Introduction

This guide suggests a variety of sources for European economic data, both of a pan-European nature and for individual European countries.

Economic data covering groupings of countries in Europe, as well as for individual European countries are available from international organisations such as:

- European Union
- European Free Trade Association
- Organisation for Economic Co-operation and Development
- United Nations Economic Commission for Europe
- International Monetary Fund.

In addition, there are many additional sources from national governments and other agencies for economic data about individual European countries.

Information Sources in the ESO Database

- [Economic and Monetary Policy](#)
- [The European Economy](#)
 - [Reports on the State of the European Economy](#)
 - [Forecasts of the State of the European Economy](#)
- [Economic and Monetary Union \(EMU\)](#)
- Economic situation in ...

Albania	Germany	Norway
