

COMMISSION OF THE EUROPEAN COMMUNITIES

COM(77) 268 final

Brussels, 13 June 1977

Proposal for a

REGULATION (EEC) OF THE COUNCIL

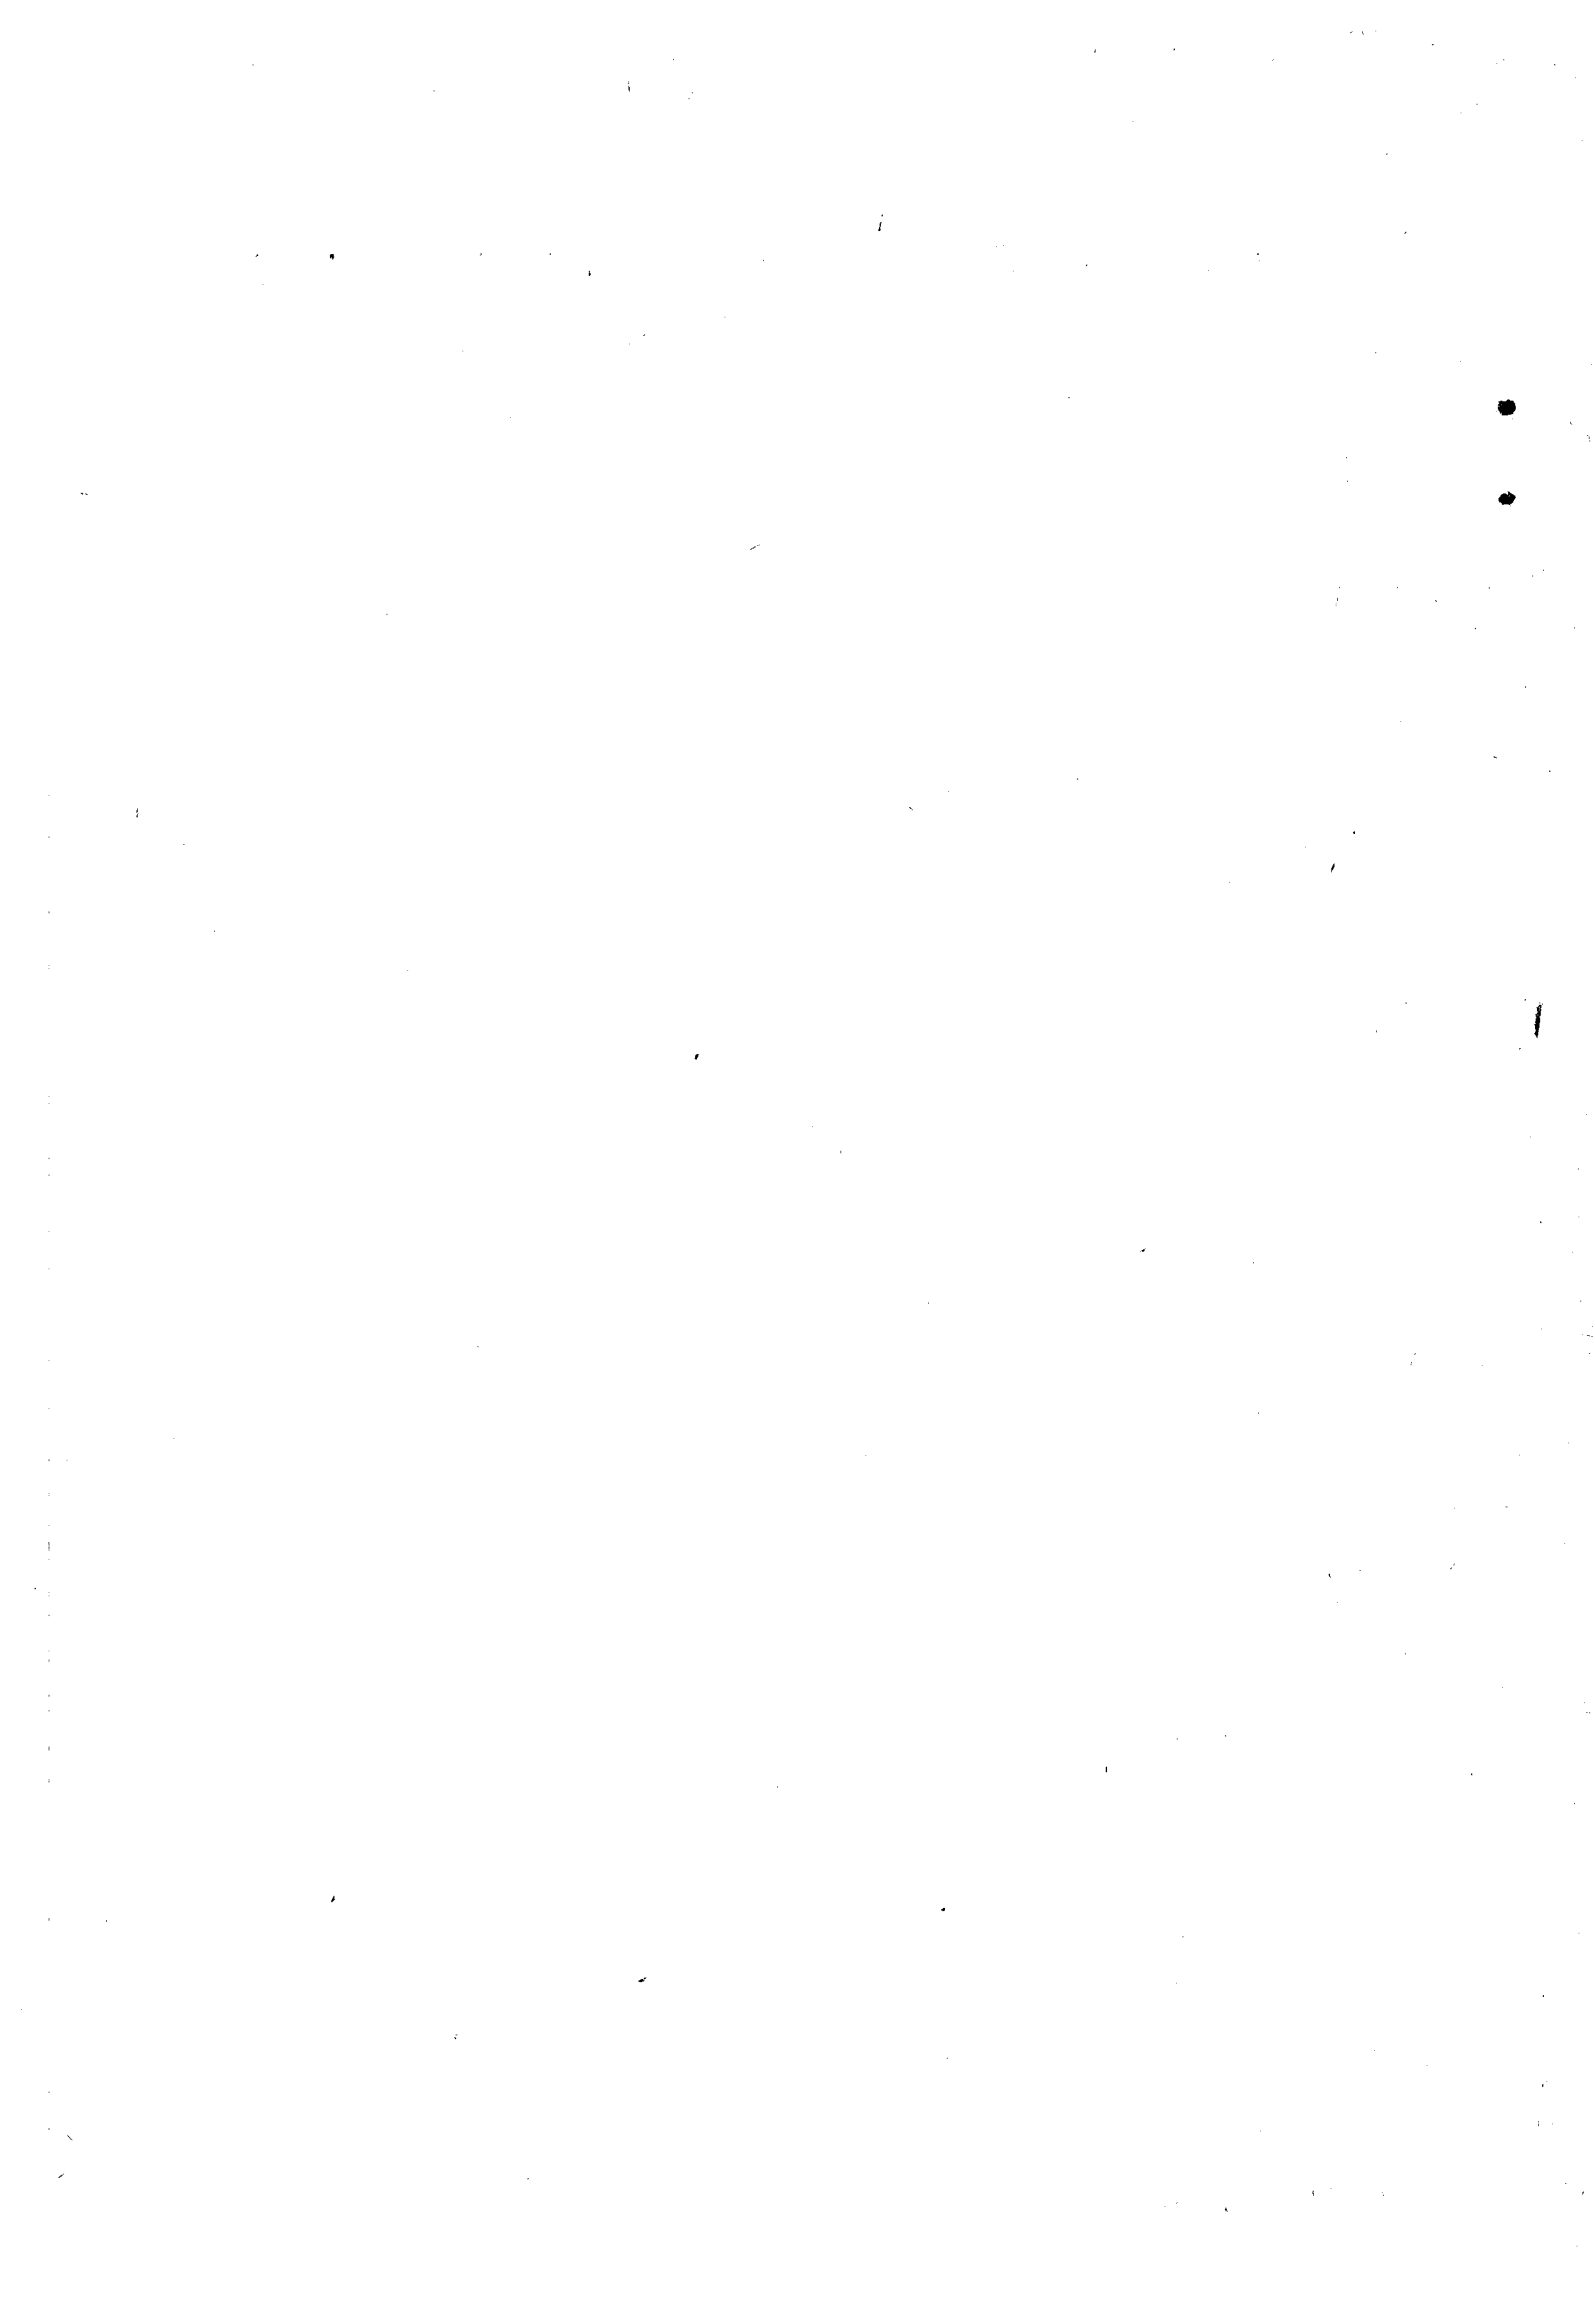

fixing the main intervention centres for oilseeds for the
1977/78 marketing year and the derived intervention prices
applicable at these centres

Proposal for a

REGULATION (EEC) OF THE COUNCIL

on compensatory amounts for colza and rape seed

(submitted to the Council by the Commission)

EXPLANATORY MEMORANDUM

1. Following the Council Decision to increase the target price and basic intervention prices for the 1977/78 marketing year by 3.5 % for colza and rape seed and by 7.5 % for sunflower seed, the following must also be established for the same year :
 - the main intervention centres and the derived intervention prices applicable thereof;
 - the compensatory amounts applicable to colza and rape seed harvested in Denmark and the United Kingdom.
 2. The intervention prices have been amended to take into account the necessity to facilitate the supply to the Italian market of these seeds on the one hand, and on the other, the changes that have occurred in transport costs. At the request of the French delegation, the centre at Marseille has been abolished, and a centre at La Pallice has been added for both kinds of seed, and a centre at Strasbourg for sunflower seed.
 3. Article 52 of the Act concerning the Conditions of Accession and the Adjustments to the Treaties provides that the derived intervention prices applicable in Denmark and the United Kingdom should be gradually aligned with the levels of the common prices. Therefore, the difference between the common prices and the prices ruling in the United Kingdom should be reduced by one half, and accordingly the compensatory amounts applicable thereto reduced, for the period from 1 July to 31 December 1977. From 1 January 1978 the accession compensatory amounts shall no longer be applied.
For colza and rapeseed harvested in Denmark the compensatory amount is minimal and is therefore abolished from 1 July 1977, in accordance with the provisions of Article 55 (4) of the abovementioned Act.
 4. Financial implications
This proposal is a normal consequence of the annual price decisions. There are no financial implications other than those already taken into account in connection with the price proposals (doc. COM(77) 150 def.)

Proposal for a

REGULATION (EEC) OF THE COUNCIL

on compensatory amounts for colza and rape seed

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to the Act of Accession⁽¹⁾, and in particular Article 62(1) thereof,

Having regard to the proposal from the Commission,

Whereas Regulation (EEC) No 1463/76⁽²⁾ fixed the compensatory amounts to be deducted from the subsidy or the export refund for colza and rape seed harvested in Denmark and the United Kingdom during the 1976/77 crop year and placed under control at the oil mill or exported during that year;

Whereas, in accordance with Article 52 of the Act of Accession, for the crop year 1977/78 the derived intervention prices applicable in Denmark and the United Kingdom are to move towards alignment with the common prices; whereas the compensatory amount applicable in the United Kingdom during the period 1 July to 31 December 1977 should therefore be reduced accordingly; whereas however, in the case of Denmark the application of the said Article results in a minimal accession compensatory amount, and whereas, therefore, in accordance with Article 55(4) of the Act no such amount should be fixed,

HAS ADOPTED THIS REGULATION:

(1) OJ No L 73, 27.3.1972, p.14

(2) OJ No L 165, 25.6.1976, p. 4

Article 1

1. For colza and rape seed harvested in the United Kingdom and placed under control at the oil mill pursuant to Article 3 of Regulation (EEC) No 2114/71⁽³⁾ or exported during the period 1 July to 31 December 1977, the compensatory amount to be deducted from the subsidy referred to in Article 27 of Regulation No 136/66/EEC⁽⁴⁾ and from the export refund referred to in Article 28 of that Regulation shall be 1.37 units of account per 100 kilogrammes.
2. The compensatory amount to be deducted in accordance with paragraph 1 shall not exceed the amount of the subsidy or export refund applicable.

Article 2

Detailed rules for the application of this Regulation shall be determined in accordance with the procedure laid down in Article 38 of Regulation No 136/66/EEC.

Article 3

This Regulation shall enter into force on 1 July 1977.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

(4) OJ No 172, 30.9.1966, p.3025/66

Proposal for a
REGULATION (EEC) OF THE COUNCIL

fixing for the marketing year 1977/78 the main intervention centres for oilseeds and the derived intervention prices applicable at those centres

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation No 136/66/EEC of 22 September 1966 on the establishment of a common organization of the market in oils and fats⁽¹⁾, as last amended by Regulation (EEC) No 1707/73⁽²⁾, and in particular the first subparagraph of Article 22 (2) thereof,

Having regard to the proposal from the Commission,

Whereas, in accordance with Article 22 (2) of Regulation No 136/66/EEC, the main intervention centres for colza, rape seed and sunflower seed, and the derived intervention prices applicable thereat must be fixed for the marketing year 1977/78;

Whereas the places with the largest markets situated in the main production areas should be taken as the main intervention centres; whereas, to ensure an appropriate price level for Community seed in deficit areas, the most representative places for the processing of seeds should also be used, as well as places situated outside production areas which are representative as regards internal trade and the export of seed;

Whereas, in accordance with Article 24 of Regulation No 136/66/EEC, derived intervention prices must be fixed at a level permitting seed to move freely within the Community, under natural conditions of price formation and in accordance with the needs of the market; whereas, to that end, intervention prices should be fixed so that the differences between them correspond to the price differences to be expected in the case of a normal harvest;

Whereas the derived intervention prices for the 1976/77 marketing year were fixed in Denmark and the United Kingdom at a level lower than the common level; whereas these prices should move towards alignment with the common prices, in accordance with Article 52 of the Act of Accession;

(1) OJ No 172, 30.9.1966, p. 3025/66

(2) OJ No L 175, 29.6.1973, p. 5

Whereas the experience gained during the course of the 1976/77 marketing year has shown that the main intervention centres adopted for that marketing year, with the exception of Marseille should be retained, and that the centre of La Pallice should be added for both kinds of seed, and the centre of Strasbourg for sunflower seed;

HAS ADOPTED THIS REGULATION :

Article 1

For the marketing year 1977/78, the main intervention centres for colza, rape and sunflower seed and the derived intervention prices applicable in these centres shall be as shown in the Annex hereto.

Article 2

This Regulation shall enter into force on 1 July 1977.

This Regulation shall be binding in its entirety and directly applicable in all Member States.
