COUNCIL REGULATION (EEC)

opening, allocating and providing for the administration  
of Community tariff quotas for certain textile products  
falling within heading Nos 55.05 and 55.09 and subheading  
ex 58.01 A of the Common Customs Tariff, coming from  
Turkey (1982)

(submitted to the Council by the Commission)

COM(81) 585 final

EXPLANATORY MEMORANDUM

1. As a result of negotiations with Turkey on the adjustments to be made to the Association Agreement between that country and the Community and the Additional Protocol, to take account of new Member States, the Community signed in Ankara on 30 June 1973 a Supplementary Protocol which enter into force once it has been ratified.

In the meantime, the Community has concluded an Interim Agreement which in theory runs only for the period prior to the entry in force of this Supplementary Protocol in order to implement, from 1 January 1974, certain provisions of that Protocol relating to trade in goods.

At the moment it is not possible to know if the tariff measures laid down by these Agreements in Turkey's favour, should be given for 1982 on the basis of the Supplementary Protocol or the Interim Agreement.

The provisions of the annexed Regulations are based on the Interim Agreement and should thus be modified if the Supplementary Protocol enters into force on 1 January 1982.

2. In the abovementioned Supplementary Protocol and Interim Agreement, provision is made in particular in respect of textile products for the opening of the following annual Community tariff quotas, subject to the conditions laid down for each product :

CCT heading No	Description	Annual tariff quota	Quota duty
55.05	Cotton yarn, not put up for retail sale	390 tonnes	75 % reduction
55.09	Other woven fabrics of cotton	1 390 tonnes	75 % reduction

They also determine for these products the allocation among the Member States of the annual tariff quotas for textile products. This allocation is as follows :

Cotton yarn (heading No 55.05)

Community as originally constituted	300 tonnes
Denmark	40 tonnes
Ireland	10 tonnes
United Kingdom	40 tonnes

Other woven fabrics of cotton (heading No 55.09)

Community as originally constituted	1 000 tonnes
Denmark	20 tonnes
Ireland	10 tonnes
United Kingdom	360 tonnes

3. While article 14 of the Supplementary Protocol fixes such an allocation for a period ending at 1 July 1977, the Interim Agreement fixes no limit to this special allocation, while could be due to the initially limited period of validity of the Interim Agreement applying in anticipated application some of the provisions of the Supplementary Protocol.

The end of the transitional period fixed by the Act of Adhesion on 1 July 1977 has led the Commission to reflect on the question of this allocation, which has resulted in the proposal to have a common system of administration of the above tariff quotas involving, in each case, the opening of a single quota quantity divided between the Member States according to the usual criteria and the creation of a single Community reserve open to all Member States.

4. Another problem arises in connection with the size of the quotas to opened for 1982, in view of the decision taken by the Association Council during June 1973 to grant Turkey treatment as favourable as that granted to countries benefiting from generalized tariff preferences.

As the decisions on the system to be applied to the developing countries will not be taken until very late this year, the present Commission proposal for 1982 takes account, for the calculation of quota amounts, of the generalized system of preference schema (textile sector) as proposed by the Commission.

On this basis, the volume of the Community tariff quotas to be opened for 1982 for Turkey should correspond to those for 1981, that is

- for cotton yarn 1 099 tonnes
- for other cotton cloth 2 587 tonnes
- for carpets 198 tonnes

It goes without saying that these volumes should be adjusted if the final decision taken in the generalized system of preferences does not correspond to the system proposed.

In addition, the Commission is aware that this concession could be modified in the context of registrations to be undertaken with Turkey. While awaiting a final decision this proposal constitutes an instrument to respect the Communities' contractual engagements.

Thus, the Commission reserves the right to modify this proposal during the procedure to adapt it, if necessary, to the result of the negotiations.

5. As regard the economic information to be used in determining the basis for the proposed allocation of the tariff quotas concerned, it should be remarked that they should be based principally on Member States' imports, actual and estimated, specifically originating in or coming from Turkey for the categories of products considered.

Thus, although it has been possible to draw up the appropriate information for the years 1978 to 1980, nevertheless because of the irregularity noted in imports during those reference years, it has not necessarily been possible to deduce any firm basis of assessment. For this reason, as it is customary, the quota volumes attributed to the original Community have been divided into two tranches, the first tranche being allocated among the Member States, and the second held as a reserve to cover any additional requirements which might come to light in those Member States.

for the same reasons the initial volumes allocated to the Member States used in the proposals are the same as in 1981.

6. The Proposal for a Regulation on textile products provides for a single method of counting imports against quota shares in the Member States concerned, namely as and when they are entered for home use.

PROPOSAL FOR A  
COUNCIL REGULATION (EEC)

opening, allocating and providing for the administration of Community tariff quotas for certain textile products falling within heading Nos 55.05 and 55.09 and subheading ex 58.01 A of the Common Customs Tariff and originating in Turkey (1982)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas, pending the entry into force of the Supplementary Protocol signed in Ankara on 30 June 1973 containing the adjustments to be made to the Agreement establishing an Association between the European Economic Community and Turkey and to the Additional Protocol (1) consequent on the accession of new Member States, the Community has undertaken, in an Interim Agreement (2) which runs only for the period prior to the entry into force of this Supplementary Protocol which is applicable until 31 December 1974 but which has been extended for 1982 in accordance with the terms laid down in Article 13 thereof, to implement certain provisions of the Supplementary Protocol relating to trade in goods; whereas, under Article 6 of this Interim Agreement amending Article 1 of Annex 2 to the Additional Protocol, the Community must reduce by 75 % the customs duties on imports from Turkey of certain textile products falling within heading Nos 55.05 and 55.09 of the Common Customs Tariff, within the limit of annual Community tariff quotas of 390 tonnes for cotton yarn and 1 390 tonnes for woven fabrics of cotton; whereas the abovementioned Article 6 allocates these Community tariff quotas as follows:

— for cotton yarn:

— 300 tonnes to the Community as originally constituted, 40 tonnes to Denmark, 10 tonnes to Ireland and 40 tonnes to the United Kingdom;

— for woven fabrics of cotton:

1 000 tonnes to the Community as originally constituted, 20 tonnes to Denmark, 10 tonnes to Ireland and 360 tonnes to the United Kingdom;

Whereas Article 14 of the said Supplementary Protocol only provides for such an allocation of tariff quotas between the Community as originally consti-

tuted and the three new Member States until 1 July 1977; whereas, moreover, following the end of the transitional period laid down in Article 39 of the Act of Accession, it is necessary to create a common system of administration of the tariff quotas concerned, consisting in each case of the opening of a single quota divided between all the Member States according to the usual criteria and the creation of a single Community reserve, open to all Member States;

Whereas it is desirable to provide for a provisional adjustment of the tariff advantages for these goods consisting of a total suspension of the customs duties of the Common Customs Tariff and an increase in the quotas; whereas the volumes of the quotas to be opened for 1982 are therefore 1 099 tonnes for cotton yarn and 2 587 tonnes for other woven fabrics of cotton;

Whereas pursuant to Article 1 of Annex 2 to the Additional Protocol together with Article 2 of the Interim Agreement, for the duration of 1982 in particular, the Community must partially reduce the duties applicable in respect of third countries to carpets, carpeting and rugs, knotted (made up or not) of wool or of fine animal hair (excluding handmade carpets, carpeting and rugs) imported from Turkey; whereas it also appears advisable to improve this tariff advantage provisionally by means of a total suspension of the duties applicable to the products in question within a Community tariff quota fixed at a provisional level of 198 tonnes for 1982;

Whereas, it is necessary to guarantee to all Community importers equal and uninterrupted access to the abovementioned quotas and uninterrupted application of the rate laid down for those quotas to all imports of the product concerned into all Member States until the quota has been used up; whereas in the light of the principles mentioned above, the Community nature of the quotas can best be respected by allocating the Community tariff quotas among the Member States; whereas, in order to reflect most accurately the actual development of the market for the products concerned, such allocation shall be in proportion to the needs of the Member States, assessed by reference both to the statistics of each State's imports from Turkey over a representative period and to the economic outlook for the quota period concerned; whereas, in spite of the limited need for imports from Turkey of the

products concerned, as shown by the statistics for the majority of the Member States the Community character of the tariff quotas concerned should be safeguarded by making provisions to cover needs which might arise in these Member States;

Whereas imports into the various Member States from Turkey were as follows during the past three years for which complete statistics are available:-

	1978		1979		1980	
	Tonnes	%	Tonnes	%	Tonnes	%

	1 623.4	100	1 314.7	100	44 055	100

Whereas according to the information supplied by Greece its imports of these textile products from Turkey have been nil during the past three years.

Whereas in view of these figures and foreseeable market trends for the products concerned during 1982 the initial shares may be fixed approximately at the following percentages:

	<i>Cotton yarn</i>	<i>Other woven fabrics of cotton</i>
Benelux	15.69	19.57
Denmark	8.43	1.77
Germany	34.89	14.70
Greece	2.58	2.43
France	4.22	22.00
Ireland	2.22	0.91
Italy	23.42	7.30
United Kingdom	8.55	31.32

Whereas in order to take into account the uncertainty of the import trends for the products concerned in the Member States, the quota volumes should be divided into two instalments, the first instalment being allocated to the Member States, and the second held as a reserve intended ultimately to cover the requirements of those Member States which have used up their initial shares; whereas, in order to ensure a certain degree of security to im-

porters, the first instalment should be determined at a relatively high level, which, under present circumstances, may be about 80 % of each quota volume;

Whereas the initial quota shares of the Member States may be used up at different times; whereas, in order to take this fact into account and avoid any break in continuity, it is important that any Member State having used up almost the whole of one of its initial quota shares should draw an additional quota share from the corresponding reserve; whereas, this must be done by each Member State as and when each of its additional quota shares is almost entirely used up, and repeated as many times as each of the reserves allows; whereas each of the initial and additional quota shares must be available for use until the end of the quota period; whereas this method of administration calls for close cooperation between Member States and the Commission, which must, in particular, be able to observe the extent to which the quota amount is used and inform Member States thereof;

Whereas, at a specified date in the quota period, a considerable balance remains in one or other Member State it is essential that that Member State pays a percentage of it back into the corresponding reserve, in order to prevent a part of one or other of the Community quotas from remaining unused in one Member State when it could be used in others;

Whereas the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united in and represented by the Benelux Economic Union, all transactions concerning the administration of shares granted to the abovementioned economic union may be carried out by any one of its members.

HAS ADOPTED THIS REGULATION:

2. If, after one or other of its initial shares has been used up, 90 % or more of the second share drawn by one of the Member States has been used up, that Member State shall, in the manner provided for in paragraph 1, draw a third share equal to 7.5 % of its initial share.

It shall ensure that any drawing which uses up a reserve is limited to the balance available and, for this purpose, shall specify the amount thereof to the Member State which makes the final drawing.

*Article 7*

1. Member States shall take all measures necessary to ensure that, when additional shares are drawn pursuant to Article 3, it is possible for imports to be counted without interruption against their accumulated shares of the Community tariff quotas.
