelux	15	17	20
Denmark	1	3	4
Germany	12	16	14
France	20	23	20
Greece	1	1	1
Ireland	1	1	1
Italy	39	29	25
United Kingdom	12	11	16

Whereas, in view of these factors and of the estimates submitted by certain Member States, initial quota shares may be fixed approximately at the following percentages :

Benelux	17,5
Denmark	3,0
Germany	14,2
France	0,4
Greece	21,2
Ireland	0,8
Italy	30,0
United Kingdom	12,9

Whereas, in order to take into account import trends for the products concerned in the various Member States, the quota volume should be divided into two instalments, the first being allocated among the Member States and the second constituting a reserve to cover at a later date the requirements of Member States which have used up their initial quota shares; whereas, in order to give importers in each Member State a certain degree of security, the first instalment of the Community quota should, under the present circumstances, be fixed at 75 % of the quota volume ;

Whereas the Member States initial shares may be used up at different times ; whereas, in order to take this fact into account and avoid any break in continuity, any Member State which has almost used up its initial share must draw an additional share from the reserve ; whereas this must be done by each Member State as and when each of its additional shares is almost entirely used up, and repeated as many times as the reserve allows ; whereas the initial and additional shares must be valid until the end of the quota period ; whereas this method of administration requires close cooperation between the Member States and the Commission, and the Commission must be in a position to monitor the extent to which the quota volume has been used up and inform the Member States thereof ;

Whereas if, at a given date in the quota period, a considerable quantity remains unused in any Member State, it is essential that that Member State should return a significant proportion to the reserve to prevent a part of the Community quota from remaining unused in one Member State when it could be used in others ;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any operation relating to the administration of the quota shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION :

Article 1

1. From 1 July 1981 to 30 June 1982 the Common Customs Tariff duty on Verde wines in containers holding two litres or less, falling within subheading ex 22.05 C I a) and originating in Portugal, shall be reduced to 10.1 ECU/hl, within the limits of a Community tariff quota of 5025 hectolitres.

said goods imported up to 15 March 1982, inclusive and charged against the Community quota, and of any quantities of the initial shares returned to the reserve.

Article 3

1. If 90 % or more of a Member State's initial share as specified in Article 2 (2), or of that share minus the portion returned to the reserve, where Article 5 is applied, has been used up, that Member State shall without delay, by notifying the Commission, draw a second share equal to 15 % of its initial share, rounded up where necessary to the next unit, to the extent permitted by the amount of the reserve.

2. If, after its initial share has been used up, 90 % or more of the second share drawn by a Member State has been used up, that Member State shall, in accordance with the conditions laid down in paragraph 1, draw a third share equal to 7.5 % of its initial share, rounded up where necessary to the next unit.

3. If, after its second share has been used up, 90 % or more of the third share drawn by a Member State has been used up, that Member State shall, in accordance with the same conditions, draw a fourth share equal to the third.

This process shall continue until the reserve is used up.

4. By way of derogation from paragraphs 1, 2 and 3, a Member State may draw shares smaller than those fixed in those paragraphs if there is reason to believe that they might not be used up. It shall inform the Commission of its reasons for applying this paragraph.

Article 4

Each of the additional shares drawn pursuant to Article 3 shall be valid until 30 June 1982.

Article 5

Member States shall return to the reserve, not later than 1 April 1982, the unused portion of their initial share which, on 15 March 1982, is in excess of 20 % of the initial volume. They may return a larger quantity if there are grounds for believing that this quantity may not be used.

Each Member State shall, not later than 1 April 1982, notify the Commission of the total quantities of the

Article 6

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 2 and 3 and shall, as soon as it has been notified, inform each State of the extent to which the reserve has been used up.

It shall, not later than 5 April 1982, inform the Member States of the amount in the reserve after quantities have been returned thereto pursuant to Article 5.

The Commission shall ensure that the drawing which used up the reserve is limited to the balance available and, to this end, shall specify the amount thereof to the Member State which makes the last drawing.

Article 7

1. The Member States shall take all measures necessary to ensure that additional shares drawn pursuant to Article 3 are opened in such a way that imports may be charged without interruption against their accumulated shares of the Community quota.

2. The Member States shall ensure that importers of the said products established in their territory have free access to the shares allocated to them.

3. The extent to which a Member State has used up its share shall be determined on the basis of the imports of the goods in question entered with customs authorities for free circulation.

Article 8

At the request of the Commission, Member States shall inform it of imports actually charged against their shares.

Article 9

The Member States and the Commission shall cooperate closely in order to ensure that this Regulation is complied with.

Article 10

This Regulation shall enter into force on 1 July 1981.
